For many years the beef cattle, swine, sheep, and horses, have undergone such a great change for the better by careful breeding and additions that, at present, there is great demand, not only in this state, but from outside, for animals bred at the College.

To meet this demand, partially, six registered Berkshire sows will be sent to the Berkshire sale at Brattleboro, Vt., which is to be held March 12, under the auspices of the New England Berkshire Club. The brood sows which will be sent are: Storrs Branford Duchess 4th, 242,870; Superb Ireworth Duchess 2nd, 248,891; Storrs Premier Duchess, 288,891; Storrs Branford Duchess 7th, 254,501; Storrs Branford Duchess 6th, 254,503; and Symboelea Duchess.

There is to be a Milking Stork at Branford on Monday, March 20 and 21. The College Short horn consigns to this sale are: the two-year-old heifer Irby Buttercup, 732,399; the yearling heifer, Buttercup 3rd, 649,540; and the yearling bull, Blossom's Nipper, 690,360.

The Percheron draft horse, Susie who, has proved herself an excellent brood mare, and brood mare at the college, has been sold to Judge Pensa
eye of Cheshire, Conn. Susie now has her new owner, Rev. C. H. Lamson, Dr. and Mrs. H. J. Garrigus.

A musical program will be given at the college farm Saturday afternoon. In the evening a vaudeville show with one reel of movies will be given in the college armory.

The annual Junior informal dance will be held Friday evening, February 21, starting at 8 o'clock and continuing until 1 a.m. The music will be furnished by Pickett's Orchestra of Willimantic and will include many of the most popular pieces. The program consists of seventeen dance numbers and three extras. The patrons and patrons are President and Mrs. C. G. Lawton, Professor and Mrs. G. H. Eaton, Dr. and Mrs. W. E. Miller, and Mr. and Mrs. G. W. Frasier.

CO-EDS TURN OVER PAPER TO STUDENTS

STORRS, CONN., FRIDAY, FEBRUARY 21, 1919

No. 7

M. S. Klinek, in charge of the farm machinery at the college, has been making arrangements with a number of concerns relative to placing their tractors here. He hopes to get the Fordson, Cleveland, International, Case, Moline, and possibly others of well-known make, to use in demonstrating their ability and usefulness to students and farmers in this state.

There are about 200 tractors now in the state. To furnish definite information regarding their use the farm machinery department is sending out blanks to the tractor owners and users. This is to determine the kinds of machines used, the amount of work done by them, the number of horses replaced by the tractors, and the value of the tractor and the work done. The data obtained will be worked into a bulletin and published for the information of Connecticut farmers.

There will be tractor demonstrations in the state through the summer, if the College is successful in obtaining a number of tractors this year. One of these will be given on the college farm.

THE COLLEGE TO OBSERVE DAY OF PRAYER

Rev. Winship Recently in Overseas Service to Speak.

The College will observe a universal day of prayer for students on February 23. This date has been set apart by the World's Student Christian Federation for this purpose.

The program here will be in charge of a committee consisting of W. F. Maloney, D. A. Evans, H. B. Bridges, M. H. Lockwood, H. W. Wright, G. B. Durham, G. O. Hutchinson, H. B. Beiseiegel, and J. S. Miller. Rev. Marshall Dawson and Dr. E. W. Sinton represent the faculty and are acting as advisors to this committee.

Rev. Winship, formerly of South Coventry, who has just returned from overseas service, is now studying in the Hartford Theological Seminary, and will speak on "The World's Citizenship of Today."

Rev. Marshall Dawson, Chaplain of the College, will also give a talk.

A musical program will be rendered by the college orchestra after which Prof. C. A. Wheeler will lead the student body in the singing of religious songs.
G. C. SMITH FORMS ORGANIZATION

TOBACCO GROWERS COMBINE IN FEDERATION.

Crops from 4,000 Acres to be Handled on a Cooperative Basis.

Prof. G. C. Smith has been instrumental in forming eight large co-operative organizations in this state. Three of these were put into operation last May and the remainder since the first of January this year. The total acreage now represented is approximately 4000. Delegates from all the organizations meet last week in Hartford to discuss the federation of the organizations into one and to adopt satisfactory by-laws and contract forms. At the head of this federation will be placed a man who is an expert in tobacco growing and marketing. All members will sign away their selling rights to him. In addition cooperation buying of fertilizer, cases, and supplies will be carried out under his supervision.

