NEW CAMPUS BOARD RECENTLY ELECTED

CONSTITUTION DRAFTED AND ACCEPTED.

L. L. Crosby to Succeed R. H. Barrett.
C. R. Brock is Managing Editor.

A meeting of the “Campus” Board was held Tuesday evening, January 1, at the home of G. H. Campbell, for the purpose of appointing a new editor-in-chief and electing new members to the Board of Editors, as well as to transact other business in connection with the “Campus.”

L. Crosby was appointed Editor-in-Chief to succeed R. H. Barrett. Four members of the staff were elected to positions on the Board, as follows: C. R. Brock, A. C. Bird, R. F. Belden and E. R. Sherman. Mr. Brock was appointed to the position of Managing Editor, while Mr. Bird and Mr. Belden were appointed to the Associate Board for a year. The thirty acres of land bought of L. L. Crosby, includes the one occupied by him at present and the new one he is erecting on Dog Lane. When selling this property to the College, Mr. Crosby reserved some land on the back part of the lot, where he will erect a house for himself as soon as the weather permits. Until his new home is completed, he will remain in his present abode.

The thirty acres of land bought of President Beach were purchased by J. G. Watson, fieldman for the Watson Company.

FACULTY WORK WITH FOOD COMMITTEE

ATTEND MEETING IN HARTFORD.

Home Gardens Committee to Publish Manual.

A number of the faculty attended a meeting of the Committee of Food Supply on Thursday, January 3, attended by President Charles L. Bach, who is a member of the committee. All the county agents of the state were present and members of various sub-committees of the Food Committee.

The meeting was held in the Council of Defense room, in the State Capitol Building, Hartford, and lasted from 2 until 6 p.m. The members of the faculty and extension department who are serving on the various committees and who attended the meeting are as follows:

Small Grains—Prof. W. L. Slate, Jr.
Poultry—Prof. W. F. Kirkpatrick, E. Jones.

(Continued on page 2.)

CONNECTICUT BUYS MORE PROPERTY

INCLUDES THREE HOUSES AND FORTY ACRES OF LAND.

Experiment Station to Use Part of New Land—Mr. Haushchild to Build.

The College has bought of John N. Fitts the new house erected by him on the north corner of the Willimantic Road and Dog Lane, two houses of Julius Haushchild with ten acres of land fronting on the Willimantic Road, and of President Charles L. Beach, thirty acres of land on the north corner of the Willimantic and South Eagleville Roads.

The houses that were owned by Mr. Haushchild include the one occupied by him at present and the new one he is erecting on Dog Lane. When selling this property to the College, Mr. Haushchild reserved some land on the back part of the lot, where he will erect a house for himself as soon as the weather permits. Until his new home is completed, he will remain in his present abode.

R. H. BARRETT.

Rollin H. Barrett, ’18, has left the College to accept a position with the Farm Bureau of Hartford County, where he will devote most of his time to publicity work, and the problem of farm labor. Mr. Barrett took an active part in College activities, being Editor-in-chief of the “Campus”, chairman of the Students’ Council Committee, first lieutenant in the Barracks, and a member of the Commons Club.

CONTINUES TO MASS. AGGIES

LOCAL TEAM IS BEATEN BY THE SCORE OF 25 TO 20.

Inaccuracy in Shooting Foul Loses the Game.

The absence of ex-captain Dickin- son from the lineup, and the strange- ness of the floor at Amherst, last Sat- urday, caused the Connecticut team to go down before the Bay State quintet by a scant five points. The score when the timekeeper's whistle sound- ed stood 25 to 20.

Although nearly a score of opportunities were offered, throughout the game, the men from C. A. C. were able to ring but four baskets from the foul line. Here above all, the team showed the effect of the loss of Dickson.

The stellar work for Connecticut was shared by "Jim" Godrich, who shot all but one of the goals from the foul line, and Captain Harry Lock- wood, who made a number of good shots, from the floor.

MINSTREL SHOW IS WELL RECEIVED

FORTY STUDENTS TAKE PART IN PROGRAM.

Fifty Dollars Cleared—Money to be Given to "Campus" Fund.

At a meeting held in Boston last week. This meeting was a conference of the presidents of the New England agricultural colleges, held in Springfield on January 22, with the purpose of outlining the work of the colleges and to prevent duplication of activities.

NEW "CAMPUS" BOARD.

