ALL FORMS OF HAZING FOREVER BANNED BY PRESIDENT BEACH

EXPULSION OR SUSPENSION FOR HAZERS

Paddling and Showers a Thing of the Past.—President's Action Comes As Result of Many Complaints.

President Beach in a letter to the head proctor has taken a decided stand against the hazings of Freshmen. This drastic movement against some of the traditions of the college comes as the result of a rather serious injury suffered by a member of the class of '29, caused by paddling. Reynolds, '29, is suffering from a severe dislocation of the lower region of the spine, and had to be removed to his home after being treated for a while at the local infirmary.

The definition of hazing, which is the one used by the authorities at West Point, is a very broad one and leaves no room for loophole. It reads as follows: "Any initiation ceremony or practical joking that involves physical, personal injury or bodily harm, or the performance, under threat of force, of any action that entails the surrender of one's self respect shall be deemed hazing." Severe punishment is to be the fate of anyone indulging in these now outlawed practices; namely, if it can be proved that there was no intent to injure, humiliate or punish the victim, the penalty is to be suspension. Otherwise, the offender shall be immediately expelled from college.

This stand of the President against hazing ends one of the oldest and most spectacular traditions on the Hill. Its enforcement will see the passing of the famous "Pajama Parade," which has been the first night entertainment for the members of the upper classmen as well as men. It has been the custom to assemble the new men in front of their dormitory, and to lead them, attired in pajamas, about the campus with an accompaniment of the old vocal selection, "How Green We Are," and the resounding paddles of the Sophomores. This parade wound up at the old Storrs Homestead, the Valentine House, where the eager coeds were assembled to see the new additions to the "Hill" and what talent they could bring forth. No longer will the "greenies" have a chance so early in their college life to show the student body what they can do.

Another old tradition must also be discarded at this time. The practice of giving a Freshman a cold shower for the violation of his rules has been interpreted by the President as hazing, and as it has heretofore been given as a punishment, to indulge in this practice is to risk expulsion. A different form of punishment for the violations of the rules will have to be found.

STUDENT SENATE MEETS WITH FACULTY COMMITTEE

By invitation of the Student Senate, President Beach and the Student Affairs Committee of the faculty met with the Senate in the Sigma Phi Gamma club-room to discuss student government. Pres. Lewis noticed a few new faces and started the discussion by asking Pres. Beach for an interpretation of the term, student government. During the course of the meeting it was stated some form of punishment for a Student Senate for Freshmen and also that the Duck Pond has not been outlawed.

It was revealed that the automobile

STUDENT BAND MAKES INITIAL APPEARANCE

TO BE REGULAR ACTIVITY

Students Enthusiastic Over Prospect. —More Candidates Needed

The student band, which made its first public appearance at the Mass Aggie game last Saturday is not, according to Bandmaster "Mouse" Conklin, a temporary institution for "pop" purposes at the Tufts and Rhode Island games, but at least potentially a permanent student organization. In an interview with a Campus reporter Mr. Conklin declared that it was the hope of the members of the band, that the band would find

W. G. A. C TO BROADCAST SPECIAL DAIRY COURSE

Extension Service Opens Radio Course to Farmers.—Weekly Program Announced.

Starting on Monday, October 19, the radio programs from Station WCAC, the broadcasting station of the college, will be offered to the public on every Monday, Wednesday and Friday evenings.

The programs shall consist of a tune-in musical selection, market reports, lectures and musical programs. Of special interest to the farmers of the state will be a combined correspondence and radio course in Dairy Farming, which will be the basic lecture from the station on Monday evenings.

Connecticut Coast
in their regular places tomorrow. Aggie game, will in all probability strengthen fortnight men. The line has put in a rather strenuous week in strengthening its front line and it is expected that the results of the work will be in evidence tomorrow.

Coach, Brink, Zollin, and Schofield, who were injured in the Mass. Aggie game, will in all probability be in their regular places tomorrow.

Last year the result of the Conn. Aggie-Tufts game was a scoreless tie. Connecticut has never beaten Tufts, but they are relying on their overhead game to take the Tufts crew into camp.

