"2011 May 7-8" (2011). Commencement Programs. 115.
https://opencommons.uconn.edu/upub_commence/115
WELCOME FROM THE PRESIDENT

I congratulate the members of the Class of 2011 and your families on the achievement we mark at these Commencement exercises.

The past years have been a time of change, progress, and exhilaration for each of you, and for the institution you have been a part of. Our University, long a leader in our region, has grown stronger every year you have been with us. Many of you contributed mightily to our success. You arrived at UConn well prepared for higher learning, intellectually curious, and perhaps a bit anxious about the life you were entering. Now, as you leave us, you can take satisfaction in knowing you met high standards in and out of the classroom, took advantage of the opportunities we offered, and prepared yourselves well for the challenges that lie before you.

Those challenges may be substantial. You enter a world shaped by economic turmoil, acts of terror, religious and ethnic conflict, and technological advances that may bode good or ill. It will be for each of you, in your own way, to try to build a better society, even as you strive to build meaningful and productive lives for yourselves. It is said that of those to whom much is given, much is asked. You have been given supportive families, a nation built on democratic values, and, now, a first-class education. You will be asked to give much in return.

This will be the twelfth year in which I have had the privilege of presenting degrees to our graduating students; next year that honor will go to a new President of the University. Each time I do this I am reminded of how much this milestone means to our graduates, to our faculty, and to all those who care about UConn. There is no event more meaningful in the life of a great institution of higher learning.

I hope you enjoy this day, and that you always value your association with the University of Connecticut. We are tremendously proud of you and we wish you the very best for a bright, happy, and productive future.

Charles D. Hepler, Ph.D. is a distinguished professor emeritus at the University of Florida College of Pharmacy.

Dr. Hepler received his Bachelor of Science in Pharmacy from the University of Connecticut in 1960, and a Master of Science and Doctor of Philosophy from the University of Iowa in 1965 and 1973, respectively. He has served on faculties in Iowa, Virginia, and Florida. During his 44-year career, Dr. Hepler consulted on pharmaceutical care projects in Denmark, Spain, and British Columbia, and helped to develop and demonstrate the quality application of indicators for medication use in community pharmacies in the United States and the United Kingdom.

Dr. Hepler has published more than 80 articles, 14 book chapters, and three books, and has spoken at professional meetings in 15 nations. In 2010 he received the Harvey A K Whitney Award from the American Society of Health-System Pharmacists, and in 2005, received the Phi Chi Lecture Award. He was co-recipient of the 1997 Remington Medal from American Pharmacists Association and recipient of both the 1997 Federation Internationale Pharmaceutique Pharmaceutical Practitioner of the Year and the 1997 American Society of Health-System Pharmacists Award for Sustained Contributions to the Literature of Pharmacy Practice in Health Systems. Dr. Hepler received the 1992 Research Achievement Award in Economic, Marketing and Management Sciences from the American Association of Pharmaceutical Scientists; the 1991 and 1998 American Pharmacists Association Research Awards in Social, Economic and Administrative Sciences; the 1989 American Society of Health-System Pharmacists Research Award; and the 1986 American Society of Health-System Pharmacists Award for Achievement in the Professional Practice of Hospital Pharmacy. He was designated as a distinguished alumnus by the University of Connecticut School of Pharmacy in 1998 and by the University of Iowa College of Pharmacy in 1999.

Dr. Hepler is presently a custom furniture maker and a volunteer teacher of English as a Second Language in St. Augustine, Florida.

RECESSIONAL
Susan Rigano
Class of 1998

Sue Rigano is the Executive Director of the Stamford Public Education Foundation. The Foundation's mission is to support the students and teachers in Stamford's public schools through community collaboration and philanthropy.

Prior to starting at the Foundation, Ms. Rigano spent a year and a half consulting with a number of local nonprofits, including Stamford Achieves, CET Inc., Bridgeport Child Advocacy Coalition, Yerwood Center and others. From 2002 to 2008, Ms. Rigano was a member of the Community Investments team at Pitney Bowes where she worked with nonprofits across the country to manage employee volunteer programs and facilitate donations from the Pitney Bowes Foundation. She also worked as the Director of Development at Mercy Learning Center in Bridgeport.

Ms. Rigano graduated from the UConn Stamford's Bachelor of General Studies program with a 3.98 GPA. During the course of her studies she participated in an internship at CTE, the antipoverty agency for Greenwich, Stamford and Darien. Following the internship, Ms. Rigano worked for CTE from 1997 to 2001 and was promoted into the position of Director of Development.

A native of the United Kingdom, Ms. Rigano moved with her family to Toronto, Canada when she was eight and she has lived in the United States since 1989.

COMMENCEMENT
GRADUATE SCHOOL COMMENCEMENT SPEAKER

The Honorable Dannel P. Malloy

Dannel P. Malloy is the 88th Governor of the State of Connecticut. Governor Malloy was born and raised in Stamford. Growing up, he struggled to overcome learning and physical disabilities, eventually learning the skills he needed to succeed.