(Continued from page 1.)

The constitution, as it was adopted, calls for a Staff and a Board of Editors, admission to which is open by competitive examination of the student body. Places on the Staff are open to those who qualify through this competition, and the successful candidates are appointed by the Board, acting upon the recommendations of the Editor-in-Chief and the Business Manager. Places on the Board of Editors are to be competed for by the members of the Staff and are to be filled only upon the request of the Board.

The question of awards of merit for the members of the Board was one of the greatest interest of the meeting.

The by-laws dealing with this subject are as follows:

"Major and minor awards shall be made to members of the Board, for meritorious service. The major award shall consist of a gold watch-fob or pin of accepted standard design. The minor award shall consist of a Greek letter fob or pin of accepted standard design. The following, to be taken by them, at the discretion of the presidents of the New England agricultural colleges, presented "The Soldier Boy Minstrel" in Hawley Armory, in order to raise money to defray the expense of sending the "Campus" to foreign "Aggie" men who are now in the Service. The cast included forty students. Joseph S. Miller filled the position of interlocutor as well as director of the production. F. J. Mahoney, E. D. Dow, C. R. Prescott, G. E. Hayes, F. J. Ryan and L. W. Cassel, assisted by a chorus of voices, rendered the catchy songs, which gained considerable applause. Special mention must be made of the work of "Connie" and "Zulu" Presidencies, which was both clever and amusing.

An original sketch, entitled "No. 45 House in France," was given, during which "Dog" Hirsh was precipitated from the Heavens with copies of the "Campus" for the Soldier Boys. The features of the sketch were the music given by the quartet made up of L. W. Cassel, E. R. Sherman, R. H. Mattoon and B. R. Moore, and the "coon" dialect song sung by "Buxx" Mattoon.

All of the "Blackguards" gave a great deal of their time to presenting the show and in cooperating with the director and the committee.

Fifty dollars were cleared, and this contribution to the "Campus" fund will send several issues of the campus to the boys in the Service.

TO INCREASE POULTRY.

Help Food Committee.

The committee on home gardens is publishing a manual which will cover all the points the supervisor or local committee will need to carry on the work successfully. Professors Latson, Stevens, Slate and A. J. Brundage of the College; W. E. Britton and G. P. Clinton of the Connecticut Agricultural Experiment Station; New Haven; Senator C. C. Hemenway, editor of the "Hartford Post" and G. H. Hollister of the Hartford Park Department, will contribute to it. The material will be edited by G. H. Campbell and the manual issued at an early date.

To increase Poultry.

Boiler in Koons Hall breaks.

Boiler in Koons Hall breaks.

The amount of $113.55 was cleared at the Junior Hop and given over to the treasurer of the Alumni Association. This money is to be invested in a Liberty Bond and thrift stamps, until it will be needed for the erection of a memorial in honor of the C. A. C. men in the service.

Junior Hop nets $113.55.

Miss Madeline Jackson has resigned her position as stenographer in the Extension office, and is to continue her studies at the Hartford Business College. Miss Hazel Puffer of Staford has accepted the position formerly held by Miss Jackson.

Buy Your Tractor Now.

The tractor is a real help to American farmers now. It is fast taking over all the heavy farm power work.

Kerosene is the best, as it certainly is the cheapest tractor fuel. Therefore all our tractors, International, Mogul and Titan, are designed, built, and guaranteed to operate successfully on this cheap, plentiful fuel.

We pay particular attention to these three essential features: That our tractors shall operate on the cheapest fuel farmers can buy; that they shall be so simple that any farmer can learn to handle them; and that they shall do enough good work in the field and at the belt to more than pay for themselves.

On this basis we solicit your orders for Mogul 10-20, Titan 10-20 and International 15-30 kerosene tractors.

It will be difficult for us to furnish your tractor as soon as you want it. The demand is hard to keep up with and shipping facilities are very much crowded. So make your order now, make your decision, and send in your order as soon as you can. Invest in an International Harvester guaranteed kerosene tractor in time for the spring plowing.

OSBORN

USA.
Gymnastics class started.

In spite of the fact that there is no physical director this year, and no gymnastic work under the supervision of the College, thirty-six men appear on the floor of the gymnasium Friday afternoon, January 4, and formed a "gym" class. William J. H. Schimmel, '20, who is in charge of the course, will lay emphasis on the use of the floor of the gymnasium. Schimmel, a former wrestler, just returned from the Berkshire sale to be completed when the heating plant, said recently that two flues of the three had arrived, and that the remainder will be completed in the near future.

