PINE STATERS TURN PROBABLE DEFEAT
TO VICTORY BY BLOCKING DROP KICK

DICKSON GATHERS LOOSE OVAL FOR RUN.

Gruelling Contest Ends by 7-0 Score.—Tally Comines In Last Two Minutes
of Play.—-Wild Field and High Winds Hinder Game

Displaying a brand of football that made the hard-fought game a closely contested one, the Aggie eleven went down to a 7-0 defeat in its first home game of the season played on Gardner Dow Field last Saturday with Maine University. The game was played on a wet, slushy surface which made sure footing impossible. Added to this was the disadvantage of high winds with the resulting effect on the punt- ing department.

The score of the game came in the last two minutes of play, when More- land’s drop kick was blocked and gathered up by Dickson, the Pine Stat- ers right guard, who raced seventy-five yards for a touchdown.

Connecticut had carried the ball deep into its opponent’s territory as the game was drawing to a close. With the ball on Maine’s fifteen-yard line, Schofield, Connecticut’s quarter- back, elected to try a kick. Dickson, Maine’s right guard who broke through the Aggies defense, recover- ed the ball on his own twenty-five yard line, from where he raced the remaining seventy-five yards for the winning touchdown. Stanton kicked the extra point after the touchdown.

Inability to hang onto the ball, coupled with two intercepted passes hurt the Aggies chances to score, when they were in Maine territory. The Aggies went for a distance of sixty yards on straight line plunges and off tackle plays, only to lose the ball on a fumble in the second period. Makofski, Schofield, and Moreland starred in this march, ripping their opponent’s line for good gain. Captain Fraser won the toss for Maine and elected to receive at the twenty-five yard line. Nano- field of Connecticut kicked off to Stanton who was downed in his tracks. As neither team could gain any ground a punting duel ensued. Toward the end of the first quarter Connecticut unleashed a running attack, which the Maine line was unable to stop without the Aggies gain. Connecticut made first down after first down and at the end of the quarter had the ball on Maine’s fifteen yard line.

A Connecticut fumble on the first play of the second quarter, which Maine recovered, robbed the Aggies of their first scoring opportunity. Peakes ran through the Aggies line for a first down, but on the next play Makofski intercepted a Maine for- ward making it Connecticut’s ball.

Moreland threw a pass to Schofield on the next play, Newhall intercept- ed and it was Maine’s ball again. An exchange of punts followed this play. Maine made two first downs by run- ning the ball. A forward pass from the resulting effect on the punt- ing department. A Connecticut fumble on the first down was recovered, robbed the Aggies gain. Captain Fraser won the toss for Maine and elected to receive at the twenty-five yard line. Nano- field of Connecticut kicked off to Stanton who was downed in his tracks. As neither team could gain any ground a punting duel ensued. Toward the end of the first quarter Connecticut unleashed a running attack, which the Maine line was unable to stop without the Aggies gain. Connecticut made first down after first down and at the end of the quarter had the ball on Maine’s fifteen yard line.

A Connecticut fumble on the first play of the second quarter, which Maine recovered, robbed the Aggies of their first scoring opportunity. Peakes ran through the Aggies line for a first down, but on the next play Makofski intercepted a Maine for- ward making it Connecticut’s ball.

Moreland threw a pass to Schofield on the next play, Newhall intercept- ed and it was Maine’s ball again. An exchange of punts followed this play. Maine made two first downs by run- ning the ball. A forward pass from

Three Tie in Mansfield Fair Track Meet

An innovation inaugurated at the Mansfield Fair was an athletic meet held under the direction of Steve Davy and Donald C. Gaylord, manager of track. Seven races were run with first, second, and third place prizes be- ing awarded to the winning contest- ants. A Connecticut banner offered to the man scoring the highest number of points in the meet, was presented to McLaughlin of the Freshman class. Both, Morrow and Mulligan were tied with McLaughlin for the honor but lost out on the toss of the coin.

The results of the meet follow: First hundred yard dash: Listro, first; Drugg, second; Evans, third. Two-twenty yard dash: McLaugh- lin, first; Evans, second; Listro, third. Four-forty yard dash: McLaugh- lin, first; Listro, second; Goldberg, third. Half mile: Mulligan, first; Smith, second; Sarnie, third. Mile run: Mulligan, first; Mell second; Listro, third.

