9. President Babidge commented briefly on the remarkable build-up and growth of library materials at the Health Center during the past three-year period.

10. Mr. Bishop reporting on the April 10 meeting of the Commission for Higher Education, expressed his concern that the Guidelines for Budget Review as adopted gives the Commission power to request and distribute appropriations to constituent units for campus development and physical facilities.

After considerable discussion, it was agreed that President Babidge would discuss the matter with the Attorney General's office and report to the Board at their next meeting.

11. President Babidge called the Board's attention to a recent co-operative arrangement between the University and the College of the Virgin Islands, designed to strengthen the development of the Caribbean institution. A grant of $100,000 by the U. S. Office of Education will underwrite the joint efforts during the next academic year.

12. The President informed the Board about two petitions which had been submitted by the Connecticut Union for the Revitalization of Education. He also submitted the following recommendations which were approved by the Board.

The Board of Trustees authorized the President to appoint a council on the University's Concern for Human Rights and Opportunities. This Council to be broadly representative of student and faculty and community groups, will include in its membership representatives of the Steering Committee of the Connecticut Union for the Revitalization of Education. The Council will be charged with the following responsibilities:

a) To survey current University efforts directed toward improved Human Rights and Opportunities, and to present to the President an evaluation of their general effectiveness;
b) To propose to the President new and additional programs that might properly be included in University budget proposals for the 1969-71 Biennium;

c) To cause to be initiated, with the approval of the President, such immediate efforts and programs as can be supported with a combination of limited funds and voluntary effort;

d) To offer such advice as it can to appropriate faculty, student and administrative groups, with the object in view of heightening awareness of the urgency of problems in the area of human rights and opportunities;

e) To formulate a general policy for consideration by the Board of Trustees, describing an appropriate role of active involvement for the University in the area of Human Rights and Opportunities, and reconciling this role with established patterns of University contributions to human advancement.

To initiate the work of this Council, and particularly its short-term programs, the Trustees authorized the appropriation of $25,000 from the Continuing Education Reserve Fund. Office space and clerical assistance will be provided for the Council.

2. The Board of Trustees authorized the initiation of a program of special leaves of absence for members of the faculty. Under this Community Involvement Program, up to 25 members of the faculty will be free each Semester to devote their full time and energies to direct involvement in activities designed to improve community programs and attitudes relating to Human Rights and Opportunities. The Council on the University's Concern will assist the President in delineating the guidelines to be followed in the administration of this program. The only requirement established by the Board is that leaves of absence may be granted only with the approval of appropriate department heads and deans.

3. The Board authorized the allocation of $5,000 to the Organization of Afro-American Students, to assist in meeting the expenses of college visiting days designed to acquaint minority group students with the University of Connecticut.

4. The Board expressed its hope that requests for leaves of absence by students to participate in community action programs will be received sympathetically and honored where feasible.

The Board concurred in President Babbidge's recommendation that this program be initiated now, without adequate funding, only as an interim measure. The University will seek an appropriation to sustain this program if it is extended beyond the academic year 1968-69.
13. President Babbidge informed the Board that recent correspondence from Mr. Donald Nash, President of the Associated Students of the University of Hawaii suggested a reciprocal arrangement whereby out-of-state charges would be waived for students from Hawaii who attend the University of Connecticut and vice versa. The President was authorized to study the matter further for report to the Board at a future meeting.