Such a plan will promote better methods and uniformity in sorting, sizing, sweating, and packing. Large warehouses also will be made available for this purpose.

"The idea of the organization," said Professor Smith, "is to afford the employment of a competent manager who can keep in close touch with market conditions, and so bargain on an even basis with the buyers. He may also sell direct to the manufacturer." Advertising campaigns will probably be conducted and an attempt made to standardize cigar leaf tobacco. Already the warehouses have been able to negotiate large loans from the banks to carry on the work. In one of the smallest organizations $3000 was saved by having the sorting and packing done under the supervision of one man rather than having it done by independent individuals.

The tobacco growers in southern Massachusetts are desirous of forming similar cooperatives and have asked Professor Smith for his aid in the work. Hugh M. Alcorn, state attorney for Hartford County, and T. J. Hughess of Wethersfield, head of the U. S. Bureau of Markets in the warehouse of tobacco, are assisting in the work of organizing the tobacco growers.

CO-EDS HOLD SOCIAL HOUR.

The co-eds were "At Home" Friday, February 7, after the basketball game, to both the students here and to the members of the visiting team from Worcester. This furnished a good opportunity to show the outsiders some of the social life at C. A. C. The college orchestra furnished the music and dancing was enjoyed until 10:30.

HORSES MAKE CLEAN SWEEP.

Percheron Review Publishes at New England Fair.

"The Percheron Review" for 1918 publishes the official report of the horses entered to Percheron class and treated to the New England Fair at Worcester, Mass., which was held last September. The report is given in full.

Stallions—(Aged)—First, Connecticut Agricultural College on Drum Jr. 118,689; Second, S. F. Mason on Joplin.

Three-year-olds—First, Connecticut Agricultural College on Storms Victoria 128,759.

Foals—First, Connecticut Agricultural College on Double Carnot 145,153.

Mares (Aged)—First and Third, Connecticut Agricultural College on Carotte 94,315 and Susie 40,487; Second, Morton Pheasoplace on Ruth Irey 74,730.

Champion Stallion—First and second, Connecticut Agricultural College on Drumm Jr. 113,639, and Double Carnot 145,153.

Champion Mare—First and second, Connecticut Agricultural College on Carotte 94,315, and Mariette 128,792.

Produce of mare—First, Connecticut Agricultural College on produce of Susette 40,487 with Susette 128,791 and Joan of Arc 145,154.

The special premium awarded by the Percheron Society of America at this fair were as follows.

Stallion under 3; also champion: Bilalien bred and owned by exhibitor—Connecticut Agricultural College on Storms Victoria 128,791.

Mare under 3; also champion: Mare bred and owned by exhibitor—First and second, Connecticut Agricultural College on Mariette 128,792 and Susette 128,791.

Champion stud, consisting of stallion and four mares, mares only bred and owned by exhibitor—First, Connecticut Agricultural College on Storms Victoria 128,791.

Mare under 3, also champion: Mare bred and owned by exhibitor—First and second, Connecticut Agricultural College on Mariette 128,792 and Susette 128,791.

Champion stud, consisting of stallion and four mares, mares only bred and owned by exhibitor—First, Connecticut Agricultural College on Storms Victoria 128,791.

Three Mares owned by exhibitor—First and second, Connecticut Agricultural College on Susette 128,791, Mariette 128,792, and Beth 138,792, and on Carotte 94,315, Careile III 138,896, and Careile III 140,709.

The Connecticut Campus
Day 1.

The basketball team lost its fourth game to New Hampshire by the score of 51 to 18 in the Hazley Armory on Saturday evening. February 7. Our boys fought their best, but were not nearly at their best. The game ended 28 to 8, in New Hampshire's favor.

In the second half, Windham was handicapped by the absence of one of their best players. The half was fought on even terms, but the Aggies won the last 10 minutes of the game with a rush and led by 51 to 18 at the end of the second quarter.

The Aggies' Anderson put up a wonderful performance, scoring 16 points and played an excellent game.

The New Hampshire team was defeated by the Aggies, who took a decided lead and tied the game with a score of 5 to 1 at the end of the first quarter.

The game was well attended by spectators, and the crowd was pleased with the performance of both teams. The Aggies are expected to continue their winning streak, while New Hampshire will have to work hard to improve their season record.

The Stenographers Defeat Windham

Prizes Offered Students.

- 1000 Word Statement to be Required in Competition.