Tufts Freshmen Meet Yearlings on Friday

Kent Game Brings Out Strong Oppo- site.—Bay State Team to Use Casey’s System.—Visitors Have Heavy But Fast Team.

After holding the strong Kent eleven to a scoreless tie last Saturday, the Aggie Yearlings will entertain Tufts freshmen on Gardner Dow Field, Friday afternoon.

Coach Alexander has a fighting team, also one that has been drilled in the fundamentals of the game. He has whipped a group of high school men into a machine, working as a unit that should show well against the Bay State freshmen.

The defense shown by the frosh team will surely cause the Bay State backs a good deal of trouble. Although the freshmen were outmatched by Kent, they tightened when in danger of being scored upon, and time and again took the ball on downs. The offense showed up well! but was weakened by costly fumbles.

The Tufts Frosh eleven come here with a heavy but fast eleven. They will perhaps have Eddie Casey’s system, so a fast and interesting game is sure to follow the first blast of the whistle.

Frosh Battle Kent To a Scoreless Tie

Coach Alexander’s charges, the Frosh team, traveled to Kent Saturday for their first conflict, holding the fast “prep” school to a no score game. Kent out rushed the freshmen during most of the game but the yearlings tightened in the pinches. Sahagian tried a drop-kick from an angle and just missed putting the ball between the goal posts. “Mac” Brown was the outstanding performer of the day.

The Lineup:

THE CONNECTICUT CAMPUS

LIMITED UNIFORMS ISSUED TO R. O. T. C. BATTALION

Slight Changes Made. —To Try For Distinguished Unit.

Due to reduced appropriations and a program of economy there will be a slight change in the R. O. T. C. uniforms worn this year. The uniform will consist of overseas cap, shirt, trousers, knickers, and leather footwear. The new uniform is designed to make the unit at least as efficient as those worn last year. It is expected that they will arrive about the first of November.

In connection with the R. O. T. C. it might be interesting to learn that an effort will be made for a distinction to be awarded to the unit at this college. The uniforms of the junior cadet officers will be practically the same as those worn at Storrs. Inasmuch as the unit at this college is the smallest in New England, a bit of difficulty will probably be encountered in the attempt to obtain an inspection by a military board. It is considered quite a distinction to have been awarded the title, "Distinguished Unit." Of the eleven R. O. T. C. units in New England only two received that award last year.

GOHATM ELEVEN BREAKS AGGIE WINNING STREAK

Powerful Offensive Results in 23-0 Victory — Violet Gains at Will-Aggies Fight Bravely and Vainly.

The Connecticut Aggies were out-classed 23-0, by New York University at Ohio Field, October 2. Their metropolitan debut before a capacity audience proved disastrous. The Viol- et team ran through the fighting Aggies at will, and the score more than shows what a badly beaten team the Aggies were after sixty minutes of football.

Soon after the first quarter opened a cannon-shot pass from Briante to Connors made 20 yards for N. Y. U. Two line plunges carried it to the Aggies 7 yard line, and Briante took it over in two more rushes. Connecticut cleared the goal again, but it might be interesting to learn that the score of 10-0 in favor of the Violet.

Following this N. Y. U. gained 30 yards on a tackle play, and brought the ball to the Aggies 8 yard line. But Connors got through the line; the goal over. The second half was more even.

In the third period, Briante made 86 yards in three rushes. Connecticut held desperately on their 2 yard line, but Connors got through, and then kicked the goal for the last score of the game.

The lineup:

The assembly of October 7 proved to be of exceptional interest, when Dr. Frank Bohn, special correspondent of The New York Times, spoke on "The World and Ourselves." Dr. Bohn, who travels extensively and consequently has a great knowledge of the outside world, made clear the importance of the American attitude extended into foreign countries. He explained how a great percentage of the people of the world are represented in the colored races lying in and about China. "America," to quote the speaker, "must not make the mistake of going into these countries thinking she will conquer them for wealth alone." Dr. Bohn then stated that if America will give to them the ideals of Americanism, power, and industry, and progress, and take in return only proportionate wealth, she will in turn gain their respect. He next showed the opportunities lying in Mexico, South America, China, Asia, and Africa, of producing millions upon millions of dollars of wealth. But, he also warned us against this, for America may and should go forth and conquer the world, but not for wealth alone.

