"President McCracken has done splendid work for the college and State. It seems impossible now that he could have done what he has done in five years. It has been a wonderful achievement. I am sorry beyond measure that he feels he must give up the work which has been so successful here. I can not understand all his feelings in regard to the matter. The position now open is one most congenial to
his temperament. He will now be able to devote his whole attention to educational problems without the worry of finances or the details in the administration of a college. There is only one thing we can do and that is to receive and accept his resignation with the very greatest regret. Under his guidance the college has become one of the foremost state colleges in the country."

Mr. Potterton, Mr. Larsen, Mr. Prackleton and Mr. Nothnagle, four representatives of the student body, were called in to present their views in regard to the resolution of April 17th.

IT WAS VOTED to insert the following statement in the minutes as an interpretation of Section ¾, paragraph #3 of the minutes of April 17th:

The Board of Trustees has full confidence in the loyalty and patriotism of the faculty and students. The action taken by the Board on April 17th last was for the purpose of preventing public agitations on the campus by a small minority, with the design of hampering the effectiveness and work of an established department of the college or to evidence disloyalty to our country. The Board recognizes the individual's right to freedom of speech and has no desire to curb it.
