6. The Trustees discussed at length the proposed 1973-74 budget request of $49,440,961 for the University and its five branches.

Provost Gant in presenting the budget proposal, reported that the University is required to submit its budget requests to the Commission for Higher Education by July 1. The Provost noting that the budget represents an increase of about 10 per cent over the
May 17, 1972

1972-73 appropriation indicated that the largest single increase item is 1.3 million for 153 new positions, only 30 of which are new teaching positions. It provides for additional positions in such areas as library data processing, student services, and the plant custodial departments. He also explained that the budget is designed to accommodate a total student enrollment of 20,600 which represents a 1,200 student increase over the 1972-73 enrollment. The Board was informed that there is a $937,378 increase for merit increments to the professional staff and a $283,390 increase for annual increments to the classified staff.

After considerable discussion, THE BOARD VOTED to approve the proposed University budget request for submission to the Commission for Higher Education. On this action, Mr. Macdonald was recorded as abstaining.

8. Vice President Patterson presented the proposed Health Center budget of $18,488,517 for 1973-74 which includes 1.3 million for the activation of the University Hospital in 1973. Dr. Patterson pointed out that the Hospital subsidy would be reduced by approximately this same amount in 1974-75 when the Hospital will be in complete operation. THE BOARD VOTED to approve the proposed Health Center budget request for submission to the Commission for Higher Education coupled with the understanding that the administration will initiate a plan of action for obtaining additional broad-based financial support to supplement General Fund subsidies as suggested by the Commission for Higher Education.

Mr. Macdonald was recorded as abstaining on this action.

9. Acting on Mr. Taylor's request, THE BOARD VOTED that in the future the budget proposals presented by the administration will reflect the total University proposals involving both general fund and self supporting programs for Trustee discussion purposes and information.

10. An up-to-date report on expenditures to the Kling organization for services related to the Health Center was distributed as an item of information for the Trustees.

11. President Babbidge informed the Board that the University would present a record 4,746 candidates for degrees at Commencement next month. THE BOARD VOTED to approve the awarding of degrees to persons who are certified by the Registrar and the appropriate Deans as having fulfilled the requirements on Commencement Day, June 5, 1972. A list of those qualifying will appear in the Commencement program, copies of which will be distributed at that time.

On this action, Mr. Marcus was recorded as abstaining since he is receiving his degree at Commencement.
12. Mrs. Jorgensen and Mr. Taylor were nominated as Board of Trustee representatives on the University of Connecticut Foundation. Mrs. Jorgensen declined in view of her current role as a Director of the Alumni Association. Mr. Taylor also expressed a willingness to transfer his nomination to some other interested Trustee. Following a brief discussion, THE BOARD VOTED to nominate Mr. Taylor and a Trustee to be designated by Chairman Tasker as the Board of Trustees representatives on the Board of Directors of the University of Connecticut Foundation.

13. The Trustees were receptive to the suggestion that Board meetings might be arranged at other locations on campus.

14. On the recommendation of Vice President Evans, THE BOARD VOTED to change the name of the Security Department to the Division of Public Safety.

15. President Babbidge in his remarks, called the Trustees' attention to the recent retirement resolutions adopted by the faculty of the College of Liberal Arts and Sciences honoring Professors Janet W. Aitken, William Ross Clark, Joseph Arthur Palermo, and George Brandon Saul.

The President noted the completion of the report by the University Governance Committee. He also reported that the committee to begin restructuring student government has been formed and is meeting within the week. He reminded the Trustees of the annual G. M. Loeb Awards ceremony scheduled for this month and also spoke of his invitation to address the July session of the Newcomen Society.

16. Provost Gant informed the Board that the administration has been approached with regard to University interest in submitting within the next few days an application to the Law Enforcement Assistance Agency for federal funds, which if granted, would identify the University as one of six educational institutions in the country conducting a multi-disciplinary training program in various phases of criminal justice. Dean Hugh Clark explained that the federal funds amounting to $200,000 each year for three years would be matched by the University on a one for three dollar basis. At the end of three years federal funding would cease and the University would be expected to continue the program.

During the discussion several Trustees expressed concern with the open-end commitment in any proposal, raised questions regarding the need and demand for this program and objected to the pressure for an immediate decision on the matter. Other Trustees underscored the apparent need for the program and stressed the University's prior interest during the past few years. THE BOARD VOTED to authorize the administration to proceed with the preparation and submission of a detailed program application to the Law Enforcement Assistance Agency. Trustees Benton, Bishop, Jones, Lupton, Kronholm, and Marcus registered in favor of the action. Trustees Jorgensen, Macdonald, Nielsen, Tasker, and Taylor registered in opposition to the action.

Dr. Patterson presented a proposal for the creation of an Advisory Committee for the Health Center. The Committee would serve as an advisory group to the Trustees, the President and the Vice President for Health Affairs on
matters relating to the health professions and the Health Center, especially on items which may be controversial or of public concern. The Committee would review Health Centers programs and compare them with activities at other centers. The Advisory Committee would consider programs conducted on a cooperative basis among hospitals and reflect on the role of the University. Members of the committee would be familiar with the objectives, needs and activities of the Health Center and interpret these programs in the community at large.

Recognizing the need for the Advisory Committee, the discussion by the Trustees focused primarily on the composition of the Committee. Some Board members suggested an increase in the groups to be represented on the Committee and possibly enlarging the membership of the Advisory group. Other Trustees suggested overlapping terms of appointment on a three-year basis, permitting one reappointment and requiring a vacation of one year prior to a reappointment term. It was the consensus of the Board, with the exception of Mr. Bishop, that at the next Board meeting Dr. Patterson would present a list of candidates, suggest terms of appointment, enlarge the membership and prepare the charge to be presented to members of the advisory group following the Board's approval of membership.

(D) Dean Robert Lougee, Chairman of the Presidential Search Advisory Committee and Mr. David Ivry, Secretary of the Committee, met with the Board for further discussion.

(E) THE BOARD VOTED to appoint Provost Gant as Acting President effective July 1, 1972 at a salary of $35,200.

(F) President Babbidge reminded the Trustees of the recommendations concerning development programs in the University and the future organization of administration in this field as suggested by the Burns Report. It was the sense of the Board that further considerations should be held in abeyance pending the appointment of the new President.
