DEBATING TEAM MEETS R. I. TONIGHT

First Forensic Contest of Year to Be Held at Kingston.—Connecticut to Uphold Affirmative Side of Coax Mine Question.

Resolved: That the Government should own and operate the coal mines of the country.

The C. A. C. team, under the coaching of Dr. Deninger, has spent considerable time preparing for the debate. The Connecticut team will uphold the affirmative side of the question.

This is the first inter-collegiate debate of the season, the one that was to have been held with Springfield College having been canceled by them.

Two more debates are on the C. A. C. debating club schedule this year one with Trinity and one with Cranbrook.

DRAMATIC CLUB IS REORGANIZED

State College Players Supplant Older Organization.—Membership to Be Limited.

Sensing the need of a more compact and efficient dramatic organization at the college, the members of the Dramatic Club recently voted to reorganize under the name of the State College Players. The name is not a new one, since under it, a few members of the Dramatic Club have staged several plays throughout the state in the past four years, and in doing so have built up a creditable reputation.

It has long been felt that the Dramatic Club was too loosely knit, and that it carried too many figureheads who were simply content to sit back and let someone else do the work. Entrance requirements were exceptionally easy, and the membership was unlimited. However, the requirements for admission to the State College Players do away with all this. Only persons who have taken part aggregating 150 lines in three respective plays may be admitted. In this way members will be gathered organization automatically through a certain amount of work done. The plan which is similar to that of dramatic clubs in other states, will restrict the membership to those who manifest some dramatic talent and an active interest in the movement.

At present there are only twelve persons who qualify for membership in the State College Players. Four more will possess the necessary qualifications after the presentation of the Telephone Demonstration.

SUNDAY, MARCH 7

Morning Service, 11.00 a.m.

WEDNESDAY, MARCH 10

Assembly 11.00 a.m., Dr. Frederick Poole.

C. A. C. TO CONDUCT TOURNAMENT

High Schools in C and D Class Here to Compete March 12 and 13.—Final Round to Be Played March 19.

The Connecticut Interscholastic Athletic Conference has designated Storrs to conduct the Class C and D Interscholastic Basketball Tournament, the preliminary games of which are scheduled for March 12 and 13. The officials have ruled that the final round will be postponed until March 19. On this date the two teams remaining undefeated after the preliminary rounds will return to play for the state championship of Class C and D teams. This rest of a week is calculated to allow the players to return to better condition and thus meet on more even terms. Although there are twenty-six high schools belonging to the Conference, it has been found impossible to accommodate more than eight teams. These will be chosen according to the percentage of games won this present season.

The Athletic Council has set aside in its budget a sufficient sum to pay all local expenses of the teams.

The purpose of holding the tournament is to promote good sportsmanship among the high schools of the state and incidentally to advertise the college. The teams that are to compete will be selected from the following high school members of the Conference: Class C: Terryville, Shelton, Lewis High of Southington, Hamilton High of Ridgefield, Leavens High of Waterbury, Windsor, Milford, Storrs, New Milford, Plainfield, Thomas Wethersfield, Bethel, Seymour Branford, Portland and Putnam Class D: Torrington, Memorial High of North Grosvendenale, Staples High of Westport, Woodbury, Litchfield, Bloomfield, Han Academy and Middletown.

SUMMER CAMP FOR O. R. C. AT STORRS

Seventy-Sixth Division to Hold Two Sessions at College in June and July.

The Seventy-sixth Division Officers' Reserve Corps will hold two summer camp sessions at Storrs next summer.

The first camp will be from June 13 to June 28 and the second camp will be from July 4 to July 18. Each of these camps will be attended by forty Reserve Officers who are attached to this division. The camps are under the supervision of Lieutenant-Colonel John Randolph, who is stationed at New Haven as an instructor for the 76th Division.

