Compañeros Por Salud: Partners in Health

Deborah Shelton, PhD, RN

School of Nursing

University of Connecticut

A Need:

- Mission to contribute to the public's health
 - address health disparities (*HP 2010*)
- A developing research agenda
 - faculty research
 - student research programs
- A growing undergraduate and graduate nursing program:
 - emphasizes community health
 - strained clinical resources

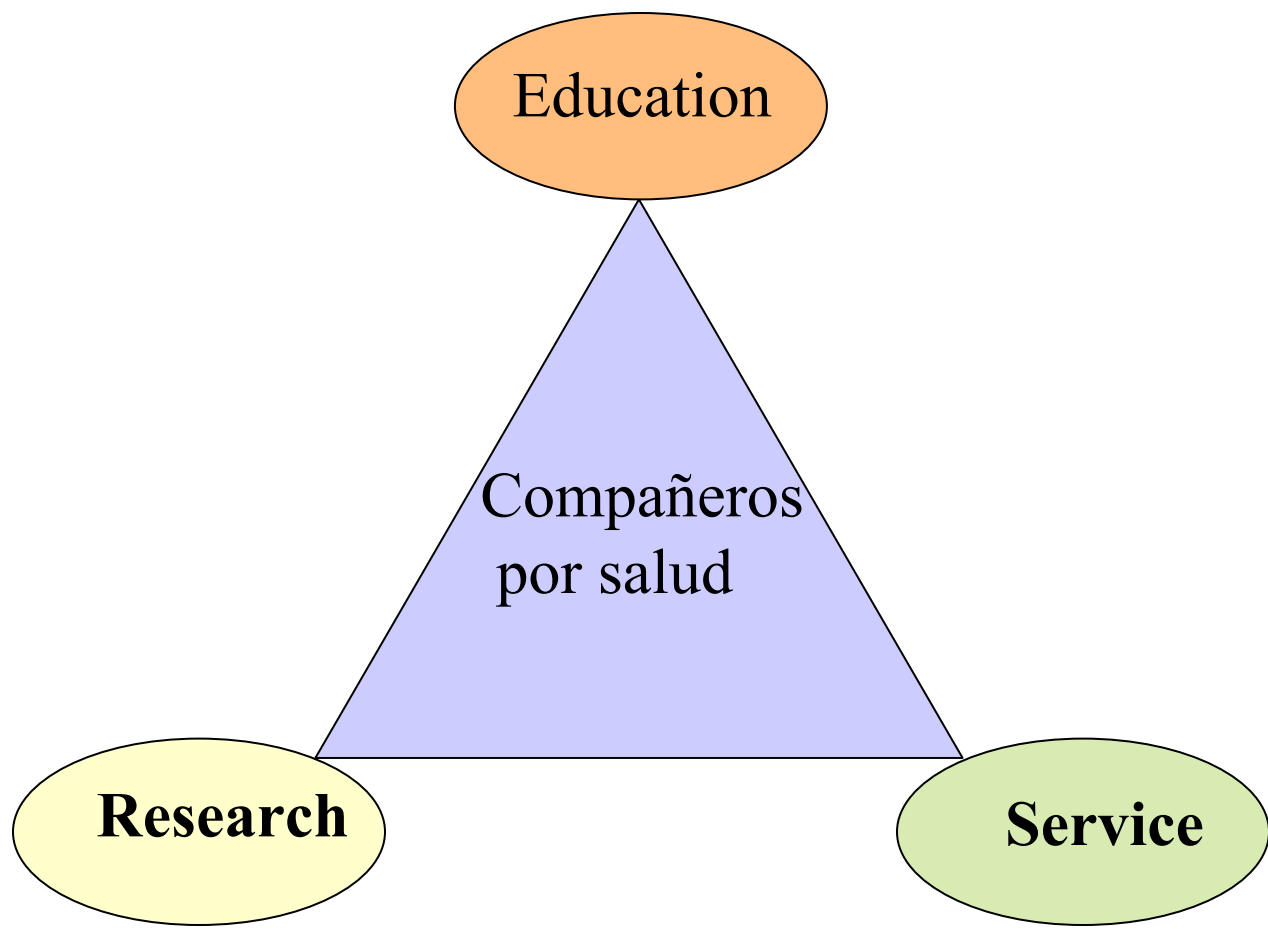

Community-Oriented Nursing Practice

(Stanhope and Lancaster)

- Philosophy of nursing service delivery that provides health care through community diagnosis and investigation of major health and environmental problems
- The aim is to prevent disease and disability and to promote, protect, and maintain health
- Strengths-based approach
- Process is driven by the community

● ● ● | **How do the pieces go together?**

Education: Clinical Placement

- Student supervised by on-site faculty and/or agency personnel
