THE CONNECTICUT CAMPUS
PUBLISHED SEMI-MONTHLY DURING THE COLLEGE YEAR
Vol. IV
STORRS, CONN., FRIDAY, APRIL 19, 1918
No. 13

TO COMPLETE PLANS FOR COMMENCEMENT
ALUMNI TO MEET MAY 11.
College and School to Combine for Exercises, Dr. Wilson of Columbia to Speak.

The Class Day and Commencement exercises of the graduating classes of 1918 will be held on the Hill the week-end of May 11. As is the custom the examinations for seniors will be over on May 5, and the first exercise for the week will be the Baccalaureate sermon on Sunday, May 5, at 3.00 p. m. in the church. The services, Dr. Eaton, Parry who was so popularly received at the time he gave his lecture on David Lloyd George, have been secured for this occasion.

On Friday, May 10, the Class Day exercises of the combined College and School classes will be held in the Armory at 11 a. m. The faculty and guests in part experiences the utmost cooperation between the two graduating classes is being shown. This is due partly to the reduced number of classes and also to the spirit of the times, but it is chiefly accounted for by the extreme openness-mindedness of these classes and a desire on the part of each to offer the least possible hindrance to a most successful graduation. The presentation of a play by the dramatic club on this night, followed by dancing, is an added attraction for Class Day festivities.

Saturday, May 11, at 9 a. m., in Horticulture Hall, the Alumni Association will hold its annual meeting, which is open to the members of the graduating classes. The meeting this year is quite important since the election of officers takes place and as a result of war conditions there is much business to transact.

The Commencement exercises proper will take place at 10.30 a.m. George B. Chandler, a member of the State Council of Defense, who was to have given the Commencement Address, has sent word to Dr. T. H. Eaton that he will be unable to speak at Commencement. Mr. Chandler has recently been sent on a tour of the West by the National Council of Defense. Dr. Chandler, therefore, engaged Dr. Warren H. Wilson of Columbia University to give the address. Dr. Wilson is the lecturer in psychology and rural education and is a very interesting speaker.

The following committees are in charge of the activities:—faculty, Professor C. M. Wheeler (chairman), Professor J. N. Flitts, Professor H. L. Garrigus; College Seniors—P. L. Sanford (chairman), D. H. Horton, A. G. Tappert; School of Agriculture—B. E. Callahan, J. B. Stuart, J. F. Wood.

CAMPUS WILL BACK PATRIOTIC DRIVE
CROSBY ELECTED TO IMPORTANT POSITION.
Council of Five to Work with George Creel on Publicity.

The war council held at the Columbia University Club in New York on Thursday, was attended by representatives of the Pi Delta Epsilon fraternity, was the request of Publicity Director George Creel of the National Committee on Public Information, to see what could be done in organizing college newspapers for a patriotic campaign to be carried on throughout the country.

Franklin G. Dunham, ex-president of the National Pi Delta Epsilon Fraternity, president at the council and plans were discussed for the organization of the college papers. Upon the motion of Everett Hicks of the Syracuse Daily Orange and James M. Fassett of the Colgate Maroon, it was voted by the representatives to have a committee of five appointed by the chairman. These five men were to be selected; one from a technical college, one from an agricultural college and three from colleges and universities, to discuss with Karl Beyer, assistant to George Creel, at the Vanderbilt Hotel on the next morning. The men selected by Chairman Dunham are as follows: Chairman, Francis W. Rogers, Managing Editor of the "Columbia Spectator"; R. W. Ludlow of the Lehigh "Blue and White"; James L. Fassett of the Colgate "Maroon"; L. L. Crosby of the Connecticut Agricultural College "Campus"; and H. Hill of the "New York Herald," formerly of the "Michigan Daily." This committee will have charge of the public government in the college papers and will keep in touch with them through circular letters and supply them with articles of government importance.

During the afternoon, an hour was given over to separate meetings of those interested in the editorial side and the news side of the newspaper work. It was decided to give all possible publicity to matters of importance to the government for the period of the war.

