LEGISLATORS MAKE INVESTIGATION
RECOMMEND $350,000 FOR IMPROVEMENTS.

Building Restriction During War Causes Inadequacies.

On Friday, February 21, the Appropriation Committee from the State Legislature visited the college on a tour of inspection. The Trustees have petitioned the Legislature for an appropriation of $295,580 for the erection of several new buildings including a new dining hall and a women's dormitory. This petition is now before the Committee on Agriculture who made the trip before reporting to the Committee on Appropriations.

The committee of fifteen members arrived on the campus at 1:30 o'clock, Friday noon. Luncheon was prepared for them and served at Grove Cottage by the sophomore class in cookery under the direction of Miss Ella J. Rose, instructor of home economics.

During the period of the war it was impossible for the college to get or use money for the erection of new buildings. However, in that time the different departments have made rapid strides in growth. In addition to that, at the present time, we are without adequate facilities for housing both staff and students, with a prospect of being still further handicapped in that direction as time goes on unless something is done soon to remedy conditions.

It is understood that just previous to the war, plans were all made for a new dining hall and a women's dormitory. But the building of them had to be abandoned for the time being.

The committee recognized the need of the institution and recommended an appropriation of $350,000, a larger sum than was asked for. This was done because they wanted a new permanent science hall instead of a temporary structure.

GO TO KANSAS CITY.

Boys' and Girls' Club Leaders of State Attend Meeting.

On February 26, Miss Helen Bolan and A. J. Brundage left to attend a Boys' and Girls' Club Leaders' meeting in Kansas City, Mo. Club leaders from every state will attend, besides the specialists in the work from Washington, D. C. The meetings will start February 28, and continue until March 4.

R. I. STATE WINS CLOSE CONTEST

SCORE TIED MANY TIMES DURING HALVES.

Connecticut Loses Game in Last Two Minutes of Play—49 to 46.

The basketball team lost a fast and exciting game to the Rhode Island State Five at Kingston last Saturday evening by the close score of 49 to 46. It was anybody game up to the last two minutes of play, when Holden scored a basket from the floor and Spencer followed by making good a free try.

The home team started the scoring with two double counters, after which Lockwood connected with the basket and the game was on full swing. Neither side could gain an advantage and when the whistle blew at the end of the first half the score was tied 22 to 22.

The second half was a repetition of the first, the score being tied five times during the period. Lockwood had his shooting eye with him, as was shown by the fact that he made 28 of the team's 46 points. Several of his ten field goals were long shots from the center of the floor, and when it came to shooting fouls, he made good eight out of eleven tries.

Team work was the byword of the visitors, and the way Putnam and Groenwoldt handled the ball was a credit to any team. Holden and Spencer starved for the Rhode Islanders.

The lineup: Connecticut: Lockwood RF, Holden, Dean LF, Spencer, Groenwoldt C, Mallory, Putnam BG, Autolones, Prescott LG.

Field goals: Lockwood 10, Groenwoldt 4, Putnam 3, Prescott 1, Dean 1, Holden 8, Spencer 8, Mallory 5; foul goals: Lockwood 8, Spencer 7; referees, Forbes.

HONORARY MEMBER ELECTED.

At a meeting of Gamma Chi Epsilon held Monday evening, February 24, Dr. H. D. Newton was elected an honorary member of the fraternity. The other three honorary members are President Charles H. Beach, Professor H. R. Monisith and H. F. Judkins, who is now at Iowa State College.

GENERAL UNREST SHOWN AT STORRS

FRESHMEN BANQUET PLANS KEEPS SOPHIS ON LOOKOUT.

Each Class Trying Every Means to Outdo Other.

Ever since February 24, there has been unusual unrest and alertness among the freshmen and sophomores. So those unacquainted with the reason for these extraordinary symptoms of spirit, the awakening might seem indicative of a little revolution, but to any old college man, it simply means that in these two weeks and a half an attempt will be made to pull off a freshmen banquet.

Many of the false alarms raised and subtle remarks that have been passed by freshmen, were to try and throw the watchful sophomores off the track. The actions of two teams in the class of '22, when they were discovered in the middle of the night rushing from the dormitory in their best clothes and carrying suitcases, aroused the suspicion of their superiors.

The hair-raising cry of "'21, all out! The freshmen are going!" was followed by a precipitation of "sophs" from the dormitories only to discover that it was only a play on their frizzled nerves. And when one noon a body of about twenty-five of the lower class left the Dining Hall together, the sophs had to be convinced that it was purely chance, or an attempt at camouflage. It is said that guards have been posted nightly in the chief lookout points to watch for any nocturnal adventurers and when one of them was caught he had hard work convincing the innocent "freshies" that he was merely walking in his sleep. The new co-eds have been carefully watched also by their more steady minded guardians and whenever one of them puts on a new dress or an extra touch on her cheeks she was immediately and faithfully attended for the rest of the day.