Several of the cadet officers have been assigned to the first camp. Among these are John Kuhl, Lyman Hilteboom, Reginald Putnam, Gerald Allard, Ernest Speers, Leland Evans, Arnold Griffin, and Wright D. Gifford. These students will be commissioned June 12, 1926, and will be attached to this division for camp duty. The 76th Division O. R. C. includes all the reserve officers in Connecticut and part of Rhode Island, who are in the 394th, 380th, 417th, and 418th Infantry.

The establishment of the camp at Storrs was due to the efforts of Colonel Alvin S. Perkins, the Adjutant of the Division.

DEMONSTRATION IN ARMORY TONIGHT

The telephone will be the subject of a program to be presented tonight at 8:00 o'clock in Hawley Armory by the Southern New England Telephone Co.

The object of the program, which is in the nature of a demonstration, is to acquaint the public with the workings of the telephone, the problems of the operators, and the faults of the users themselves, in order to encourage cooperation and consideration from the subscribing public.

The equipment and personnel used in the demonstration includes telephones, switchboards, operators, and various characters representing users of telephone service. This program which is of about one and one-half hours' duration, is given under the auspices of the Social Committee.

FACULTY- STUDENT TEA TO BE HELD MARCH 28

The annual Faculty-Student Tea will be held in Hawley Armory March 28 at 3.30. This event promises to be one of the best informal social gatherings given during the current school year.

The Committee in charge of the affair have arranged a delightful program. Light refreshments will be served during the entertainment.
TRINITY SWAMPED BY CONNECTICUT

Outscore Hartford Team 51 to 24.—Aggie Game Throughout.—Lineup Shifted.

Trinity's hope for victory in their final game of the season with Connecticut at Hartford last Wednesday night received a terrible jolt, when playing in top form the Aggies completely swamped the Blue and Gold by a 51 to 24 score.

Perhaps it was memory of the close and hard fought Trinity game at Storrs early in the season, or perhaps it was memory of the Rhode Island game last week, but whatever it was Connecticut's five was in a fighting mood and was out to demonstrate that they could give Trinity a decisive licking.

The score shows how well the Aggie demonstration succeeded. Captain Makofski and his mates started to take the game with the first whistle and they continued to roll up the score as the game continued. At no stage of the contest did Trinity look dangerous even in the last part of the game when Coach Dole threw in his substitutes.

Bitgood, because of an injury received at Rhode Island, was unable to play against Trinity which made a few changes necessary in the Connecticut lineup. Williams jumped center and Captain Makofski went to right guard, Allard played the other guard berth, and as usual Schofield and Edly played the front court positions.

Schofield scored first with a field goal and then Thompson got two free throws from the line foul. He threw the Trinity roosters into an uproar as he made good both tries, the score being tied. Several times, however, Trinity had little cause to get noisy Connecticut's offense got under way and laid down a barrage of shots of the Trinity basket and although many attempts rimmed the hoop and fell outside, the score read 26 to 7 in favor of the Aggies at half time.

The second half was more or less (Continued on Page Six).

FROSH FIVE MEETS—YALE QUINTET

Coach Alexander has been putting his Yearlings through some stiff workouts in preparation for their game with Yale tomorrow at New Haven. According to newspaper reports, Yale has a fast team this year and the Freshmen will have to exert themselves to the utmost to register a victory.

This is the second year that the Yearlings have met Yale. Last year they were defeated in a fast and close game.

The lineup will be as follows: White and Anderson, forwards; Ellovitch, center; and Tarling, Dall or Schildgren, guards.

In order to stimulate an interest in swimming as a sport at Connecticut, the Physical Education department has arranged to have an instructor in the pool every afternoon and evening. Clarance Way, '28, who has been engaged, is well qualified to fill this position. He has been a lifeguard and swimming instructor at various Eastern beaches for several years. In 1920, Way also was fourth in the National swimming contest held at Madison Square Garden.

Way is planning to be in the pool every afternoon and evening from 3:30-5:30 and from 7:00-8:30. The pool is open during these hours on Monday, Wednesday, and Friday for men, and on Tuesday and Thursday for women. Interclass meets will be arranged and if there is any promising material, an attempt will be made to schedule meets with other colleges.

