The science of Agriculture is in a great degree founded on experience. It is therefore of consequence that every farmer should know what has been done, and what is being done by others engaged in the same occupation, and he should impart to others the fruits of his own experiments and observations.

George M. Greene, '99, Exchange.

Entered as second class mail matter at the Storrs Post Office May 11, 1896.

EDITORIALS

To the students of Storrs Agricultural College the S. A. C. Lookout sends "Greeting."

Students, Alumni and friends, our College paper needs your support and the best way that you can do this is to subscribe at once or, if you are already a subscriber, be sure that your subscription is paid to date.

The business manager will receive stamps in payment.

Storrs Agricultural College will play the Rhode Island Agr't College at New London Athletic field Oct. 23, we wish to call attention to the ad, on a following page and it is hoped that all Alumni and friends of this institution will help us by attending and by financial aid if possible.

At a recent meeting of the Trustees, a petition was presented from the students asking for a new athletic field. The honorable Board appointed a committee to look up the affair and report at the next meeting. The committee reported favorably on the desired field which lies south of the grove on the Crane farm and the Trustees are contemplating improving the field by draining and leveling. The portion of the field that has been given us, is not in a suitable condition to use for Athletics at the present time, as it will have to be drained and leveled considerably.

The College year opened Sept., 13, 1897, with a large entering class and from present appearances, it seems that most of them are intending to remain. The Senior class contains 15 students; the Junior class contains 17 young men and 5 young ladies, making 22 in all, of which 5 entered this year; the sophomore class contains 18 young men and 14 young ladies, making 32 in all, 19 of which entered this year; the freshman class contains 18 young men and 3 young ladies, making 21. The whole number of students in the institution is 90 being the largest number that have attended at any one time.

One of the improvements now needed to bring the college up to the times, and have it present a better appearance, is compulsory uniforms for the military company.

At the present time the uniforms are optional, and as only a few students procure them, the company presents a very poor appearance. The uniform is the cheapest suit that a student can buy, as it is tailor-made and will easily outwear any two ordinary suits. The color which has formerly been a gray, has been changed to a dark blue, which appears to be more durable and becoming.

The muskets now in use, are not the most approved pattern, and new ones of a later make have been applied for. With these improvements, there is no reason to doubt that by the end of the year, the military company will present a fine appearance.
There have been, in the past few months, many important changes in the Faculty, and as everyone who is interested in the College must take an interest in the instructors who are secured, we print below a short sketch of their lives. We regret to say that Dr. Mayo and Miss Knapp arrived too late to be interviewed by our reporter.

Rufus Whittaker Stimson, \(\textit{Harvard}\) A. M., \(\textit{Yale}\) B.D., Professor of the English Language and Literature.

Rufus Whittaker Stimson was born Feb. 20, 1868, on a farm in Palmer, Mass., which always has been his home. His early education was had in district and village schools.

Owing to family misfortune, however, he was obliged to begin work when a small boy; and after his twelfth year he had no stated schooling, excepting two terms during nine years. He worked as growing strength and capacity enabled him to do; first, in a cotton mill; then, as office-boy; later, as telephone operator and inspector; and the last few years, at teaming in farm work and lumbering. He was needed at home, and remained there until he became of age.

During these years Mr. Stimson discovered a taste for thought and study, and became a careful reader. And immediately upon becoming of age he began to fit for college, completing his preparation for the regular academic course in one year and a fraction of the summer vacation.

Being wedded to the "small college idea," and having fitted under a Colby man, Mr. Stimson at once entered Colby University, Waterville, Maine, intending to be graduated there. At Colby he studied two years. The following year, however, he was obliged to be in Boston three times a week for competent surgical treatment. This necessitated a change of residence, which was taken up at Cambridge.

At Cambridge Mr. Stimson entered Harvard University; where he was graduated, A. B., with special mention in philosophy, in '95, and in '96 received the degree, A. M., for post-graduate study. While at Cambridge, also, he took extra courses in divinity; having to his credit at the end of his residence there, the equivalent of two and four-tenths years of the regular three-years course. To cover this, a special certificate was given him, signed by the Secretary and Dean of the Harvard Divinity School. And with this certificate in hand he was admitted last fall to the senior class in the Yale Divinity School where he was graduated last May.

During his academic career a few honors have come to Mr. Stimson. In the preparatory school he was a prize winner in declamation. At Colby annually there is held "The Sophomore Declamation"; the test being two-fold, a place on the programme being determined by high rank in rhetoric; and the winning of a prize, by superiority in speaking. Mr. Stimson was given a place on the programme, and won first prize.