The lines are as follows:

MANY CANDIDATES FOR NUTMEG BOARD
At the last meeting of the Nutmeg Board, a large number of enthusiastic candidates from the Sophomore class reported their intention of trying out for next year's board. After these aspirants had given assignments to keep them busy for a week, they were excused, and the present board held an interesting meeting. A number of decisions were made, but as the board wishes to spring a few surprises, their secrets will not be revealed (if it is possible to keep secrets) until the book comes out. Everyone is working hard to put out the best book ever, and with the proper support from the student body in the form of contributions and subscriptions, this will be accomplished.

COACH DOLE SENDS AGAINST TUFTS AT MEDFORD
Aggies Hope to Break From Losing Column

Coast Guard's line is expected its excellent forward passing to keep them busy for a week, they were excused, and the present board held an interesting meeting. A number of decisions were made, but as the board wishes to spring a few surprises, their secrets will not be revealed (if it is possible to keep secrets) until the book comes out. Everyone is working hard to put out the best book ever, and with the proper support from the student body in the form of contributions and subscriptions, this will be accomplished.

SECOND VARSITY VICTORS OVER U. S. COAST GUARDS

Connecticut Aggies second team opened up a powerful offensive in New London Tuesday, when they decisively defeated the United States Coast Guard team by the score of 21-0. The second team scored two touchdowns in the second quarter and one touchdown in the fourth quarter by the use of a clever running attack.

The Coast Guards outweighed the Aggies but this did not hinder the second team from playing rings around their older opponents. The naval team kicked to Lorentzen who ran the ball back five yards before being downed on the opening play. The Aggies made a forty yard march to the New London team's five yard line where they fumbled, the Guards recovering. The end of the first period found the ball in the possession of the Aggies in midfield.

In the second quarter the Aggies, killed in two touchdowns on a clever combination of line plays and forward passes, that caught the Guards off their legs. "Cheese" Eddy making the first score, and "Jerry" Allard the second tally. Eddy made good both tries for point after touchdown.

The second half found the Row Blockaders trying desperately to score but after working the ball down to the Aggies five yard line they lost the ball when Coach Doles's protges held down. In the last quarter the Aggies blocked a punt Baker recovering and running fifteen yards before being downed. On the next play Doveron Donovan scored one third touchdown on a drive through the Coast Guard's line. Eddy kicked the try for point after touchdown making the score Aggies 21, Coast Guard 0.

FRESHMAN FOOTBALL TEAM SET BACK BY TUFTS

Frosh Eleven Defeated For First Time

The Freshman warriors opened their home season last Friday, losing to the powerful freshman squad from Tufts, 14 to 6. This was the first freshman eleven have been defeated since freshman teams were organized at the State College in 1922. Tufts had the more powerful outfit and after the first quarter outstruck the Aggie Fresh, though not until the second half when they recovered. Connecticut fumble, were they able to push across a score. It was not until after the Connecticut fumble had been recovered in midfield shortly after the second half got under way that Tufts really showed any advantage over Coach Alexander's men.

After the half Tufts offense gained steadily through the Connecticut line and off the tackles. Tufts made four first downs in a row and Ellis, quarterback for Tufts, on a cross-crom play around end, scored the first touchdown. Fitzgerald kicked the goal for the extra point.

Ellis scored again for Tufts in the last quarter on an end run before bringing the ball up the field with a series of rushes through the Connecticut line. Fitzgerald kicked the goal for the extra point.

SIDELINE Gossip

That off-tackle (awful-tackle, say Co-Eds) play did the trick.

Coach Gore's men were out to avenge last year's defeat. They sure did.

With only two downs scored against them, Connecticut looked like a different team in the second half.

The Bay Staters were ready for the Nutmeg overhead game.

Oscar certainly is a deadly man under the punt. We thought the big boy was about to eliminate an Amherst halfback a couple of times.

As it was, casualties were not infrequent for both teams. It was no schoolboy affair.

We must hand it to the boys for a battle game. More than once they reminded us of the Pirates making a come-back, but were not so lucky.

