University of Connecticut
Chair, Institutional Review Board
FWA #00007125

January , 2017

Dear Dr. Jaci L. Van Heest ,

I had a wonderful conversation with your student Marina Vravecic, and received a brief overview of her research study and I am writing this letter in support of her project. As the Vice President of Programs and Education at the Alzheimer's Association Connecticut Chapter, I will allow Marina to attend our caregiver programs to explain the purpose and procedure of her study to the program participant, particularly caregiving wives, so that she can ask them if they would be willing to participate in her study.

I am confident that she will be well received by the participants I am in contact with and I am so grateful that she has taken an interest in studying caregiving and early stage dementia.

Please feel free to contact me with any questions or concerns.

Sincerely,

Carolyn DeRocco
Vice President of Programs and Education
Alzheimer's Association, Connecticut Chapter
