High Schools Represented in the Student Body.

From records in the President's office Miss Ackley has recently compiled a list of high-schools represented in the student body and the number of students attending from each. The results are as follows: New Haven High leads with nine students enrolled closely followed by Hartford High with eight, Crosby High of Waterbury, seven and Danbury High with six. Berea Academy of Colchester, Norwich Free and New Britain High each have five. Ansonia, Bristol, English High of Worcester, South High of Westport, Farmington, Stamford, Hingham, Mass., North High of Worcester, Stonington, Meriden, Providence English, Richmond High of Orange, Miss Ackley High of Southington, and Stratford have two each. Those institutions represented by but one man are Erasmus High of Brooklyn, Stuyvesant, Irving of Torrington, New Rochelle, Seymour, Winsted, Collinsville, Mechanic Arts of Middletown, Lewis High of Southington, North High of Westport, Farmington, Connecticut Tech., Brown University.

No doubt the utility of the machine for pictures is represented by the students at these institutions. The work is to be done by the members of the committee as far as possible. The general color scheme is to be all blue and white on a green background, which is to be composed of junipers, ground pine, and mountain laurel. These are to be faced with blue and white streamers and autumn leaves. The rostrum is to be decorated with sheaves of cornstalks, pumpkins, and other seasonal incidentals.

As at the Junior Prom, last year the orchestra is to hold forth on an elevated platform in the center of the floor, and the musicians are to be concealed from view as far as possible by palms and ferns.

There is a great likelihood that moving pictures here at the college will be a reality before long. President Bissell has practically made up his mind to purchase a machine to be used both for entertainment and instruction. No doubt the utility of the machine for instruction will be restricted to the classroom, and that the course of exhibitions in the armory will consist of pictures of a highly amusing yet refined character.

As yet no definite plan has been made as to the time at which the showing will be held or when they will begin, but it is thought that two moving-picture shows will be held each week at least by the middle of the month. Admission will not exceed that of theatres elsewhere that exhibit the same class of films.

Football.

The Connecticut Aggies put up a fight against the strong Worcester Polytechnic team at Worcester on September 25, and held them to a 7-0 score. It was not until the last five minutes of play that the Tech. team, outweighing our men by twenty pounds to the man, blocked Hopwood's punt and by a series of line plunges carried the ball across. Ryan at end starred throughout the entire game. Harris deserved credit for his punting, and Hale at guard put up a fine game for a new man.

The eleven journeyed to Holyoke October 2, to stack up against Stevens Institute. The score was 14-3 in favor of the Jerseyites who outplayed and outsmarted our men throughout the game. Hopwood, who kicked our field goal and Clark were the stars for us.

On October 9, New Hampshire State defeated what the Granite State College paper calls its "old rival, Connecticut Aggies" to the tune of 19. The game was well fought through unfortunate fumbles and the failure to deal with the forward passes of the other side in the proper manner.

The arrival of Mr. John H. Donahue last week to assist in coaching the men greatly increased the spirit of the players. The outcome is a far cry from Holy Cross and Boston College player and has had several years' experience in coaching around Boston. Last year he coached the Boston College team which had a very successful season. He comes well recommended and his work with the squad the past week proves him to be very competent.

The Connecticut Aggies team ventured a little outside of their class in tackling the Fordham University team at New York on the 16th. The game was played hard but was marked by a spectacle plays or serious injuries. The score was 35-9 in favor of the New York team who far outclassed our men in weight, speed, and knowledge of the game. Crowley, James and Renehan starred.

The resumption of athletic relations with Rhode Island State after a period of five years is very enthusiastically welcomed by the students and faculty. It has been announced that a game of football will be played with our neighboring institution on October 23 on Storrs Field. This means the postponement of the Fort Wright game to another date. Basketball and baseball games will be arranged with the Rhode Island management, one game at each place. It seems quite fitting that these two colleges, which are about the same numerically, should meet in this way and the keen feeling of rivalry should be of the most helpful variety and beneficial to both institutions.

