Varsity Nine Opens Season With Victory

IN SENSATIONAL GAME, BASEBALL TEAM DEFEATS WORCESTER TECH, 8 RUNS TO 7—CAPT. McCArTHY'S STICK BRINGS IN WINNING RUNS.

Connecticut opened its baseball season on Saturday, April 14th, by playing Worcester Tech, on the Tech grounds and defeating the visitors 8 to 7. This was one of the most sensational games ever played on Storrs' field, as the Aggies won it on a grand ninth inning rally. The Aggies took the field first and were a little wild and rattled. As a consequence the Tech team pushed three runs across the plate in the opening frame as the result of an error, two scratch singles and a double. Reeve tightened up again and retired the next three men up, one flying out to Mason, the other two striking out.

In their half of the first, Connecticut got one man to third but he was put out trying to score on McCarthy's bunt to second. Tech scored one more run in the third on a single and an error. The Aggies came in to their own in the third and put two runs across after Buchman had doubled to left field.

The Worcester boys were able to score for the remainder of the game, twice in the fourth and once more in the sixth. The seventh inning was a lucky inning for the visitors and it looked as though they would put the game on ice. lace got to third and Horner to second with but one down. Lace then tried to make home on Tomblin's scratch hit to Hopwood, but was nailed at the plate. Reeve put a ball to the next man that he thought was his kind and a high fly to Brigham retired the side.

The Blue and White boys started things a bit in their half of the fourth and for a time it looked as though the score would be tied. Mahony hit one through Trice and Fiedland was put on to run for him. Friedland went to second on Alberti's sacrifice hit, advanced to third when Buchman was hit by the ball, and came in on a base on balls to Brigham. Moore followed him around the circuit and came in on a base on balls to Hopwood.

Senior School Hold Banquet in Hartford

ALMOST EVERY MEMBER OF THE CLASS ATTENDED—THE BANQUET WAS A GRAND SUCCESS.

On Saturday evening, April 14th, the graduating class of the School of Agriculture held a banquet in Hartford. The class left the Hill in automobiles after the ball game and went straight to the Grand Theatre where reservations had been made for them in seats well up front. After the show, which helped to put every one in good humor, they retired to the grill room of the Hotel Bond where very good eats put every one in still better humor. After the dinner, Toastmaster Ball started the speeches by reading a poem of his own composition in which every individual member of the class, including Mr. Campbell, the honorary member, was mentioned. He then called upon Mr. Scofield, the president, who spoke on the importance of getting a right start and assuming the proper attitude toward work. Mr. Campbell, the honorary member of the class, was next called upon and he followed with remarks on what the class should expect to do after graduating. Mr. Edwards spoke on the future of the class in connection with the present international crisis. After the speeches the Alma Mater was sung and the start back to Storrs was made. Every one agreed the evening to have been a great success, despite the fact that they arrived home any time between three and seven o'clock Sunday morning.

Wentworth Wins 2nd Game of Baseball

THE ABSENCE OF CAPTAIN McCArTHY, FROM FIRST BASE AND REEVE FROM THE PITCHER'S BOX CRIPPLED THE HOME TEAM.

Connecticut played the second game of the season at home on Saturday, April 28th, when she met Wentworth Institute. The game was fast and peppy and it looked like a victory for the home boys until the sixth inning. Then the Aggies blew up and the Boston aggregation whaled in ten runs, the final score being 14 to 7, in their favor.

Wentworth scored three runs in the

Battalion Makes Fine Showing in Parade

CADETS MARCHED TO WILLIAMSTOWN AND GAVE SPLENDID EXHIBITION—BUM'S MANUAL AND SHAM BATTLE BIG FEATURES.

The cadet battalion left the army at 8:30 on Wednesday morning, April 18th. All the boys wore the olive drab uniforms and carried haversacks and canteens besides the rifles and side-arms.

Three rests were made enroute, one at Spring Hill, another at Mansfield Center and the last at the spring just outside of Williamstwon. At the last stop a twenty-minute rest was given and lunch eaten. Most of the march was made at route step but through Spring Hill and Mansfield Center the battalion marched at attention, to the accompaniment of the band.

The parade through Williamstown started at about 11:30 and the line of march was down Prospect Street to Windham Street and down Main to the old ball ground. The streets were lined with people who applauded the straight lines and strict military attention. The parade was reviewed at Lincoln Square by the Mayor and Militia officers.

