"RESOLVED: That the Board wishes to place itself on record as favoring meaningful cooperation at all levels among the University Branch and other institutions of higher education in the Waterbury area,

including the development of possible programs and facilities to be shared in common; that the Board recognizes areas in which joint activity may yield substantial advantages, and welcomes cooperative developments in these areas which will at the same time preserve the essential characters of the several institutions. Irrespective of the many fruitful directions which cooperative planning for the future may take, the Board is mindful of its responsibilities to the present, and, being aware of serious deficiencies in facilities for student study space, for the handling of reference and library materials, and the like -- shortcomings that will not be corrected by cooperative action -- it further resolves that plans to remedy these deficiencies be pursued without delay. Therefore, the Board urges that the Bond Commission allocate the funds appropriated by the General Assembly for improvement of existing facilities at the University's Waterbury Branch.