The committee in charge consists of E. L. Lyon, Chairman; Miss Minor, J. W. Gillis, W. B. Smith, W. Brundage, D. Wiegert, T. H. Beich, E. J. Bailey, E. W. Crampton, and J. R. Davison.

Alumni Notes.

A. N. MacQuivey, '09, who is engaged in business for himself in Wendall, Idaho, writes frequently from the college.

W. W. James, '99, is an assistant engineer in the Valuation Department of the Central Railroad Company of New York.

Miss Dora House, ex'16, is at the New York Post Graduate Medical School and Hospital.

J. H. Gamble, '09, is with the Bureau of Animal Industry of the United States Department of Agriculture.

Wesley O. Hollister, '09, is still with the Davy Textile Co., Mount Vernon, Ohio. He now has charge of their publication work in addition to being assistant manager, a director of the company and secretary of the Davy Textile Institute of Tree Surgery, Mr. and Mrs. Hollister, ex'17, are still there.

Mr. and Mrs. John Busch of Millerton, N. Y., have announced the engagement of their daughter to A. B. Borgen, ex'10.

C. P. Harper, '13, was married to Miss Mildred Atwood of Watertown, Conn., on October 7.

W. B. Ackerman, '15, is at work in West Newton, Mass.

C. W. Barnard, '08, and T. C. Winters, '08, are joint owners of a large fruit-farm at Twin Mountain, New Hampshire.

E. Simmons, '10, is still with the company and has been testing a fruit farm at Twin Mountain, N. H., for a course in mining engineering.

J. Herbert Wood, '13, has recently purchased a fruit farm in Newington, Connecticut.

W. T. Ackerman, '15, plans to move on his place at Rockville in a few weeks.

"Squash" Manning, ex'14, has entered the Sheffield Scientific School.

A. E. St. Germain, ex'18, has entered Brown University.

Miss Helen Bolan, '15, D. S., is instructor in Domestic Science in the College High School of Waterbury.

Miss Dorothy Hemenway, '15, D. S., is still with the bridgeport Pie Co.

Miss Lyda Bebeau, '15, D. S., is still with the company and has been testing in the western part of the state.

Martin L. Roser, '15, is employed on the Hamlet Hill Farm at Westminster.

Charles E. Simmons, '15, is testing in Wisconsin with his headquarters at Putnam.

Mr. and Mrs. Herbert Fredrickson, '14 and, his brother and sister are joint owners of a large fruit-farm at La Habra, California.

Louis A. Cohen, '16, is instructor in Dairying at the Baruch Hirsch School of Agriculture in New Jersey.

J. Herbert Wood, '13, is a proprietor of a fruit and poultry farm at Twin Mountains, West Virginia.

THE COLLEGE.

EDITORIAL.

In the absence of a regular coach and during that time when a football team was the most needed and training Mr. Warner has appeared upon the athletic field night after night without fail, has attended the team practices and has done with utmost in his power to assist in the development of a strong eleven.

He has done this without solicitation and at a great personal sacrifice. There is no one else on the Hill, barring those who have any ability at all.

The Football Hop coming on November 6th will receive prompt attention at the Willimantic Union Hotel.

FOOTBALL.

(Continued from page 1.)

N. F. A. at Storrs on October 6, by a score of 6-0, Harris Starr in this college.

On October 9, Windham High was defeated by a score of 12-0, in another exciting game. All the first team men and many substitutes were at the scene of action. The game was a good one and the best fight.

The second team went to Munson October 14 and held the Academy team of 14-14. The Munson backs showed splendid power in carrying the ball, but our team proved to be a little heavier and was fortunate in making some lucky breaks. Murdock’s recovery of a fumble and his 50-yard run for a touchdown was one of the features of the contest. The second team still has two games on its schedule.

There is no one else on the Hill, barring those who have any ability at all.