A friend of American students, through the Students Department of the International Committee of Young Men's Christian Associations, offers the following prizes for the best 1000-word original statements by students, on, "The Significance of the Foreign Missionary Enterprise in Making the New World." A first prize of $100, second of $200, and a third of $100, is offered for the three best statements by college students. All articles are to be signed with the name and address of the writer.

The Travel Series Given.

Sunday evening, February 9, the last talk of the travel series was given in Christian Endeavor. D. H. Sullins presented the South from a Southerner's point of view under the topic, "The South as I Know It."

Walter Stennes gave the Northerner's point of view under the topic, "Oklahoma, the Fringe of the South." The Christian Endeavorers are planning for their annual service at the Epileptic Colony, to be held within the next two weeks.

Chicken Over-Production.

Eleven members of the college are hatching eggs at the poultry building. According to D. E. Warner, some of them may have some chicks in a few days. The class is much more optimistic about the outcome than are the other students.

Miss Adeline Graber of Bridgport was the guest of Esther Sniffen the week-end of February 7.

The College Barber

R. H. Barrett, '18, has recently been discharged from the service as a second lieutenant and has returned to this former position as assistant county agent of Hartford County.

DESERVING CREDIT.

For the first time in the history of the college the paper has passed through a period in which it was entirely managed by the young women of the institution. With the college on a war basis, the men were unable to carry on this work, but the Co-eds at once realized the desirability of continuing this work, especially for the benefit of the men in service.

The enthusiasm and seriousness of purpose with which they worked enabled them to put out the best editions in the history of the paper, without exception. This fact is even more significant because it was done by taking raw material to commence with.

The majority of the students do not realize and appreciate this action to the fullest extent, because they are not familiar with the publication, but we who have had experience know what a task they have had. We therefore wish to extend our most hearty thanks to the young ladies for the marvelous work they have done and also for their willing cooperation in aiding us in the further promotion of this good work.

"CAMPUS" TRY OUTS.

This edition of the "Campus" marks the opening of "try outs" to the men of the student body. The young women in the institution, in the past, did not consider this matter of much value until they published the paper themselves. The result was they became interested in the work because of its educational value, if for no other reason, and are desirous of continuing a good portion of the work.

This will create a keener competition for the positions on the staff and board this coming year. However, there is opportunity for new students, particularly, to prove their ability if they have had experience, or if not, to learn by starting now.

The expression of your ideas and thoughts comprises a larger part of your education. By making yourself proficient in this branch of your education you characterize yourself as a leader, which is one of the chief aims, could work out many of their problems. Such an organization would stimulate student interest in the running of the college and form a closer association of faculty and students.

STUDENT GOVERNMENT.

At the beginning of the last college year the faculty proposed a plan for student self-government. This movement was promoted because it was felt that the students could assume responsibility, and being more intimately intact with their conditions, could work out many of their problems. Such an organization would stimulate student interest in the running of the college and form a closer association of faculty and students.

Dear Editor:

It is a well-known fact that many of the best students at this college are dependent in whole or in part on the work they earn at the college to put them through their college career. It is also true that these who are doing this condition to go to college, when they are financially unable, and who are willing to go without and give up many of the good times in order to help those who amount to something in after life. They are the men who will help the college to grow, because they are the men who will be cited as examples of what we turn out at Connecticut Agricultural College.

In view of these facts, it is selfish for men to hold positions when they are not dependent on the money earned to put them through college. Also some of the departments on the board think that student labor is not great. The greatest example of this is the dining hall.

This is an establishment where there are approximately twelve persons, outside of the students who work there. Last year many more students worked there than this. This year the board has already paid for their board, but this year the one who works there must get their board and pay besides. This must exceed many times that which was paid to the students. The men in this position are the persons who are willing to give the kitchen of the kitchen that cannot be filled by students. There are also jobs in the kitchen that can be filled by the students in these jobs or who can do work at less expense. This might also help to the board, but this year the one who works there must get their board and pay besides. This must exceed many times that which was paid to the students.

The board is interested in the running of the college and form a closer association of faculty and students.

C. A. P.

Dear Editor:

I was back at the College a short time ago and was very much impressed by the many changes which had taken place just in the time that I have been away.

