Service Flag, 583 Stars

Of the 583 stars on our service flag, 283 represent former faculty and students, while 300 are for the S. A. T. C. men who were inducted into the college. Of the commissioned officers, one is a lieutenant-colonel, two are majors, six captains, seven first lieutenants, and twenty-two second lieutenants. Seventy-two of them have seen service abroad.

The two gold stars are for Billings T. Avery, Jr., of Norwich, who died in France, June 18, 1918; and for Lieut. Arthur B. Stephenson, of Forestville, who was killed in an airplane accident at Fort Worth, Texas, September 10, 1918.

Dramatic Club Meets

With Boys at War, Girls Manage the Organization.

When the dramatic club held its first meeting of the year there were twenty-two members, eleven young women and eleven young men. At an early meeting they decided to change the club to a literary society carried on by the young women as the prospects of help from the young men were very doubtful. The officers elected for the club were: Gladys V. Daggett, '18, President; Loretta W. Guilfoyle, '20, Vice-President; Vera A. Lee, '21, Secretary and Treasurer; Alice M. Simonson, '21, Business Manager; M. Gertrude Luddy, '21, Assistant Business Manager.

The second Saturday evening after the opening of College the young women in the Dramatic Club gave a supper in honor of the young men. Mrs. Campbell has consented to assist in the work this year.
WHISTLES SHRIEK. (Continued from page 1.)

bracing Preliminary important. The band, the evening were plainly visible in the songs, heard from all quarters, the excitement and continual moving about was prevalent.

A huge bonfire, the largest ever held at Storrs, was built under the direction of Prof. A. C. Skinner, on the top of Vineyard Hill. The publicity committee had notified all surrounding communities and the result was the assembling of a large crowd. First came Company B followed by Company A, co-eds, and faculty. Promptly at seven o'clock the girls set up the students of the college and the alumni. The men students of the college who are over 18 years of age are no longer college men with liberty to go and come as they choose, as long as they obey the rules of the college. They are soldiers, as much a part of the United States as if they were in a concentration camp. They are subject to the same military discipline. Lena M. C. A. for the better part of the privates of the Army, $30 per month and subsistence. In addition to daily drill under the supervision of U. S. Army officers, there exist disciplinary courts that make them good fighting men.

The S. A. T. C. at present consists of 350 men who have been examined and passed physically. Of this number 300 have been inducted. There are 175 men in each of two companies, A and B.

Second Lieutenant A. B. Watson, '17, spent the week-end of November 16 at Storrs.

In the evening of Saturday, November 16, the Preliminary Band, under the direction of Lieutenant T. H. Beach, '18, was commissioned captain. He is also stationed at Camp Devens.

The engagement of Bertha Hallock, '15, and Frederick Bauer, '20, has been announced recently.

Paul Downs, '16, stationed at Cornell University, Ithaca, N. Y., as instructor in the dairy department.

Sergeant D. H. Horton, '18, is now with the 7th Co., Inf., Replacement Troops, Camp Grant, Rockford, Ill.

Sergeant Earl R. Moore, '19, is in the 6th Co., Inf., Replacement Troops, Camp Grant, Rockford, Ill.

Miss Lora Standish of Wethersfield, and a graduate of the Storrs Agricultural College, will take her place. Miss Lora, who is 21, is employed by the Department of Agriculture of the State of Massachusetts, cooperating with the United States Department of Agriculture. He is inspector of the City of Newton, to rid the city of corn borer.

Emig R. T. Mattoon, ex-'19, of Seaman's Institute, New York City, spent the afternoon of November 24, on the "hill."
MORE THAN FORTY GIRLS IN COLLEGE

HAVE HOME ECONOMICS PRACTICE HOUSE.

Three New Teachers Employed for Work with Women Students.

The Home Economics Department of the Connecticut Agricultural College presents many changes this year. The freshman class has an enrollment of twelve, making a total of over forty young women in the college.

The two-year course in Home Economics, corresponding to a two-year course in High School, has been discontinued. All of the young women of the college are taking the four-year college course, with the exception of four young women who are specializing in Cookery and Dietetics.

The new teachers have been employed by the Home Economics Department of the college. Miss Ella J. Rose, a graduate of Simmons College, has been placed in charge of the Cookery Department. Miss Edith Mason, also a graduate of Simmons, is in charge of the Textile Department. Miss Helen Barker, who has had several years' experience in the Providence Technical High School and has taken several courses in Columbia University, is in charge of Household Management and is also supervisor of the Practice House.