At the ball grounds, Battalion parade and Butts' Manual was given. A twenty-minute sham battle took place at the end of the ceremonies, with one platoon of Company 81 on the defensive and the rest of the battalion on the offensive.

After the sham battle the battalion marched to the railroad station and dismissed, the boys returning when they were ready.

Junior Week Planned May 26th

BEST SPRING FESTIVAL IN HISTORY OF COLLEGE PLANNED BY CLASS OF 1918.

The first item in the list of events for Junior Week is a Junior Smoker which will be held Wednesday evening, May 23rd. This smoker will be the last one for the year and a final get-together of Juniors before the Prom, which will be held Friday night following. This year's Junior Prom is to be the largest and best ever held on the "Hill."
noon and for a few minutes one would have thought he was on the battle line somewhere in France, instead of in the peaceful little village of Gorleville.

The battalion reached the armory at one o'clock when the inspector, an officer in the coast artillery, congratulated the cadets on the fine showing they had made. He stated that the U. S. was short of officers and it was from just such institutions as Connecticut, that the officers for the new army are to be drawn. 

Junior Week Planned Week of May 26th

(Continued from page 1)

Already there are many more planning to go than were present last year, and it is believed many more will decide to go at the very last minute as has always been the case.

The Saturday program is as follows:

Tree Planting, 10:45 A.M.
Oration, 11:00 A.M.
Baseball game—N. H. State vs. Connecticut, 2:30 P.M.
Junior Tea, 5:00 P. M.
Junior Play, 8:00 P. M.

Junior week committee consists of the following:

Walter T. Clark, Chairman.
Louis H. Collin.
Francis B. Thompson.
Joseph B. Dillon.
Sidney A. Edwards.

Commencement Week

This year commencement is unsettled and it is thought that Commencement week will be dispensed with entirely. All ceremonies of graduation are to be omitted and it is to be as simple as possible. This is being done to show the students' own loyalty and patriotism to the United States, and also because so many of the seniors have left or are contemplating leaving.

This plan, however, is only tentative.

High School Day To Be Held on May 19th

A JOINT COMMITTEE OF FACULTY AND STUDENTS IN CHARGE OF ARRANGING ANNUAL EVENT.

It has been decided that High School Day is worthy of further observance. This year it will take place the 19th of May. It was planned to have it the 26th of that month but due to Junior activities taking place then, it was thought best to make it earlier.

The Publicity Committee plan to send a series of four letters to the high schools. The committee in charge plans to have a man at the Willimantic station to receive the visitors. Autos will be in readiness to take them out to the college where they will then register in the Main Building. Lunchroom follows; after which visits will be made to rooms in the dormitories and other places, parties being accompanied by guides. A military exhibition and drill will follow, which will be followed in turn by a track meet. A banquet for the visitors is the next thing on the program. While it has not been decided as yet as to what is to follow, it is thought that a Glee Club Concert, Minstrels, or Dramatics will take the place of former declarations. Also fraternities will be open to visitors. The committee in charge is a combination of two committees, namely, the Publicity Committee and a Special Committee appointed by the Students' Organisation. The latter has for its members Hibbings, Chairman; Francis, Ryan, S. A. Edwards, Cohen and Hall. It goes without saying that everyone should contribute his share in making this event a success. A good day means more men. More men means a greater variety of courses and greater opportunities for athletics.

Young People Of Church Present Play

On Saturday afternoon, April 21, 1917, the young people of the church presented, "One of the Eight," a college play written by Norman Lee Swartout. Although outside conditions were not favorable, among them a thunder shower in the middle of the show, which put all the lights out on the campus, the play was carried off in a very creditable manner.

The work of Miss Eaten, and Messrs. Francis, Hodges and Mason was worthy of mention and the whole cast did extremely well, especially under such adverse conditions as were present on the Hill during the last month.

This is the first activity of its kind among the young people of the church, but tentative plans have been laid for further work in the dramatic line.

The cast:

Henry Brookes...T. D. Mason
Mr. Brookes, his father...G. V. Hodges
Miss Isabel Long
Helen Baldwin...Miss Gladys Wheeler
Babs...Miss Lida Eton
Lord Chingworth...W. L. Le Feberre
Mrs. Brookes, his mother...Miss Helen Stevens

Wentworth Wins 2nd of Game of Baseball

(Continued from page 1)

first inning but that score was easily tied by the home team the first time at bat. In the third and fourth frames the Blue and White team scored three more runs, making what looked to be a safe margin and Chamberlain pitching air-tight ball.