Mr. Malloy attended Boston College, where he met his wife, Cathy, and Boston Law School. He then served for four years as an Assistant District Attorney in Brooklyn, NY, winning 22 convictions in 23 felony cases.

Returning to Stamford, Mr. Malloy served on the Boards of Finance and Education, and became Mayor of Stamford in 1995. During his 14 years in that office Mr. Malloy brought nearly 5,000 new jobs to the city, led the fight for more affordable housing, championed transportation efforts, and implemented the first city-wide pre-kindergarten program in Stamford’s history, ensuring that all four-year-olds could attend school regardless of their parents’ financial situation. Mr. Malloy also played a critical role in the construction of the University of Connecticut’s downtown Stamford campus, which opened in 1998. He was elected Governor of Connecticut on November 2, 2010. Governor Malloy is focused on getting Connecticut’s fiscal house in order, growing and expanding business opportunities in the state, and putting people back to work.

HONORARY DEGREE RECIPIENT

Sir Peter Crane
Doctor of Science

In honoring Sir Peter Crane, the University of Connecticut recognizes a scholar of international eminence in fields of deep concern to our own institution and others across the globe: plant biology, conservation, and, in the broadest sense, the study and protection of our natural environment. As a scholar, he is primarily focused on the diversity of plant life – its origin, fossil history, current status, conservation and use. As an academic leader, he currently serves with distinction at our neighboring institution as Carl W. Knobloch, Jr. Dean of the School of Forestry and Environmental Studies at Yale University.

Sir Peter earned his baccalaureate and doctoral degrees in botany at the University of Reading in the United Kingdom. From 1982 to 1999 he served at the Field Museum in Chicago, ultimately serving as Director with overall responsibility for the Museum’s scientific programs. From 1999 to 2006 he was Director of The Royal Botanic Gardens, Kew, one of the largest, most prestigious and influential botanical gardens in the world. He returned to the United States in 2006 as the John and Marion Sullivan University Professor at the University of Chicago, and was appointed to his position at Yale in 2009.

Author of several groundbreaking books and over 200 articles, Sir Peter is a Fellow of the American Academy of Arts and Sciences, Foreign Associate of the U.S. National Academy of Sciences, a Foreign member of the Royal Swedish Academy of Sciences, and a Member of the German Academy Leopoldina. In his own country, he was elected to the Royal Society – the UK Academy of Sciences in 1998, and was knighted for services to horticulture and conservation in 2004.
2011 BOARD OF TRUSTEES DISTINGUISHED PROFESSORS

Designation as a Board of Trustees Distinguished Professor is the highest honor that the University bestows on faculty members who have demonstrated excellence in the three academic missions of the University. This year, two faculty members are recognized. To be chosen, a faculty member must have spent a significant portion of her or his career at UConn, have made significant academic contributions while in the University's service and be actively engaged scholars, strong in all three areas of research, teaching, and service.

Carl M. Maresh

Dr. Maresh is a Professor and the Department Head of Kinesiology at the University of Connecticut, Storrs. He holds joint appointments in the departments of Physiology & Neurobiology and Nutritional Sciences, and the Department of Community Medicine and Health Care at the UCHC. He is a Fellow in the American College of Sports Medicine and the National Academy of Kinesiology. His previous awards include the Outstanding Sport Scientist Award from the National Strength and Conditioning Association (1999), the Honor Award from the New England American College of Sports Medicine (2000), and the Outstanding Research Award from the Neag School of Education (2006). He was a Visiting Scientist in the Department of Pediatric Cardiology at the Baystate Medical Center, Worster, MA in 1994, and a Visiting Professor in the Clinical Translational Research Center and Pediatric Exercise Research Center at the University of California, Irvine in 2007.

Professor Maresh is widely acknowledged as one of the leading exercise science researchers in the world. His contributions have influenced the way people view the importance of exercise across the lifespan, including the efficacy of structured exercise in clinically compromised cardiac patients. His research on physiological responses to different environmental stressors, and on optimum methods of hydration, has greatly increased our knowledge of how the human body manages such challenges and has wide applications to injury and disease prevention, and performance enhancement in both neutral and extreme environments. He has published over 200 peer-reviewed scientific manuscripts, delivered numerous contributed and invited presentations, and published more than 300 conference abstracts and proceedings. His extramural funding has been secured through grants from corporate, professional, and government agencies. As Director of the Human Performance Laboratory since 1985, and Department Head since 1998, Professor Maresh has been responsible for bringing together a truly renowned group of scientists who have contributed strongly to the department being consecutively ranked (2005 and 2010) as the #1 kinesiology doctoral program in the United States.

Professor Maresh is a motivating teacher and dedicated mentor, in teaching both undergraduate and graduate level courses. He has been a primary advisor to over 300 undergraduate students, major advisor and thesis advisor to over 70 completed masters degree students, and 19 completed Ph.D. students. He has supervised several senior undergraduate research projects and university scholar thesis work. He strongly promotes the research of his graduate students as evident in the 34 collaborative publications with his graduate students as first authors.