Perhaps a good many of these conditions were not brought about by the war. One of the most noticeable, was the different system in the dining hall. The central heated things from both steam for the dormitories and various other buildings on the campus. The concrete steps on the hill back of the Main Building was a pleasing sight to see and a great pleasure to walk down. This does not mean much to the new men, but the men who used that walk in the winter time, especially, can see the advantage of a modern walk.

I have been speaking of things pertaining to the campus or buildings, and I want to go a little further and mention something else that I noticed. I do not understand conditions nor circumstances, and do not wish to criticize unjustly. To me seemed to be a decided lack of what we term true college spirit. I believe all should work for the good of the college first, and let other things fall in line in their natural order. There seemed to be some friction in the relations between manager and players.

I heard (I was about to say a hundred times) that we are back in Haiti, where he is now awaiting his time. One of the things I hear most was the different system in the institution or college and all pull together; I am good of old Argos. Speaking from the standpoint of one who is on the outside, I am proud of my Alma Mater and I want to see her continue to prosper. This is possible only by all pulling together and showing true college spirit.

M. F. Abel, who left the agronomy department last June to join the Marines, will be back as farm management instructor the third term. Mr. Abel was first sent to Paris Island, S. C., and then to the Republic of Haiti, where he is now awaiting his discharge.
TEMPORARY CADET OFFICERS ARE APPOINTED.

Two Companies Formed—Six Students Elect Advanced Course.

The R. O. T. C. unit was organized at the drill period on Thursday, February 6, when temporary officers for the two cadet companies were appointed by Captain C. E. Cranston, commandant.

The men have been divided into two companies, A and B, of eight squads each, and are in charge of the following officers: Company A; Cadet Second Lieutenant F. Bauer; First Sergeant L. L. Crosby; Color Sergeant F. W. Wooding; and Sergeants N. W. Alexander, R. F. Belton, G. B. Durham, D. A. Evans, T. F. Murphy, J. F. Ryan, C. R. Brock, D. Scott. Company B; Cadet Second Lieutenant H. W. Wright; First Lieutenant D. J. Hirsh; Sergeants H. B. Bridges, L. W. Cassel, E. D. Dow, H. B. LOCKWOOD, F. N. Manwaring, M. L. Osborne, W. J. H. Shimmeal. Corporals have been appointed temporarily. As the work advances and the men show their abilities promotions will be made according to qualifications and the full number of battalion cadet officers appointed.

Miss Helen Maxwell, although not really a part of the R. O. T. C. because the terms of their enlistment are still binding are taking courses in military instruction along lines which are most beneficial in war work. For this purpose they have formed into a signal squad in charge of Lieutenant E. A. Kingdom. The men enrolled in this miniature navy are: C. C. Compton, G. Dow, D. J. Gray, F. A. Mahoney, and J. C. Martin. In this manner they may get the usual drill credits.

The advanced work in the R. O. T. C. unit is being carried on by the commandant and the following men have elected the course and will attend summer training camps, therefore receiving ration allowance of forty cents a day during the college year. To earn this they must put in five hours a week of military instruction, practical and theoretical combined. The men electing the course are: Herbert Wright, William Gronwoldt, Newton Alexander, Frederick Bauer, F. W. Wooding, and C. D. Prentice. Captain C. E. Cranston, commandant, says "The men seem unusually willing and give a fine appearance of being well drilled, thanks to the efforts of Colonel Flynn during the S. A. T. C. There is no reason why we should not have some of the best R. O. T. C. units in the country."

EXPERIMENT PLANNED.

Efforts Made to Improve Pasture Lands of State by Simple Methods.

The agronomy department is planning to carry on pasture investigations this spring. A survey of the pastures in at least one town will be made and definite information will be gotten as to how much a farmer can afford to spend to improve pastures. In this state much good pasture land is unspoiled, so that other logical methods of reseeding and improving must be worked out to be of any advantage.

ETA LAMBDA SIGMA.

George Davis, Hayes, Harry G. Hanks and Alton I. Horne were on the "Hill" over the week-end of February 8. Mr. Hayes is now situated in New London and is in the employ of an engineering company of that city.

Mr. Horne is now employed by the American Thread Company of Willimantic and has charge of one of their supply rooms. Gardner Dow, '21, was taken violently ill at the miniature time Friday was sick all afternoon and evening. He was better on Saturday and on Sunday was taken to his home in New Haven.

Mr. Dow had just returned to the college two days before. It is thought that the cause of his illness was overexercise.

WHY EGGS WON'T HATCH.