So the score was 6 to 3 in the Aggies favor until the sixth. Then the whole team went up sky-high and the visitors jumped around the bases at will. Thirteen men faced the pitcher in this frame and all but one of them scored at least one run.

Coach Donahue then sent in Averill to pitch the rest of the game and the few remaining hits of the visitors were scattered.

The Aggies managed to squeeze one more run over in the seventh, but could not find their batting eyes enough to overcome the big lead.

The Connecticut team felt keenly the loss of Captain McCarthy and Reeves, but played good ball with the exception of their one downfall.

Chamberlain pitched a good game, striking out nine men in six innings. Averill also fooled the opposing batters easily and none of their batters was able to go beyond the infield, but one batter reached first in the last three innings. Captain Vaughs of the Wentworth nine was the handy man with the stick and knocked out three doubles and a single. Johnson, in the sixth, put a long one into the tennis courts for a homer, one of the longest hits ever made on Storrs field.

Varisty Nine Opens Season with Victory

(Continued from page 1)

Here the rally ended when Murphy struck out.

At the beginning of the ninth the score was 7 to 4 in the visitor's favor.

Chamberlain who had replaced Reeves in the box, kept the hitting of the visitors within the infield and only one man saw first base. Connecticut started in to make a showing and Reeves, the first man up, flew out to McCarthy. The head of the batting order then came up and Tombleu blew up, giving Brigham a pass. Hopwood followed with a pretty double putting Brigham on third. Murphy poked out a single over second and Brigham trotted in, Hopwood taking third. McCarthy was next up and after sending out a couple of foul balls, struck out which brought up another pretty two-bagger to deep center scoring Hopwood and Murphy.

Here Tombleu was yanked out and Lake was called in from the center garden to take command of the summen. McCarthy took third on a passed ball, Mahoney grounded out Lake to green. Lake reached second, then_lineno was hit and McCarthy trotted home with the winning run.

Fraternity Notes

Eta Lambda Sigma.
Brother Hanks was a visitor at the college, Sunday, April 15th.

Sergeant Richard Plumley, '15, is doing guard duty with Company K, First Connecticut Infantry, on a bridge one mile east of Willimantic.

Brothers Peck, Woods, Honold and Hanks are planning a reunion at the college for Saturday, April 26th.

George E. Anderson is employed in a bank in New York City. His present address is 167 West 69th Street, New York City.

Earl Demis is still with the Rosemary Farm, Wallingford, Conn.

Herbert V. Cardy's address is Zeta Farm, West Orange, N. J.

Dr. Nathan Girosiell is practicing medicine at Kensington, Conn.

Dr. Frederick A. Miller, '96, familiarly called "Corley," is a veterinary surgeon in Fitchburg, Mass.

Charles C. Zwingman, ex. '16, still continues his studies at Leland Stanford University, Calif.

Alpha Phi.
Ralph L. Henry, '16, is with the Nitrates Company of New York City, as associate manager of the spray chemical department.

Thompson H. Spencer, '15r, is with the North Public Health Bureau of New York City, in the bacteriological laboratory.

The Annual Fraternity Banquet will be held May 4th, at the Hotel Bond, Hartford, and no doubt, a number of the alumni will be present to renew old ties.

Harold B. Ellis, '15, is in charge of the gardens and grounds at the Oswe­nachtie House, Waterford, Conn.

Walter T. Ackerman, '15, has severed his connections with the Mathamatics and Engineering Department at the College and is now in charge of the State Ex­ tension Service. He is to soon take charge of the Boys' and Girls' Club work in Lebanon, Colechester and Mans­ field.

Phi Epilone Pi.
Robert Persky, of New Haven, and Miss Francis Fox, of New York, were united in marriage last month.

Harold Kaesowitz was a recent visitor on the Hill.

Sigma Alpha Pi.
"Major" Frank Hastings, '14, of Bridgeport, was a recent visitor on the Hill.

Will Langdon, '14, of New York City, spent Good Friday at the Col­ lege.