Professor Maresh has dedicated himself to comprehensively serving his department, the Neag School of Education, the university community, and his profession, by serving on numerous committees and special initiative projects. He was responsible for spearheading the merge of the Department of Physical Therapy with the Department of Kinesiology in 2008, effectively increasing the size of the department from 12 to 30 faculty and staff. He proudly served the University for 14 years (1989-2003), eight years as Chair (1995-2003), on the Institutional Review Board (IRB) for Studies Involving Human Subjects, and currently serves on the Connecticut Institute for Clinical & Translational Science IRB at the UCHC. He is a member of seven professional organizations, having served in several capacities including membership on a National Board of Trustees, as President, and Associate Editor. He has served as a manuscript reviewer for 22 scientific journals, and on Peer Review Panels for NIH, DOD and NASA. He is also a member of the Board of Advisors to the Korey Stringer Institute.
Dr. Morris is a Professor of Pharmacology and Toxicology at the University of Connecticut, School of Pharmacy. His previous awards include Paper of the Year and Outstanding Presentation in Risk Assessment from Specialty Sections of the Society of Toxicology, the premier society of toxicologists in the world. He has received the Best Teacher Award from the professional pharmacy class five times and has also received the Volunteer Recognition Award from the American Lung Association of Connecticut for his work on air pollution abatement in the state.

Professor Morris is a nationally-recognized leading authority on the effects of air pollutants on pulmonary health. As a translational basic scientist, his work focuses on developing methods by which the basic science toxicological data collected in experimental studies can most effectively be used to protect the public health. Using an integrative approach, he has relied on advanced mathematical model simulation techniques to define the amount of inspired pollutants that reach critical target cells in the lungs coupled with state-of-the-art measures of lung cellular insult. This provides a comprehensive understanding of the mechanisms through which pollutants injure airway tissues as well as determination of the levels of pollutants that would not be associated with harm. His work has been instrumental in guiding federal regulatory efforts to establish safe exposure levels for multiple air pollutants. He has published nearly one hundred scientific papers and reviews, and delivered numerous presentations to professional and civic groups. His work has been extensively funded by the NIH National Institute of Environmental Health Sciences, and is currently funded by the American Petroleum Institute and the NIH National Heart Lung & Blood Institute.

Professor Morris is an accomplished teacher who regularly teaches at graduate, professional pharmacy and undergraduate level. His undergraduate survey course in environmental health, Toxic Chemicals and Health, was first delivered more than 20 years ago and is a widely popular general education course. He has supervised seven Ph.D. students and two M.S. students. In addition he has mentored Post-Doctoral Ph.D. and M.D. Fellows. He has also mentored a university scholar and multiple honors students, each of whose research has resulted in coauthored publications in major international toxicology journals.

Professor Morris has a long-standing history of service to the university, state and nation. He served for eight years as the Head of the Department of Pharmaceutical Sciences and is currently the Assistant Dean for Research in the School of Pharmacy. As an expert on the health effects of air pollution he has served on numerous advisory panels including the State of Connecticut Hazardous Air Pollutant Advisory Panel, the Connecticut Academy of Science and Engineering Study Committee on Asbestos in Schools, the State of Vermont Toxicology Advisory Committee, the State of Virginia Inhalation Toxicology Advisory Group, the U.S. EPA External Advisory Panel on Methods to Derive Inhalation Reference Concentrations, and the National Academies of Science Committee on Emergency and Continuous Exposure Guidance Levels for Selected Submarine Contaminants. Dr. Morris has been particularly active in the Society of Toxicology, having served as the President of the Northeast Chapter and President of the Inhalation Specialty Section. He was recently elected by the membership to serve as the Treasurer for the Society.

Erica Peitler is a certified leadership performance coach, author and speaker, who works with CEOs, high potential executives, corporate executive leadership teams and specialized professionals to create and build their leadership practices so that they can achieve personal and professional success. She created Erica Peitler & Associates, a firm dedicated to leadership coaching and consulting in 2008.

A 1988 graduate of the University of Connecticut School of Pharmacy, she currently serves as the chair of the School of Pharmacy Advisory Board. Previously, Ms. Peitler was the youngest member, and only woman, on a $2.5 billion global management team in the healthcare industry where she spent 20 years in executive leadership roles.

Her background experiences include running a $400 million pharmaceutical division and a $100 million consumer care division for a global healthcare company. She also held senior positions in board level strategic initiatives, serving as the chief scientific officer and leading several start-up initiatives within larger corporate infrastructures. Ms. Peitler has been selected throughout her career to lead, grow and transform brands, teams and organizations. Most recently, Ms. Peitler has written her first book, Open up and say aah!, a personal leadership journey for those wishing to break-out and break-through into what is next in their lives. She is a chairman with Vistage International, the largest CEO executive organization in the world, where she coaches 18 CEOs in New Jersey and facilitates monthly forums where they discuss and debate important business issues and challenges.

