MINUTES OF A MEETING OF THE UNIVERSITY SENATE

1. The regular meeting of the University Senate of March 12, 2001 was called to order at 4:05 p.m. in Room 7, Bishop Center, by Mr. Palmer, Moderator.

2. The Minutes of the regular meeting of February 12, 2001 were approved as distributed.

3. Mr. G. Anderson presented the written Report of the Senate Executive Committee.
   (See Attachment #27)

As part of his report, Mr. G. Anderson made the following motion:

Moved to suspend the rules that provide that votes be taken during the same meeting that motions are made. This suspension applies only to main motions made during the 2001 spring semester for proposed changes in General Education Requirements (GER). For these motions, the vote will be taken at a subsequent meeting.

Following clarification that this rule will apply to the main motion or a motion to substitute but not to amendments, the motion carried.

Mr. G. Anderson then recognized Mr. Clausen who reported on the February 22, 2001 meeting of the Board of Trustees
   (See Attachment #28)

Chancellor Petersen, reporting in the absence of President Austin, touched briefly on the following items:

a. The University continues to be concerned about the disparity between the Governor’s budget and the University’s proposed budget. Efforts to close the gap are continuing.

b. The Chancellor apologized for the problems and disruptions caused by the weather. He commented on the decision process for closing the campus, particularly as it relates to any statewide decision by the Governor.

c. The Chancellor has asked the deans to project what they would do with a budget modification of plus or minus two percent (+/- 2%). He stressed that the University must be built on quality, not incremental change.

d. The Chancellor raised a concern about the decrease in research funding from $60M to $55M.

e. Chancellor Petersen mentioned that PTR reviews are underway. He has some concerns about consistency which he will address with the deans and department heads.
f. Responding to questions, the Chancellor commented that he is also concerned about the drop in the number of graduate students and that research funding is not the sole measure of research quality.

The Senate Executive Committee (SEC) has met twice since the last Senate meeting. On 2 March, we met with the Chairs of the Senate Standing committees, and enjoyed a full meeting on a day that the University was not closed by fear of bad weather. The date of the Trustee-Faculty dinner is set for 12 April; more information will be forthcoming from Janine Caira and the organizing committee. The Enrollment Committee has been working with the Director of Institutional Research, Pam Roelfs, and will make a report later this semester on relative (to some peer institutions) student/faculty ratios. A preliminary report from the Scholastic Standards Committee indicated that they were satisfied that the Honors Board of Associate Directors (which reports to the SSC) of the Senate-operated Honors program, has amicably accepted the proposed changes in the title (and some limited responsibility changes) of the Honors Director, to be advertised as Associate Vice Provost and Director of the Honors Program. The Chair of the SSC was asked to file a formal written report to the SEC to that effect so that there will be a written record of changes in the Honors Program. There was also discussion regarding the rate of review of the General Education Reform proposals, and regarding handling of significant proposals for change. The SEC and Chairs reiterated that it is most important that there be full discussion of all suggested changes, and recognized that such discussion might take until well into the next academic year. We anticipate that the C and C Committee will bring some materials to us for consideration, but do not wish to see actions on a program so elemental to undergraduate education rushed. A formal proposal for consideration of major motions is presented at the end of this report.

On 9 March the SEC met just prior to the University being closed at 2 PM. This meeting was scheduled with the President and Cabinet, but all senior administrators had last-minute obligations that took them away from the meeting. Chancellor Petersen was able to meet with the SEC for a few minutes before attending a luncheon with U.S. Senator Christopher Dodd. The Chancellor and SEC Chair, Greg Anderson, met and selected persons for the Calendar Committee, which is expected to start meeting very soon, with one possible agenda item being adjustment of the schedule so that there also could be a December Commencement event. The SEC members in camera discussed a number of items pending. A subsequent highlight of the SEC meeting was reports from several Senate-appointed members of University Committees. Jack Clausen (BOT Institutional Advancement), Kent Holsinger (BOT Finance) and David Palmer (BOT Academic Affairs) offered detailed reports on various committees of the Board of Trustees. John DeWolf and Gary Epling presented summaries of various issues brought to the Space Committee. It appears that the Lakeside building may continue to be used, at least partially, for housing longer-term visiting scholars; a report on this is expected soon. A written report from Mike Kurland from the BOT Student Life Committee indicated they have been busy, and from Susan Spiggle that the Athletic Advisory Committee has been meeting regularly.
MOTION ON RULES regarding major By-Laws changes: Former Senator Peter Halvorson suggested that the Senate might consider utilizing a policy the Board of Trustees uses in dealing with major By-Laws changes. That is, they never vote on such changes at the same meeting in which the proposals are first raised. This provides the opportunity for all parties to fully examine the ramifications of the proposals. Many of the changes we deal with are not of this magnitude, and thus do not call for any change in our present modus operandi. However, with issues like the program of general education, it seemed to us that there might be proposals for change of more general significance. Thus: On behalf of the Senate Executive Committee (SEC):

"I move to suspend the rules that provide that votes be taken during the same meeting that motions are made. This suspension applies only to main motions made during the 2001 Spring semester for proposed changes in General Education Requirements (GER). For these motions, the vote will be taken at a subsequent meeting."

Irene Q. Brown              Scott E. Kennedy

                                           Gregory J. Anderson, Chair

Jack Clausen will now report on a recent Board of Trustees meeting.

SENATE GROWTH AND DEVELOPMENT OF THE UNIVERSITY COMMITTEE
March 12, 2001

The Senate Growth and Development of the University Committee has the responsibility of keeping under review the general changes, actual and prospective, of the University over time. Unlike most standing committees the Committee has representatives from other Senate standing committees. During the 2000-2001 academic year the Committee held several meetings and considered a variety of issues, including:

UNIVERSITY OF CONNECTICUT CAMPAIGN: The Committee continues to interact with the UCONN Foundation regarding the process for identifying campaign priorities.

MASTER PLANNING: The chair of the Growth and Development Committee has been made a member of the Master Planning Advisory Committee and has interacted with that committee on Master Plan II that includes the outlying parcels.

VISITING SCHOLARS: The Committee had continued to advance the notion of a “Visiting Scholars Program” and introduced a motion, supporting the creation of a University committee to develop such a program, that the Senate approved.

ITEMS UNDER CONSIDERATION:
1. The Committee will continue advancing visiting scholars’ issues.
2. The Committee will review the status of UConn 2000 and provide a summary for the Senate.