College Shakespearean Club.
A. E. Watson, '17, and E. N. Dick­ enson, '18, are on leave of absence from college doing work for the Ex­ tention Department. They are con­ nected with the city garden plot work which is a phase of the recent Food Conservation Campaign.

The Club held its annual Spring smoker in the room just before Easter, J. D. Wiegert, '13, who was operated on in the Elm City Hospital on April 5th, for appendicitis, is reported as doing nicely and expects to return to col­ lege about May 1st.

The class of 1918 held their annual smoker in the club room Monday evening, March 26th.

Commons Club.
The Connecticut Chapter of the Na­tional Federation of Commons Clubs held their annual banquet at the Hotel Bond, Hartford, Thursday evening, April 5, 1917. About 35 of the active body were present besides many alumni.

Glee Club

At a business meeting of the Glee Club held on the second of April, it was decided to discontinue further rehe­arsals until time to prepare for the college concert which will be given toward the end of the semester. This action was taken because of the diffi­ culty likely to be encountered in keeping affirs.

The quartette, however, is to keep in condition for summer days. Should 30 or more attend, the Club will probably be given some­ time during Commencement week.

Dramatic Club

Work has not yet been started on re­hearsals for the "Arrow Maker," but it is expected to begin shortly. This play is considered to be one of the best of its kind, and put forth by our local talent should give a very good portrayal of the life of the original settlers of America. It is an outdoor play and will probably be given some­ time during Commencement week.

Alumni Notes

(A send all contributions to A. C. Margaret.)

A. T. Audick, '15, is in charge of the plantation "El Agua" Camita, Cuba, where he is engaged in the production of sugar and tobacco. His marriage has also been announced.

R. D. Wicks, ex. '12, has recently purchased several Percherons for his farm in Pomfret, Conn.

H. L. Bushnell, '03, has assumed the management of Gaylord Farm at Wallingford, Conn.

Dr. H. Konetz, '05, of Cornell Uni­ versity, was a recent visitor at the college.

R. J. Black, '15e, is managing his home farm and also the W. C. Grannis Farm in Watertown.

Miss Bertha Hallrock is supervisor of children's gardens in Norwalk.

Mr. J. A. Gamble, '90, of the Dairy Divison of the Connecticut Department of Agri­ culture at Washington, has been ap­ pointed chairman of the Dairy Farm Inspection Committee by the Interna­tional Association of Dairy and Milk Inspectors.

Department Notes

DAIRY.

Pay 31st, a pure bred Holstein, in the college herd, dropped her eighth calf on April 19th. Four of the calves have been bulls and the other four heifers. Pay 31st was born August 31, '03. She is a daughter of one of the original cows from which the herd sprung. The last two years she produced over 15,000 pounds of milk each year. At one time she held the state record for milk for one day and seven consecutive days. Pay 31st has now four daughters, five grand­daughters and three great-grand­daughters in the herd.

The department of Dairy Husbandry has recently paid more than $20 per month to its students for summer camp training to be met by the United States government.

A graduate of the college who has completed the advance course is eligible for appointment by the President of the United States as Second Lieu­tenant in the regular army for a period of six months with pay at $100 per month and to a commission in the Officers' Reserve Corps.

Fire in Shakespearean Club in Storrs Hall

MUCH DAMAGE DONE TO FURNI­TURE AND ROOM BY FIRE, SMOKE AND WATER.

The first fire on the campus since the new fire alarm system and appar­atus has been installed, broke out in the club room of the College Shakespearean Club on Sunday morn­ing, April 29th. The fire was discov­ered about 2 A. M., and it was nearly 3 o'clock before it was finally ex­tinguished. Although the fire itself was small and confined to one corner of the room it was not located and ex­tinguished for some time, owing to the dense smoke.

The woodwork in one corner of the room was burned and the furniture and decorations were badly damaged by the heat and chemicals. All to­gether the damage was close to $400.

There are a number of theories ad­vanced as to the cause of the fire, many thinking it was started from a lighted cigarette or ashes. This theory is hardly plausible as there was some­one in the clubroom up to 11:45 and at that time there was no evidence of fire, nor had there been any one smoking in the room since early evening.

The room will be put in shape as soon as possible and be ready by the time school opens in the fall.