There were not sufficient accommodations at Grove Cottage for all the young women and the Valentine House has been made into a women's dormitory. It is cheerful, pleasant and homelike, and the Freshmen girls who live there are more than content.

By reason of the Smith Hughes Act recently passed by Congress, one college from each state has been designated to train women for Home Economics and Connecticut Agricultural College has been fortunate enough to be designated for Connecticut. This training calls for a certain amount of actual home management. In order to carry out this provision, a practice housekeeping apartment, consisting of kitchen, dining room, living room, guest room, and the required number of sleeping rooms to accommodate the unit living there for the period of training, has been established at the Valentine House.

At present the first unit is well under way and the girls who were chosen for this unit are more than happy in their temporary home.

Garrigus to Kansas City.

H. C. Garrigus, professor of Animal Husbandry, left Storrs, November 15, for Kansas City, to judge Hereford cattle at the American Hereford Livestock Show, in which there are over seven hundred entries. Professor Garrigus will also attend the International Livestock show at Chicago. He will return within three weeks, bringing with him a carload of cattle for farmers in Connecticut.

THE CONNECTICUT CAMPUS

GIRLS TO RESCUE OF APPLE CROP

BEAT THE BOYS AT SORTING FRUIT.

This year the Pomology Department has been much handicapped in labor on account of the war. The young women of C. A. C. have willingly given their spare time to the sorting of apples and so have relieved the situation.

In 1917, besides a regularly employed man, the department employed in October twenty-two boys who worked a total of five hundred and thirty-three hours; in November ten boys who worked a total of forty-six hours.

In 1918, in October, ten girls worked a total of seventy-three hours. In November, 1918, thirteen girls worked a total of fifty-six hours.

Last year the student labor bill was $16.00. This year it was $65.00.

Work on the apples in 1917 had closed November 20. This year it is a little late.

Sherman P. Hollister, head of the Pomology Department, wishes to thank the young women for the valuable assistance they rendered in getting the fruit ready for market.

NEW ENGLAND MEN BEST.

Hartford Minister Relates Experiences in Big American Drive.

The Rev. Robert K. Armstrong of Hartford spoke between the reels of the movies, Saturday night, November 23, on his experiences as a Y. M. C. A. secretary abroad.

Mr. Armstrong was attached to the 26th Division during his year's stay in France.

Most of the time the division, which was made up of New England men, was stationed in the Toul sector.

Mr. Armstrong spoke interestingly upon life in the trenches, and in the billets. He described his hike to the front in the Chateau Thierry drive with the 102nd Machine Gun Battalion, which was made up of four companies from New Haven and Boston.

Mr. Armstrong dwelt upon the fact that these, our own New England men, were among the best to be found in France. In fact, he concluded by saying: "I give you my word that the New England men were the greatest men I saw during my year in France."

THE BETTER WAY

THE FARMER who can get stable manure to spread on his fields this year and who fails or refuses to take care of it and spread it properly, is losing the chance of a lifetime to make his farm pay handsomely. No farmer can possibly raise too much of any of the staple crops in these times. Increased acreage is pretty nearly out of the question; labor and power are too hard to get. There is a better, easier, less expensive way to grow bigger crops. Save stable manure, add phosphates as your soil requires, and spread it in a thin, even coat with a widespread.

Low Corn King, Cloverleaf, or 20th Century Manure Spreader.

Begin right after harvest. With one of these machines, and no additional power or help, you can increase immediate yields, and put your soil in better condition for future crops. They are low, light draft, narrow box machines, each made in three handy sizes—small, medium and large. The entire load is spread in 3 to 5 minutes, in an even coat that extends well beyond the rear wheel tracks. See the machine at the local dealer's place of business—or write us.

