11. The President presented to the Board of Trustees, a communication calling attention to a resolution passed by the 1938 session of the Connecticut State Grange suggesting that some present or future building at the University of Connecticut be named as a memorial to J. Howard Hale of Glastonbury. THE BOARD VOTED to accept the resolution and to file it for later consideration in connection with the naming of buildings to be constructed.

12. The President presented to the Board of Trustees, the recommendation of Resident Counselors of Women's Residences that one of the new dormitory units for girls be named for Miss French. THE BOARD VOTED to accept the President's recommendation that the dedication of all new buildings be deferred until such time as all buildings could be dedicated at a single all-University convocation program. 16. The President advised the Board of Trustees of the meeting (held prior to the Board meeting) with the architects, contractors, State Comptroller, Director of the Real Assets Division, and State inspectors, regarding the progress on Project "D" (Girls' Dormitory Group). The meeting held on Wednesday was one of a series devoted to the discussion of delays and lack of satisfactory progress on this group of buildings. These buildings, according to the contract, were to be completed by the opening of college. The President, over a period of three months, has continually warned the Real Assets Division, the architects, and the contractors, that the buildings would not be ready for occupancy as planned and agreed upon. The administration of the University will again face difficult problems with the opening of the college year due to failure of other agencies to meet construction schedules. The President agreed to keep the Trustees advised regarding plans for solving the problems created by these delays.

Respectfully submitted,

-9- J. Ray Ryan
Secretary