MAJOR AMORY IN FRANCE.

Word has been received at College that Major Charles B. Amory, Jr., formerly the Cadet Captain and Cadet Adjutant, has gone overseas for duty "somewhere in France." He was stationed at Fort Ethan Allen, Vermont, up to the time of his departure.

JUNIOR-SENIOR BANQUET.
The Annual custom of the Junior-Senior Banquet was revived again this year when, on the evening of April 11, 1918, the Class of 1919 gave a banquet to the Seniors in the College Dining Hall. The tables were arranged in the form of a square and were daintily decorated with potted plants and class banners, while the windows were decorated with flags. Dinner was served at 7.30 and nineteen students and guests partook of the repast. The menu was well gotten up and consisted, in the main of roast turkey.

After the banquet, C. R. Brock, President of the Junior Class, presided as toastmaster and called for impromptu speeches from members of both classes and the faculty members who were present. Thirty-three former members of the two classes are now in the Service, and many have left College to take up other war work.

The Junior Committee in charge of the banquet were A. C. Bird, A. C. Mallett, and L. W. Cassell.

RULES TO GOVERN ELECTIVE COURSES
30 HOURS NECESSARY IN MAJOR STUDY SELECTED.

Faculty Give Out Rules for Guidance of Students in Selecting Courses.

At a faculty meeting on April 13, the set of rules drawn up by the Course of Study Committee were presented and passed. The rules govern the actions of students in the College in making their choice of elections, and they will take effect for those who entered in 1917 and succeeding years. The rules drawn up are as follows:

In order to insure wisdom in the choice of elective studies, students will be governed by the following rules. Exceptions, however, will be freely made upon petition to the

VAUDEVILLE SHOW DELIGHTS AUDIENCE
MAKE OVER FIFTY DOLLARS.

Students and Faculty Give Combination Program for Benefit of Red Cross.

On Saturday evening, April 13, the first vaudeville show in the history of the College was held at the Hawley Armory. The evening's program opened with a five-reel motion picture entitled: "The Lost Bridegroom," followed by stereopticon views, entitled: "Fits' Pictures Have Fits," in which many of the students took part.

Mademoiselle Dow and Company made the hit of the evening in a comedy sketch, the parts being ably cared for by Dow, Sherman and Ryan. The next act was "A Broadway Bump er—New York to Storrs," in which

SPRING INFORMAL HELD IN ARMORY

LAST DANCE OF YEAR ENJOYED

Sixteen Dollars Realized Will be Given to Some War Fund.

The last big dance of the College year was held on the evening of April 12, in the Hawley Armory and was known as the Spring Informal. Although the weather was not such as to give an appearance of spring, the couples who attended the dance succeeded in forgetting that a storm was raging without and entered into the spirit of the dance.

The Armory was tastefully decorated with blue and white bunting and American flags, while a number of the boxes were decorated to bring out the red, white and blue color scheme.

Dancing started promptly at 8.30 and the twenty-dance program which lasted until a. m., went through with no interruption. Pickett's Orchestra furnished the music. The proceeds of the dance amounted to $41.54 and will be given to aid some war fund.

The committee in charge of the dance were as follows: Executive Committee—P. L. Sanford (chairman), A. C. Bird, C. R. Brock, E. E. Brigham, F. Bauer; Decorating Committee—I. W. Case (chairman), G. R. Durham, D. J. Scott, L. B. Moore, E. R. Sherman, B. F. Dibble.

VAUDEVILLE SHOW.
(Continued from page 1)

J. N. Pitts substituted for Ernest Carpenter, who was taken ill. "The Kintzley Twins", in which Mrs. Glenn H. Campbell featured, kept the audience in continual laughter. "W. E. Kantact", a squirrel food act, was presented by A. T. Busby, A. W. Bird, and L. E. Stoughton. "A Connecticut Yankee" was presented by Mrs. Glenn Monteith, B. F. Dibble.