Also, at Harvard, in the spring of '95, he was one of the forty men who qualified and competed for a place in the final contest of "Boyiston Prize Speaking." The competition at this speaking is very sharp, every year, owing to the great number of competitors, to the large prizes, and to the high honors. The contest is open to members of the junior and senior classes; and the prizes are considerable, the first being $60, the second $45. The test is by something like an absolute standard; for the first prize may be withheld, and in '94 no first prize was awarded. In '95 the test also was comparative in a popular way; for two winners in Harvard-Yale and Harvard-Princeton debates, Mr. Hutton and Mr. Ball, who tried at the preliminaries, failed to win places on the final programme. Mr. Stimson was one of the twelve men selected for the final contest and despite the undoubted handicap of being the first man on the long programme to speak, won second prize. So much in the matter of form and tact and force in public address. On the more scholarly side at Harvard, Mr. Stimson was "Hopkins Scholar." The income of this scholarship is $325 a year, and there is no larger amount in the gift of the Divinity department, under which this was held, open to one who does not already hold the degree, B. D. He had previously
held other scholarships, all scholarships at Harvard being upon a competitive basis. At Yale Mr. Stimson was one of the twelve men chosen from the Senior class to address the Divinity School during the year at the Wednesday afternoon exercises. While at Colby he was Campus Editor of the "Colby Echo" At Colby, also, Mr. Stimson was a member of the intercollegiate fraternity, Delta Kappa Epsilon; and at Harvard he was Secretary of the Harvard Association of Delta Kappa Epsilon, which was made up of graduates from other Colleges who were taking postgraduate courses in the University.

This is Mr. Stimson's first term at Storrs since his appointment to the Professorship of English Language and Literature, and this term he is employed only part of his time. Up to this week he has given all his time and attention to starting his courses, which are now well under way. Hereafter, however, he will be in Storrs only three days a week; devoting the remainder of his time, in part, to visiting different cities to study the methods of teaching English employed in representative New England high schools and colleges, and, in part, to special research in English at Harvard University.

Henry Arthur Ballou, B. S., Instructor in Botany, Entomology and Commandant Cadets, was born in West Swanzea, N. H. July 23, 1872. He soon removed to Pittsburg, Mass. and attended the High School there for a little over a year. In the Fall of '91 he entered Amherst Agricultural College and graduated in the class of '95. After leaving College Mr. Ballou secured a position in the Experiment station of the Gypsy Moth Department of Mass. Board of Agriculture and remained in that position till Jan. 1, 1896. While thus engaged Mr. Ballou had charge of the Gypsy Moth Exhibit at the Mechanics Fair at Boston, Oct. and Nov. '95. On Jan. 1, 1896 he went into business with H. L. Frost, M. A. C. '95, under the firm name of H. L. Frost & Co., economic entomologists and dealers in insecticides, spraying apparatus and pruning apparatus. On Sept. 1, he left H. L. Frost & Co., and in Oct. began teaching in Pratts' School, Mason, N. H. and continued there and in Bernardston for about a year. Mr. Ballou was engaged June 28, 1897 to teach Entomology during the Summer Term, at the close of which he was engaged to fill his present position.

Charles Augustus Wheeler, B. A., the instructor in Mathematics, was born at Trumbull, Conn., Aug. 15, 1871. He graduated from the Storrs Agricultural School in 1888; from the Bridgeport High School in 1891; and from Yale University in 1895.

In college he was a member of the Zeta Psi fraternity, rowed three years on his class crew, and was a first division student.

The school year 1895 - '96, Mr. Wheeler spent as Instructor in the Classics in the Brooklyn Latin School and the past year as a private teacher of Mathematics and the classics, in Richmond, Va. He has never regretted the years he passed at Storrs and in his new work returns to his Alma Mater as to his home.

Miss Lulie Griggs Lincoln, the lady principal, and instructor of vocal and instrumental music, was born in Chaplin Conn. on April 11, 1872, where she spent the largest portion of her life.

In 1888, Miss Lincoln began to teach in Chaplin; she taught for one year, and in 1891 entered the New England Conservatory of Music, at Boston, where she continued her studies for four years. In 1895 Miss Lincoln secured the position of instructor of vocal and instrumental music at Storrs Agricultural College, and in 1897 the position of lady principal was added to her other duties.