Prof. G. H. Lamson and Leslie B. Card are working on data in respect to making a study of the factors relative to hatchability of eggs. Among the factors studied are the high winter yield, effect of cooling the eggs during incubation, results of successive hatches in the same box, and in several years from the same individual hen.

PRACTICE HOUSE ENDS WELL.

The last group at Practice House vacated February 10. Among their guests were the Misses M. E. Sprague, Dorothy Buckley, Edith Mason, Ella Rose, Happy Potter, Madeleine Adele Graber, Capt. and Mrs. C. Dana Potter, Mrs. G. H. Campbell, Mr. and Mrs. A. J. Brumbage, Mr. and Mrs. David Warner, and Members L. M. Butler, J. L. Hughes, P. L. Sanford, Herbert Webb, William Hemmerle, H. B. Beisiegel, Donald Hirsch, E. Schulman, and S. L. Ward.

REV. G. B. GILBERT SPEAKS.

The principal speaker at President's Hour on Wednesday, February 12, was Rev. G. B. Gilbert of Methodist Church, Bridgeport. In his talk he outlined the reasons for the unrest existing in the working classes today. In presenting the cause, he brought out many striking illustrations as well as many humorous examples.

SPIRITED DEBATE HELD.

Dr. E. W. Sinnott and H. B. Price give Talk—Club Constitution Amended.

The C. A. C. Debating Club met Wednesday evening, February 12, in the lecture room of the Horticulture Building.

The speaker was H. B. Price, who concluded his series on "Socialism." In handling his subject he showed some of the fallacies of the movement. A spirited discussion of the subject, in which many of the members took part, followed.

"Resolved, That the Government should own and control all 'roads' was the subject of a spirited debate Wednesday evening, February 12, at the meeting of the C. A. C. Debating Club. N. E. Hines and F. A. Boulanger upheld the affirmative side of the question, while R. B. Hughes and K. H. Mathewson championed the cause of the negative. The judges, J. S. Miller, H. B. Beisiegel and L. W. Cassel, awarded the decision to the affirmative.

Following the debate, Dr. E. W. Sinnott delivered a very interesting and instructive lecture on "Eagles." This was the subject of a business meeting preceding the debate, which was held in the Constitution, providing for a board of directors for the club, was adopted. S. I. Ward, A. F. Shenkner and N. W. Alexander were elected members of the board.

SIGMA ALPHA PI.

The initiation of the Sigma Alpha Pi fraternity took place February 5. The following men were made members: Frank Hemmeler, New Haven; John H. H. Healy, New Haven; Edward Bueeder, Torrington; Robert Johnson, Norwich.

William F. Ladd, '13a, died recently at his home in Bethelhem, Conn. The fraternity met, '15, recently from his eagles in the aviation service.

Charles Neumann is at present testing for Gardner Hall & Co., in South Willington.

Sergeant Howard Goodrich, ex-'15, writes that he was recently transferred from the 301st Ammunition Train, which was leaving for America, to the 1st Replacement Depot, 16th Infantry. He wrote that recently while at St. Eigon he met Lieutenant Crampton, ex-'19.

COLLEGE ICE CROP FAILURE.

The question of filling the icehouse at Storrs is one which has troubled the farm department. The pond is so shallow that it has frozen very little and has been maintaining about a five-inch covering of ice, of poor quality, because of having been frozen and thawed so many times. The icehouses in Eagleville have been filled with good nine-inch river ice and in other places nine and ten-inch ice has been put up. By carting with four or five teams from points in the vicinity, it is expected that the icehouse can be filled within a month, unless a large amount of coal should come in at Eagleville, requiring the use of the teams to haul coal.

PHI EPSILON PI.

The Phi Epsilon Pi fraternity held its initiation Saturday afternoon, February 8. The following men were admitted: Lionel Faulkner, '21, Louis D. Trauring, '21, Samuel Weiss, '21, Abraham Klein, '21, and Henry Colechurch, '21.

David Trauring, '17, spent the weekend on the Hill, and assisted during the ceremonies.

Word has been received from Harold Kaseowicz, ex-'19, who is with the 306th H. F. A., that he is at a port of debarkation, Bordeaux, and expects to be home soon.

Lawrence Hoffman, '17, has received his discharge from the Army, and is engaged in business in New Haven.

Prof. A. T. Stevens attended the vegetable and fruit growers' meetings held in Horticultural Hall, Boston, Mass., Feb. 10 to 14.
GRANGE HOLDS LIVE MEETING.