"THE COLLEGE"

Editorials

Students are leaving C. A. C. daily, some have taken positions as garden supervisors, others have taken jobs on farms and still others have gone into training for the U. S. Army. The Editor and Chief of THE CAMPUS has left college and with him many other members of the board, so this issue is being put out by the Managing Editor. Things were so unsettled during the month of April that it was impossible to get out more than this one issue at the end of the month. The past month has been given over to extra military drill and maneuvers, and these have taken much of the students' time.

However it is hoped that what is left of the board will be able to get out two issues in May and one in June. It will be almost impossible to get out an eight-page issue each time on account of the lack of news. It is hoped that subscribers and advertisers will understand the present difficulties and make allowances for the time the paper comes out and for the amount of news it contains.

In another column of this paper is a letter printed which was sent to the president of the C. A. C. Agricultural Club. This letter was from L. H. Healey, Secretary of the Board of Agriculture. In his letter Mr. Healey mentioned the prizes that are available for potatoes and corn to be exhibited at the show next fall. At this time when the cry is, "Raise more food," students going on to farms or into garden work would do well to look ahead a bit and plan for the near future. That is, plant now potatoes and corn with the idea of exhibiting them at the college next fall. Perhaps there will be no next fall for C. A. C. students—that is hard to say at this early stage of the war. Even should it so happen, there is everything to gain on the part of the student and nothing to lose. If the potatoes or corn cannot be shown next fall at the C. A. C. Agricultural Exhibition other very good uses can be made of the products, so nothing is lost. On the other hand if everything goes along the same as ever and some students plant and take a little extra care of their prize potatoes and corn, then exhibit them at college next fall and get first place in each class, $100 will go quite far for meeting entrance fees and other college bills. Yes, and the $100 can be earned in the easiest possible manner. So let some loyal sons of C. A. C. get busy. Start now.

To the Editor of THE CAMPUS:
The monthly meeting of the Connecticut Agricultural College Club of Hartford County was held in Hartford, Saturday evening, March 31st. The Club had for their guests, Professor Eaton, of the faculty, Mr. Hilldring, Editor of THE CAMPUS, and about twelve members of the senior class of the Hartford Public High School. It is to be regretted that the attendance at this meeting was far below the average, for those who stayed away missed hearing a splendid talk by Professor Eaton, and a defense of THE CAMPUS by Mr. Hilldring.

There are nearly two hundred alumni and former students of C. A. C. living in this state, who are eligible for membership in our Club, and the majority of these are within a few miles of Hartford, and can, with a little effort get out for the monthly meetings. If our Club is to accomplish anything we must have the support of all members. In "union there is strength," and I appeal to every member in Hartford County to turn out for our meetings, and let us keep up the good work, started in this county, for "boosting" our Alma Mater. We are the first County Club to organize, and at the organization meeting there were some C. A. C. alumni and former students present, the nucleus of a splendid club, but we have got to continue our interest, and knowing that all of us have the welfare of old Connecticut at heart, I am sure we will not fail to fall back in the purpose of the Hartford County Club.

Professor Eaton, at our last meeting, was along general lines, and was most appealing to the High School boys. In fact, four of those present told me after the meeting that they intended to apply for admission at Connecticut next September. They had learned something new about their State college, and nearly all of the twelve present intend to take in the annual High School Day in May.

The announcement made by Professor Eaton that the College was about to establish an Appointments Bureau will be welcome news to the alumni. This appointments bureau work has been successfully carried on at many of our larger colleges, and Connecticut will be doing a good work by "getting into line." Of course it is true that it is not the work of any college to find positions for their graduates, but it certainly is their duty to make recommendations, when possible, and to assist their alumni in every way, to secure places where they can carry on the work that their Alma Mater has tried to fit them for. After a man or a woman has spent four years in work in various departments of any college, most certainly the head of these departments ought to be able to have "sized" up the student and to know whether they are fitted for positions that may be available.

The Club welcomed "first hand" defense of THE CAMPUS from its Editor-in-Chief, Mr. Hilldring. We have not meant to unduly criticize the publication or its management, except in a way to make it a better paper. Mr. Hilldring's announcement that the board were always both in the matter of finances was not surprising. Has there ever been a time when the paper was not "financially embarrassed"? It is to be regretted that the college authorities found it necessary to cut down their support. These funds were needed and used in a good cause for Connecticut.

