7. Mr. McCormick reported the Finance Committee's favorable consideration of President Babidge's recent proposal to provide the necessary funding of the CONNECTICUT DAILY CAMPUS. Copies of the proposal were distributed for further review by the Trustees. Several Trustees expressed concern over the subsidizing of the newspaper, however, after discussing all features of the proposal, THE BOARD VOTED to approve the following:

(1) That the President set aside for the use of the CONNECTICUT DAILY CAMPUS during the balance of the current academic year the sum of $15,853.91, derived from the Student Activity Fee income for the Spring semester, 1972.

(2) There will be created this Spring a Board of Finance for the CONNECTICUT DAILY CAMPUS, to which will be assigned full and entire responsibility for the management of the newspaper's financial operations, including its surplus monies, in trusteeship from the University of Connecticut. This Board of Finance shall be comprised of the following members:

ASG President  
Graduate Student Council President  
One University Alumnus who held a position on the editorial staff while an undergraduate, to be appointed by the President.  
One faculty member to be appointed by the executive committee of the University Senate.  
One Administration representative appointed by the President.  
Two professional newspaper men recommended by the DAILY CAMPUS Faculty Advisor and appointed by the President.  
The Faculty Advisor to the DAILY CAMPUS who would serve as a non-voting member.

(3) Within two weeks after its establishment, the Board will meet to elect its chairman, and proceed to establish
the procedures and mechanisms which it deems necessary and prudent to oversee comprehensively the financial affairs of the CONNECTICUT DAILY CAMPUS, and will participate as it deems fitting in such financial matters from that point forward. This Board will set its own schedule of meetings thereafter, but will meet regularly at least at the beginning of each new semester. Special meetings of the Board may be called at the request of any Board member. The Board will elect its own chairman. The faculty representative, professional journalists and alumni member shall be appointed for three-year terms, except that for the initial appointment the faculty representative shall be appointed for one year, and the alumni representative and one professional journalist shall be appointed for two years.

(4) Commencing with the Fall term 1972, the student government fee shall be reduced to $4.00 per semester. A non-refundable fee of $1.00 each semester will be assessed each student for the support of the CONNECTICUT DAILY CAMPUS. These actions will be taken concurrently, in order to preclude any increase of the fees already required of students.

(5) Beginning next fall, all income derived from the CONNECTICUT DAILY CAMPUS fee, together with all newspaper income derived from other sources, shall be in the custody of the Board of Finance, which shall release monies to the newspaper as it deems necessary and prudent for the maintenance of superior standards of student journalism. Accounts for this purpose shall be established by the Controller in accord with pertinent regulations. This Board shall annually report its actions to the University community, and to the President of the University who will make recommendations to the Board of Trustees concerning the assignment of any student fee income not encumbered that year for the newspaper's purposes.

(6) It shall also be a charge to this Board to inquire continuously into the desirability and feasibility of the newspaper's assuming a status of commercial stability, free from institutional subsidy, and that a progress report will be made to the Board not later than June 1973. If such continuing inquiry so warrants, the Board will undertake to pursue policies conceived to encourage the orderly transfer of the CAMPUS to such a position, and will undertake to manage the newspaper's financial operation, including its surplus monies, toward that goal.
The Board of Finance shall at all times exercise care that in its management of the newspaper's financial affairs it does not threaten, interfere with, or otherwise limit the editorial freedom of the CONNECTICUT DAILY CAMPUS.

8. Mr. McCormick called the Board's attention to a proposal to extend the shuttlebus service at the University through the addition of four new buses. Funds for the annual expenditure would be taken from the Auxiliary Service Account (6.4). 9. Mr. McCormick presented the administration's request to submit a bill in the legislature which would designate the policemen at the University as an organized police department. The University, in fulfilling its essential function as a forum for the free expression of ideas, shall endeavor to preserve and facilitate the full enjoyment of constitutionally protected civil liberties, not only as they apply to academic freedom in teaching and research but to the civil activities of the professional staff as well.
Members of the professional staff shall have equal opportunity in their employment regardless of sex, race and religious and political affiliation. The highest standards shall be sought in the protection of all forms of freedom of thought, expression, association, and peaceful assembly. In the exercise of these civil liberties the members of the professional staff are obliged to protect the same rights of others and to bear in mind their respective obligations to their profession and to the University.