International Harvester Company of America

CHICAGO, ILL. U.S.A.
This step was made necessary by the former students of the college are in Connecticut. The Connecticut Agricultural College, don't worry about it in the game and help. The operation of students, faculty, paper brighter. It is quite a while since I think we probably already know I have been overseas some weeks. I often think of you and the rest of the fellows at Storrs, and I hope the college is holding its own with the other colleges again this year. John McCarthy is situated only a short distance from where I am, so I see him quite often. Lieutenant Prindle has been transferred since our arrival in France and I do not know his address. I have had two letters from Walter Francis since I arrived in France. He is in Air Service at the front and has his second stripe stripe by now, I believe. He is on a long leave of absence by now I imagine, for some little vacation, as he expected one soon at the time he wrote last. Lieut. Germain is on the American Publicity Work at Paris. I hear from Francis, that Second Lieut. Francis's address is 9th Aero Squadron, A. P. O., 731 A, American E. F. St. Germain's address is: Press Section, G. D., via, 10 Rue St. Anne, Paris, American E. F. Francis writes that he is well and is not married as was reported in the States. He likes flying well and says he's been out across the Pacific often. Lieutenant Prindle is an E. F. St. Germain, that when we in our inexperience have done, perhaps for a period forgetting the tremendous duties ahead.

Can we afford to relax? With the world suffering that must be relieved, with the tremendous problems of readjustment and reconstruction as yet untouched, can we, the physically strongest nation of the world, who have relatively little done in proportion to our ultimate strength, can we afford to let up and feel that we have done our share? Is not the state of things upon us, more than any other people, to contribute to the cause in many ways more than in the past? With the excellent training our men have had, the addressed had not prepared them for the kind of fighting they are now doing. They are encouraged to do the utmost to help. Should we not continue many inconveniences in life, that we in our inexperience have felt perhaps were sacrifices, but which really have been but trifles, relatively speaking, in order to help the nations across the seas, on whose welfare and quick recovery the on-going of the world and our own individual welfare so vitally depends?

Peace! Yes! Peace of mind to us and the rights of men and all the Aliens across the waters. But can we as men and women, as human beings, if we have sensed the real relation of brotherhood, that relation of which our boys have learned and lived over here and over there in the last few months, can we accept all the results and neglect the responsibilities of peace? Must we not in the spirit and example of Him whom we reverence for His devotion to peace and service, begin now to really serve, and if need be, sacrifice, individually, that our nation may do more than its part in making the world a better place in which to live—forever?

“The Campus” this year is being edited entirely by the students of the college, since the men are all in the service.

Subscription Price, $1.00 per year.
Advertising Rates on application.
Entered as Second-Class Matter at the Post Office, Norwich, Conn.

EDITORIAL
The Girls are On the Job.

"The Campus" is to be edited and published this year by the girls of Connecticut Agricultural College. This step was made necessary by the fact that military duties make it impossible for members of the S. A. T. C. to take a prominent part in a student enterprise of this nature.

The work is new to the girls, but all of them are ready to do their best to maintain the traditions of the institution. The girls feel that all former students of the college are interested in seeing the college paper kept alive. To this end they desire the cooperation of students, faculty, alumni and all true friends of the college. Perhaps there is something that you can do to help make the paper brighter and better. Even if it isn't anything more than sending in that $1 for your subscription, don't overlook your chance.

The girls are going to "put it over" don't worry about that—but if you feel that this is also your paper, get in the game and help.

PEACE
For over four years the people of America have been emotionally stirred by the mighty conflict that has involved in formal war twenty-six of the nations of the world and which had affected the well-being even of the handful of people who dwell in little spots of humanity in the outlying corners of the earth. For nineteen months America has been officially at war with the Central Powers.

It is quite a while since I wrote you last from Camp Devens. As you probably already know I have been overseas some weeks. I often think of you and the rest of the fellows at Storrs, and I hope the college is holding its own with the other colleges again this year. John McCarthy is situated only a short distance from where I am, so I see him quite often. Lieutenant Prindle has been transferred since our arrival in France and I do not know his address.

I have had two letters from Walter Francis since I arrived in France. He is in Air Service at the front and has his second stripe stripe by now, I believe. He is on a long leave of absence by now I imagine, for some little vacation, as he expected one soon at the time he wrote last. Lieut. Germain is on the American Publicity Work at Paris. I hear from Francis, that Second Lieut. Francis's address is 9th Aero Squadron, A. P. O., 731 A, American E. F. St. Germain's address is: Press Section, G. D., via, 10 Rue St. Anne, Paris, American E. F.

Francis writes that he is well and is not married as was reported in the States. He likes flying well and says he's been out across the Pacific often. Lieutenant Prindle is an E. F. St. Germain, that when we in our inexperience have done, perhaps for a period forgetting the tremendous duties ahead.