Mia Farrow
Doctor of Humane Letters

A critically acclaimed actress who has appeared in more than 40 films in addition to work on the stage and television, Mia Farrow is equally known as an unrelenting advocate for human rights. Her primary focus has been on conflict-affected regions in sub-Saharan Africa. Since 2004, Ms. Farrow has traveled to the Darfur region of Sudan 13 times and written extensively about the genocide there, most notably in op-ed pieces for the Wall Street Journal, Boston Globe, and LA Times. She blogs and posts relevant articles and analyses on her website: www.miafarrow.org. The site contains her entries from Darfur, Chad, Rwanda, Central African Republic, Uganda, Congo and Haiti, as well as her op-ed pieces and photographs which have appeared in publications and exhibitions around the world. She has spoken extensively about the Darfur crisis and human responsibility across the U.S. and Canada, as well as at U.S. Senate and Congressional hearings and the United Nations Security Council.

In 2007 Ms. Farrow helped to secure the liberty of a respected rebel commander who was unjustly imprisoned in Sudan by publically offering to exchange her freedom for his. In 2009 she undertook a hunger strike to protest the expulsion of humanitarian agencies from the Darfur region. She is currently working on her own project, The Darfur Archives, documenting the cultural traditions of Darfur’s major ethnic tribes.

In 2008 Mia Farrow was selected by Time magazine as one of the most influential people in the world. The first American to be accepted as a member of the Royal Shakespeare Company and the first to appear on the cover of People magazine, Farrow is the recipient of numerous awards, including a Golden Globe award (and seven additional Golden Globe nominations), five British Academy of Film and Television Award nominations, and a win for best actress at the San Sebastian International Film Festival. She has also been honored extensively for her singular contributions to humanitarian efforts. In 2008, Ms. Farrow received the French Legion of Arts and Letters Award, the Refugees International McCall-Pierpaoli Humanitarian Award for “extraordinary service to refugees and displaced people,” and the Tiananmen Square Award. In 2009, Ms. Farrow was the recipient of the Leon Sullivan International Service Award.

RECESSIOAL
Dr. Gwo-Duan "David" Jou '89, '92 Ph.D.

Dr. Gwo-Duan "David" Jou is the Founder and Chairman of Bigrock Asset Management Company. The company focuses on direct investments, providing consulting services to major life insurers in Taiwan and property development.

Prior to Bigrock, Dr. Jou served as Chairman and Chief Executive Officer of Hontai Life Insurance Company, Ltd. in Taipei, Taiwan from 2005 to 2010 where he successfully turned the company around during his first year of service. Under his leadership, Hontai Life enjoyed a buoyant asset growth with CAGR over 20% and a decline in funding costs from 5.1% to 3.9%.

Dr. Jou has over 20 years of experience in the Taiwan life insurance industry and plays active roles in regulatory entities, including Chairman of the Taiwan Insurance Institute, Commissioner of the National Pension Fund and Commissioner of the Financial Institution Reform at the Republic of China. He is also on the boards of Taikang Life China, Taiwan Life Insurance Company, and is Chief Advisor in the Greater China Market for the Zurich Financial Group as well as the Chief Advisor for the Taiwan Insurance Market at Credit Suisse.

In 2004, he served as Chairman of the Insurance Anti-Fraud Institute and as Director of Taiwan Life Insurance Company and the Bank of Overseas Chinese. During Dr. Jou’s term as Chairman of the Taiwan Insurance Institute, he successfully conducted the first ever case of liquidating a local insurance company: Kuo Hua Property and Casualty Insurance Company.

Dr. Jou earned a Master of Science in Mathematics from the University of Connecticut College of Liberal Arts and Sciences in 1989 and a Ph.D. in Business Administration from the University of Connecticut School of Business in 1992.

Dr. Jou and his wife, Frances ’90 M.S., are International Alumni Ambassadors for the UConn Alumni Association and live in Taipei, Taiwan. Their son, Geoffrey, is graduating this year’s Commencement from the University of Connecticut School of Business with a degree in Finance.

RECESSONAL
Kelci A. Stringer

Kelci Stringer is a firm believer that your life’s purpose will be revealed to you — even if it’s in the midst of tragic circumstances. Her journey towards advocacy, education and prevention of sudden death in sports began on August 1, 2001 when her husband, NFL All-Pro lineman, Korey Stringer, died from the complications of an exertional heat stroke at the age of 27, while practicing with the Minnesota Vikings.