The new faculty row has been given numerous titles by the students, but when the Whitney property was sold to the College, one of the conditions of this transfer was, that the road, west of Faculty Row should henceforth be designated as Whitney Road. This is the legal title according to the contract and will remove all cause for the use of others in referring to it in the future.

CITY MARKETS STUDIED.

H. B. Price Prepares Maps Showing Different Phases of Marketing in Several Cities.

A considerable study has been made of the markets and marketing conditions about the state by Professor G. C. Smith and H. B. Price. As a result, maps of the cities of New Haven, Hartford, Bridgeport and Waterbury have been made by Mr. Price, who deserves no little credit for his work along this line. On these maps the retail groceries; the wholesale produce markets; the wholesale butter and egg firms; the public cold storage houses; the railroad, trolley and steamship systems are all carefully laid out and designated by various colored dots.

These maps will be used in studying the efficiency of markets in accordance with the transportation and their adaptability as selling centers. At the same time it will enable the locating of new markets, that might be established, at the most desirable places. The students in marketing at the College will be afforded the opportunity to study the conditions and can be trained for positions in marketing lines.

A number of markets have been organized as a result of the movement which enables the sellers to get a better trading basis and at the same time it acts as a guide for placing products on the market.

TO TRAIN BOYS AT STORRS.
Four Training Camps to be Held at College This Summer.
A series of four training camps for high school boys will be conducted at the College this summer. Each camp will be two weeks in length and one hundred boys will attend each of the camps. The members of the camp will be under military discipline and will be instructed in military drill, and elementary farm processes such as hoeing, cultivating, harnessing horses and so on.
It is planned to have Koons Hall as the dormitory and to board the boys in the dining hall or possibly in a large tent which will be set up near the dining hall.
After the camp the members will be sent out to smaller camps in various parts of the state where labor is most needed, and from these points they will be assigned to positions.
This camp is the result of the efforts of the State Council of Defense, and the College, to increase the food production of the state by relieving the labor shortage on the farms.
The cost of the movement is covered by a special fund appropriated for such work by the State Council of Defense.

TO TEACH IN HIGH SCHOOLS.
Agricultural courses in the high schools of the state are gradually being adopted by the school boards, the first one of these having been started in Middletown, on March 26. John G. Powers of Reading, Mass., has been placed in charge of the work.
The school boards of New Milford and Willimantic have already asked to have courses instituted in the schools of these cities and towns. It is not known as yet just who will be placed in charge of these, but the appointments will be made as soon as the plans are completed.
The plans for the courses in teachers’ training, which are to be given here at Connecticut, include the using of these schools throughout the state for practice training. Seniors in the teachers’ course will be sent out to the schools to act as an assistant teacher for a semester and they will be given credit for the work upon making reports of their teaching.
COME ACROSS.

Eight or Buy Bonds, in the Third "Liberty Loan," confronts us everywhere and the whole present situation could not be better summed up in so few words. We must all fight in some way or another before the Hun is overcome and the world is free for Democracy.

Many of us are already in the efficiency's service and more of us will be, before the fall session of school begins. Our Honor Roll now contains nearly 200 names of pupil's, and it is for us, the stay-at-homes, to back them up with our hard-earned cash. It is true many of the students are working their way through College, and have only what money they can earn, which barely supplies their needs, but summer vac-

ation is coming and you'll be able to earn more. A small bond on the installment plan will not over-tax any of us, and it is up to the students of Connecticut to loan their Uncle Sam every cent they can possibly spare.

It takes vast amounts of money to keep the boys at the front and B. R. lowdow in on the hard-earned cash in bonds to equip themselves, we who are running no danger, certainly should be doing as much. Let's show the boys at the front that we are behind them. Nobody has ever doubted our patriotism and don't give them the chance. The Bond Buy in the Third Liberty Loan, for you may be in the service when the next loan is launched and you'll want to feel that people are backing you.