Miss Louisa E. Saxton, who fills the position at the present time of matron and housekeeper, has for two years been residing in Norwich Town, Connecticut. Miss Saxton has spent much of her time in our large cities, but she is very much pleased with S. A. C. in every respect, and has the interest of the students at heart and is willing to help them in every means in her power.
Miss Jessie Spencer Bowen, Librarian, was born in Eastford, Conn., April 5, 1877. She graduated from Woodstock Academy, Woodstock, Conn., in the class of '95, and in the summer of '97 took a course in library training at the Summer School of Library Economy connected with Amherst College.

**ALUMNI NOTES.**

The subscription paper for the benefit of the Foot-ball team has been circulated among the Alumni rather slowly; only the following have responded: Pierpont, Frisbie, Shedd, Eddy, Case, and Foskett.

The students and faculty are taking more interest in foot-ball this year, than they have in the past years, and have responded liberally to the appeal of the manager for financial support.

It is hoped that every loyal S. A. C. man will not refuse to contribute his share to the cause, even if the subscription paper does not reach him.

All contributions should be addressed to the Manager of Foot-ball Team, Storrs, Conn.

R. D. Beardsley, '97, is playing half-back on the Waterbury Y. M. C. A. foot-ball team. He also has charge of their athletic field.

A. C. Gilbert, '97, returned Oct. 1, to assist Prof. Phelps at the Experiment Station.

A. H. Griswold, '91, is coaching the foot-ball team at Storrs.

R. D. Gilbert, '97, is assisting Prof. Phelps in the Extension Department.

Miss Erma Fuller, '97, is teaching school in Quarryville, Conn.

C. S. Francis, '96, who graduated from the short course, returned this fall to complete the full course with the '98 class.

C. A. Wheeler, '88, lately a graduate of Yale University, began his duties this fall, as Prof. of Mathematics, at Storrs.

C. L. Foskett, '97, recently presented the Storrs Athletic Association with a first-class foot-ball.

Grover H. Johnson, '97, has entered Greenwich Academy, Rhode Island, to prepare for a law course.

Shedd, '95, is teaching school in Preston City, Conn.

Miss Louisa J. Rosebrooks, '94, is dress-making in Hartford.

**COLLEGE NOTES.**

The charter members of Will Chamberlain's chicken establishment were served up on Sunday, Sept. 19.

It is reported that the Manager of the foot-ball team tried to arrange a game with Engleveille Y. M. C. A. but failed to do so as there was no organization of that character there, the nearest approach to it being "Vinton's Sacred Concerts."

We are sorry to announce the fact that I. E. G. A. Waterman has resigned his position here as Professor of Veterinary Science and Instructor of Military Tactics, and has accepted a similar position in the Michigan Agricultural College. Mr. Waterman has labored here for four years and was held in high esteem by students and Faculty.

The college did some exhibiting at the fair this year, although not so much as was planned for, since many of the crops designed for exhibiting failed on account of the trying season.

The reception given to the new students was well attended, and was a grand success. The programme consisted of speeches by members of the faculty, an address by the Rev. H. R. Ricketts of Hartford, and plenty of good music. After the literary program was concluded an intermission was declared and refreshments served. All went away wishing success to the organization having so noble an object.

The Senior Class resumes its work with a membership of fifteen, all of whom intend to graduate. The election of Class officers resulted as follows: Max Shaffrath, President; C. F. Chapman, Vice President; C. G. Smith, Secretary; J. W. Pincus, Treasurer; H. F. Onthurp, Assistant Treasurer. Mr. A. Bidwell did not return this fall and C. S. Francis, a short course graduate of '95, has returned and become a member of the class.

The faculty granted the petition of the students to attend the Willimantic Fair, and nearly all availed themselves of the opportunity, Sept. 29.

Our cadet drum corps is making creditable progress and we hope that by its presence
the drill hour will be made more interesting. Mr. Barrett, our landscape gardener, spent a few hours with us recently. During his stay he suggested several changes which will soon be made.

The monthly reception was held in Grove Cottage, on Sept. 24. Dancing and games occupied the evening, and all went away agreeably impressed with our new Lady Principal's hospitality.

As yet, no minister has been engaged to fill the pulpit of the Second Cong., Church of Mansfield. The supply committee has furnished us with a choice selection of preachers, who have delivered sermons showing that confidence in them was not misplaced.

Messrs. J. W. Pincus and H. V. Bingham were delegated by the College Shakespearian Club to visit the associate Club at Amherst Agricultural College, which they did a few days ago.

The changes in the faculty will be noticed by observing the new list on the front page.