Ms. Stringer met Korey when she was a freshman at Ohio State University, where she was pursuing her bachelor’s degree in psychology. The two were married for four years, and during that time, Kelci gave birth to their son Kodie Drew. As a young widow and mother, Kelci struggled to decide on the best way to honor Korey’s memory, and ultimately established the Korey Stringer Foundation, a 501(c)3 organization. Through her foundation she was instrumental in developing a partnership among the National Football League, Gatorade and the University of Connecticut, Neag School of Education, forming the Korey Stringer Institute. UConn’s Neag School of Education was chosen because she had worked with Dr. Douglas Casa, professor of kinesiology in the Neag School, as an expert witness over many years on her legal cases relating to the death of her husband.

An Atlanta, Georgia native, Ms. Stringer’s love of community is evident in her other nationwide philanthropic contributions. She regularly assists families and children through donations, mentoring and reading at elementary schools. In 2005, she helped resettle evacuees from New Orleans in the aftermath of Hurricane Katrina to Atlanta, booking two hotels and providing food and shelter for several months, as well as grief counseling, job placement assistance, and buses for the evacuees to revisit New Orleans.

According to Ms. Stringer, she has used the tragedies she’s faced to learn, grow and confidently walk in her purpose. As Ms. Stringer so eloquently states: “It hasn’t been easy by any means, but I thank God for keeping me, strengthening me and giving me the courage to complete this awesome mission that He has for my life.”

William E. Trueheart, Ed.D.

William E. Trueheart was born in Stamford, Connecticut on July 10, 1942. He earned his undergraduate degree in political science and economics from the University of Connecticut in 1966. He went on to receive a Master of Public Administration at Harvard University’s John F. Kennedy School of Government and an Ed.D from Harvard’s Graduate School of Education in 1979.

Dr. Trueheart spent 1966 until 1972 at UConn, serving as Assistant Director of Admissions, Assistant to the University President, Director of the University’s Academic Advisory Center and Assistant to the Dean of the College of Liberal Arts and Sciences. From 1979 to 1986, he served as Assistant Dean at the Harvard Kennedy School of Government and Associate Secretary for Harvard’s Governing Board. In 1986, he was appointed Executive Vice President of Bryant College, and three years later he was appointed President, making him the first African-American to preside over a four-year private college in New England.

Since leaving Bryant in 1990, Dr. Trueheart has served as President and Chief Executive Officer of Reading is Fundamental and The Pittsburgh Foundation. He is currently President and CEO of Achieving the Dream: Community Colleges Count, a national nonprofit dedicated to helping more community college students succeed, particularly students of color and low-income students.

Dr. Trueheart’s awards include an American Council of Education fellowship, 1969; Littauer fellowship, 1973; Charles I. Travelli Foundation fellowship, 1974; Ford Foundation fellowship, 1979; the University of Connecticut Black Alumni Association Award of Excellence, 1989; Distinguished Alumni Award, University of Connecticut, 1990; and Vectors/Pittsburgh Men and Women of the Year – Man of the Year in Finance, 2004. Trueheart’s honorary degrees include a Ph.D. in Humane Letters from Bryant University, a Ph.D. in Education from Bridgewater State College, and a D.B.A. from Johnson and Wales University.

Dr. Trueheart has served on the Board of Directors of the University of Pittsburgh, Johnson and Wales University, the Allegheny Conference on Community Development, the Nellie Mae Education Foundation, AICPA Foundation, the Pittsburgh Regional Healthcare Initiative and Independent Sector, the Commonfund, Inc., the Pittsburgh Cultural Trust, and Highmark Blue Cross/Blue Shield.

He is former Chairman of the Rhode Island Independent Higher Education Association and Vice Chairman of the National Council of Presidents of the Association of Governing Boards of Universities and Colleges. He has also served as Director of the Public Education Fund Network, the New England Education Loan Marketing Corporation, Woods Hole Oceanographic Institute and the Rhode Island Children’s Crusade.

Doctor of Science

Charles M. Vest is President of the National Academy of Engineering and President Emeritus of the Massachusetts Institute of Technology.

Dr. Vest earned a B.S. in mechanical engineering from West Virginia University in 1963, and M.S.E. and Ph.D. degrees in mechanical engineering from the University of Michigan in 1964 and 1967 respectively. He joined the faculty of the University of Michigan as an assistant professor in 1968 where he taught in the areas of heat transfer, thermodynamics, and fluid mechanics, and conducted research in heat transfer and engineering applications of laser optics and holography. He and his graduate students developed techniques for making quantitative measurements of various properties and motions from holographic interferograms, especially the measurement of three-dimensional temperature and density fields using computer tomography. He became an associate professor in 1972 and a full professor in 1977.

In 1981 Dr. Vest turned much of his attention to academic administration at the University of Michigan, serving as associate dean of engineering from 1981-1986, dean of engineering from 1986-1989, when he became provost and vice president for academic affairs. In 1990 he became president of the Massachusetts Institute of Technology (MIT) and served in that position until December 2004. He then became professor and president emeritus.

As president of MIT, he was active in science, technology, and innovation policy; building partnerships among academia, government and industry; and championing the importance of open, global scientific communication, travel, and sharing of intellectual resources. During his tenure, MIT launched its OpenCourseWare (OCW) initiative, co-founded the Alliance for Global Sustainability; enhanced the racial, gender, and cultural diversity of its students and faculty; established major new institutes in neuroscience and genomic medicine; and redeveloped much of its campus.