The regular monthly meeting of Mansfield Grange was held Monday evening, February 19, in the Church vicinity at Storrs. After the usual business meeting, Prof. C. A. Wheeler gave a report of the State Grange meeting, held in Hartford, to which he had been appointed delegate. Current topics, including the Morrison Code, Government Control of Railroads and Telegraphs, and the Findings of the Meat Trust Investigations, were extensively discussed. Among the new men who took part in the program was P. N. Manwaring, who made some interesting remarks. A musical program was furnished by Mrs. H. D. Newton and M. H. Lockwood.

After the lecturer's program, the new officers, who were not present at the previous meeting, were duly installed. At the close of the meeting, light refreshments were served.

THE SHAKESPEAREAN CLUB.

Captain R. T. James, '16, who was stationed at Camp Devens and recently received his discharge, spent a few days on the "Hill" visiting old friends. Captain James expects to go to Washington State, where he will take up work in the large-scale production of apples in one of the leading orchards.

Word has been received here that D. J. Minor, '96, of Bridal, has lost both his house and barn by fire. The details of the loss are not yet known.

D. J. Minor, '06, was elected Secretary of the State Dairymen's Association. At the same meeting, M. E. Pierpoint, '93, was elected treasurer.

M. R. Oshill, '16, first-class sergeant in the medical detachment at Camp Dix, New Jersey, expects to remain indefinitely at the base hospital there, where he has been working in the bacteriological laboratory.

WAR WORK FINISHED.

Prof. William F. Kirkpatrick has returned from a ten days vacation spent in South Carolina. After closing his work as manager of exhibits in the recent Connecticut Farmers' Week at Hartford he finished his work with the State Council of Defense, and will now devote his time to the poultry department.

A young registered Berkshire boar has been sold by the College to J. D. Kersley & Sons of Madison, Conn.

Robert Sawin has returned from the army and is working on the poultry plant.

Many a man has dug his grave with his tongue.—Ex.

Worcester Tech.

TRIMS HOME TEAM

VISITORS WIN BY A 24-34 SCORE.

Teams are Evenly Matched in Fast and Exciting Game.

The C. A. C. varsity team met defeat at the hands of the Worcester 'Tech' quintet in a fast and exciting basketball game in Hawley Armory, Friday evening, February 7. The game started off in a whirlwind, both teams being apparently well matched. Although the 'Tech' boys showed their superiority in getting baskets, the splendid team work of the Aggies kept the invaders on the jump every minute of the contest. The score at the end of the first half was 11-18, in favor of the Worcester 'Tech' five, but the splendid work of Dean and Ryan soon brought the score up to 21-21. This was all that was needed to arouse the enthusiasm of our players as well as the students present and the contest was closely fought to the finish when the score stood 24-34 in favor of the visiting five. The lineup:

Connecticut — Worcester Tech.
Lockwood RF Campbell
Dean LF Steele
Eloock C McGaffey
Ryan RG Mossberg
Putnam LG Pickwick

Goals from the floor, Lockwood 2, Dean 2, Eloock, Putnam 2, Steele 2, McGaffey 2, Mossberg 2, Kuschnir 2, Stoughton 4; goals from fouls, Lockwood 8, Mossberg 3, Kuschnir 7; substitutions, Richards for Putnam, Kuschnir for Campbell, Stoughton for Steele, Carlson for Pickwick; referee, Harrington.

RARE SPECIMEN PRESENTED TO STATE.

J. S. Miller has presented the State Entomology Department with a lady beetle, Neoymia pullata Say, the first specimen of which has been found and presented in this state. Mr. Miller found the beetle on an arbor vitae at Branford, Conn., in the summer of 1917.

PIGS "AT HOME."

Five pens of three young pigs each were put in the new pigpens February 8, to carry out a feeding experiment. Although the building is not yet completely fitted, it was found necessary to use it immediately. It is expected it will be ready for complete occupation soon.

Mrs. Alzina J. Bissell has returned to the home of her parents in Willimantic where she expects to meet her husband, Lieutenant Bissell, who has been in the service abroad since the summer of 1917.

Discourtesy hurts the person who uses it more than the person toward whom it is directed.—Ex.

～・

's light to the advanced gunner while we were running a line of papers, bunch of fellows their section.

hike I went into the kitchen as a paper is full of the 38th Infantry one night upon the Argonne. It is a dead forty-five we don't go.