As Knute Rockne says, "Christmas does not come to a football team every year." Still we can not catch the team. The men have plenty of fight in them yet. Just watch them tomorrow at Medford. Win or lose the Aggies are no easy number. If the sport page athletes think so, Coach Dole has a uniform for him.

There are no horseshoes in the Aggie Camp, remarks the cyan. Maybe because the Aggies, after studying scientific farming, have adopted the Fords and sent the old horse to Amherst.

The initial appearance of the Student Band augurs well for its success. The boys are there with the old pep.

The yearlings are expected to score their first win Saturday.

And if the dope is correct, the varsity is due to break into the winning column tomorrow, also.

FRESHMAN GRIDMEN TO MEET MILFORD SATURDAY

Coach Alexander's yearlings play through stiff sessions all week in an effort to speed up the offensive. He is also developing an overhead game and an accurate dropkicker. The freshmen have a light team, and so far have lost to Tufts Freshmen 13-0 and held Kent and Wesleyan to scoreless ties.

Milford is relying on their greater weight and the accurate toe of Booth, their quarter back, to bring the ball back to the west shore town.

The probable lineup that Coach Alexander will start against Milford is, if memory serves, Ends, Crombly or Wilson and Sayles, Tackles, McNamara and Brown or Callierco guards, Callahan center; Knaut quarterback, Brown and Dixon halfbacks, and Sahagian or Allard fullback.

GORMERSTONE LAID FOR COMMUNITY HOUSE

MANY ALUMNI PRESENT

Former Students Return For Homecoming Day

Saturday, October 17, set aside as homecoming day for the Alumni found them returning in large numbers. Having chosen this day for the laying of the cornerstone of the new community house, it enabled the alumni to take part in this event as well, with their annual struggle with the Mass. Aggie eleven. The game resulted in a score of 13-0 in the favor of Massachusetts after a hard fought battle.

At one fifteen p.m., at the scene of the new community house, which is now well under construction, students, faculty, alumni, and friends gathered for the laying of the cornerstone. President Charles L. Storrs presented the service. After a prayer offered by Rev. Jones of Mansfield Center, President Beach outlined briefly the history of the present church and its place in the community.

The speakers of the program were: Dr. Dorchester, president of the Conn. Confederation of Churches; Ralph Feldman of the Jewish Synagogue of Hartford, Mrs. H. A. Newton, representative of the Woman's Club of Storrs; Sidney Lewis, for the student body; Sherman Eddy, the Alumni Association; Mr. Hughes of the faculty, and Prof. Charles A. Wheelock, representing the State Grange of Connecticut. Dr. Dorchester laid the cornerstone and President C. L. Beach placed the contents therein which were sealed in a copper box. After the box was placed in the stone, President Beach read an account of the material which it contained. Rev. Morris E. Alling, pastor of our church, gave the benediction, closing the service.

MEDIATOR MAKES NEEDED RUSHING RULE CHANGES

At a meeting of the Mediator held last Monday evening, Rule No. 9 of the "Fraternity Rushing Rules" was amended to read: "All freshmen are excluded from fraternity rooms and social rooms of fraternity houses until after Thanksgiving Recens, November 28, and after this date at all times except those specified by the rules." The object of changing this rule evidently lies in putting the fraternity man in living in houses on an equal basis with those that would have benefited by living in the dormitories.

At the same meeting it was agreed that no fraternity would pledge any man listed as a campus sophomore; the thought being expressed that the campus sophomore should first demonstrate his willingness to become a part of the institution before being allowed to join a fraternity.

EXPERIMENT STATION SUBJECT AT ASSEMBLY

Anniversary of Connecticut's Station

In connection with the observance of the fiftieth anniversary of the founding of the first experiment station in Connecticut, Mr. W. E. Britton, State Entomologist, outlined the history of the stations in the country before the student body at Assembly.