He was a director of DuPont for 14 years and of IBM for 13 years; was vice chair of the U.S. Council on Competitiveness for eight years; and served on various federal committees and commissions, including the President’s Committee of Advisors on Science and Technology (PCAST) during the Clinton and Bush administrations, the Commission on the Intelligence Capabilities of the United States Regarding Weapons of Mass Destruction, the Secretary of Education’s Commission on the Future of Higher Education, the Secretary of State’s Advisory Committee on Transformational Diplomacy and the Rice-Chertoff Secure Borders and Open Doors Advisory Committee. He serves on the boards of several non-profit organizations and foundations devoted to education, science, and technology.

In July 2007 he was elected to serve as president of the U.S. National Academy of Engineering (NAE) for six years. He has authored a book on holographic interferometry, and two books on higher education. He has received honorary doctoral degrees from 14 universities, and was awarded the 2006 National Medal of Technology by President Bush.

Robin D. Froman, Ph.D., RN, FAAN
Class of '74, '75, '81, '84, '87

Robin D. Froman, Ph.D., RN, FAAN, is a multiple University of Connecticut alumna, having completed bachelor's, master's and doctoral degrees in the School of Education before discovering her affinity for nursing.

While working with School of Nursing faculty as the evaluator in the Title XX office at UConn, Dr. Froman became so impressed with the professionalism and dedication of nurses that she enrolled in the University of Connecticut School of Nursing, eventually completing bachelor's and master's degrees in nursing. Upon graduation Dr. Froman joined the faculty of the University of Hartford. But having Husky Blue in her veins, she soon returned to UConn SON. During her tenure with the SON, Dr. Froman was variously a faculty member, department chairperson and interim associate dean. In 1991, she established the Center for Nursing Research and served as its first director.

While at UConn, Dr. Froman received several grants and awards, including a Science Education Partnership Award from the National Institutes of Health, a NIH research award to study end of life decision making, and other grants from private foundations and government agencies. After almost 30 years at UConn, Dr. Froman was named Associate Dean for Research at the University of Texas Medical Branch in Galveston, where she established a Nursing Research Center and within three years moved UTMB SON into the top 40 schools of nursing receiving federal grant dollars. She subsequently became the Dean at the University of Texas Health Science Center at San Antonio, where she built a student health center in the SON and created a completely nurse practitioner run health service for students.

Dr. Froman was inducted into the American Academy of Nursing as a fellow in 1991, and served as a charter reviewer for the National Institute of Nursing Research. She additionally served as an ad hoc reviewer for NIH Ethics of Human Subjects Research and Research Methodologies panels and as a reviewer for Kathryn and Patrick Donaghue Health Foundation grants.

Now retired from the UTHSCSA Deanship, Dr. Froman serves as a community faculty member in the University of California at San Francisco. She continues to serve as associate editor for the journal Research in Nursing & Health, and consults with state universities in Alabama, Kansas, Oklahoma, Texas and Wisconsin, and has once again returned to UConn, serving as a consultant to the SON and teaching in the nursing program.

Commencement Speaker

Henry C. Lee, Ph.D., M.S.

Dr. Henry C. Lee is an endowed professor and founder of the Forensic Science program at the University of New Haven. He is an acknowledged visionary in his field, advancing the study of forensics at the university over the past 30 years from a small classroom equipped with a single fingerprint kit to an internationally recognized multi-disciplined academic department with state-of-the-art technology.

Over the past several decades, Dr. Lee has assisted in the investigations of more than 8,000 criminal cases, including the O.J. Simpson case, the review of the John F. Kennedy assassination and the death of JonBenet Ramsey. He joined the Connecticut State Police more than 30 years ago and served as the state's first criminalist. He was the driving force behind the creation and the growth of the Connecticut State Police Major Crime Squad and Forensic Science Laboratory, today recognized as one of the finest facilities in the country. He served as the commissioner of the Connecticut Department of Public Safety from 1998 to 2000, during which time he brought the department to the forefront of technology with the development of a new radio system and the Sex Offender Registry Database. In addition, he has served as a forensic expert for all 50 states and 42 countries, consulted with more than 600 law enforcement agencies around the world, and testified more than 1,000 times in court.

Dr. Lee's academic credentials include an undergraduate degree in police science from Central Police College in Taiwan, a Bachelor's of Science degree in forensic science from John Jay College of Criminal Justice, and a master's degree and doctoral degree in biochemistry from New York University. He is the recipient of more than 20 honorary degrees, and, in 1996, he was awarded the Medal of Justice from the Justice Foundation. He has authored or co-authored 40 books and hundreds of articles in professional journals, taught at more than a dozen universities, law schools and medical schools, and lectured throughout the world.

Board of Directors Faculty Recognition Award Recipient

Marja M. Hurley, M.D.