Rifle Team Wins from Rhode Island

Connecticut Sharpshooters Take Shoulder to Shoulder Match From Engineers.

The Connecticut Aggie Rifle Team emerged victorious over the Rhode Island State sharpshooters in a keenly contested match at Kingston last Saturday. The Aggie riflesmen showed an advantage of 34 points over the Rhode Island team at the end of the match, scoring 1730 points to 1696 of their opponents.

The match was fired from four positions, prone, sitting, kneeling, and standing. At the end of the prone and sitting positions the score was tied at 918 points each. From the kneeling position the Connecticut men showed their superiority by winning this stage of the event by 48 points. Rhode Island staged a comeback from the standing position by getting 14 points more than Connecticut, but this was not sufficient to overcome the Aggie lead, which was registered from the kneeling position. In previous matches this year it has been the Aggies' kneeling that has brought them out victorious.

Lynch was high man for Connecticut with 360 out of a possible 400 points. Hitchcock and Watson were close seconds with 357 and 356 points respectively.

For Rhode Island E. K. Johnson shot well, getting 357 points.

Score: Connecticut 1730, Rhode Island 1696.

Dunham Swimming Pool

Connecticut Loses to Rhode Island

Scoring 33-27 Winning Streak of Seven Successive Games Broken by Rhody in Rough Game.

Rhode Island State stopped the Connecticut Aggie basket ball team's winning streak of seven games last Saturday at Kingston, R. I., when they defeated the Aggies by the score of 33-27. The usually fast offensive aggie quintet was lack ing and Rhode Island held the upper hand throughout the forty minutes of play.

The game turned out to be a rough battle between the two teams, due to the laxity of the referee and umpire. Rhode Island completely outplayed the Connecticut five in the first half having a 23-9 advantage at intermission. One of the engineer's guards Mulcahey, was put out of the game in the first half having four personal fouls recorded against him. The work of Haire and Bosworth of the Rhode Island team was outstanding in the first half and it was due to their accurate shooting that the Kingston team had such a big advantage at half time.

In the second half Connecticut came back and outplayed the engineers, showing some of their customary fast offensive work. Field goals by Schofield, Makofski and Allard bought the Aggies' score up to 30 points of their opponents but they could not take the lead. The thirteen point advantage that Rhode Island held at intermission was too great to overcome and the Engineers were in the van by the score of 33-27 at the final whistle. Captain Makofski was the leading scorer for the Aggies and Schofield and Allard were close seconds in the scoring column.

The summary:

RIFLE TEAM EXTENDS WINNING STREAK

The College Rifle Team made a good showing in the matches shot during the week of Jan. 20, winning from the U. of Montana, and the U. of North Dakota. Another match shot during that week with the Utah Agricultural College has not yet been reported. Watson was high man for those matches with a score of 379. Watson with 375 and Kahl with 372 were the runners up.

There are no matches scheduled for this week, however, and next week the University of Missouri and the University of Illinois will be met. Two of the most important matches of the year will be held during the week ending March 20 and March 27. These are the Hearst Trophy match and the First Corps Area match. Competing in the latter will be teams representing all New England colleges.

ARMY UNIFORMS MODIFIED

The new change in the officers' blouses of the United States Army has done away with the high "chocker" collar, and will require ties to be worn with the uniform. The new style is somewhat similar to that used by the English, but was developed by American tailors. The officers of the cadet battalion will for the remainder of the year continue to wear their present blouses, but next September the blouses will conform to the new regulation.

When silver moonlight falls on town and field—and the long, joyous tour home is ready to begin—have a Camel!

Camels contain the very choicest tobaccos grown in all the world. Camels are blended by the world's most expert blenders. Nothing is too good for Camels. In the making of this one brand we concentrate the tobacco knowledge and skill of the largest organization of tobacco experts in the world. No other cigarette made is like Camels. They are the overwhelming choice of experienced smokers.