The speaker gave the credit for the realization of a much-needed agricultural research station in Connecticut to three men—Professors Johnson and Brewer of Yale, and Mr. Grover of North Cornwall. It was largely through their influence that the state legislature in 1875 finally appropriated $2,800 annually for two years to be used in the founding of an experiment station. The first station was situated at Middletown, under the direction of Professor Atwater of Wesleyan, to whom is due many remarkable discoveries in the field of agricultural research. At the end of two years the station was removed to New Haven and placed under the direction of Professor Johnson of Yale.

It was not long after the founding of the station at Middletown that other states began to follow the lead of Connecticut. The Federal government began to perceive the value of the stations, and in 1887 by the Hatch Act granted each state $15,000 to be used for research work. In 1905 the Adams Act gave $15,000 more a year for the same purpose. The states themselves grant large sums annually for the maintenance of the stations. Altogether, said Mr. Britton, the experiment stations form the greatest agency for research work in the world, in spite of having been established primarily for agricultural work.

Mr. Britton concluded his speech by summing up the qualities looked for in young men about to become members of the fraternity. That no fraternity would pledge any man listed as a campus sophomore was evidently his opinion.

THE Student Senate

EDITOR'S NOTES.—The Campus will from time to time publish short articles about the various activities on the "Hill." The purpose of this is to give the students, especially members of the Freshman class, a certain knowledge of the extra-curricular activities.

There is a small group of students making up an organization with which the Freshmen probably have not yet become very familiar. This is the Student Senate, which might be defined as the judicial division of the student organization. It is important that everyone should know its purpose and function.

The Student Senate is composed of six representatives from the Senior class, four representatives from the Junior class, and one representative from the two-year Sophomore class.

The duties of the Senate are to act as the standing committee of the Student Org. and it has jurisdiction in all student affairs with the exception of athletics.

In matters affecting the student body as a whole, the Student Senate makes recommendations to the Student Organization, the final vote of which will be required for a final decision.

In matters of discipline the decision of the Student Senate is regarded as final unless annulled by a two-thirds vote of the Student Organization.

The Senate will receive and consider all rules, regulations, etc., from the faculty pertaining to the Student Organization, and makes such recommendations as are considered advisable.

Any student who considers himself wronged by any member of the faculty, student, or group of students, and whose case is of sufficient strength to warrant it, may appeal to the Senate for aid. The Senate will investigate such cases, determine the facts and make final decision.

Any student acting either as a representative for an organization or as an individual may report to the Senate the actions of any student or group of students which he considers to be a discredit or detriment to the reputation of the College. The Senate will investigate such cases, and make final decision.

A report of the actions of the Senate shall be read at the monthly meeting of the Student Organization.

Thus it is that the Student Senate is ready to do its part in student government to make sure that everyone gets justice.

The following men have enrolled for this year's course:

W C A TO BROADCAST SPECIAL DAIRY COURSE

(Continued from page one)

sings, and will be conducted by the Extension Service of the College.

This course will consist of a series of 24 lectures, open to anyone interested in Dairy farming. These lectures will be mailed to applicants every Monday morning, and the same will be broadcasted from WCAC on Monday evening at 7.30.

In order that these lectures may be preserved for future reference, a loose-leaf note-book will be supplied to all enrolling in the course. An enrollment charge of $1 includes cost of note-book. Names, addresses and checks of $1 made out to the Connecticut Agricultural College, or group of students which he considers warrants it, may appeal to the Senate for aid.

The weekly lectures are as follows:

Nov. 2—Grain Feeding. Nov. 9—Succulent Feeds and Selecting Rations.
Nov. 16—Growing Calves and Heifers.
Nov. 23—Breeding Better Cows. Nov. 30—Shall I Breed or Buy Cows?
Dec. 21—Planting Clover and Alfalfa, including rotations.
Dec. 28—Planting Clover and Alfalfa.
Jan. 4—Growing Silage Corn (includes use of manure).

Other problems of interest to farmers will be discussed by lecturers from the college on other broadcasting dates.

The purpose of this is to make this a banner year for debating at C. A. C. In the past the chief difficulty of the debating club has been lack of members, but this year with the large enrollment on the Hill it is expected that a sufficient number of new members will apply for membership. Everybody at all

KAMPUS KLIPS

Willie Man—"When you sold me that car you said it was a fine machine; but it won't climb a hill."