First floor: teal and red.
Second floor: green and blue.
Third floor: yellow and orange.

Two Flues Arrive.

Heating Plant to be Completed When the heating plant, said recently that two flues of the three had arrived, and that the remainder will be completed in the near future.

(Continued from page 1)

While becoming accustomed to the Massachusetts floor, which is not only smaller than their own but also has a sticky, oiled surface, much different from the smoothly waxed floor in Haywood Armory, the team allowed the Bay Staters to gain a lead of five points in the first half, making the half time score Mass. Aggies 17, and for the Connecticut Aggies 12.

Profiting by their experience in the first half, the Connecticut five came back and held the home team to a tie, each side making eight points.

At Amherst the only varsity man left on the team was Capt. McCarthy, who acted in the role of chief point man, and held the home team to a tie, each side making eight points.

As Aggie band added "pep" to the enthusiastic gathering which had congregated to see the game.

The lineup follows:

Two Flues Arrive.

BARRETT LEAVES "CAMPUS."

The Editorial Board of the "Campus", like all other organizations on the Hill, has lost a number of its best men, last of whom is its Editor-In-Chief, Rollin H. Barrett, '18. Although the "Campus" has been published but five times this year under his leadership, it has seen a greater improvement in that short space of time, than in the last five years. This has been due in great part to Mr. Barrett's hard and earnest work that a definite schedule for publication has been set and adhered to. Never before in the history of the paper has the amount of interest been shown by the students, as has been the case this year. The new Board which has been elected to carry on the publication of the "Campus", will do all in its power to keep up the excellent standard set by Mr. Barrett, and extends to him the best of wishes for success in his new undertaking.

EXAMINATION RULES.

As examinations are almost here we believe it is a good plan to publish a few rules regarding them.

Excuse from Examination—A student whose semester mark in any subject is 85 per cent., or more and whose absences do not exceed the allowance, may be excused from final examination at the option of the instructor. In case of sickness semester mark fixes the grade for the semester. A student who is excused may try the examination, but if he hands in his paper it will be counted in computing his grade in the subject.

Special Examinations—Special examinations will be given only on the first and third Saturdays of each semester for special reasons or for making up conditions in laboratory or other work. The fee for special examinations is $1. Deficiencies in laboratory work must be made up before any final examination of the subject can be passed off. When a special examination is due to exclusion from the regular examination, the student is not advised, and a fee of $1 is applied for any special examination due to unexcused absence from a regular examination.

Special Examinations for Seniors—A senior will be allowed in the second semester only two special examinations in the case of conditions acquired previous to that semester. For the removal of conditions acquired in the second semester two examinations only will be allowed. This rule applies also to second-year students in the school. He must make application to the Registrar's Office.

Eligibility for Paid Work, Athletics, etc.—Students who have deficiencies or are doing unsatisfactory work in any subject, may be denied the paid work, from taking part in athletics, or from representing the College upon any organization or team. No student who matriculates at or after the beginning of the second semester will be permitted to play on the baseball team during that year. No amateur athlete will be permitted to play on the football team. Certain upper-classmen know these songs to every Freshman who does not know them, especially when the Freshmen have shown their desire to learn them? Why not obtain the music and words for these songs from the director of the Glee Club and authorize the club leader to call a mass meeting in order to teach everybody the Connecticut songs? It's up to an upper-classman and his Alma Mater not in teaching these songs to every Freshman who does not know them, especially when the Freshmen have shown their desire to learn them?

THE COLLEGE ANTHOLOGY.

Is there any one in the College who has ability to write poetry? If so, the following circular letter, recently received by the Registrar, will be of interest to you. There is no reason why this College should not be represented in this Anthology. There is plenty of time to work on this poetry after examinations are over before March 15. The circular letter follows:

"We are now collecting the material for our 1918 College Anthology (Volume III). We want your college to be even better represented than in previous years. All students who are interested are urged to forward their best work, if possible, for inclusion in this Anthology. Poems should be submitted not later than March 15, 1918."