At the last meeting of the Board of Editors, J. M. Stocking '99, handed in his resignation as Editor of Alumni notes and H. V. Bingham '99, was elected to fill the vacancy.

Contrary to custom, the Junior Class received additions this year: Messrs. Gilbert, Ayer, Nettleton, and Shumway. Mr. G. M. Greene is President; B. H. Walden, Vice-president, Miss I. H. Hobby, Secretary; and Miss Elsie S. Leach, Treasurer.

The members of the Board of Editors and of the Foot-ball Team had their pictures taken by Townsend of Willimantic, at the College. The pictures will be ready in a few days and can be obtained from Mr. J. W. Pincus '98. The size of the pictures is 10 by 12 inches and the price is 50 cents.

Miss E. Valentine is taking up Horticulture with the Senior class and Botany with the Sophomore class.

The excessive rains during the past season showed clearly the incapacity of the drains in the lower end of the swamp to remove the surplus water. To remedy this difficulty two short lateral drains have been added.

L. F. Bancroft, '98 and H. V. Bingham, '99 have severed their connections with this institution and have gone to East Greenwich to take an Academic course. After they have completed the course, they intend to study law at Cambridge.

Trustees Hammond, Gold and Hubbard spent a short time with us recently; looking over the campus and buildings, making provision for the disposition of funds.

The first fire drill occurred on Oct. 13. The different positions, having been previously allotted to each cadet, were quickly filled and the different duties speedily performed.

The number of new students this year increases the total number of students enrolled to nearly a hundred, including young ladies.

Prof. H. A. Ballou, is taking charge of the Military department, in addition to his other duties. He is endeavoring to secure cadet rifles to replace the old time-honored muzzle loading muskets that have been in use ever since the installation of military drill as a part of the course.

A mass meeting was held in the Chapel on Monday night to change, if possible the style of uniform for future drill. The vote resulted unanimously in favor of a navy blue uniform, with black braid, similar to 'a style just introduced into the U. S. Army. In view of the fact that compulsory uniforms would add signally to the interest of the drill a petition has been passed in to the Trustees asking that uniforms shall be made compulsory. Although it will, perhaps, if passed, seriously embarrass many of the students here to procure a uniform the result will more than repay the inconvenience occasioned there by.

Dr. Mayo has been called to his home in the West on account of illness in his family.

The domestic science teacher, Miss. Knapp has arrived and has begun teaching the classes as signed to her.
AThLETICS.

The first game of football of the season was played on Sept. 18, between the 98's and the remainder of the College which resulted in a victory for the 98's.

The following Saturday the College team received several new players but they were again defeated, and the 98's are now recognized as the champions in football.

Storrs vs Norwich Free Academy.

The first game of the season, was played with Norwich Free Academy at Norwich on Saturday, Oct. 2.

The game was called at 3:15 p.m. Storrs won the toss and chose the south goal. Howe of Norwich kicked off to Francis who advanced it 20 yards. By a series of end and tackle plays the ball was carried to Norwich's 10 yard line where it was lost for an alleged off side play.

Norwich then advanced the ball across a stubbornly contested field, scored a touchdown and kicked a goal. As no other score was won in the first half it stood at the close, Storrs 0, Norwich 6.

The second half opened with a kick off by Storrs. Norwich soon lost the ball on four downs, and Storrs advanced it up the field, scoring a touchdown. The goal was not kicked.

Norwich kicked off and after some hard playing scored a touchdown, from which a goal was kicked. Storrs kicked off again and soon obtained the ball on four downs and pushed it steadily down the field until time was called with the ball on Norwich's 3 yard line.

Score, Norwich 12, Storrs 4.

Time of halves 20 and 15 minutes.

Umpire A. Cost. Referee H. B. Carey.

Touchdowns Onthrup, 1; Donahue 2.

Storrs vs Young Men's League.

The second foot-ball game of the season was played on the home grounds Wednesday Oct. 6, with the Young Men's League of Willimantic.

The Willimantic boys arrived at 3:30 o'clock and the game was called promptly at 4:30 o'clock. Willimantic won the toss and chose the west goal. The game was opened by Storrs kicking off. The Willimantic were soon forced to punt which gave the ball to Storrs, who soon lost it on a fumble. Both teams now punted several times, but the Willimantics were held for four downs giving the ball to Storrs who advanced it up the field, and Mansfield scored a touchdown but the goal was not kicked.