EDITORIAL NOTES

Our college dining hall seems like the Bond after eating two meals at Rhode Island State last Saturday. Too bad all of us cannot visit other college campuses more; perhaps then we would appreciate what Connecticut has to offer.

Now that fraternity rushing is over for the present, the year's work can begin. At least it will be the beginning for some. Yes, the emphasis on fraternities is altogether too strong for the good of the college.

Window breaking at Storrs is going to be a rather expensive pastime from now on. For those who doubt it, study the new rates now in effect for those who like the tinkle of falling glass.

Our freshmen learn fast. They too, held an "Inter-fraternity Smoker," and although supposedly "green," were not goug'd to the extent of fifty-five dollars for their entertainment. And so far as "smoke" was concerned, the yearlings won by a wide margin!

The "Community Sing" at President's Hour was great stuff. Let's have more of it.

By the way, what happened to that senior petition for the privilege of unlimited cuts? Commencement is only fourteen weeks from tomorrow.

Our basket ball team closes its season against Rhode Island here tomorrow night. Everyone out to see a great team in its final contest.

GIVE THE JUNIORS A CHANCE

Looking backward over the fraternity rushing season just closed, one wonders just how much longer the college must put up with the rushing system in effect.

We have a Mediator, a so-called inter-fraternity governing body. It is made up of two representatives from each fraternity, who among other duties draw up rules that are supposed to govern the rushing of freshmen.

And they formulate rules, generally speaking, that would satisfactorily govern the situation presented by fraternity rushing. The great difficulty comes in the enforcement of the rules which each fraternity agrees to follow.

During the last rushing season, rules were broken, and broken flagrantly. To say that the Mediator, as a body, made a real straight from the shoulder effort to enforce its rules would be allowing one's imagination to run riot. The opinion of the Mediator as expressed by the student body is evidence enough that something is wrong. And that something, more than anything else, is an impartial enforcement of the rushing rules.

The rules in effect this season were drawn up last year by the then seniors. From the many changes made in them as the season progressed this year, it was apparent that the rules did not meet the favor of the men now in college who have had to work under them. In fact, some claimed it was almost impossible to enforce them. Judging from the results, one would be forced to agree with them.

We might well let the past remain undisturbed, however, except that it furnishes certain lessons that should be considered when rushing rules for 1926-1927 are drawn up. In the first place, why not let the next set of rules be drawn up by the men who will have to work under them? In other words, the three lower classes, with the actual work being done by the junior members of the Mediator. They know what they want, and unless they get it, next year will see the rules juggled again as they were this year.

Constant changing of the rules makes only confusion, with the result that many lack a clear idea of just what the rules are.

By all means let the junior members of the Mediator be the ones to cast the final votes on the rushing rules for next year. As seniors, it will be their responsibility to see that the rules are enforced. Strict enforcement, and less changing, is more likely another year if the rules are drawn up by the men who have to enforce them.

And anything that will help to bring about a strict enforcement of the Mediator rules will go a long way toward bringing that organization to a state of real usefulness; a condition sadly lacking at the present time.

A REQUEST REPEATED

Once more the request is made for a more general use of the "Safety Valve" column on the part of the ungraduates. Last week, the first request was made and the three articles printed in this issue are the only contributions received. The Campus wants more than three contributions from a student body of almost five hundred. With more articles coming in, only two or three columns could be used weekly under the heading of "The Student Forum." Such a department would be a real digest of student opinion, and it should prove valuable for the interchange of ideas. Is your opportunity, make the most of it!

SPORTSMANSHIP

A few followers of the Aggie five who went to Kingston last Saturday believe the Rhode Island roster displayed poor sportsmanship in their treatment of the Connecticut team.

Some have even gone so far as to say the Aggiers will "even up" when Rhode Island plays here tomorrow night.

Such an attitude is not going to help Connecticut, and any attempt to "get even" will hurt Connecticut. Bear in mind that the present coaches have worked to maintain a spirit of good sportsmanship in our treatment of visiting teams. In this they have succeeded. Remember that each year sees an increasingly large number of non-resident patrons to our home games. They judge the college just as much by the sportsmanship of the players as by the bleachers, as they do by the player on the floor.