BEN GREET PLAYERS.

On October 10 the Ben Greet Players presented Shakespeare’s comedy “Much Ado About Nothing” in a crowded house in the Hawley Armory.

This is the first time that the Ben Greet Players have appeared at the college and the audience was well pleased. The parts of Leonato, Dogberry, and Beatrice were especially well taken. A large number were present from the Normal School in Willimantic and the entertainment was a financial success.

The entertainment course outlined by the faculty committee includes the following: December 4, “Collyb”, car-
Visit Our New Store

Perhaps you do not know that today our store is second to none in this vicinity in its ability to meet your needs. Plenty of light, plenty of air, plenty of room and a variety of ready-to-wear goods for ladies that will surprise you.

FEED

More Phosphorus and Less Protein!

"Hen-o-la" Dry Mash

Fod in conjunction with "Hen-e-ta" and “Succlllentia”

Requires Absolutely Nothing Else

Because the three make a complete balanced meal, rich in phosphorus.

The Lack of Stamina and Vitality

In the birds is the cause of 95% of the failure of the poultry business. Therefore use them in the above formula, and you will not only get a much increased output of eggs, but also your poultry will be healthier and more active.

A military doctor recently wrote that he strongly advises his patients to use the above formula, which will greatly increase the stamina and vitality of their patients.

The above formula makes poultry-keeping wonderfully simple and cheap. If your dealer does not supply you, please write us for full information and prices on "Hen-e-ta," "Hen-o-la," Dry Mash and "Succlllentia" tablets—green food substitute.

Valuable Booklets Free

If you will give us your dealer’s name and address, we will send you a book free.

More Feed Per Acre

The cost of producing meat or milk would be much less if it required less acres to produce the feed. Both the quantity and quality of the feed improve when the right plant foods are used to supplement the manure and clover. They improve enough to yield a handsome profit on the expenditure.

The right plant food includes enough

POTASH

in available form. Supplement the manure and phosphate with 50 to 100 pounds of Murate of Potash, or 200 to 400 pounds of Kainit, per acre, and you will raise big corn and fine clover after the grain and at the same time improve the fertility of the soil.

Try Potash alone on the swamp land pasture and note the marked increase in the yield. Send us for prices of Potash, one bag up.

RIFLE ASSOCIATION ELECTS OFFICERS.

The C. A. C. Rifle Association held its annual meeting, Wednesday evening, October 6, 1915, when the following officers were elected: President, C. E. Lee; Secretary, A. W. Miller; Treasurer, G. L. Prindle, Team Captain; R. Knight.

Plans were discussed for the coming year and much enthusiasm was shown over the prospects for the season.

A meeting of the executive committee was held after the regular meeting.

Matches are now being arranged with both militia and college rifle teams and a tournament with The New York Military Academy with a silver loving cup as the prize will be entered if the finances of the local club will allow.

Gallery practice will commence soon, as there are over five thousand rounds of ammunition left from last season.

Although Captain Knight is the only remaining member of last year's team it is expected that plenty of new material for a winning team will be found among both the old and new men.

International Harvester Oil Engines—Mogul—Titan

THE buying of the right engine for the farm is a family affair. Your wife, the boys, the girls, the help—everybody about the place will be helped so much by the engine that it pays to buy carefully. Get a good engine, a Mogul or Titan, give it all the jobs it will do and handle it properly, and it will still be shouldering the drudgery years from now.

Buy an International Harvester engine—Mogul or Titan. In time the family will come to look on it as a faithful ever-reliable friend. It will keep down your fuel and repair bills, deliver the most power with least trouble, and save you more hard work than you can realize now.

International Harvester engines are made in all approved styles, sizes from 1 to 50-horse power, operating on low as well as high-grade fuels. Some local dealer near you handles Mogul or Titan engines. If you don't know him, drop us a line. We'll send you full information, and make it easy for you to see the best farm engine made.