STUDENTS TO SPECIALIZE.

G. S. Torrey, Registrar of the College, spoke at the President's Hour on April 3. His talk was in part as follows:

The purpose of this course is to construct amateurs in the principles of gardening. Methods of soil preparation, planting, cultural operations, varieties of vegetables best adapted for our conditions, and the insects and diseases common to vegetable plants and their treatment will be studied. In addition the preparation and use of sprays will be discussed and demonstrated.

Twenty persons have applied to take the course and among these are a number of women who will be leaders in the Women's Land Army. The first session of the course will be held in the United States Army and is now at the Texas Flying School.

“ETA LAMBDA SIGMA.”

Richard T. Plumley, '16, has received his commission as lieutenant. Henry D. Jewett, '16, of the Canadian Overseas Battalion, after spending three years fighting, has returned to this country and has enlisted in the United States Army and is now at the Texas Flying School.

NEW POU LTRY BULLETIN.

The poultry department is preparing a new bulletin which will soon be available. The subjects treated in this bulletin are "The Normal Growth Rate in Rhode Island Reds and White Leghorns," and "Brooding." This will show what the normal growth should be at this time and that one may determine if the flock is doing as well as it should. The subject of brooding will be more fully covered than every other subject, and the details that are often omitted in oth-

ers will be carefully explained.

For anyone who can make the greatest sacrifice, specially those who are unable to contribute much, there is a great value, not only to the small poultrymen, but also to the experi-

enced poultry breeders.
The Storrs chapter of the Red Cross will present an entertainment and motion picture in Hawley Armory on the evening of April 29. The entertainment is to be given in conjunction with the National Surgical Dressings Committee of America for the purpose of raising funds for surgical dressings for use "over there."

The first part of the program will consist of a playlet which depicts a concert in a French hospital at the front, the outlines of which will be furnished by the national committee. The characters consist of a doctor, intern, nurses, wounded and convalescent soldiers who are located in the hospital.

Following this program there will be shown four reels of motion pictures which were taken by the French Government at the battle of Verdun. These pictures are authentic and show with wonderful clearness the magnitude and awfulness of this battle. The four reels to be shown are as follows:

(1) Battle of Verdun and wounded soldiers.
(2) Work of the Red Cross.
(3) Convalescents and the training of wounded soldiers.
(4) Making surgical dressings.

The committee in charge of the program for the Local Chapter is George W. Fraser and Miss A. M. Wallace.

F. W. DUFFEE ACCEPTS NEW POSITION IN WISCONSIN.

F. W. Duffee has accepted a position at the University of Wisconsin where he will have charge of the extension work on agricultural research as well as being instructor in farm machinery.

Mr. Duffee obtained his B. S. A. degree at the Ohio State College in 1915. Since then he has been connected with this institution as instructor in agronomy and farm machinery. He expects to take up his new work September 1.

COLLEGE SHAKESPEAREAN NOTES.

T. B. Schmidt, ’16, spent the week-end of April 10 at the College. Lieutenant Louis Collin, ’18, was on the Hill over the week-end of April 10.

Frederick Bauer, ’20, and Lincoln Crosby, ’19, have left the College to take positions as garden supervisors. Bauer is to have care of the gardens in West Haven and Crosby those in Greenwich.

An open meeting of the fraternity was held on the evening of April 18. Word has just been received that J. H. Hildring, ’18, has arrived safely in France.

CREDIT WORK RECOGNIZED.

The bulletin by Professor G. C. Smith on "A Plan for Short-term Loans in Connecticut," has met the approval of the Executive Committee of the Connecticut Bankers’ Association and the bankers of the other states, particularly New Hampshire, which is distributing the bulletin and the agricultural credit statements throughout that state. Articles concerning this plan have recently appeared in the "Banker-

"Farmers" of Champaign, Illinois; "Trust Companies", New York City; "Bankers' Monthly" of Chicago; and "Financial News" of Los Angeles. These journals are some of the leading banks of the individual agricultural census returns of the four counties of the state of which a survey was recently made. Among other things the various breeds of live stock were coded, so that a state census of live stock, classified by breeds will be available. The State Librarian, S. Godard, will set these tabulations into actual operation.

