B. The Report of the President included the following items:

1. President Austin noted with sorrow the passing of Robert H. Gray, Dean of the School of Fine Arts, and acknowledged his important contributions to the University.

2. President Austin reported that the search for a new Chancellor and Provost for University Affairs is underway and that the search committee, headed by Dr. Ronald Taylor, has consulted with an external search firm. President Austin anticipates a list of finalists by the end of the summer.

3. President Austin noted that he formed a small committee, including Trustees and administrators, to define what the University’s traditions are and to consider what traditions should be retained. President Austin will report to the Board sometime during the fall.

4. President Austin gave a brief report on the status of UCONN 2000. He informed the Board that the Office of Policy and Management has the authority to rescind a percentage of the University’s 1999-00 appropriation. Although the University has been protected from State
rescissions in the past, the University could stand to lose up to $850,000 per year at Storrs and up to $350,000 per year at the Health Center.

President Austin reported that the General Assembly has retained University control over UConn 2000 projects and has given the University more flexibility in purchasing. He also noted that the administrative cap for Storrs-based programs will remain at 3.58% and 3.47% in the next two fiscal years.

5. President Austin reported briefly on the status of Division I football. President Austin informed the Board that he and Director Lew Perkins have been in contact with Big East Presidents and their athletic directors about the University's progress toward Division I status and the construction of a football stadium in Hartford.

6. President Austin deferred a full report on regional campuses issues until a later date. He informed the Board that he will meet with Interim Chancellor Maryanski and Trustee Leonardi to discuss in greater detail the programmatic needs at all the campuses and the capital projects at Waterbury. President Austin opened the floor for questions. Trustee Berkley asked the President to elaborate on the status of the Waterbury Campus. President Austin responded that the University received an allotment of $6 million in new bonding authorization, $2 million of which is designated for planning and design of a new campus facility in a different location. President Austin also noted that an additional $20 million, $5 million each year over the next four years, has been designated to launch strategic programming initiatives at the regional campuses. As a result of budget cuts, the allotment was reduced to $500,000 a year. President Austin stated that program objectives must be modified from the original plans. He has asked Interim Chancellor Maryanski to prepare several options for the Board to review.

C. Vice-Chair Leonardi’s Report of the Financial Affairs Committee included the following items:

1. On a motion by Ms. Smith, seconded by Ms. Benedict, THE BOARD VOTED to approve an Unrestricted Operating Budget consisting of $452.9 million of revenues (including State Support of $240.6 million and net Tuition and Fees revenues of $173.5 million) and $452.9 million of expenditures. Background information listed as Attachment 12 is attached to the file copy of the Board minutes. Revised copies of page 1 and Attachment A were handed out at the Board meeting and are attached to the file copy of the Board minutes.

Trustee Leonardi noted that the Academic Affairs Committee will conduct a full analysis of the student financial aid issues raised during the budget workshop, in particular, additional sources of funds and projected costs for students.

2. On a motion by Ms. Smith, seconded by Ms. Benedict, THE BOARD VOTED to approve, for the 1999-00 fiscal year, one new fee and an adjustment in another fee and, for the 2000-01 fiscal year, approve an adjustment in one fee. Background information listed as Attachment 13 is attached to the file copy of the Board minutes.

Trustee Leonardi asked Vice Chancellor Dreyfuss to describe the recommended fee adjustments for student services. Vice Chancellor Dreyfuss reported that this year the University instituted an application fee for participation in the High School Co-op Program. In addition, the Undergraduate Student Government (USG) fee for Storrs Campus undergraduate students will be increased from $12 to $15 per semester effective in Fall 1999. The students
June 25, 1999

approved this increase in a special USG referendum held in Fall 1998. In the same referendum, the Undergraduate Student Government put forth a proposal for a residence hall or technology fee. The students approved a single charge of $125 per semester to be applied to the room rate charge effective the fall 2000. This fee represents a single, less expensive charge for telephone, cable television, and Internet services.

In response to Chairman Gelfenbien's questions, Vice Chancellor Dreyfuss confirmed that the technology fee would be charged by semester to all undergraduate and graduate students living in University residence halls. Vice Chancellor Dreyfuss agreed to consider ways to provide services to off-campus students.

Trustee Leonardi raised concerns about students who may not want access to all the services provided under this fee. Vice Chancellor Triponey confirmed that 90% of the on-campus student population requests cable television and telephone services, and over half of the population requests Internet access. She confirmed that this fee is the most cost-effective solution.

Trustee Berkley asked for more details regarding the status of the Waterbury Campus. Chairman Gelfenbien responded that additional state funding has been provided for the Waterbury relocation effort. Trustee Berkley questioned the source of the $6 million for planning and design of a new facility. Chairman Gelfenbien received confirmation from Associate Vice President John Maloney that $2 million of the $6 million allotment has been designated for planning and design of the new Waterbury facility. Trustee Leonardi confirmed that the State bonding authority allocated funding for this purpose. She further emphasized that no University operating funds or UConn 2000 funds would be utilized at Waterbury. Trustee Leonardi asked the Board and the administration to develop a plan that outlines new program initiatives and sources of funding for the increased operating budgets at all the regional campuses. Trustee Berkley reiterated similar concerns at the Stamford Campus. Chairman Gelfenbien assured the Board that every effort will be made to resolve this issue before the next legislative session.

3. Trustee Leonardi directed Trustee attention to the FY 1999-2000 Capital Budget in Attachment 14. She noted that the Capital Budget meeting was held on May 26 and a telephone Board of Trustees meeting was held on June 14 to approve the capital budget for the upcoming year. A commitment was made to the Board at that time to discuss the capital budget and the UConn 2000 Phase II projects (Attachment 15) in further detail.

4. Trustee Leonardi asked the administration to meet with representatives from the Division of Athletics and Vice Provost Susan Steele to discuss the consolidation of student services in one location on campus, specifically, the building dedicated for the new Undergraduate Center. Currently, the Counseling Program for Intercollegiate Athletes (CPIA) provides exclusive student support to the student-athletes. Trustee Leonardi asked for a report at the next Financial Affairs meeting.

The Committee discussed the University’s traditions, both current and past, and the possibility of forming a committee. One of the newest traditions is the Midnight Breakfast, the second of which was held on May 5 from 11:00 p.m. to 1:00 a.m. at the South Campus Dining Hall. Chairman Gelfenbien asked President Austin to update the Board on the site of the UConn/Pfizer Center of Excellence in Vaccine Research. President Austin summarized his memorandum of July 1 to the Board of Trustees. He also thanked the Master Plan Advisory Committee for their extensive analysis and open review process. President Austin informed the Board that the Committee recommended a modified site, farther north and east of the original site, but concluded that if the site [modified] caused significant delays or otherwise jeopardized the UConn/Pfizer partnership, then it would deem the original site acceptable. President Austin confirmed his decision to approve construction on the site originally approved for the facility.

Chairman Gelfenbien asked Board members to consider their committee assignments and to submit requests or changes to Dr. Ronald C. Schurin.

Chairman Gelfenbien reminded the Board that the next scheduled Board meeting would be held on Wednesday, July 21, 1999 at a location to be determined.

There being no further business appearing, the Board meeting adjourned at 3:14 p.m.