Whereas members of the professional staff often have a valuable contribution to make to civil affairs, leaves of absence consistent with Section K13b may be given for participation in a political endeavor or term of office, on timely application and for a reasonable duration. The terms of such leaves shall be set forth in writing, and the leave will not affect unfavorably the tenure status of a faculty member, except that time spent on such leave will not count as probationary service unless otherwise agreed to.

Article X, K. 9 Academic Freedom of the Professional Staff who are Not Tenured

a. Probationary or other non-tenured faculty

If a faculty member on probationary or other non-tenured appointment alleges that in a decision not to reappoint him, there were considerations violative of academic freedom, his allegation will be given preliminary consideration by a grievance committee appointed by the Committee of Three. The grievance committee (See K10) will seek to settle the matter by informal methods. His allegation shall be accompanied by a written statement that he agrees to the presentation, for the consideration of the faculty committees, of such reasons and evidence as the institution may wish to offer in support of its decision. If the difficulty is unresolved at this stage, and if the grievance committee concludes that the decision not to reappoint him may have depended upon considerations violative of academic freedom, the matter will be heard by a hearing committee as provided in Section K6 except that K6b, 6d (1) and 6d (6) of this section shall not apply. The faculty member making the complaint is responsible for stating the grounds upon which he bases his allegations, and the burden of proof shall rest upon him.

If in the opinion of the hearing committee, he succeeds in establishing a prima facie case, it shall be incumbent upon the President or his appointed representatives to come forward with evidence in support of this decision.
b. Administrative personnel who hold faculty rank

If an administrator alleges that in a decision to terminate his appointment to his administrative post or not to reappoint him there were considerations violative of academic freedom, he is entitled to the procedures set forth in K 9a.

c. Members of the professional staff who do not hold faculty rank

A member of the non-faculty professional staff who is dismissed shall be entitled to receive a statement of the reasons for his dismissal and an opportunity to invoke the grievance procedure as provided in Section K 10. Members of the professional staff whose assigned duties include teaching or research are afforded in the performance of these duties the full rights to academic freedom as provided in Section K 2.

If a member of the non-faculty professional staff alleges that in a decision to dismiss him or not to reappoint him there were considerations violate of academic freedom, he is entitled to the procedures set forth in K 9a.

d. Graduate student academic staff

Graduate assistants are afforded full rights to academic freedom as provided in Section K 2, except that in the performance of their assigned duties, they are subject to the direction of their supervisors.

Graduate assistants have the protection provided in K 9c to members of the professional staff who do not hold faculty rank.

That the present section on grievance procedures (K.17) be replaced by the following section.

Article X, K. 10 Grievance Procedures

If a member or a group of the professional staff, or a member of the academic administration (acting in his official capacity) believes there is cause for grievance which cannot be resolved by ordinary means, the aggrieved may request the Committee of Three (Section 6c) to appoint a grievance committee to evaluate the grievance and to make appropriate recommendations concerning its resolution. If, after consultation with the aggrieved, the Committee of Three believes that there may be such substance to the grievance as to justify serious investigation, it shall appoint an ad hoc grievance committee of three to five members, giving due consideration to the selection of individuals acceptable to both parties and to peer group representation.
The ad hoc grievance committee shall receive from the Committee of Three a statement of the grievance and be empowered to have access to pertinent information, to hold hearings and interviews, and to seek informal resolution of the issues raised. The proceedings will be conducted in confidence, and either party, if he so chooses, may be represented. It is incumbent upon all parties to refrain from aggravation of the issues during the course of grievance proceedings.