Dr. Marja M. Hurley, a graduate of UConn and the UConn School of Medicine, joined the UConn School of Medicine faculty following completion of an endocrinology fellowship in 1986. She is an internationally recognized researcher, a professor of medicine, an accomplished endocrinologist, and has been associate dean and director of the Health Career Opportunity Programs for more than two decades.

As a professor of medicine, Dr. Hurley lectures first- and second-year students, works closely with residents and supervises graduate students and postdoctoral fellows. She was the 2001 recipient of the prestigious Camel Award for Excellence in Teaching. As the associate dean and director of the Health Career Opportunity Programs, Dr. Hurley has successfully fostered innovative educational programs that have reached out to talented students from middle school, high school, college, graduate levels and encouraged students to pursue careers in medicine, dentistry, allied health. Her work has been recognized by the New England Board of Higher Education, the Association of American Medical Colleges, and UConn, which honored her with the Martin Luther King Award for Achievement in Science. She also continues to secure widespread extramural funding support for the health careers program, including ongoing support from the Aetna Foundation.

Dr. Hurley is also a widely published endocrinology researcher whose work has been supported by the National Institutes of Health (NIH) since 1989. She is known nationally and internationally for her research in the field of molecular biology of growth factors and their role in normal and pathological disorders of bone and has published extensively in this area in peer reviewed journals.

Among Dr. Hurley's many awards and accolades, she was recently the recipient of the 2010 winner of the Connecticut Technology Council's Women of Academic Innovation and Leadership Award and the 2009 West Indian Foundation Community Service Award. On a national level, she is actively involved with the National Medical Association and is also a member of the American Society for Bone and Mineral Research, the Endocrine Society, the American Society for Cell Biology, the International Bone and Mineral Society and the New York Academy of Sciences.
Philip Bailey

Doctor of Fine Arts

Philip Bailey is probably known best for his falsetto vocals with the R&B band Earth, Wind and Fire, described by the Songwriters Hall of Fame as "one of the most innovative and commercially invincible contemporary pop/R&B music forces of the 20th century." EWF won six Grammy Awards from the mid-70s through early 80s and was inducted into the Rock and Roll Hall of Fame in 2000. Two of the group's hits, "That's the Way of the World" and "Shining Star," have been inducted into the Grammy Hall of Fame. EWF also has four American Music Awards, six multi-platinum albums, and three platinum albums to its credit.

Mr. Bailey still performs with EWF. His solo career has included gospel, jazz and pop music. He has collaborated with Phil Collins, Stevie Wonder, Deniece Williams, Julio Iglesias, Kenny Loggins, Nancy Wilson, Eric Benet, Ray Parker Jr., and Anita Pointer.

Mr. Bailey's most recent honors include induction into the Songwriters Hall of Fame last year and the Daniel L. Stephenson Humanitarian Award for Lifetime Achievement in Music in 2009. EWF also won a Lifetime Achievement Award from Black Entertainment Television (BET) and a Rhythm & Soul Heritage Award from the American Society of Composers, Authors and Publishers (ASCAP).

Mr. Bailey established the Philip Bailey Music Is Unity Foundation in 2006, with the mission of investing in the development of teens as they outgrow the foster care system and encouraging them to become active contributors to society.

Charles J. Burstone, DDS., M.S.

Doctor of Science

Dr. Charles J. Burstone is a founding father of the UConn School of Dental Medicine and has given 48 years of service to the university. He has earned a reputation as a legend in orthodontics and dentistry, both as an educator and innovator. In addition to creating, leading, and serving as a professor in the UConn School of Dental Medicine's Department of Orthodontics, Dr. Burstone also has served as chief of orthodontic services at John Dempsey Hospital, professor of mechanical engineering in the UConn School of Engineering, member of UConn's Institute of Materials Science, faculty member of the UConn Graduate School, and president and director of the American Board of Orthodontics. Today he remains active in teaching and research at the dental school in the role of Professor Emeritus.

Dr. Burstone has developed dental devices, materials and orthodontic wires that have been used throughout the world.

He developed the orthodontic technique known as "segmented arch." He has written or contributed to more than 20 orthodontic textbooks, published more than 125 scientific articles, and continues publishing today. He has lectured as an invited speaker in more than 40 countries and has been honored by more than 40 international orthodontic societies.

As a researcher, Dr. Burstone has received National Institutes of Health grants over the majority of his career. Seventeen grants have gone to studies on which he served as principal investigator, covering the areas of biomechanics, biomaterials, imaging, facial growth and data acquisition.