ASSEMBLY HEARS DR. BOHN ON AMERICA'S ATTITUDE

"The World and Ourselves," Topic of Correspondent's Address.—Opportunities in Foreign Countries Cited.

The assembly of October 7 proved to be of exceptional interest, when Dr. Frank Bohn, special correspondent to The New York Times, spoke on "The World and Ourselves." Dr. Bohn, who travels extensively and consequently has a great knowledge of the outside world, made clear the importance of the American attitude extended into foreign countries. He explained how a great percentage of the people of the world are represented in the colored races lying in and about China. "America," to quote the speaker, "must not make the mistake of going into these countries thinking she will conquer them for wealth alone." Dr. Bohn then stated that if America will give to them the ideals of Americanism, power, and industry, and progress, and take in return only proportionate wealth, she will in turn gain their respect. He next showed the opportunities lying in Mexico, South America, China, Asia, and Africa, of producing millions upon millions of dollars of wealth. But, he also warned us against this, for America may and should go forth and conquer the world, but not for wealth alone.

SIDELINE GOSSIP

It was great weather, but not for football.

Making five first downs, in a row, on such a team as Maine, displays an offensive that can not be termed "weak."

Morland's good football sense and speedy actions saved Connecticut from being scored upon in the early stages of the game, when he ran the ball out from behind his own goal line.

Capt. Brink sure did smear the plays behind Maine's line. He also received some difficult passes.

Johansen's good football sense and speedy actions saved Connecticut from being scored upon in the early stages of the game, when he ran the ball out from behind his own goal line.

DAN MORLAND TO SPEAK ON HIS PERSONAL CONFERENCE

At the request of the Assembly, Mr. Dan Morland, center half back, and the speaker for Nov. 4. Dr. Garnett will speak on his personal experiences in aviation of the past summer.

THE PRESIDENT'S SPEECH

President Beach's speech in Assem-
ably on Sept. 30 raises at least two in-
teresting questions in connection with
student government and the freshman
initiation tradition.

Would the Student Senate, recon-
gnized along the lines suggested, have
the same powers and duties as under
the present regime? Under the exist-
ing system, it is within the powers of
the Senate to take disciplinary action
in cases of infractions of the rules.
Such action has been taken, however,
really, if at all; the functioning of the
Senate in this respect has not been
satisfactory to the college administration.

Timidity and unwillingness to offend have been perhaps the deter-
rrent factors to the Senate. If the sug-
gested change means that the faculty
are willing to give the student body
another chance for self-discipline, then
there is a real opportunity here and
now for the Senate to function, which
it intends to. If action in such cases
as those mentioned is taken promptly
and fearlessly by the Student Senate,
then faith in student government
and student institutions be in-
creased an hundred fold.

The idea that the freshman
initiation ritual is to make the fresh-
man a college man, to make him spir-
itually as well as physically a member
of the college community. It is curi-
ous that physical means have always
been employed to bring about a spiritual
result. Perhaps in spite of its sur-
face absurdity the old system worked
fairly well. But the old system is now
out of the question.

Here, then, is a problem for upper-
classmen to solve. What method or
methods shall take the place of those
which have been thrown into the dis-
card? What technique shall be evolv-
ed to make the freshmen feel the "es-
prit de corps" of the real college man?
How shall the student body go about
the yearly task of awakening in the
horde of "barbarians" which descend
on the college each fall that much dis-
cussed, and elusive, and ill-defined, but
none the less precious thing, college
spirit?

MOVIE TAX

The College Social Committee, which
even under the best of moving
conditions has many difficulties to
overcome, is now faced with a new
and serious problem in the new
state moving picture tax. Passed
some time ago, but only recently in
effect, the provisions of the law are
anything but clear, and motion pic-
ture operators in Connecticut are in
a state of uncertainty as to how the
new law will effect their business.

Just what effect all this will have
on the Saturday night "movies" of
the Social Committee is at this time
impossible to say. The Wholesome
Film Service of Boston, which in
the past has supplied the college with
films, is making a study of the situa-
tion for the college. A report is ex-
pected from this source in the near
future, which it is hoped will clear
the situation for the Social Committee,
telling whether or not taxes must be
paid for films shown here. According
to Professor Roland Patch, new chair-
man of the Social Committee, the tax
on a six reel film would be approxi-
mately sixty dollars.