BARRETT AND CROSBY
GET HONOR AWARDS

BROCK NEW EDITOR-IN-CHIEF.

Important Business Transacted at Meeting of "Campus" Board. New Members on News Board.

The Honor Awards were given to deserving members of the "Campus" Board at a meeting held in the "Campus" office on April 13.

R. H. Barrett, who made a reputation for himself the first part of last year with the up-to-date paper put out by the "Campus," was given an honor "C" by L. L. Crosby, who worked with Mr. Barrett in developing the "Campus" early in the year and who took over the job of editor-in-chief when Mr. Barrett left College, was the other man to receive the honor "C." The Greek letter Psi, which is suitable for wearing on sweaters, and which is given as a minor award to three members of the staff, were given to C. R. Brock, E. D. Dow, and S. B. Morse.

This is the first time the awards have been made under the present system. The men eligible to receive these awards are named by the faculty adviser and the news board then selects by ballot from the list of nominees, the candidates who shall be given the coveted honor.

The news board also selected Chaz. R. Brock as editor-in-chief for the remainder of the year. S. B. Morse is to be managing editor and Miss Helen Clark is advanced to a place on the news board to fill the position left vacant due to the advancement of Mr. Morse.

The handing over of the reins of the "Campus" management to Mr. Brock marks the coming of the third editor-in-chief to the "Campus" this past week. R. H. Barrett being the first editor and L. L. Crosby being the second. The editorship of the "Campus" seems to carry with it lucky charm, which brings about an immediate offer of a good position. Mr. Barrett is now Assistant County Agent of Hartford County and has charge of publicity for the Hartford County Farm Bureau. Mr. Crosby has taken up work as garden supervisor in Greenwich, Conn., which is one of the most difficult jobs of the kind in the state.

COMMONS CLUB NOTES.

First Lieutenant George L. Prindle, '17, spent Tuesday, April 9, on the Hill. Lieutenant Prindle is now stationed at Camp Devens with the 204th Infantry. Eugene A. Manning, '17s, and Joseph Ayer, '17s, visited their old friends on the "Campus" this past week.

Fred M. Trinder, '17, has sold his farm in South Manchester and will reside in East Hartford for the present.

Ralph E. Fairchild, '18s, left College April 17, to take up his duties as garden supervisor at Plainfield, Conn.

GIRLS VISIT HARTFORD.

Classes See Markets and Department Stores—Textiles and Furniture Studies.

The junior class in house furnishings and the second-year school class in cookery and sewing, with Corinne R. Tapley and Helen C. Bishop, instructors in these subjects, went to Hartford on Friday, April 12, and spent the day in the stores and markets. Most of the morning was spent in G. Fox & Company's new department store on Main Street, becoming familiar with the styles and prices of furniture suitable for completely fitting a house. Brown, Thomson & Company was also visited, where dress goods and laces were inspected. After luncheon at the Bond Annex, the prices of fruits and vegetables were obtained at the Hartford Market and here also the various cuts of meats in the refrigerating plant were explained to them. At the bake shop at the Boston Branch, they watched the process of baking and mixing candy, many being especially interested in the making of doughnuts by an expert.

VALUABLE ANIMAL DEAD.

Dairy Department Loses Pure Bred Cow—Was Entered in Coming Holstein Sale.

On Friday evening, April 6, the dairy department lost one of it's best animals, Fay Burke Pietertje, 205-189, sired by a former herd bull, Minnie Hark Pietertje, 57476, and out of one of the oldest cows in the herd, Fay M 2nd, who as a four-year old, made a seven-day record of 488.2 pounds of milk, and 22.5 pounds of butter, and as a yearling, made a very creditable showing of 15,201.8 pounds of milk, and 653.5 pounds of butter.