Dr. Burstone's philanthropic support of UConn has provided seed money for translational research in dentistry and funded a professorship in orthodontics, held today by Dr. Sunil Wadwha.
Louis W. Sullivan, M.D.
Doctor of Science

Dr. Louis W. Sullivan is considered a legendary figure in African-American history, specifically in African-American medicine, as an advocate for the elimination of racial and ethnic disparities. Dr. Sullivan is chairman of the Sullivan Commission on Diversity in the Healthcare Workforce, chairman of the National Health Museum, and chairman of the Sullivan Alliance. He is the founding dean and first president of Morehouse School of Medicine in Atlanta, and served as president for more than two decades before taking a hiatus from 1989 to 1993 to serve as Secretary of the U.S. Department of Health and Human Services. In 2002, Dr. Sullivan was bestowed the honor of President Emeritus of Morehouse School of Medicine.

A native of Atlanta, Dr. Sullivan graduated magna cum laude from Morehouse College in 1954, and earned his medical degree, cum laude, from Boston University School of Medicine in 1958. He is board certified in internal medicine and hematology and he is a member of the Institute of Medicine of the National Academy of Sciences. He served on the faculties of Harvard Medical School, Seton Hall College of Medicine, Boston University School of Medicine, and Morehouse School of Medicine.

Dr. Sullivan was the founding president of the Association of Minority Health Professions Schools, and he is a former member of the Joint Committee on Health Policy of the Association of American Universities and the National Association of Land Grant Colleges and Universities. He is chairman of the National Health Museum (Washington, D.C.), chairman of the President's Council on Black Colleges and Universities, and co-chair of the President's Commission on HIV/AIDS.

The Honorable George C. Jepsen

Attorney General George C. Jepsen took office on January 5, 2011, becoming Connecticut's 24th Attorney General since the office was established in 1897. A former legislator, State Senate Majority Leader and Democratic State Party Chairman, Mr. Jepsen was a practicing lawyer for more than 26 years before becoming Attorney General. Most recently, he was of counsel to the Hartford law firm of Cowdery, Ecker & Murphy, L.C.C., in the areas of corporate transactions, and civil and appellate litigation. He also served as counsel to the trust and estates team at Shipman & Goodwin LLP in Hartford and was of counsel to the Stamford firm of Abate and Fox in the general law practice.

Mr. Jepsen began his legal career in 1982 as general counsel to Carpenters Local 2010 in Norwalk, where he represented 4,000 working men and women on employment issues for nearly 10 years. A summa cum laude graduate of Dartmouth College, Mr. Jepsen received a B.A. degree in Government with high distinction. He also studied Chinese and completed foreign study in France and Taiwan.

Mr. Jepsen is a graduate of Harvard Law School, where he earned his J.D. degree, cum laude, in 1982. He simultaneously earned a Master's Degree in Public Policy from the John F. Kennedy School of Government, where he was a teaching fellow for Professor Richard Neustadt for "The American Presidency" and for Professor Archibald Cox, the former Watergate prosecutor, in "U.S. Constitutional Law."

Mr. Jepsen was first elected as a Connecticut State Representative in 1987, representing Stamford's 148th District. In 1990, he was elected State Senator from the 27th Senatorial District, representing Stamford and Darien, a position he held until 2003. While in the State Senate, Mr. Jepsen was chairman of the Judiciary Committee (1993-1995) and ranking member of the Finance Committee (1995-1997). He was elected Senate Majority Leader in 1997 and served until 2003. In 2002, Mr. Jepsen was a candidate for governor and became the Democratic nominee for lieutenant governor. Mr. Jepsen also served as Democratic State Party chairman from 2003-2005.
COMMENCEMENT NOTES

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became The University of Connecticut in 1930. The Graduate program began in 1935, and in 1940 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

Enormous expansion has taken place over the years together with increased enrollment. Today, the University has an enrollment of over 30,000 students. At Storrs there are over 17,330 undergraduates and more than 6,735 graduate students, representing some 101 nations.

This May, the University will award over 7,265 degrees. Of these, approximately 5,055 will be Bachelor's degrees, 1,340 Master's degrees, 230 Juris Doctor degrees, 45 Master of Laws degrees, 103 Doctor of Pharmacy degrees, 42 Doctor of Dental Medicine degrees, 81 Doctor of Medicine degrees, 1 Doctor of Musical Arts degree, 8 Doctor of Audiology, 3 Doctor of Education degrees, 1 Doctor of Nursing Practice, 2 Doctor of Physical Therapy, and 273 Doctor of Philosophy degrees. Also to be awarded are 48 diplomas in Professional Education and 33 Associate's degrees in the two-year Radcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by his Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.
The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority. It is the emblem and symbol of the President's authority to administer the University. This Mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penney dated 1884 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at the University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer who leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Philip E. Austin, Interim President, was first used in 1964, at the time of the University’s Silver Anniversary. Each link on the collar represents one of the University’s Schools or Colleges and consists of a cloisonne circle enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University’s early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and declares the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally confers the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Nursing Practice, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Thirty-Second Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

Out of respect and courtesy to all graduates, participants and guests are requested to remain in their seats until the ceremony is concluded.

The flowers displayed during the ceremonies are from the University’s Plant Science Department greenhouses.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the commencement exercises.

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place - a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and its Health Center. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