Professor Patch was unable to state
just how the tax would be apportion-
ated to the various operators, or if
such operator would have to pay sixty
dollars for each showing of a six reel
film. This is one of the points which
it is hoped will be cleared up by the
Wholesome Film Service study.

One thing seems certain, however;
if the Social Committee is forced to
pay a tax of sixty dollars, or an
amount approaching that sum, for
our Saturday night "movies," we will be
forced to find some other form of en-
tertainment, as the cost with the tax
would be altogether too high.

In the past, even when there was
no tax, the Social Committee could not
make money on the Saturday night
shows. If a tax of any size is levied,
it will mean the Saturday "movies"

must be abandoned, because the loss
incurred for each performance would
be greater than the Social Committee
could stand. Our college is small in
numbers, as is the community about
us, and it is difficult to attract a large
audience. This more than anything
else makes it impossible to net a pro-
fit through the "movies."

Until a clear interpretation can
be made of the new law, the Social
Committee is planning to run dances
on Saturday nights instead of movies.
As pointed out by Professor Patch,
this plan is not altogether satisfactory
because it provides no entertainment
for those who do not dance, and it is
the desire of the committee to provide
entertainment for all, college and
community included.

Professor Patch is authority for
the statement that the Social Com-
mittee will welcome suggestions on
new forms of entertainment that may
be followed until the present unsettled
condition of the moving pictures is
cleared. If it becomes necessary to
abandon the "movies" altogether then
the new forms of entertainment
would probably become permanent.

It is hoped that at this time we
have a real opportunity to assist the
Social Committee in solving
one of the most difficult problems
it has ever faced. Instead of voicing
an advisory criticism and picking flaws
in the entertainment provided, as
many have done in the past, why not
come back and operate and help this committee to
stage entertainments that will fill
the needs of the community and reflect
credit to the institution. The oppor-
tunity is before us; let's pitch in and
make the most of it!

DORMITORY CONDITIONS

To the new freshmen, who, en-
tered this fall, the sight of the in-
terior of their future home—Storrs
Hall—must have been a source of
great concern, not only to them, but
to relatives and friends who came
with them, or who have later called
to see them. Not only does this dor-
mitory condition exist in Storrs Hall,
but Koons Hall must share the honors,
as it also houses a great many fresh-
men.

It might be amusing if one could
read the mind of a freshman in its
pitiful state, as he first views the
barbarian interior of his future domicile.

Before him is a wood or, in the case
of Koons Hall, a concrete floor
covered with oil and debris. The rest
of the equipment of his suite includes
four straight-back chairs, a broken
table, or more generally no tables at
all, four rickety desks, one center
folder light minus bulbs, and drop
lights (sometimes), and a pair of
decrepit radiators. A glance in
the two bedrooms discloses four
bureaus and as many single beds. No
chairs are in evidence and no doors
fill the open spaces leading into the
closets.

If we should accept this picture
drawn by the freshmen, and we have all been freshmen, we will
understand why he feels his thoughts and sympathize with
his homoeptic feelings.

Very soon the new dormitory for
men will appear which must be equip-
ped to house the upper classes who
will live there. We have been too much
for hope that when this new equipment
for the new dormitory is ordered
Storrs' and Koons' Halls might be
refurnished? It will not be neces-
sary to in any way equal the equip-
ment of Harkness Hall, Yale Univer-
sity, but it would help to at least
make entering students feel that their
comfort was being thought of, and
perhaps in the end, who can tell, the
student might feel so much at home
that he would stay longer than one
year—possibly four.

FRESHMAN CONDUCT

To anyone interested in the wel-
come of Connecticut society, the rather
ungentlemanly conduct of some of the
freshmen, being entertained for the
first time at Holcomb Hall must be a
source of great concern.

This concern seemed more severely
felt this fall than it has been in previous
years, for the male members of
previous classes have at least tried
to live up to the standards taught
at home. If this could be said of
the men, who were the guests of the
women in Holcomb Hall, then it must
be assumed that either home training
has not been up to the average, or
else some one just plain forgot what
American manhood should have drill-
ed into them.