We left Diedenhofen December 2, and hiked continuously until the sixteenth, when we hit this little town of Kelberg. It is a dead little hole about thirty miles from Coblenz. It was a pass signal for the division commander to get to Coblenz, so we don't go.

We came through one corner of Luxemburg on the hike, crossing the Moselle into Germany proper. We climbed hills miles long and hiked from twenty to forty-five kilo's a day. We saw some mighty pretty scenery, but a lot of good views were spoiled because the weather was misty most of the time and it was impossible to see anything. While we were on the hill I went into the kitchen as a "punk sergeant" was kicked out, and I was given that job. That is one of the good jobs in the army. I held that job for about ten days when there was another shakeup in the kitchen and I was put on as cook's helper. That is the job I am holding down now. I went on shift for the first time on Christmas Day. I am on one day and off two. I go on at 3 a.m. the day that I am on shift.

I stand no calls, and do no guard. I am putting on a little weight, too. I can afford to as I lost several pounds in the Argonne.

I am glad to know that such a bunch of fellows received their bars. Also Harry Elby Dickson through. I hope that John got his two bars. His outfit was certainly on the job and put out in good style at the front. We ran over from the 38th Infantry one night upon the Argonne while we were running a line to the advanced O.P. They were on the edge of a wood and challenged us about every four feet. You probably don't see much about us in the home papers; from all that I can find out there seems to be a tendency to slight the regular army, and each paper is full of the doings of the national guard and national army of their section. We are in the 4th Artillery Brigade, 4th Division (Regu-

lars). Our outfit received the most citations of any outfit over here, but the only ones at home that I know we exist are those that have friends in the outfit. We received the French and American citation at Chateau Thierry, St. Mihiel, and the American citation in the Argonne. The 90th Division is given lots of credit for its glorious rush to Sedan, but how many people know that the 90th Division Artillery never was in the scrap, and that it was the 16th that threw over the barrage above Bantheville and Andevain, that the Germans declared to be the worst of the war. And the regiment did that after the rest of a division had been relieved. We started the drive at Meuseville on September 26. We stayed with the 90th Division until the armistice was signed.

Personally, I don't care a hang whether they give us a write-up or not, but it sort of gets your goat to receive letters asking where you have been and saying that they never see your outfit mentioned. I know what the impression is when I pass through and I think that my friends know that I have done my part, so I am satisfied.

No signs yet of when we will be going home, but I hope to see you and all the boys at Commencement.

Fraternally,

"GOODY."

Dear Editor:

Appearance is half of any game. Take for instance a real estate agent who is trying to sell you some property that is is not neatly kept. The land itself may be of the best, but if it is grown up to brush and straw with litter it does not make much of an impression on you as a good buy, whereas if a little time was spent in cleaning up the grounds you would probably be tempted to make the purchase simply because of its appearance. Even though you did not buy, it would leave a favorable impression in your mind. Such a case may be likened to prospective students or their parents who visit our college.

It is a safe bet that the papers tangled in the bushes in front of the Armoury, and the conglomeration of articles strewn under the windows of the dorms do not make a very favorable impression on visitors. They are very likely to form the opinion that a college that allows such conditions cannot have very high standards. Such is not the case, however, for we believe we have as high standards as those of any institution, but everyone must admit that the unsightly conditions existing in and about some of the buildings are not a very great advertisement to "Connecticut."

The college is visited every week by strangers who are forming opinions of us and these opinions are formed from the appearances of the college as a whole. If the students will cooperate with these in charge of the grounds, these nuisances may easily be avoided.

"A BOOSTER."

DE LAVAL

The World's Greatest
Cream Saver

All over the world creamermen, milk concerns, dairy authorities and cow owners who have special opportunity for judging the worth of cream separators, have for years recognized the superior skimming and all-around efficiency of the De Laval. That's why 98% of the plants throughout the world separating large quantities of milk use the De Laval. It skims so much closer that they can't afford to use any other machine. That's why 2,325,000 De Lavals are in daily use—more than all other makes combined.

Not only is the De Laval the greatest cream saver, but it turns easier, is easier to wash, has larger capacity and greater durability than any other separator.

The more you know about cream separators the more certain you are to buy a De Laval.

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash or on such liberal terms as to save its own cost. See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office, as below.

