COMMENCEMENT PROGRAM NOTES

The names in this program do not constitute an official list. The students whose names are listed herein were considered candidates for the degree indicated when the program was printed.

---

**With Distinction**

"With Distinction" is the University's designation for a student who gives evidence of outstanding achievement in the major field.

**Honors Scholars**

A student in the University Honors Program is named an Honors Scholar upon completion of a rigorous two- to four-year academic program, culminating in a senior thesis or comprehensive examination in the major field. This recognition of superior academic performance is exceeded only by the University Scholar designation.

**University Scholars**

The highest scholastic honor offered by the University is the University Scholar designation. In this graduating class twenty-three students were named University Scholars. Their undergraduate programs, and in some cases graduate programs, involve individualized studies, supervised by faculty committees.

CAPS AND GOWNS

Academic caps and gowns represent a tradition which has come down from the universities of the Middle Ages. They were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times.

The usual color for gowns in America is black, though some universities are gradually adopting colors representative of their institutions. Hoods are lined with the college colors and are trimmed with the color appropriate to the degree:

Caps are usually black. The tassel for the Bachelor of Arts, Science, and Engineering may be of the color distinctive of the degree, and the tassel for the Doctor of Philosophy may be made of gold thread.

THE MACE

THE MACE, carried by Professor Fred A. Cazel, Jr., Moderator of the University Senate, was first used in 1962. It is used on all occasions of academic ceremony at the University. At today's Commencement, the entry of the Mace heralds the arrival of the academic procession.

The audience is requested to remain seated, so that all may see the procession. The Mace will be presented at the center of the stage while all those marching are taking their places.

THE BATON

THE BATON, carried by the University Marshal, Professor Max B. Thatcher, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. He carries it as he leads the academic procession into and out of the place of the ceremony.

THE MEDALLION

THE SILVER MEDALLION, worn by John A. DiBiaggio, President, was first used at the time of the University's Silver Anniversary. It hangs on a silver chain of special design, in which each link represents one of the University's Schools or Colleges. Each link consists of a cloisonne circle engraved with a design appropriate for the particular school and enamelled with the traditional school or college colors.

COMMENCEMENT DAY at The University of Connecticut is a time of ceremony and pageantry, some of it representing traditions dating back to medieval times. These notes on the history of the University and the commencement ceremony are offered in the hope that they will be of interest to the spectators, particularly those who may never have viewed the event previously.

THE UNIVERSITY OF CONNECTICUT WAS FOUNDED as the Storrs Agricultural School in 1881 and its name was changed to the Storrs Agricultural College in 1893 at the time it became a land-grant college. In 1933 it became the Connecticut State College, and in 1939 the present name, The University of Connecticut, became official. In addition to the main campus at Storrs, there are the Schools of Law and Social Work on a new campus in West Hartford and the Schools of Medicine and Dental Medicine in Farmington. There are five two-year campuses located in Hartford, Stamford, Torrington, Waterbury, and Avery Point, Groton (Southeastern). In addition, the University operates a Marine Research Laboratory at Noank, an Institute of Marine research at Avery Point, and agricultural extension offices in Brooklyn, Danbury, Haddam, Hartford, Litchfield, Norwich, Rockville, Storrs, and Wallingford.

The University has an enrollment of over 22,000 students. At Storrs there are over 12,300 undergraduates and more than 3,300 graduate students, representing, in addition to the students from the United States, some fifty nations. The organization of the University as a whole includes sixteen different schools and colleges and the Graduate School.

This year the University will award over 4,700 degrees. Of these approximately 3,200 are bachelor's degrees, 1,200 master's degrees, 175 Juris Doctor degrees, 45 Doctor of Dental Medicine degrees, 85 Doctor of Medicine degrees, and 200 Doctor of Philosophy degrees. Also to be awarded are 50 certificates in the two-year Ratcliffe Hicks School of Agriculture.
THE COMMENCEMENT CEREMONY, due to the size of the graduating class, has now been divided into five parts. Two morning ceremonies are devoted to the awarding of bachelor's degrees and certificates. One starting at 10:00 a.m. is held for the School of Education, and for the College of Liberal Arts and Sciences in the Auditorium. The other, starting at 11:30 a.m. is held for all other undergraduate schools and colleges in the Field House. These different starting times enable certain officials to be present at both ceremonies. The president, the governor, the speaker, and others attend the proceedings in the Auditorium and the Field House. A third ceremony for the Graduate Schools is held at 3:30 p.m. in the Auditorium. A fourth ceremony for the School of Law is held on a different date (Saturday, May 17, 1980), in Hanford. A fifth ceremony is held by the Schools of Dental Medicine and Medicine, also on a different date (Saturday, May 31, 1980), at the Health Center in Farmington.

THE PROCESSION in the morning begins with the candidates for graduation entering both the Auditorium and the Field House. Each ceremony, as well as the graduate ceremony in the afternoon, is heralded by the ceremonial trumpets which were obtained especially for the University commencement. Banners, carried by student marshals, precede the students into the areas of the ceremonies. These banners, having the colors of each school and college, were also designed specifically for the commencement.

The appearance of the bearer of the mace* signals the start of the academic procession. The University marshal, carrying the baton, leads the president, governor, speaker, clergyman, the Board of Trustees, vice-presidents, deans, other University officials, and the faculty, and their appearance on the stage is the signal for the ceremonies to begin.

THE ACADEMIC GOWNS, HOODS, AND REGALIA represent more than elegance or colorful attire. The medallion* worn by the president was especially designed for University ceremonies. The gowns and hoods of the University marshal and the assistant marshal were also made specifically for University ceremonies and represent the official colors of national flag blue and white. The blue velvet "beefeater" hats are worn by the marshals who assist in conducting the ceremonies.

Academic gowns represent a tradition that began in the medieval period, and they were most practical in university buildings which were well known for their lack of proper heating.

The bachelor’s gown is a full length robe with long sleeves and closes in the front.

The master’s gown is made somewhat fuller, and has elbow length sleeves. A hood is worn over the shoulders and the colors represent both the university and the field of scholarship.

*See official program for description
The doctor's gown is again somewhat fuller in design and has full and long sleeves. The gown may, or may not, close in front depending upon the design. The velvet band around the neck and down the opening in the front of the gown may be in black, or it may be a color to represent the area of learning. In addition, there are velvet bars on the sleeves. The hood is bordered with velvet, the color of the velvet representing the field of scholarship. The lining, often with large chevron, bears the colors of the university from which the wearer received his degree. (Some of these colors of scholarship are listed in the official program.)

THE AWARDING OF DEGREES at The University of Connecticut is accomplished by a two-fold process. First, the candidates for degrees proceed to the platform, are congratulated by the administrative officers of their school or college, and return to their seats. They are then officially presented by the dean and the marshal of the appropriate school or college. Second, when all candidates have been duly presented, the President of the University formally confers the degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and subject to due confirmation, I confer upon you the Certificate, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, or Doctor of Philosophy for which you have been presented at this Ninety-seventh Commencement of the University."

THE RECESSIONAL of officials and faculty move through the graduates who, along with the audience, remain in their places until the ceremony is thus concluded.

THE SEATING OF THE CANDIDATES is arranged as follows:
(a) In the Auditorium in the morning, all students of the School of Education are seated in the three sections across in the front of the Auditorium. The students of the College of Liberal Arts and Sciences are seated directly behind in the same three sections.
(b) In the Field House in the morning, the students are seated according to the school or college from which they are graduating.