The conduct referred to centers
around such trivial matters as stand-
ing around the halls, in front of con-
versing couples, and the retention of
freshmen hats inside the buildings.
Such other things as running about
the corridors and slamming doors may
be sanctioned at home, but is not
considered the best form of behavior
when being entertained at Holcomb Hall.

CONTRACT LET FOR JUNIOR YEAR BOOK

The business manager of the 1926
Nutmeg announces that the contract
for the book has been let with the
College Annual Corporation of New
York. The board felt that a change
in order, and hopes to be able to
present to the student body many
features and novelties. The Nutmeg
Board feels that they can produce
the best edition and with the proper
attention of the artist, both in suit-
scribing and by contributing to the
art and humor departments, they will
certainly do their best to gain this
end.
SAFETY VALVE

The Safety Valve exists as a column where student opinion may be voiced. This week the Campus takes pleasure in printing a letter received from "The Druids," the senior secret society.

To the Editor:
In the hope that many new songs and cheers will be written within two weeks from the publication of this letter, we wish to make an offer of five dollars ($5.00) for the best song or cheer which is sent in to us within that period. The contestant must place his or her contribution in a sealed envelope marked for "The Druids" and send same to the office of President Beach.

Signed,
"THE DRUIDS."

NEW RULES ADVANCED
AT W. S. G. A. MEETING

Home Economics Faculty Address
Association.—Activities Reviewed
by Junior and Senior Women.

The Women's Student Government
Association got under way last week
when the first meeting was called on
Tuesday, October 6, by the new pre­
dent, Miss Elizabeth Service '26.
After a discussion on some need­
ed changes the following new rules were
put in effect: (1) Proctors are to be chosen from the sophomore class,
(2) Office girls are to be chosen from the junior class, (3) There will be a
warning buzzer at 10.15 and a final
one at 10.30 o'clock, (4) Freshmen
girls are held responsible for tele­
phone calls.

Miss Sprague in addressing the as­
ociation following the meeting recall­
ed the women the history of the Home Economics department tracing
its development since its beginning
seven years ago. Mrs. Hendrickson
and Miss Lundberg who followed,
talked of their relation to the associ­
ation. Then followed Miss Hutton
with a talk on social activities, Miss
Croll with an explanation of "Camp­
us" and "Nutmeg" work, and Miss
Ellis with a short talk on the Dram­
atic Club and State College players.
Interclass athletics and the annual
competition for the silver cup was
presented by Miss Brown. Miss
Grant followed with a talk on co-ed
basketball, a major sport, and Miss
Scholander, as the closing speaker, dis­
cussed the Girl's Glee Club.

The Farm Electrical

Of the six and a half million farm homes in this country, only half a million have electricity.

Still, the advantages of electricity are widely known. But there is more to farm electrification than the installation of motors, lights and heaters. Current must be brought to the farm, and that means many miles of transmission line, supporting poles, transformers, and ade­quate generating equipment.

Slowly but surely the electrification of Amer­i­can farms is taking place. As farmers learn how to use electricity, rural service lines reach out farther and farther into open country.

Six million farms to be electrified! Here is a vast and virgin field for the application of electricity, with countless opportunities for college-trained men in the technical and commercial phases of this undertaking. And for the agricultural college student and others planning a future life in rural sections, it means a better, bigger, happier life-time now in the making.

LIBRARIAN ANNOUNCES
LIBRARY RULES

Certain rules and regulations of the library are published in this issue of the Campus in order to give each student his own copy of the same. The capacity of the library is small and the number of those using it is comparatively large. This makes it necessary for each one to know and obey as far as possible these few regulations.

Students who wilfully and persistently disregard these rules must be deprived of library privileges.

1. Talking or visiting in the library is not allowed.
2. Reference books may be taken out when the library closes and kept only until the library opens.
3. Encyclopedias, bulletins, current periodicals, bound volumes of periodicals, and certain books of reference are not to be taken from the library.
4. A fine of two cents a day must be paid for all books kept out over regular hours except by permission of the librarian.
5. Students, with the exception of seniors, are not allowed in the stacks, even at night.

AG. CLUB ADDRESSED
BY COLLEGE SPEAKERS

General Committees Named For Ag
Fair.—"Baro-warming" to Be Held
Dec. 5.

At the first annual meeting of the Ag Club held last week Thursday, Dr. E. W. Simnett, Dean of Division of Agricultural Science, and Prof. A. W. Manchester were speakers. The subject of Dr. Simnett's address was "Science and Its Relation to Agriculture." Prof. Manchester talked of the men best suited to take up agricultural pursuits.