Can we afford to relax? With the world suffering that must be relieved, with the tremendous problems of readjustment and reconstruction as yet untouched, can we, the physically strongest nation of the world, who have relatively little done in proportion to our ultimate strength, can we afford to let up and feel that we have done our share? Is not the state of things upon us, more than any other people, to contribute to the cause in many ways more than in the past? With the excellent training our men have had, the addressed had not prepared them for the kind of fighting they are now doing. They are encouraged to do the utmost to help. Should we not continue many inconveniences in life, that we in our inexperience have felt perhaps were sacrifices, but which really have been but trifles, relatively speaking, in order to help the nations across the seas, on whose welfare and quick recovery the on-going of the world and our own individual welfare so vitally depends?

Peace! Yes! Peace of mind to us and the rights of men and all the Aliens across the waters. But can we as men and women, as human beings, if we have sensed the real relation of brotherhood, that relation of which our boys have learned and lived over here and over there in the last few months, can we accept all the results and neglect the responsibilities of peace? Must we not in the spirit and example of Him whom we reverence for His devotion to peace and service, begin now to really serve, and if need be, sacrifice, individually, that our nation may do more than its part in making the world a better place in which to live—forever?

Dear Helen:

Since life here in the Replace­
ment Center is somewhat different from the usual run of Army camps and cantonments, it may be of interest to some to know what our life has been like in the past. Any one has ever had to do any intensive drilling in the heat of sum­
mer in a camp of this kind or in this or­

FRON'T OVER THERE AND OVER HERE

FRANCE, Sept. 11, 1918.

Dear Brother Bird:

It is quite a while since I wrote you last from Camp Devens. As you probably already know I have been overseas some weeks. I often think of you and the rest of the fellows at Storrs, and I hope the college is holding its own with the other colleges again this year. John McCarthy is situated only a short distance from where I am, so I see him quite often. Lieutenant Prindle has been transferred since our arrival in France and I do not know his address.

I have had two letters from Walter Francis since I arrived in France. He is in Air Service at the front and has his second stripe stripe by now, I believe. He is on a long leave of absence by now I imagine, for some little vacation, as he expected one soon at the time he wrote last. Lieut. Germain is on the American Publicity Work at Paris. I hear from Francis, that Second Lieut. Francis's address is 9th Aero Squadron, A. P. O., 731 A, American E. F. St. Germain's address is: Press Section, G. D., via, 10 Rue St. Anne, Paris, American E. F.

Francis writes that he is well and is not married as was reported in the States. He likes flying well and says he's been out across the Pacific often. Lieutenant Prindle is an E. F. St. Germain, that when we in our inexperience have done, perhaps for a period forgetting the tremendous duties ahead.

Can we afford to relax? With the world suffering that must be relieved, with the tremendous problems of readjustment and reconstruction as yet untouched, can we, the physically strongest nation of the world, who have relatively little done in proportion to our ultimate strength, can we afford to let up and feel that we have done our share? Is not the state of things upon us, more than any other people, to contribute to the cause in many ways more than in the past? With the excellent training our men have had, the addressed had not prepared them for the kind of fighting they are now doing. They are encouraged to do the utmost to help. Should we not continue many inconveniences in life, that we in our inexperience have felt perhaps were sacrifices, but which really have been but trifles, relatively speaking, in order to help the nations across the seas, on whose welfare and quick recovery the on-going of the world and our own individual welfare so vitally depends?

Peace! Yes! Peace of mind to us and the rights of men and all the Aliens across the waters. But can we as men and women, as human beings, if we have sensed the real relation of brotherhood, that relation of which our boys have learned and lived over here and over there in the last few months, can we accept all the results and neglect the responsibilities of peace? Must we not in the spirit and example of Him whom we reverence for His devotion to peace and service, begin now to really serve, and if need be, sacrifice, individually, that our nation may do more than its part in making the world a better place in which to live—forever?

FARMERETTES AT COLLEGE.

Connecticut Girls Learn to Use the Babcock Test.

A short course in milk testing was recently given to a group of five girls who have been "farmerettes" this past summer. It was a ten-day course and the girls registered for it were: Miss Dorothy Williams of Hartford; Miss Esther Prior and the Misses Ruth and Mildred Prindle of Stamford; also Miss E. M. Hopkins of New Britain, who was captain of a Land Army Unit this summer.