Her death according to the college veterinarian, Dr. Dow, may be attributed to internal hemorrhages which occurred when she freshened on Wednesday, April 4, dropping a strong, bright heifer calf. This calf is sired by the present herd bull King Segis Inka Payne, and if ancestry counts for anything in dairy qualities, should develop into an excellent member of the College herd.

Fay Burke Pietertje had been entered, by Professor G. C. Waite in the Holstein sale which is to take place at Brattleboro, Vt., in the near future, and was expected to bring a very good price, as she was in very good condition and showed indications of bettering her former record. Holstein men will undoubtedly recall that the dam of the dead cow, Fay M 2nd, held for a long time the one-day record in the state of Connecticut, by producing in the twenty-four hours, 98.6 pounds of milk.

There are worse things. I am interested in firing, but I presume it is only a rumor. After we bivouacked, made about parts, and had a seven-day official test. Then we work out using the fuse...getter, fireing, etc., and the work is proving most interesting to me. I am not anxious to move as I have no promotion to Major, and my present rank is 2d lieut. and left Fort Douglas. I have no comments fit to print to express my idea of Camp Pike. I have been assistant in the dressing room since I came here. The army life is great if you don't weaken and even if you do. My best regards to all. Tell them I shall write soon regarding the life here.

JOHN MUSSER,
M. D. 43d Infantry,
Camp Pike,
Little Rock, Ark.

M. D. 43d Infantry, Camp Pike, Little Rock, Ark.
The Connecticut “Campus”, M. D., has been transferred to Fort Douglas. From the next morning I was official dish washer until July 6 when I was appointed to outside police duty. After three days of this I was made corporal. Then I was changed to orderly in the hospital. Shortly afterwards I was made assistant surgeon, and remained as such until I was transferred to the 4th and left Fort Douglas. I have no comments fit to print to express my idea of Camp Pike. I have been assistant in the dressing room since I came here. The army life is great if you don't weaken and even if you do. My best regards to all. Tell them I shall write soon regarding the life here.

Miss Elizabeth Tapley has accepted the position with the Extension Service which Miss Hazel Puffer made vacant.

New De Laval Cream Separator Advantages

GREATER CAPACITY: Without increasing the size or weight of the new bowl, its capacity has been increased.

CLOSER SKIMMING: The improved bowl design, together with the patented milk distributor, gives greater skimming efficiency.

EASIER TO WASH: Simpler bowl construction and discs, caulked only on the upper side, make the bowl easier to wash.

SANS SPEED INDICATOR: Every New De Laval is equipped with a Bell Speed-Indicator, the "Warning Signal" which insures full capacity, thorough separation, proportion and uniform cream.

EASIER TO TURN: The low speed of the De Laval bowl, the short crank, its unusually large capacity for the size and weight of the bowl, and its automatic oiling throughout, make it the easiest and least tiring to the operator.

WEARS LONGER: Due to its much lower bowl speed, high grade of materials used, and careful and exacting workmanship, the De Laval outlasts and outwears other makes by far.

ASSURED SERVICE: In almost every locality there is a De Laval representative, able and ready to serve De Laval users.

165 Broadway, New York. 29 East Madison Street, Chicago.
STUDENTS INSPECT DAIRY PLANTS

OPPORTUNITY GIVEN TO SEE ACTUAL OPERATIONS.

Ice Cream and Market Milk Plants in New Haven and Bridgeport Visited.

The classes in ice cream making and market dairying made a trip to New Haven and Bridgeport on April 6 for the purpose of studying the construction and practical methods employed in the operation of some of the large market milk and ice cream plants. The managers and men in the plants were anxious to answer any questions the students might ask and placed no restrictions on the extent of their inspection.

The first plant visited was that of the Semou Ice Cream Company of New Haven, which is one of the most up-to-date plants in the country. John Semou, the president, related the history, the business policies, the actual working of the plant and guided the party through the entire plant. Opportunity was given to see the methods used in freezing and storing all types of ice cream, cutting and packing brick ice cream, and the decorating of fancy moulded ice creams.