Following the meeting the general committees in charge of the various departments of the Ag Club Fair were announced. The Fair this year is to be held on December 4 and 5. A "baro-warming" similar to those attempted last year and the year previous, will be held again this year on the second night of the Fair, December 5.

The capacity of the library is small, and Alumni of the college who return will find the side walls of the new social center building. Since that time the contractors have rushed the construction so as to finish the outside of the building by cold weather. During the winter months the interior will receive the attention of the builders, for the structure according to the contract must be finished.

H. Wales Lines Company of Meriden, the successful bidders for the construction of the new building, and Delbert K. Perry of New Britain architect, are expected to be represented at Saturday's ceremonies. Both builder and architect are interested in the work, which the college through the Connecticut Federation of Churches are trying to do, and they are putting forth every effort to make possible the completion of the building on scheduled time.

KAMPUS KLIPS

Tilley—"I wonder why they call it free verse?"
Billie—"That's simple; did you ever try to sell any?"

Reporter—"Where shall I put the announcement of George's retirement?"
Editor—"Under Public Improvement."

Ted—"Why do they tread grape with their feet to make wine?"
Red—"To put the kick in it!"

Eddie—"That veal you brought in was spoiled, waiter, spoil it."
Waiter—"I can't understand that unless it came from a calf which was petted too much."

Frob—"What is diplomacy?"
Senior—"The art of convincing a man that he is a liar without actually telling him so."

First Stude—"How do you like my room as a whole?"
Second Stude—"As a hole it's O.K., but as a room it is not so good."

Coed and Ag-ey in the library.
Ag-ey—"You seem very much impressed by all these explanations we have been giving you about Banking and Currency."
Coa—"Yes, it seems perfectly wonderful that anybody should know as much as you do about money without having any."

A Protein Feed That Pays

Corn Gluten Feed—23% Protein
"Almost Wholly Digestible"

Corn Gluten Feed is a profitable protein ingredient for every ration. Successful feeders in 32 States are feeding it regularly. These practical men know its value. It pays them to feed it.

One or more feeding experiments with Corn Gluten Feed in the ration will make your school work more interesting and profitable to you. There are several good reasons why this is so.

Corn is grown in all the States. It is worth more than any other farm crop. We need corn more than anything else grown on the farm, and without it we would almost starve.

The product of corn most needed by the farmer and feeder is Corn Gluten Feed. A ton of it contains as much protein as 1 1/2 tons of corn and also the natural salts of five tons of the whole grain.

Corn Gluten Feed is palatable and safe. It is never given as medicine nor has it ever caused abortion or blindness. Some dairymen feed it straight for high production tests.

You are going to help the farmer get the most out of his corn crop. This Research Bureau can be of great service to you, and we want to tell you about it.

Write us today and we will send you our bulletins and show what we are doing in our nation-wide campaign for better feeding.

Associated Corn Products Manufacturers

Dr. Dorchester to Lay Cornerstone Saturday

(Continued from page one)

has been so arranged that everyone, who wishes to attend, will have plenty of time to do so between dinner and the game with Mass. Aggie.

Listed on the program are short addresses by dignitaries of Protestant, Catholic and Jewish churches. President Lewis of the Student Organization will speak for the student body.

Construction on the new Commuinity House was started August 17, when Dr. Dorchester, who is to lay the cornerstone, broke ground for the new social center building. Since that time the contractors have rush ed the construction so as to finish the outside of the building by cold weather. During the winter months the interior will receive the attention of the builders, for the structure according to the contract must be finished.

In February, to which the work has progressed to a point where Saturday the friends and Alumni of the college who return will find the side walls of the first story nearly up.

H. Wales Lines Company of Meriden, the successful bidders for the construction of the new building, and Delbert K. Perry of New Britain architect, are expected to be represented at Saturday's ceremonies. Both builder and architect are interested in the work, which the college through the Connecticut Federation of Churches are trying to do, and they are putting forth every effort to make possible the completion of the building on scheduled time.
HOCKEY OFFICIALLY OPENS
CO-ED SPORT ACTIVITIES

Planned Underway For Game With
Maine University.—Interclass Sports to Start Soon.—Seniors Handicapped by Numbers.