Only a few students came back from Rhode Island with "get even" spirit. They will be lost in the crowd tomorrow night. As a whole, Connecticut's student body can be depended upon to extend every courtesy to a visiting team. The game tomorrow is the last of the season, and the usual good sportsmanship of the student body in its treatment of the visitors can be counted upon. If there are a few "sideline athletes" who wish to "razz" our opponents, the best places for them are the wide-open spaces like Cemetery or Horsebarn Hills.

DR. POOLE TO ADDRESS ASSEMBLY MARCH 17

Dr. Frederick Poole of Philadelphi,a, a prominent lecturer, will speak before the assembly on March 17. The subject of his address will be "March of the Yellow Millions." Dr. Poole is a noted authority on this subject and will demonstrate his lecture by the use of costumes. This topic is of interest to all students a large attendance is expected.

RADIO FANS ENJOY AGGIE GAMES

Basket ball games broadcast from WCAJ, the college broadcasting station, are very popular judging from the number of letters received from radio fans.

Radio listeners said that announcements were given in such a clear and interesting manner that they felt as though they were present at the basket ball contest.

Most letters state their desire to hear Rhode Island State game tomorrow.

Storrs 10 Years Ago

The Second Annual Alumni Day was held at the college. The celebration started with an inter-class track meet which was held in the morning. In the afternoon the cadet companies held their usual competitive drill in the Armory. At 6:30 P. M. the Alumni Supper was held in the College Dining Hall. Short talks were given by members of the faculty, alumni, and student body. In the evening the Dramatic Club presented a play. Many of the Alumni upon seeing the new standpipe thought it was an immense silo, especially when it was surrounded by fifteen or more acres of corn.

The annual Junior-Senior Banquet was held at the Garde in Hartford. The members of the two classes assembled late in the afternoon and spent the evening at the different theatres. At 7:30 supper was served in the banquet hall of the hotel.

From 1906 to 1916 the permanent buildings added were the Hort building, greenhouses, Koons Hall, Hawley Armory, Dining Hall, Poultry building, Dairy, Sheep and Horse Barns, Farm Machinery building, and many houses on Faculty Row.

Review of Basket Ball season:

Conn. 26

This was the first year the Rhode Island team had beaten on their own floor in fifteen years.

March first saw the indoor baseball practice open full swing under the supervision of Physical Director Chase. With much new material on hand all look forward to a snappy winning team.

PROFESSOR GARRIGUS
HEADS ORGANIZATION

Harry L. Garrigus, professor of animal husbandry at the College, has been elected president of the recently organized New England Society of Animal and Dairy Husbandry, according to the announcement made here today. Other officers elected are Prof. J. M. Fuller, University of New Hampshire, vice-president; and Prof. V. A. Rice, Massachusetts Agricultural College, secretary and treasurer.

The purpose of this society, which is made up of men in the department of dairy and animal husbandry in the six New England colleges, is for the advancement of the science and practice of dairy and animal husbandry in the New England states.

OPEN DAY AND NIGHT

The World's Loudest Voice

On the rolling plains of South Schenectady, in several scattered buildings, is a vast laboratory for studying radio broadcasting problems. Gathered here are many kinds and sizes of transmitters, from the short-wave and low-power sets to the giant super-power unit with a 50- to 250-kilowatt voice. Super-power and simultaneous broadcasting on several wave lengths from the same station are among the startling later-day developments in radio. And even with hundreds of broadcasting stations daily on the air throughout the land, these latest developments stand for still better service to millions of listeners.

Only five years old, yet radio broadcasting has developed from a laboratory experiment into a mighty industry. And alert, keen young men have reaped the rewards.

But history repeats itself. Other electrical developments will continue to appear. And it will be the college man, with broad vision and trained mind, who will be ready to serve and succeed.