Aggie—I said, "On the level it's a good car."

Eddie—"Have you seen the new formal dresses?"

Bobbie—"No, what are the girls showing this season?"

Strange—"Is this a healthful town?"

Citizen—"Reckon so. When I landed here I was so weak that I couldn't walk across the room, I could utter no word, and my head was practically bald."

Strange—"Marvelous. How long have you lived in this town?"

Citizen—"I was born here."

He—"Ever see a worse fog than this?"

She—"Yes, one."

He—"Is that so, where?"

She—"Why, er, er, it was so foggy that I couldn't see where it was."

Punch—"Why were you kicked off the Glee Club?"

Sallic—"I had no voice in the matter."

Oscar—"Did the Doctor treat you for that sprain?"

Bill—"Treat me? I soaked my ten bucks."

"What are you doing for exercise these days?"

"Quite a bit, whenever I feel especially athletic I go out and watch football practice."

Prof—"What was the first Arthurian romance written?"

Stewed—"Layamo's 'The Brute'."

Co—"You don't know how much I interested in debating, especially the freshmen, whether experienced or not are urged to become members. The next meeting of the club will be held Oct. 28, at seven-thirty in Gullen Hall.
miss that waste basket."
Ed.—"You always did miss it, that's why I threw it away."

Nut.—"I once loved a girl and she made a monkey out of me."
Meg.—"What a lasting impression some people make."

Going to Taftville
Co-ed.—"Is this a fast bus?"
Driver.—"It sure is."
Co-ed.—"Well, what is it fast to?"

"Send me back my poem," cried the Co-ed angrily, "much the editor knows about poetry. It was a compliment to send it to him."

Overheard at the At-Home Frosh
Prosh.—"I just love this music."
Co-ed.—"So do I—maybe we're related."

Sally.—"Joe's dancing reminds me of a Chinese opium den."
Gertie.—"How come?"
Sally.—"He's full of hops."

Aggie.—"Now that I have my degree from college, I'm looking for a large field in which to exercise my talents."
Father.—"Well, the forty acre field is about ready to plow."

"Johnny," said his mother severely, "it wasn't nice of you to ask the lady her age. It made her feel very angry."
"Why did it, Mommy, she asked me first and I didn't get wild about it."

Prof.—"Why were you late for class this morning?"
Billy.—"Well you see the bell rang before I got here."

Dottie.—"I want a cake of soap."
Jimmy.—"Scented or unscented?"
Dottie.—"I'll take it with me."

The Farm Electrical

Of the six and a half million farm homes in this country, only half a million have electricity. Still, the advantages of electricity are widely known. But there is more to farm electrification than the installation of motors, lights and heaters. Current must be brought to the farm, and that means many miles of transmission line, supporting poles, transformers, and adequate generating equipment.

Slowly but surely the electrification of American farms is taking place. As farmers learn how to use electricity, rural service lines reach out farther and farther into open country.

Six million farms to be electrified! Here is a vast and virgin field for the application of electricity, with countless opportunities for college-trained men in the technical and commercial phases of this undertaking. And for the agricultural college student and others planning a future life in rural sections, it means a better, bigger, happier life-time now in the making.
THE CONNECTICUT CAMPUS

MASS. AGGIES ONSLAUGHT
DOWNS NUTMEG ELEVEN
(Continued from Page One)

Massachusetts displayed a powerful running attack, one that was easily the strongest seen here this season. A crushing off-tackle play, and an equally crushing drive through the line, was in a large part the entire M. A. C. offense. Now and then a reverse play that went outside the end was used for variety, and a short forward pass, tried when the Bay State running attack was stopped on the Connecticut ten yard line, was good for the second Massachusetts score.

Winning the toss, the Bay Staters elected to receive at the east end of the field. Starting with the first play, the M. A. C. line backing attack got under way, and successive first downs carried the ball past midfield and into Connecticut territory. Moberg and Hilyard ripped through the line and off the tackles of the Nutmeg forward wall in this march, and a sure score seemed imminent.