Please send your poetry and address all communications to Henry T. Schnittzed, Ph.D., Editorial Department, The Stratford Company, Publishers, 32 Oliver St., Boston, Mass."
My duties and adventures are few and wholly unexciting. I am afraid they will appear quite uninteresting to the many of you who are officers and in the service. Still I hope they may interest some one and I know I shall be interested in the doings of the others.

To begin with, I enlisted in Bridgeport on July twenty-third. I went home for a few days and on the twenty-eighth was sent to Fort Slocum. I remained there five days and was taken with five hundred other recruits to this place. Here we drilled for three weeks as recruits and were turned into the company for duty. I was made lance corporal that day and have thus far avoided all fatigue work. Soon after that I was made corporal and am still holding that position.

Our company (Company B, eleventh infantry) is now made up of five lieutenants, one first and four seconds, three sergeants major, one sergeant major, twenty corporals, and was turned into the company for duty. There are eight sergeants and about fifteen corporals and one hundred and twenty privates. This last are a hard bunch to handle. Many are foreigners who understand nothing but mess and pay call. They are slack about the tents and are as bad as any of the boys in Chattanooga recently and this company are as good an assortment as any we have here.

The bayonet drill has changed and they have here are better. The officers are getting to be a steady humdrum, the good things before them. The bayonet drill has changed and they have here are as good an assortment as any we have here.

The bayonet drill has changed and they have here are as good an assortment as any we have here.

H. G. HANKS TO BE MARRIED

The marriage of Harry G. Hanks, '06, and Ethel Griffin is to take place at "Knolltop", Quaker Hill, New London, tomorrow afternoon at 6 o'clock. Mr. and Mrs. Hanks will reside in Hartford, where Mr. Hanks has been in the real estate business since graduating from College.

COLD LOWERS PRODUCTION.

The cold spell of the last week has had its effect on the fowls at the poultry plant. Many have had their combs and wattles frozen, for even with the best of care, the cold could not be kept out of the houses. The egg production was cut down to some extent by the extraordinary conditions of temperature.

Moving pictures were resumed Saturday, January 5, 1918, at 7.30 p.m., in the Hawley Armory. The films run were: Victor Moore, in "Chimmie Fadden Out West", and Dustin Farnum, in "The Gentleman from Indiana". The price of admission was advanced to fifteen cents to cover the extra expense of the war tax levied by the Government.

L. A. Clinton, former director of the Experiment Station, who preceded Professor Slate as head of the Agromony Department, visited the College recently. At present Mr. Clinton is in the employ of the States Relation Service of the United States Department of Agriculture, and is in charge of the extension work in the Northern and Eastern States.

A carload of feeder steers was unloaded at Manfield Depot, Saturday afternoon, January 5, by Judge W. Storrs, of Springhill. The consignment, consisting of forty head, was ordered December 22 by Professor H. L. Garrigus.

F. A. Roper of the United States Department of Agriculture, an inspector of farm management work, recently visited the College.

Nitrate of Soda

Data as to increased crop yields due to the use of Nitrate are available. Why not make your business of crop fertilizing profitable by the use of Nitrate of Soda whose efficiency is known?

A bushel of corn or wheat or a bale of cotton today will buy more Nitrate and more Acid Phosphate than ever before.

Send for "Increased Crop Yields from the use of Nitrate of Soda"

Look for the Bumble Bee of the Blackberry in a Clothing Sale.

There's a sting at the end of mistaking a bumble-bee for a blackberry. If you buy clothing at "reduced prices", be sure that the reductions are sponsored by an establishment which inflexibly maintains prices during the height of the season.

Our Clothing is reduced only twice a year—January and July. It is worth its price to us all the year, but the space is worth more to us at the end of the season.

BOILER BREAKS IN MACHINERY BUILDING.

Repairs Nearly Complete—Classes Resumed.

On Sunday night, December 30, the extreme cold weather caused the boiler in the Farm Machinery Building to be put out of commission, because of one section cracking. The exact cause of the cracking is not known, but it is supposed that a portion of the pipe which returns the water to the boiler froze, thus causing the amount of water in the boiler to become low. Several pipes in the building burst as a result.

This undertaking was sufficiently repaired to allow the building to be heated for classwork the Friday following, and the remaining repairs will be completed in the very near future.

Several of the faculty cottages also had frozen water pipes during the recent cold spell.

POULTRY DEPARTMENT BUYS BEETS.