Mr. Hilldring also stated that the paper is not receiving the proper support from the student body, either in the way of subscriptions or contributing articles for publication. THE CAMPUS is strictly a students' publication and if you have the proper college spirit you will support it. It may be an easy thing for a man to borrow a paper and not subscribe himself, but you aren't displaying college spirit if you do this. It's your paper, it's the spokesman for your college, and you certainly cannot expect it to be everything desired in such a paper, if you don't lend a hand to make it so. If you haven't been a supporter of the paper you have no right, when you leave the "Hill" to "crab" the Board of Editors for their short-comings in publishing THE CAMPUS.

From the standpoint of any alumni, their greatest interest in the College paper, perhaps, is in the Alumni Notes. Mr. Hilldring tells us that it's almost a physical impossibility to make this column a success. The writer of this article does not agree with him. True enough it's going to be an uphill job for a few years to make your Alumni column a feature, but it can be done. It will take all the time one man can spare for the work of THE CAMPUS, to "round up" alumni notes. He has got to get the alumni interested, or perhaps I should say re-interested, for the Alumni notes in your paper has been nearly a dead issue for the past two years. He has got to solicit stories from some of the alumni (who will gladly furnish them if asked), and if he once gets them started the success of his work is assured. It is to be regretted that Mr. Hilldring could not have been present at the January meeting of this Club. There were men present who did not know THE CAMPUS was the College paper, and who hadn't seen one of the old "Lookouts" in years, and yet these same men are vitally interested in Connecticut and will support your paper if solicited. No doubt it's the case, with many, of "show us the goods and we'll buy," and yet I am sure every alumni and former student of C. A. C. will back your paper to the last ditch, and the "knocks" you may get are tempered with a loyalty to the old "Hill" and a desire to see things there of the very best.

H. G. Hanks, Secretary,
Connecticut Agricultural Club,
Hartford, Conn.

Resolutions Passed by Trustees and Faculty

At a meeting of the Board of Trustees held on Wednesday, April 18th, it was voted:

"That the Trustees offer to the Connecticut Committee on Food Supply the services of any or all members of the Connecticut Agricultural Staff and the President be instructed to have the entire staff trained in canning work, and that the members may be available to help conserve the food and garden crops to be grown during the coming season."

The following report of President Beach was read and approved:

1. Instructions have been given to the Farm and Market Garden Departments of the College to increase the plantings of potatoes and vegetables for the use of the Boarding Club for the coming year in amount sufficient to supply the winter needs of the Club.
2. Land is being provided for members of the Faculty for Home Garden purposes.
3. The hours given to military in-
structure have been increased. One full day each week is given over to military maneuvers.

4. The faculty have voted to promote or graduate students who may be called on or who volunteer for military duty.

5. The faculty have voted to promote or graduate students who may be selected by the Extension Department for leadership in Boys' and Girls' Club work.

6. The baseball schedule has been cancelled.

7. The male faculty have voted to organize a Home Guard. An application has been made for a Recruiting Officer.

8. In so far as possible, the Station in its investigational work will cultivate staple crops that may add to the supply of food products.

9. The landscape department will continue the planting of ornamental shrubs and flowers on the campus.

Roger S. Baldwin, 16s

HAS MADE MANY IMPROVEMENTS
-GAVE TALK TO CITY FARM
-DOING WELL ON FARM

Mr. Baldwin is located in Woodbury, Conn., where he is doing his part for Agricultural Preparedness. He is not only working a farm himself but goes out and gives advice on planting to people who wish to plant gardens of their own. Mr. Baldwin has a very unique way of showing how to plant small seeds; this is done by taking a small box of soil and planting the seeds. His letter follows:

"Managing Editor of The Campus:

Dear Sir:--I have bought 200 acres of land in the town of North Woodbury from Howard Minor and Frank Peck. Have rebuilt the house, installed an engine and heating plant and piped water from a spring, and equipped the house with electric lighting plant, built a new dairy barn and silo and bought 14 head of young Holstein stock, two and three-year-old heifers, for the most part coming in the fall. Enclose clipping showing that I gave a talk on market gardening to the Ladies' City Farm Club at New Haven last week. Very truly yours,

ROGER S. BALDWIN."