Backed up against their own goal line, the Connecticut defense held strong, however, and the Bay Staters could not score. Connecticut punted out to the forty yard line, and once more the M. A. C. team started a drive for the goal line of the Storrs team. Once more Coach Dolc's men threw back the Amberst ball carrier and the quarter ended with no score, though the Massachusetts team constantly threatened the Storrs goal line.

All the damage, at least from the Connecticut standpoint, came in the second period. Unleashing a rushing game that was not to be denied, M. A. C. started a march down the field that ended only when Sullivan crashed across the Connecticut goal line for the first touchdown of the game, putting his team in the lead by six points.

Captain Jones was hurried by the Connecticut team as he attempted to kick the goal after the touchdown and his try went under the cross bar with the score 6-0 against them. The Aggies elected to receive, Schofield catching the kickoff and running it back to his own twenty-five yard line. Connecticut's attempts at rushing the ball were effectively stopped by Massachusetts, and the ball was punted to midfield on fourth down. Once more the running attack of M. A. C. was unleased, and once more the maroon jerseyed team swept towards the Connecticut goal line. Four successive first downs were made before the Nutmeg Aggies finally checked the Bay Staters, who by that time were on Connecticut's ten yard line. After taking time out, the Storrts tried the Massachusetts field goal, but it was blocked by a slight gain for three downs, and on the fourth down, with seven yards to go, Moberg tossed a pass to Captain Jones who fell across the goal line for the second M. A. C. score. Captain Jones made good his try for the extra point, tying the score to 12-0. But two minutes remained in the half as Connecticut received the kickoff, and the Storrts team tried its forward passing attack. Schofield took two tosses from Moreland for short gains, but after making a first down, the team lost the ball on downs, and M. A. C. took the ball as the half ended.

Connecticut played on more even terms with the Bay Staters in this second half, though in the early minutes of this session it looked as though Massachusetts would score again. A Connecticut fumble was recovered by M. A. C. on the Storrs fifteen yard line, but the Massachusetts team was held without gain and Captain Jones place kick went wide for a touchback.

The remainder of the half saw Connecticut trying desperately to score via the overhead route, but the Massachusetts defense against this form of attack proved too strong. Severs' times interception by Massachusetts' backs stopped the Storrts attacks when in State territory.

STUDENT SENATE MEETS
WITH FACULTY COMMITTEE
(Continued from Page One)

rule which is so disagreeable to the student body was passed by the Board of Trustees at the request of one of their number, whose son, while attending another college, got into trouble through owning an automobile. The Board wishes to protect the student at C. A. C. from similar occurrences.

At the end of the meeting, the Student Affairs committee, through Mr. Kirkpatrick, expressed their approval of the spirit in which the Student Senate is working this year, and promised the support and good will of their body.

President Beach expressed his pleasure at having the opportunity to meet with the Student Senate, and felt that some good has been accomplished.

THE OBSERVER

We are making our debut as a columnist. We don't expect to take F. P. A.'s job from him immediately, but we do want to give you something you will look forward to, and something that you will enjoy reading.

Men and women are needed for campus activities; choose one; work it will benefit both you and your college.

The observer has discovered by careful and secret scrutiny that one of the freshman co-eds is beautiful! two are intellectual, one has red hair, and the rest are co-eds.

We have another fighting football team this year. Let's support them morally, financially, etc. Gulliver is with us again. Another far cry on the campus, sometimes as we shiver in our old green top-coat we envy the boys with enough to keep warm.

What is the matter with Ma Brown? Since we don't dance, our idea of a Saturday night spree used to be to go down to Ma's, drink eight cups of coffee, eat innumerable sandwiches, smoke a package of cigarettes, and listen to other youths settle all the weighty matters of the universe to their own satisfaction and nobodier's harm. Why don't you open up Ma?

We started to write a poem for this column, but we got only as far as the first verse; I have seen beauty on this Mansfield hill. Since the news don't like us, any one that wants to see his efforts published can send them in, and then buy a couple of extra copies to give to his friends.