The Hartford team could not display any thing that resembled the consistent regularity. Trinity showed a repetition of the first, with Connecticut outplaying their Hartford opponents in every department of the game. The Aggie five pierced the Trinity defense time and again connecting for field baskets with monotonous regularity. Trinity showed to advantage towards the last of the half when Coach Dole made several substitutions to give his second team experience, but even there the Hartford team could not display anything that resembled the consistent offense.

President Beach has approved the following increase in prices of windmill broken by students.

- 10 x 14, $1.00

AG. CLUB HEARS
DR. SINNOTT

At a meeting of the Ag. Club last night in Main 7, Dr. Sinnott gave his illustrated lecture on New Zealand and Australia.

Dr. Sinnott visited these sections of the globe in an expedition from Harvard University in 1911-12 and brought back a large collection of photographs. His talk included descriptions of the plants studied and discovered, as well as accounts of adventures and personal experiences.

SAFETY VALVE
To the Editor of The Campus:

There is considerable question among the students as to whether the use of the swimming pool should be restricted to those who are strong swimmers and are capable of swimming safely. It is proposed that those who are not strong swimmers be permitted to use the pool only if they are accompanied by a responsible adult. Such a system would provide for the safety of all users of the pool.

J. L. B. '27.

RUSHING

Now that the smoke of battle has cleared and conditions are more calm on our fair campus, the writer feels that it is incumbent upon someone to cry out against the rushing systems employed by our various fraternities.

The popular conception is that the key to success in rushing lies in one's ability to charm others and to win their favor. However, it is not enough to charm others; it is also necessary to make an impression on the people who are interested in membership.

UTSIDE VERS

The College Male Quartet rendered a selection at the vesper services Sunday afternoon at Storrs Church entitled, "In Heavenly Love Aboiding," by Splinter.

The next appearance of the Quartet will be on March 19th, when several selections will be rendered at the Varsity basket ball banquet. An interesting program is being arranged for the occasion.

The members of the Quartet are Herman Gaugger '27, tenor; Charles J. Anderson '29, bass; Harold Kaltstrom '28, bass; and Willis H. Pratt '29, bass. They are being coached by Mrs. M. E. Alling.

From the New Student we learn of the Phi Beta Kappa's attitude toward the refusal of Floyd Simonston, University of Kansas, to accept a key.

Oscar Vorhees, secretary of the fraternity, says that the key award is not based entirely upon grades, and that few students have refused the key in recent years, and that Phi Beta Kappa "will not miss them."

Simonston refused membership in Phi Beta Kappa because he considered the prevalent system of grading "a false criterion of scholarship and a failure to appreciate the serious purpose toward intellectual achievement."

The salient parts of Secretary Vorhees' reply to the inquiry of the New Student concerning their attitude toward Simonston is as follows: "Phi Beta Kappa does not claim that grades are the final test of scholarship. It does believe, however, that men and women who are in college cannot claim to have made good use of their opportunities unless their work secures some recognition on the part of the faculty. Nor does Phi Beta Kappa base its elections entirely upon grades. The theory prevails that these must be supplemented by good moral character and such interest in the affairs of the institution as to indicate a wide sympathy with the best things in education."

"It is a very simple matter of course for a student to take a supercilious attitude toward Phi Beta Kappa. That can only be the case when he fails to appreciate the serious purpose of the organization, its remarkable history, and the great number of distinguished men and women in other generations as well as our own who count it an honor to be members. You can readily see that we do not worry at all when we take this attitude. Phi Beta Kappa will not miss them. They will miss an association which might be exceedingly helpful and consequently are the only losers."

PhD Beta Kappa does not claim the refusal of Floyd Simonston is as follows: "Phi Beta Kappa will not claim that grades are the final test of scholarship. That can only be the case when he fails to appreciate the serious purpose of the organization, its remarkable history, and the great number of distinguished men and women in other generations as well as our own who count it an honor to be members. You can readily see that we do not worry at all when we take this attitude. Phi Beta Kappa will not miss them. They will miss an association which might be exceedingly helpful and consequently are the only losers."