The De Laval Separator Company
165 Broadway, New York 29 East Madison Street, Chicago

OVER 2,325,000 DE LAVALS IN DAILY USE THE WORLD OVER.
Dear Professor:

You don’t know how glad I was to find a letter from the college in my mail. It enclosed a questionnaire, a letter and the Honor Roll. I have filled out the questionnaire as well as I can, showing the changes I have made and so on.

A fellow has to be a long way from home and friends in order to appreciate them. My recent batch of mail, twenty-five letters, was the first I had received in over two months.

Am feeling fine and enjoying life as well as one can during a winter in France. We have very little snow here, but it rains continually, not a honest-to-God rain, but a steady drizzle that lowers your spirits and keeps your feet wet.

I joined the 139th Infantry November 5—just six days before the armistice was declared—so did not see any fighting. This regiment was just east of Verdun and shells were passing back and forth at times. That is all the action I have seen so far in this war.

Wishing you and your family a very Happy New Year, and hoping to be at the big reunion that will be held at C. A. C. when we all get home I remain,

Yours very sincerely,

GEORGE L. PRINDELE,
First Lt., 139th Infantry.

Cheshire, February 16.

Mrs. Richard A. Storrs, wife of Lieutenant Richard A. Storrs, who died in France, November 13, 1918, from wounds, has recently received a letter from Lieutenant Carroll J. Scheppa, commanding Company F, 131st Infantry, giving details of the act, in the doing of which the late officer was fatally wounded. The let­ter is dated Luxembourg, January 7, and is as follows:

“It was with feeling of deep regret and sympathy that I heard of the death of Lieutenant Storrs. He was a man who commanded the respect of all his fellow officers and the men under him. His loss and absence is greatly felt by them.

His last act was an attempt to rescue from the enemies’ territory, a wounded comrade, and it was in this act that he received his fatal wound. You will rest assured that the supreme sacrifice made by him will long be remembered by his comrades, as it was in the performance of his duty to our glorious country, as well as an heroic act.

You and your children even in this sad hour, have occasion to feel proud of so noble and true a soldier.”

Mrs. E. L. Gay and her daughter, Florence, of Winsted, visited here the week-end of February 7 with Mildred Gay.

Captain and Mrs. C. Dana Potter and their daughter, Happy, of Sound Beach, spent the week-end of Feb­ruary 7 here with their daughter, Kay.

LETTERS FROM FRANCE.

France, December 29, 1919.

Dear Professor:

Mail.

I can, France. We have very little letters, was the first I had received in over two months.

Happy New Year, and at that day rescuing from the enemy’s fire. His last act was an attempt to rescue from the enemies’ territory, a wounded comrade, and it was in this act that he received his fatal wound. You will rest assured that the supreme sacrifice made by him will long be remembered by his comrades, as it was in the performance of his duty to our glorious country, as well as an heroic act.

You and your children even in this sad hour, have occasion to feel proud of so noble and true a soldier.”

Mrs. E. L. Gay and her daughter, Florence, of Winsted, visited here the week-end of February 7 with Mildred Gay.

Captain and Mrs. C. Dana Potter and their daughter, Happy, of Sound Beach, spent the week-end of February 7 here with their daughter, Kay.

INSPECTORS APPOINTED.

Rooms Must be Kept in Tip-Top Condition from Now On.

Section inspectors have been appointed by Captain C. C. E. Cranston, commander of the R. O. T. C. unit at the college.

This is a custom which has been carried out in the past and it provides for an inspector for each section.

The duties of the inspectors are primarily to inspect each room daily and see that the rooms are swept, beds made, and everything neatly arranged. In addition, he is responsible for the conduct in sections. Besides the regular daily inspection by the section inspector, there will be on the first Sunday of each month, a room and equipment inspection by the commandant.

The men selected for inspectors are taken from the roll of students who are taking the advanced work in the R. O. T. C. and are as follows:

Koons Hall:

First section, W. W. Wright.
Second section, C. D. Prentice.
Third section, not appointed.
Fourth section, W. Gronvold.

Storrs Hall:

First section, F. W. Wooding.
Second section, N. W. Alexander.
Third section, E. D. Dow.
Fourth section, P. N. Manwaring.

These men are held responsible and in case they do not perform their duties as prescribed, they are liable to fines laid down by the commandant.

New scales, with a ten-ton capacity are being installed near the office of the superintendent of buildings. The foundations are 16 feet by 8 foot and made of concrete and steel.