Garden Supervisors

At this time of agricultural preparedness the towns of the state naturally look to the state college for men to advise and assist in planning gardens. The following students have left college to take up garden supervision work in different parts of the state:

Stamford--A. H. Watson, S. W. Barlow, Miss Helen Clark.
Bridgewater--A. J. Reeve.
Greenwich--E. N. Dickenson, S. W. Mead.
Hartford--W. T. Clark.
Meriden--S. Edwards.
New London--R. S. Harris.
Norwalk--LeRoy Chapman, Miss Hallock.
Norwich--A. C. Sheldon.
Plainfield--W. H. Slee.
Putnam--D. Travers.
West Haven--N. Cohen.

Many Students Leaving

Twenty-five applications have been made for entrance to the training camp at Fort Ethan Allen, Vermont, and at present the applicants are devoting all their time to military science. By vote of the faculty, classes for the applicants will be suspended until May 8th, in order that they may have more time to give to military science.

Plant! Plant!! Plant!!!

Every possible acre should be set at work—there's no danger of over-production this year. A hungry world is waiting for American foodstuffs. "Whether for internal peace and industry or against foreign foes, a prosperous, profitable agriculture is the best armament," says the banker and farmer, and continues, "It is not believed that our land is producing half what it could under more scientific methods whose worth have been demonstrated. Every bank in the United States should co-operate with the farmer, who has a patriotic, as well as profitable duty, to increase his production of foodstuffs this year."

In a recent bulletin, The National City Bank of New York says: "With reserves exhausted, and the world situation what it is, there is no danger of overproduction, for the largest possible crop in this country is certain to bring remunerative prices. It must be remembered that if the war ends at any time before the crop of 1918 is harvested there will be a great demand from Central Europe on the crop of 1917.

For best results, these extra acres must be well fertilized. In the words of a close student of the fertilizer question: "The difference between intensive farming and ordinary farming is the difference between bumper crops and lean crops, between progress and poverty; in short, between success and failure."

The farmers of Aroostook County, Maine, have long been conscious of their faith in liberal crop feeding. Last spring, in spite of the scarcity of potash, they applied about 2,000 pounds to the acre of fertilizer rich in phosphorus and nitrogen. The result—a bumper crop of potatoes when most needed. Many farmers made a comfortable fortune from potatoes in a single year and Aroostook became the richest agricultural county in the United States.

Good seed, thorough preparation and persistent cultivating are other details that must be carefully looked after if we are to make the most of our opportunity. Now, let's all buckle into the spring work with a will but go careful with that soft team.

Editor's Note—The above article is from the editorial bulletin of The Charles Advertising Service.

Prize Money Offered

Last fall the C. A. C. Agricultural Club became a member of the State Fairs Association. This enabled the club to give $100 in prizes at the annual exhibition held last December, the club in turn was reimbursed by the State.

This fall a larger and better exhibition of agricultural products is planned. The club will give away $100 in prizes and this alone ought to be enough to induce students to bring exhibits from home.

A few days ago the president of the club received the following letter which is being published in the campus at this time so ample preparations can be made to compete for the prize money offered.

"My Dear Sir,—This is to inform you that the offer as made by Col. W. H. Hall, of the Stafford Springs Agricultural Society, in co-operation with the Connecticut State Fairs Association which was operative for the summer of 1914, is to be continued for the season of 1915. The acceptance of this offer by the Connecticut State Fairs Association carries with it the offering of the following premiums under the following conditions:

To all persons who may compete at any of the Agricultural Fairs for the season of 1917, in either the corn or potato classes, and shall receive a first or second award upon a one-half bushel of potatoes, we offer the following:

For the best one-half bushel exhibit of potatoes, $50.
Second best one-half bushel exhibit of potatoes, $30.
Third best one-half bushel exhibit of potatoes, $25.
Fourth best one-half bushel exhibit of potatoes, $20.
To any who receive a first or second award upon a ten-ear corn exhibit at any of the Agricultural Fairs for the season of 1917, we offer the following:

For the best ten-ear corn exhibit, $50.
Second best ten-ear corn exhibit, $30.
Third best ten-ear corn exhibit, $25.
Fourth best ten-ear corn exhibit, $20.

All competitors must be citizens of Connecticut and all exhibits must be Connecticut grown and raised by the exhibitor. The final exhibition of exhibits to be made at the mid-winter meeting of the State Board of Agriculture or at such time and place as the Board of Agriculture may announce.

