Thank you for your interest in the University of Connecticut. In a continuing effort to record and provide pertinent information, the Office of Institutional Research (OIR) presents its 18th Edition of the Fact Book. Its purpose is to present vital statistics along with a historical perspective of the University. This is achieved by collecting information from many sources across the University. We are grateful to the many offices who have assisted in its development and content.

If you have comments or suggestions please contact our office.
"It is the policy of the University of Connecticut to prohibit discrimination in education, employment, and in the provision of services on the basis of race, religion, sex, age, marital status, national origin, ancestry, sexual orientation, status as a disabled veteran or veteran of the Vietnam Era, physical or mental disability or record of such impairments, or mental retardation. University policy also prohibits discrimination in employment on the basis of a criminal record that is not related to the position being sought; and supports all state and federal civil rights statutes whether or not specifically cited within this (statement)."