Many are the secret consultations and quick, puritive and sharp exchanges of words among the "freshies" while the "sophs" sit by with dark scowls of suspicion and a look of wisdom as if they knew all about it.

TROPHIES AWAIT ROUM.

Eight silver and five bronze medals, which the college won on Percheron horses shown at the New England Fair, 1918, have arrived here, and together with those received the year before and previously, are waiting a trophy room to receive them in proper style.

STUDENTS' INFIRMARY TO BE ERECTED.

The Dunham Farm in Newington, Conn., has been sold for $21,000 by the State. This property was given to the State last year by A. C. Dunham.

The trustees of the College are considering putting the money from this fund for the erection of a memorial students' infirmary in honor of Mr. Dunham.

The building will be placed on the land between the Eagleville road and "Swan Lake." The plans of the structure have not been definitely decided upon.
REVIEW EXTENSION BUDGET.

Former Bill Meant $50,000 Loss to Connecticut Alone.

W. C. Thompson, chairman of the Extension Committee of the Association of American Agricultural Colleges and Experiment Stations, has notified the College that the Committee Agriculture, the United States Senate has restored the budget for co-operative farm demonstration work. The proceeding budget as passed by the House meant a decrease of $50,000 to Connecticut alone.

There is an addition to the items in the budget set aside for extension work in the South, and $55,280 for the same purpose to be used in the North.

The biennial report for the period ending September 30, 1918, is now in press and will be available for distribution. This includes the reports of the president, director of the experiment station, director of the extension service, and the treasurer of the College.

R. E. Dodge presided at a conference of the home demonstration agents, and 'boys' and 'girls' club leaders at the Teachers' College of Columbia University on February 22. Miss M. Estella Sprague, Home Demonstration Leader for Connecticut, addressed the conference on the training and qualifications of home demonstration agents.

SANFORD LEAVES "HILL".

P. I. Sanford will leave the poultry department the first of March. He will go to his home in Hadley, Mass., for the present. Although he has two or three positions under consideration, he has not definitely decided which one he will accept. "Peck" as he is popularly known on the campus, graduated from C. A. C. last spring. He has a host of friends on the "hill" who are sorry to see him leave, but who wish him success and happiness in his new undertaking.

FRESHMAN BANQUET.

(Continued from page 1)

It was noted that no upperclassmen were invited on account of "22 to the dances in Willimantic and if one of them was missing for a few hours, a great cry was raised. Every time an auto horn was blown near the dormitories someone would jump and say "There they go!"

The freshmen have been supplied with copies of Connetquot and fully instructed as to how to run an auto in case the driver is shot, and the "sophs" have taken a special course in automobile anatomy so as to disable the cars with the least possible expense. The success of the freshman banquet is at stake and both classes are doing their "darndest," both to succeed, each in their way.

BASKETBALL TEAM WINS FIRST GAME

BOSTON TEAM SHOWS LAX TEAM WORK AND LOSES.

Steven Tech Defeats Varsity in Well Fought Game.

The varsity basketball team won its first game of the season by trimming Boston College in the Hawley Armony on Saturday, February 22. The work of the home team showed a great improvement in passing and covering and "peck" was exceptionally prevalent. The Boston five showed a fair team work. Captain Urban played a remarkably good game for the visitors, who lacked the life for regular performance.

Captain Lockwood of the "Aggies" was given seven consecutive free throws at the basket when the referee called a foul for talking back to him when he called a foul. Four of the three tries proved successful.

Putnam at forward and Gronwoldt at center showed fine form in the offensive while the guarding of Ryan and Prescott broke up Boston's plays.

The summary:

C. A. C. Strong
Lockwood (Capt) F Urban, (Capt) Putnam F Powers
Putnam G
Gronwoldt C Fitzpatrick
Prescott G
Ryan G
Mahey
Substitutes; Dean for Putnam, Elcock for Gronwoldt.

Score: Connecticut 46, Boston 27; field goals: Lockwood 7, Urban 7, Putnam 6, Gronwoldt 6, Powers 1, Fitzpatrick 1, Norton 1; goals from fouls: Lockwood 13, Urban 7; refer to reports of Spring Y. M. C. A.; scorers: Rochele and Buey.

The basketball five of Stevens Tech. defeated the C. A. C. quintet at the Hawley Armony on the evening of February 18. When the final whistle blew ending the contest the Stevens team had rolled up a 45 to 35 victory. The "Aggies" displayed an excellent brand of basketball, especially on the defense and for a time it looked as though it would be a tie. Lockwood kept C. A. C. in the running by means of his fouling shooting and scoring from the floor. Gronwoldt at center played a splendid game for the home team though he was out jumped by his big opponent Headdon. Carlson starred for the visitors and played a good passing game.