The Poultry Department has been buying mangel beets for green feed for the hens. Fifteen tons of beets have been bought by the department from Mrs. F. Huntington Clark of Roxbury, Conn., who has kept a large flock of poultry and is now selling out. The railroad agreed to load them on a car and keep a fire in it until it was delivered at Eagleville. They came in January 2, and although they were on the road through three days of the severest weather, they came through in fairly good shape with only a small part frozen.

BIRTHDAY SUPPER GIVEN.

A birthday supper was given by Mrs. S. M. Findlay in honor of five members of the Senior class, in the Dining Hall on Sunday evening, January 6. It was a peculiar incident that the birthdays of these men came so close together—R. H. Barrett's being the sixth, P. L. Sanford's the seventh, D. H. Horton's, B. F. Thompson's, the eighth, and S. B. Morse's the ninth. All were present with the exception of Mr. Thompson, who was in Boston over the week-end taking examinations for the Aviation Corps.

Three former C. A. C. men who are at Ayer have been selected to attend the Camp Devens Officers Training School, which began last Saturday. The most likely men from each company are picked to attend this school, and this year the listed for line officers. Of the men selected were Sergt. Stanley I. Shafer, '20, Naugatuck; Harold B. Ellis, '15, Ansonia; and H. B. Goodrich, '19, of Rockfall, Conn.

PROF. BLAKESLEE ELECTED V-PRESIDENT OF THE BOTANICAL SOCIETY.

Dr. E. W. Sinnott, who is Treasurer of the American Botanical Society, returned on January 2 from Pitts­burgh, Pa., where he had been since December 27, attending the annual meeting of the American Association for the Advancement of Science. In conjunction with this meeting, were the meetings of the several scientific societies which are more or less closely allied with the A. A. A. S. The programs at the several meetings were, for the most part, given over to discussions and study of scientific problems brought up by the war. It was essentially a war meeting.

The botanist appointed a committee, which is to cooperate with the Government in regard to various scientific problems, brought about by the war. Chief among these problems are those which have to do with plant diseases. This committee is also trying to secure some plan by which men with particular botanical training may be used by the Government in a more efficient way than would be possible in the military services.

The Botanical Society also has taken steps to start a Botanical Abstract Journal. This publication will contain references of abstracts pertaining to all botanical literature. Not only will this include the pure Botany, but also such closely related subjects as Forestry, Bacteriology, Horticulture, or any other phase of Applied Botany. This undertaking is, according to Dr. Sinnott, one of the most important undertakings ever begun by the botanists of the country, and, will, no doubt, be of invaluable value to all scientific studies.

Professor Blakeslee, of the Carnegie Station for Experimental Evolution at Cold Spring Harbor, L. I., read a number of his recent papers before the American Society of Naturalists, which was in session in conjunction with the larger Association meeting. Dr. Blakeslee was also elected vice-president of Section G of the American Association for the Advancement of Science. Section G is the Botanical Section of the Association. The next annual meeting of the Association will be held in Boston.

EXTENSION SCHOOLS OPEN.

The third season of Extension Schools was opened at Goshen on January 1 for a period of five days. B. G. Southwick lectured on Field Crops, Miss Maude E. Hayes lectured and gave demonstrations on Food Conservation, and Mr. B. Musser lectured on Dairy Husbandry.

Professor Guy C. Smith, Field Agent in Marketing, has charge of the War Emergency Food Survey being conducted in this state by the United States Bureau of Markets.

Gold-filled, Sterling Silver, Nickel—fitted with army strap and luminous hands. From $4.50 to $35.00.
H. W. STANDISH, JEWELER, 725 Main Street, Willimantic, Conn.

THE DE LAVAL CREAM SEPARATOR
Is a Winner!

At the great national and international expositions, the juries have invariably acknowledged the superiority of the De Laval. They awarded the Grand Prize—the highest possible award—to the De Laval at the Panama-Pacific Exposition at San Francisco in 1915, as also at Buffalo, Chicago, St. Louis, Paris, Brussels, and all the great world expositions for more than 35 years.

De Laval Produced Cream Makes Best Butter
At every convention of the National Buttermakers' Association, butter made from cream separated by a De Laval separator has scored highest—a 100 per cent. record for the De Laval, which only unusual merit has made possible. The superiority of De Laval Separators and of De Laval produced cream is no longer questioned. It is an accepted fact.

The De Laval Separator Company
165 Broadway, New York 29 East Madison Street, Chicago