Willimantic kicked off and the ball was advanced about 30 yards by Mansfield and later about 20 yards by Onthrup. A touchdown was soon made by Francis, and Webb kicked the goal. The half soon closed leaving the score, Storrs 10, Willimantic 0.

Second Half.

Willimantic kick off, Francis advanced the ball 40 yards, but soon lost it on 4 downs and regained it on a fumble. Several tackle plays were then successfully made until the ball was on the twenty yard line when Webb made a drop-kick for goal, which failed.

The ball was brought out to the twenty-five yard line and scrimmaged for, but it was soon lost on a punt. Mansfield then advanced the ball but a forward pass to Francis gave the ball to the Willimantics who were held for four downs. Mansfield then made a good gain and later scored a touchdown and Webb kicked a goal.

Time was soon called with the score:—Storrs, 16, Willimantic, 0.

The manager of the foot-ball team has arranged the following games for the season: Oct. 16 Storrs vs. Manchester Athletic Club at Storrs; Oct. 23 Storrs vs. Rhode Island State College at New London; Oct. 30 Storrs vs. Middletown High School at Storrs; Nov. 6 and 13 are reserved for the League games.
Nov. 20 is an open date; Nov. 25 (probably) Hillhouse High School, at New Haven. There will be probably a few practice games on Wednesdays with teams from the surrounding towns.

Storrs vs New London.

On Oct. 9, the eleven went to New London and defeated the Athletic Club of that place by a score of 10 — 8.

The game was an exciting one from start to finish. The game was called at 3 P. M. sharp, and New London won the toss and took the west goal. Storrs kicked off to O'Brian who was downed in his tracks.

New London then rushed their ball by a series of end and tackle plays over the goal line, but failed in the try for goal. Storrs again kicked off to New London who fumbled the ball and Lyman fell on it. At this time Mansfield's place was taken by Griswold. Storrs soon lost the ball on four downs and New London then rushed the ball over for a touchdown from which no goal was kicked, leaving the score at the finish of the first half 8 — 0 in New London's favor.

The second half opened with New London kicking off to Lyman who made a good gain. Storrs now settled down to steady work and by bucking the line and by formation plays they worked down the field and Webb made the first touchdown for Storrs from which he kicked the goal. New London again kicked off to Lyman who advanced it well. By bucking the line, and long runs by Onthrup and Francis, Storrs again scored. Webb failed at goal. New London again kicked off and after changing hands several times, time was called with the ball in New London's possession on Storrs' 40 yard line, leaving the score 10 to 8, in favor of the college boys.

For Storrs, the line-bucking of Webb & Griswold were the features of the game; while for New London, Roe played a 'star' game. This game showed much improvement over the game played on the previous Saturday.

Line up of the teams.

Gillette Center Cullen
Smith right-guard-left Gear
Pettee left-guard-right Elliott

Hoadly right-tackle-left Mackol

ADMISSION 25 Cents
EXCHANGES.

The exchange department is an essential part of our paper as the exchanges received are read with much interest, and by adopting the good ideas of the other papers and avoiding their weak points, an improvement can be made in our own paper.

"The Pioneer" holds an acceptable place in our list of exchanges.

"The Lake Breeze," for July, is an interesting number. Their frontispiece is very artistic and is an admirable idea.

"The Climax," has a fine story entitled, "One Memorial Day."

"Aggie Life," is welcomed as a regular exchange from our sister college, in Massachusetts.

"The Chronicle," has an excellent article in its May number entitled, The Missionary's Joke.

We welcome "The Planet" as a new exchange; also "The Industrialist," published in the interest of the Kansas Agricultural College.

"The Academy Journal," published by the Norwich Free Academy, is edited in fine shape and is an acquisition to our list.

We hope to have space to mention more of our exchanges in our next issue.

FACULTY.

B.F. KOONS, PRESIDENT. Professor of Geology, Zoology, and Political Science.

A. B. Peebles, Prof. of Chemistry and Physics.

C.S. Phelps, Professor of Agriculture.

Nelson S. Mayo, Professor of Veterinary Science.

A. G. Gulley, Professor of Horticulture.

H. S. Patterson, Instructor in Wood and Iron Work.

Miss Lulie G. Lincoln, Lady Principal and Instructor in Instrumental and Vocal Music.

Miss Maud Knapp, Instructor in Domestic Science.

Miss L. J. Barber, Instructor in Mathematics and English.

HAND SHIRT IRONING

means a nicely ironed shirt with much less wear and tear than machine work. Our new method of turning point and turn down collars positively avoids breaking and gives a smooth turned edge to both old and new collars.