If the grievance committee is unable to resolve the matter, it may, with the consent of the aggrieved, make a recommendation or statement of findings to appropriate persons or groups of the University.

That present sections Article X K. 9 through K. 16 be renumbered as K. 11 through K. 18.

22. President Babbidge commented briefly on the following items of interest to the Trustees:

(1) The move to the Health Center in Farmington is underway.

(2) The expansion of the evening program at the Law School is receiving further consideration.

(3) The "Parking Facility" bill may receive favorable consideration. This bill would change the $2 million authorization which now reads "Parking Garage" to "Parking Facility," allowing for greater flexibility in the siting and construction of new parking space on the Storrs campus.

(4) The Rathskellar proposal, which would permit the establishment of a Rathskellar on the Storrs campus will be brought before this legislative session.

(5) A bill providing provisional licensure for qualified full-time members of the faculty of the School of Dental Medicine may be reintroduced in the 1972 session.

23. The President requested the Boards approval of a deferred admissions proposal, as an experimental program, that would permit up to 100 incoming freshmen for the fall of 1972 to defer their admission up to one year. The program, the President explained, would break the lockstep progression from secondary school to college to professional school. THE BOARD VOTED to approve the deferred admissions proposal as outlined by President Babbidge. Mr. Macdonald voted against the action of the Board.

24. Provost Gant distributed material relating to the Connecticut Public Expenditure Council's special bulletin of January 1972 on faculty salaries at the University. The Provost noted that faculty salaries had increased considerably since 1964 with a very large increase in 1967, but that these increases for faculty paralleled those for other employees of the State of Connecticut. Further, the percentage increases in faculty salaries from 1964 to 1970 were in the same range as is found for many other classes of
employment, public and private. The Provost also pointed out that in terms of competition with other universities for faculty members the University of Connecticut does not compare as well on total compensation as it does on salary. It was noted further with allowance for inflation there was virtually no progress in salaries since 1967-1968.

Mr. Bishop expressed displeasure with the implication that there was something bad with having good salaries for the faculties.

Mr. Taylor observed that he was pleased to hear of the competitive salary levels and that it was good for the students.

President Babbidge distributed copies of budget data comparing in detail the Board's budget request of $46,174,089 with the Governor's budget recommendation of $43,733,000 for the University. Following a brief discussion it was agreed that the President would support the University's request before the Appropriations Committee.

President Babbidge called the Board's attention to proposed legislation to increase student financial aid allocations. Whereas University of Connecticut students will contribute 43.4% of the State's tuition revenue, last year the President observed, less than 10% of the State's scholarship aid was available to students attending the University. THE BOARD VOTED to approve the President's request to support the proposed legislation. Mr. Macdonald, expressing his preference for aid to students on a loan basis, voted against the action.

President Babbidge informed the Trustees that the report by the Long Range Financial Planning Committee would be distributed for discussion at the next meeting of the Board.

It was agreed that the report on a proposed Management Information System for the University which Provost Gant had mailed to all Trustees would be placed on the agenda of the March meeting.

Mr. Nielsen's motion to go into executive session, seconded by Mr. Waller, was approved unanimously. While in executive session, the Board took the following actions:

(A) THE BOARD VOTED to approve, for purposes of the State Auditors, a formal list of actions already taken on matters of reassignments, appointments and salary increases. The lists were authorized to be signed by the Secretary of the Board.

(B) Mr. Evans called the Board's attention to a drainage problem on land adjoining the Farmington Health Center site. A proposed solution would require a drainage ditch across a portion of the Health Center land. THE BOARD VOTED to deny the request.

(C) Chairman Tasker acquainted the Trustees with the following request from the Board of Directors of the Center for the Environment and Man, Inc.:
That a request be and hereby is made to the Board of Trustees of the University of Connecticut that the Trustees concur in the Corporation exploring the possibility to alternatives of affiliation with the University and, if an acceptable alternative is found, the Trustees consider relinquishing control of the Corporation.

THE BOARD VOTED to approve the above request.