Even more interest than usual in athletics is being shown this fall by the co-eds. Through the efforts of their instructor and coach, Mr. Guyer, to get the sports underway at once, hockey is being stressed as the immediate sport. Maine University has been anxious for several years to arrange a game with the Connecticut women. Practice is being held three times a week and unless something unforeseen happens to weaken the spirit shown by those cut for the team, there is a big chance that the Maine trip will be a reality this fall.

Helen Brown '27, chairman of the Athletic Council, is already planning for the interclass meets to take place soon. Owing to the small number of senior girls, it is probable that the other three classes will be the only contestants for the loving cup given yearly.

As the year progresses each sport will be taken up in its season, with an effort to keep that "Old Connecticut Spirit" among the girls. No definite plans, as yet, have been made for the other meets.

REUNION OF 1925 CO-EDS

Saturday's game brought many of the 1925 girls back to the Hill. Irene Cook came up from Brooklyn, where she is a member of the staff at Pratt Institute. Marie Bronson returned to Conklin, the new treasurer, is connected with the Diocesan Bureau of Freshman Schedule

ANNUAL LANTERN PARADE HELD FOR FROSH GIRLS

The annual Lantern Parade given by the Home Economics faculty and upperclassmen to the Freshman girls took place last Thursday evening in the grove back of Holcomb Hall. Each freshman girl was escorted by an upperclassman, and all rules were off for the evening. Arriving at the grove, a flashlight picture was taken of the group by Mr. Manter.

A lively entertainment followed, consisting of stunts by the Senior, Junior, and Sophomore classes, the Seniors presenting a weird basket ball game entitled, "The Speed Kings," and a fable called "The Tootsonville Station at Twelve P. M." The Sophomores then entertained with two little acts, "Collegiate," and "Let It Rain." The final act was a minstrel show put on by the Junior class, amusing the audience with popular songs and jokes. The evening was brought to a close with the singing of the Alma Mater.

CLASS OF 1926 ELECT JAGOE PRESIDENT

(Continued from page one)

and the 1925 Nutmeg Board. Her athletic activities were centered on basketball.

Carrie Main, class historian, has had a busy college career. As assistant house chairman in her junior year she found much to do. She also served on the Home Economics committee of the Ag Club fair last year. The Monticell Arts Society also claimed Miss Main as a loyal member, as did the Girl's Glee Club with whom she has been associated for three years.

Conklin, the new treasurer, is a senior cheer leader as well as class accountant. His early interest were along managerial lines for he was elected freshman manager of class basketball and sophomore manager of class football. In his junior year he became interested in B. O. E. C. work and became a member of the rifle team. Later achievements include the chairmanship of the newly organized auditing committee fostered by the student senate.

WE ARE LOOKING FOR BUSINESS
At a recent meeting of the Student Senate the following sophomores were appointed as the members of the Blue and White Club for the present year—Edward Nelson, chairman; Francis Adams, William T. Brigham, Carl Bjork, Verne MacDonald, Charles Plummer, Robert Bunis, Francis Ryan, Harold Watson, Otis Wilkes, and Edward Wolcott. It was decided that the Freshman rule number 11 was against the best interest of the student body and therefore abolished it. A notice to this effect has appeared on the bulletin board.

It was voted that the rope-pull be held on Oct. 12, and that a committee draw up rules for this contest. The rules have since appeared on the bulletin board.

Attention was called to the fact that there are two vacancies in the offices of the Student Organization; namely, that of Secretary and that of Second Vice-President. It was decided that the regular course of a new election would have to be followed and a notice to this effect was put on the bulletin board.

Harold W. Wardle of the Class of 1926 was appointed Student member of the Assembly Committee. The question of smoking in College buildings was discussed. The attention of the Student body is called to the "gentlemen's agreement" that the Student Organization made with the Faculty some time ago, leaving this matter in the hands of the students. It has since been understood that there will be no smoking in College buildings except the dormitories and in the basement of the Armory.

Arrangements have been completed with the Assembly Committee that Nov. 11 will be Activities Day in assembly. On this day the leaders of the various activities appear before the student body and explain or describe the particular activity that he represents. This is an excellent time for the Freshmen to pick out that activity that will interest them throughout their college life and to make a start in this line as soon as possible.