We have been informed that some of the exhibits which competed for prizes at the last mid-winter meeting were not raised by the exhibitors. Should this occur again and the fact is known to the committee, those making such an exhibit will be barred from the exhibition.

We suggest that this vote be printed in your coming premium lists and that the offer be given as much publicity as possible, that it may assist in increasing the number of exhibits at your local fairs and exhibits a goodly number for the final exhibition.

Very truly yours,

LEONARD H. HESLEY, Secretary."

Campus Notes

Moving pictures in the Armory, Saturday nights, have been discontinued on account of so many students leaving college. The last few times the attendance has been very small.

The ditches, where the mains from the central heating plant were laid, are now being filled up. As a result the campus is beginning to look more like a peaceful resort instead of a place where one might think trench warfare existed.

The season has been so backward that the shrubbery and other decorations on the campus have not started to grow much as yet.

Mr. Fraser, superintendent of grounds, has had a large gang of men at work, raking the lawns and cleaning up the grounds in general.

Living in This Age

Our grandparents looked upon soap as a very desirable means for washing food and milk utensils. They had nothing better nor knew of nothing better.

Today it would be a difficult matter to find a Pure Food Expert or a Dairy Authority recommending soap, and it would also be just as difficult to find one who did not recommend

Wyandotte Cleaner and Cleanser

This wonderful cleanser has no soapy greases or fats. It leaves no soapy odor, it is pure and purifying. It cleans clean, it sweetens, and it makes things sanitary. You are not asked to accept these statements without proof for Wyandotte Dairyman's Indian in Circle Cleaner and Cleanser is positively guaranteed to be and to do all that is claimed for it or money refunded. Ask your dealer or order from your dairy supply man.

IT TAKES 400,000 cars to carry American Fertilizers to Farmers and Barkers Association. Forty percent of this is useless Filler requiring 100,000 cars! Insist on having less Filler and all high grades with Available Nitrogen, namely:

Nitrate of Soda and thus cut freight bills.

CROP production from such Fertilizers means greater ouidaneous tonnage for roads and bigger purchasing power for Farmers. Railroads and everybody would benefit. Larger crops from these grades would give increased prosperity to all. It is up to you, Mr. Farmer. Send for "Cost of Available Nitrogen" by DR. W. M. SMYERS

No Cause to Worry About Engine Fuel

That unpleasant topic, "The High Price of Gasoline," should have nothing whatever to do with engine power on any man's farm. Unless one has money to burn, it is good policy to stick to that good, cheap stuff we fill the lamps and lanterns with.

Mogul engines are creating low cost power for thousands of owners, because they work on kerosene, the economy fuel. Mogul engines are satisfactory in every way. Investigate these advantages: Enclosed Crank Case, Side Shaft, Built-in Magneto, Automatic Force Feed Oiler, Removable Valves, Flyball Throttling Governor, and so forth and so on. Write for catalogues. Moguls are made in all styles, sizes 1 to 50-H.P.—and they work on kerosene!

The Connecticut Agricultural College
PRESS BULLETIN

To Editors:—

The enclosed appeal to farmers is of the utmost importance. There is a decided feeling among farmers that there is great risk in increasing production this year. A very small increment on a large number of farms will mean a large addition to our food supply. You can render a service to our state and nation by giving this—the greatest possible publicity—preferably on the front page. In a daily, it would have greater effect if run in two or three successive issues.

A CALL
To the Farmers of Connecticut

Do you know—

That the world is facing the greatest food shortage ever known!

That the life of our nation depends on your response to the call NOW.

That an extra half acre of corn grown on each farm in Connecticut will mean A HALF MILLION bushels of shelled corn.

That prices are sure to be high for some time to come.

An increase of one-half acre means little extra labor, no new tools and very little extra effort.

Consider this thoughtfully. Our country needs this food. You need it on your own farm.

THIS IS YOUR SERVICE TO THE COUNTRY. DO YOUR BIT.

The Agricultural College and Experiment Stations are ready to help. Call on them.

Service and Friendship

We aim to give courteous, efficient service. We know it is a business asset. It will help to increase our sales, thereby making it possible to buy in larger quantities and at lower prices. The lower our cost—the less you will have to pay for your supplies.

Let us keep our dealings on a friendly, courteous basis. We would like to have you feel that you want to say “Hello, Al,” and have him reply “Hello, Pep,” when you call at