At the New Haven Dairy Company's plant in New Haven, Manager C. Morris proceeded through the plant, which was in operation at the time, and explained the processes in handling the market milk. This offered the students a chance to see the manner in which a retail and wholesale market plant operated, as well as to see the "in bottle" method of pasteurization. The ice cream department was also studied.

On Saturday morning the Hubber Ice Cream Company's plant at Bridgeport was visited. Mr. Hubber, the manager, proceeded at once to make the fellows at home and a tour of his plant showed up-to-date construction, methods and equipment, and his liberal servings of ice cream convinced the men of the high quality of his product.

The party then proceeded to the Farmers Dairy Company, also in Bridgeport, which is a wholesale milk plant operated by farmers. The milk is brought to the plant, clarified, pasteurized, bottled, refrigerated and sold directly to milk dealers. The surplus is made into Italian cheese. This plant afforded an excellent opportunity to study the operations in these various processes by seeing them in actual working operation.

Some of the party visited the Mitchell Dairy Company plant in Bridgeport also, which handles market milk exclusively.

A 15-horsepower motor has been installed in the creamery to run the compressor for the refrigeration system. At present the refrigeration is being accomplished by circulating air, which has been cooled by passing through a small ice shed through the rooms.

GRANGE MEETS.

The local Grange held its monthly meeting on Monday evening, April 9, in the Second Congregational Church of Mansfield. At this meeting the following members took their third and fourth degrees: Miss Eleanor Moss, Miss Corinne Tapley, Mrs. L. Crane, Miss Helen Bolan, C. R. Brock, H. E. Fiennesen, M. H. Lockwood, C. D. Prentice, J. B. Pritchard, Carl Small, G. S. Stewart, C. F. Williams.

Following the administration of the degrees a harvest supper was enjoyed by all those present. After the supper a short program was rendered. Vocal solos were given by A. Roberts of the Wolf Den Grange, and later a debate was heard. The subject for the debate was: "Resolved, That Connecticut should Ratify the National Prohibition Amendment." Those uphold the affirmative side were Professors W. E. Esten and G. H. Lamson, Jr., and those upholding the negative side of the argument were Professor W. L. Kirkpatrick, and E. S. Savage. The debate was decided in favor of the affirmative.

Remarks were heard from visiting patrons and F. K. Haines, also of the Wolf Den Grange and deputy of the State Grange was present at the meeting as an inspector. He examined the books and the condition of the local Grange, which is an annual custom of the Grange.

Faculty Tennis Club Hold Meeting.

A meeting of the Faculty Tennis Association was held in the Faculty Club Room on April 13, for the purpose of electing officers and deciding on the matter of keeping the courts in condition during the coming summer. Last year's officers were re-elected and it was decided that the courts would be put into playing condition within a short time, to allow those members who care to play a chance for recreation.

The association also adopted a new plan for membership which allows a faculty member to become a playing member without becoming a fully active member until after five years as playing member. This plan, it is presumed, will benefit some of the instructors and others who are here for a short time only.

Students Leaving for Garden Work.

The College is sending out students who have been trained along agricultural lines to supervise garden work in the cities and towns about the state. Last year twenty-four men were placed in such work, and from all indications, the number will be as great this year as last. Those who have already been assigned to the work, and who left College this week are: L. L. Crossby, who goes to Greenw.ich, L. W. Cassel, to Manchester, F. Bauer West Haven, and R. E. Fairchild to Plainfield. L. M. Chase, "17, will be stationed at Stamford. The work in Manchester and West Haven will be largely the supervision of boys' and girls' gardens.

We Want You to Bear in Mind

Our very Complete line of College Jewelry. We have recently placed an order for additional stock which will arrive before Commencement Week.

Bring her in and make a selection which will be a reminder of a very pleasant occasion.