Sentence for the Week—He ha'
fully fed long enough on written and painted poetry, and had discovered that intercourse with abstracts was somewhat unsubstantial. —Gautier.

Associated Corn Products Manufacturers

Corn Gluten Feed—25% Protein
"Almost Wholly Digestible"

Corn Gluten Feed is a profitable protein ingredient for every ration. Successful feeders in 32 States are feeding it regularly. These practical men know its value. It pays them to feed it.

One or more feeding experiments with Corn Gluten Feed in the ration will make your work more interesting and profitable to you. There are several good reasons why this is so.

Corn is grown in all the States. It is worth more than any other farm crop. We need corn more than anything else grown on the farm, and without it we would almost starve.

The product of corn most needed by the farmer and feeder is Corn Gluten Feed. A ton of it contains as much protein as 1/2 tons of corn and also the natural salts of five tons of the whole grain.

Corn Gluten Feed is palatable and safe. It is never given as medicine nor has it ever caused abortion or blindness. Some dairymen feed it straight for high production tests.

You are going to help the farmer get the most out of his corn crop. This Research Bureau can be of great service to you, and we want to tell you about it. Write us today and we will send you our bulletins and show what we are doing in our nation-wide campaign for better feeding.

ALUMNAE REUNION DANCE
AFTER MASS, AGGIE GAME

Tuesday evening Practice House was the scene of a delightful Senior "get-together." This was the first class party of the year and it promises well for many similar ones. The party formally opened Practice House as a place where, in the future any Senior girl may eat dinner in an actual home atmosphere. It is to Miss M. L. Landberg, who is in charge of the House, that thanks for this privilege are due.

Miss Landberg acted as hostess at the table, which was attractively set for the thirteen class members. Waffles, bacon, sausage, fruit-cup and coffee were served.

Decorations of autumn leaves and flowers added to the appearance of the rooms.

CO-ED TENNIS COURTS
AVAILABLE NEXT WEEK

Early last spring ground was broken in the rear of the girls' Dormitory for the building of tennis courts, to be used exclusively by the girls. It was expected that the courts would be ready before the end of the school year, but owing to the many delays in the work it was not completed. They apparently remained untouched during the summer months and the beginning of the school year found them in poor condition. With the help of the Freshmen class everything has been completed with the exception of the marking and the putting up of the nets. They will be ready for use early next week.

HERE AND THERE

Rushing week for fraternities at the University of Rochester is to start October 26. All fraternities are required to hand in lists of the men they intend to rush before October 15.—University of Rochester "The Campus."

Massachusetts Agricultural College has an entering enrollment of 176, 38 of whom are women.

American people spend a billion more dollars on cosmetics and tobacco than they do on education, is the report of Rev. William M. Silson.—Boston College "The Heights."

Coupon books for students and season passes for alumni and regular patrons is the new method of distributing football tickets at Boston College.—"The Heights."

The U. V. M. Band started off its season this year with approximately 75 candidates.—"The Vermont Cynic."

Results of physical exams given to freshmen show that one sixth of the class has deformed shoulders. This condition, according to reasons given by those examined, is caused by the habit of holding the left arm on the window ledge of sedans.—University of Rochester "The Campus."

The cup awarded to the fraternity having the highest scholastic standing was awarded this year to Alpha Chi Omega.—"The Vermont Cynic."

To encourage the interest of Alumni in the football games the A. A. has been busily engaged during the past week. Attractive calendars of the month of October and November have been mailed to each alumnus. The dates of the football games are printed in red and an arrow leads to the name of the team played on each date. The arousing caption at the top of the calendars is "Big games you want to see."—"Johns-Hopkins News Letter."

Inauguration of annual Dad's Day will be made this week at the University of New Hampshire. Invitations have been sent to the Dads of 1,290 students to spend October 17 as guests of the University. This movement has been sponsored in an effort to secure closer relations between faculty and parents, and an interesting program has been prepared for the visitors.—"The New Hampshire."