The course consisted of advanced registry tests on farms, involving the Babcock Test. The girls test the cows that are under official tests. Cows that have official records are more valuable for breeding stock than those that give an unknown quantity of butter-fat. It is on the basis of these records that cows are sold at high prices. Because of its importance in the development and improvement of the herds through more intelligent selection of breeding stock, breeders and breeders' associations were very anxious to have this work continue in spite of the war. The work requires that the girls do this in the winter as well as at other times, and the work also requires that they live at different farmhouses where the tests are being made for a certain definite period in order to get accurate results. The work is not easy or pleasant, but girls now are doing work which requires physical as well as mental ability.

SULLIVAN · the ducted into military service. Dairy Husbandryman for the program with an A. Brundage, Edward Folks are at B. Shepherd, David L. Donald Elwell, Lloyd W. Miner., Emer­

ment of giving passes has been established. Ten men to take their second physical examination. Word has been received from Sergeant Heald, who was transferred from this post to Fortress Monroe, Virginia.

Due to delay in making out induction papers, Sergeants Henry Monroe and John Koellner were not inducted into military service. Sergeant Monroe has returned to his work in connection with the Poultry Plant and Sergeant Koellner will undoubtedly return to his position as Dairy Husbandman for the college.

Company A displayed some of its talent in the form of a vaudeville show which was given in Hawley Armory, Saturday evening, November 16. Harold A. Brundage opened the program with an entertaining "rubie" monologue. This was followed by "A little Harmony" but in which Richard E. Barry and Edward C. Latwack, black-face comedians, made a clever drawing; one of which, showing the Kaiser's facial expression before and after the war, brought thundering applause.

The program closed with selections by the Company "Jazz" Band, composed of Francis J. Ryan, Albert C. Rosenknuck, Wm. Graf, Chas. E. Gotberg and Carl S. Parker.

The men who were not inducted before the armistice was signed have been allowed to return to their homes.

TeLLS OF CHATEAU THIERRY.

The Rev. Mr. Armstrong of Northampton delivered an address in the armory Sunday, November 24, on his experiences at Chateau Thierry.

DE LAVAL Separators
Save in 7 Ways

**QUANTITY** of cream that no other separator will recover completely, particularly under the harder conditions of every day use.

**QUALITY** of cream as evidenced by De Laval separator always scoring highest in every important contest.

**LABOR** in every way over any gravity system, and also over any other separator, by turning ease, being simpler, easier to clean and requiring no adjustment.

**TIME** by hours over any gravity separator, and as will over any other separator by reason of greater capacity and the same reason saves labor.

Easy to prove these savings. These are all facts every De Laval local agent is glad of the opportunity to prove to any prospect.

If you don't know the nearest De Laval agency write the nearest De Laval office, as below.

**THE DE LAVAL SEPARATOR CO.**

**THE TELL OF CHATEAU THIERRY**
formed and sent away. Then the work is gone through again with another lot of rookies. Oh, but it's a great life, IP.

The point of embarkation which was used by this camp is not far from us, being but three miles away, and the men were marched to the boats which took them down the James River to the transports. It is certainly an inspiring sight to be at City Point when a crowd comes over to embark. Usually there were about two or three thousand men in each shipment and every one of them was as happy as two-year-old kids, singing all the way over and yelling until their throats were sore—but still happy. A better thing than to go with a colored outfit. Now that the hostilities are ended, I have occasion to visit one of France's three National Agricultural schools. Their equipment and buildings are far from our standard, but I guess their courses of study are probably thorough. The course of study is limited to agriculture and closely allied subjects, the arts and humanities being omitted. Hogs, sheep and cattle are maintained for practical demonstrations. We grew a small piece of sweet corn here this season and had some good corn. Have seen one piece sown for forage purposes. To date I have no definite information as to whether an experiment in the growing of corn will be carried on. However, if given the chance I shall try to carry it out—variety tests, especially of sweet corn and perhaps sillage.

Forgive to give name of the school—"National Agricultural School of Grignon."

Sincerely yours,

SAMUEL H. HARVEY

GROVE COTTAGE NOTES.

A new pay station has been installed for the use of the officers. Miss Agnes Hallock, '21, has been called to her home in Washington, Conn., on account of the death of her sister, Miss Anabel Hallock.

Sunday evening, November 17, Misses Ella J. Rose and Edith Mason entertained the young women of Grove Cottage at supper.

After waiting two years for the central heating plant to be used, former students are very much pleased to find it decidedly successful in keeping their rooms warm.

The students of the Textile and Design classes walked to Eagleville recently and observed the process of making cotton cloth at the Eagleville mill.