The summary:

Stevens C. A. C.
Daley F
Lockwood F
Edgars P
Carlson C
Gronwoldt
Headdon G
Ryan G
Roth, Higley G
Prescott

Score: 45 to 31; baskets: Lockwood 3, Putnam 2, Gronwoldt 4, Ryan, Prescott 2, Daley 4, Edgars 3, Carlson 5, Headdon 6; fouls: Lockwood 7, Headdon 9; time: 20-minute halves; referee: Harrison.

H. V. Beebe, has been confined to his bed because of illness.

MISS WALLACE LEAVES.

To Work with Shell Shock Victims at Fort Sam Houston.

Miss A. M. Wallace, who returned to the college recently to take up her duties as an instructor, has now been ordered by the Government to report immediately at the Base Hospital at Fort Sam Houston, San Antonio, Texas, to work with shell shock victims.

Miss Wallace entered the Red Cross service last summer to become a psychiatric social worker. There are now only about fifty in the country. She completed a six months' intensive course at Smith College, in this work which was created by war conditions and developed because of an appeal made by psychiatrists and neurologists.

Workers in this field are prepared to supplement the doctors' efforts, under their supervision, in watching reactions to special stimuli, finding made to secure Leland F. Arrow before the government, the soldier can't forget the thing it would be well for him to forget, and who can't remember the things he ought to remember.

Miss Wallace has been granted a leave of absence until September, although she expects to finish her work in three months.

Captain Cranston's family has arrived here from Tuscaloosa, Alabama, and are residing in Whitney Hall for the present.

ETA LAMDA SIGMA.

Edwin Choate Eaton, '11, and First Lieutenant William C. Eaton, '15, of Sam Houston, Texas, spent the week-end of February 14 visiting their brother Austin E. Eaton on the "Hill."

First Lieutenant Seals spent the week-end of February 21 on the "Hill." He is now stationed at Camp Devens.

Captain T. H. Beich and First Lieutenant Ungethume have passed their examinations for regular army commissions.

Martin, '22, left college Saturday, February 22, to return to his home in Bloomfield, N. J. He has accepted a position with the Curtis Publishing Company.

B. A. McDonald, '15, formally of the College Extension service, has been discharged from the service and has accepted the position of Instructor of Agriculture in Cheyney High School of Waterbury, which was left vacant by William Shea, '16, who is now devoting all of his time to his farm.

Leslie Marsh is now attending the Veterinary College of Cornell University.

E. H. Howard, '13, of Somerville, Mass., is a dairy bacteriologist for H. P. Hood & Sons at their Chelsea receiving station.

AGGIE GLEE CLUB HERE TOMORROW.

ENTERTAINMENT COURSE BEING DRAWN UP.

The Massachusetts Agricultural College Glee Club of twenty-five men will give a concert in the Armory tomorrow evening at eight o'clock.

Very few colleges have organized glee clubs this year and we are lucky to be able to secure this club. The Social Committee has put itself to considerable expense in bringing this troupe here but its efforts are sure to be appreciated.

This will be the last entertainment to be given this semester, but the committee is planning for at least two next term. An effort is being made to have one that Tom and F. Putnam who made such a "hit" with his impersonation of David Carrick, here last year.

Acting Director I. G. Davis of the Extension Service, and Assistant County Agent Leader, R. E. Dodge, attended a conference of county agent leaders of the Northeastern States at New York on February 21 and 22.

DANCE PROVES TO BE GREAT SUCCESS

DECORATION OF ARMORY A BIG FEATURE.

Vaudeville Show Completes Week-End Program.

The Junior Informal, probably the most successful dance since formal dances were first introduced at the College, was held in the Hawley Armory on Friday evening, February 21. The Armory, which has never before been decorated so tasteful and original, brought back memories to the upperclassmen of the Junior Proms of the past.

The decorations consisted of red, white and blue streamers which were draped across the trusses in the middle of the room to the running track. Festoons of red, white and blue were strung over the boxes, which practically enclosed the floor. The service flag with its five gold stars hung conspicuously on the east wall of the building. The decorating, directed by H. B. Bridges, chairman of the Decorating Committee, caused favorable comment of everyone who attended the dance.

About eighty couples were present including many alumni who were back for the occasion. Pickert's Orchestra of Willimantic furnished the music for the program. The committees in charge of the dance were as follows: Executive, D. J. Scott, chairman; Frederick Bauer and H. W. Wright. Decorating, H. B. Bridges, Chairman, R. F. Belden, M. L. Osborn, D. A. Evans, W. J. Steinmull.

A four-act vaudeville show with one reel of movies was given in Hawley Armory Saturday evening, February 20. The program consisted of "Doing Others," was acted by Miss Loretta Guilfoil, P. N. Manwaring, William Grooverold and C. P. Wenzel. "Dwyer and Sniffen" were the next entertainers and the singing of Miss Dwyer and the clever playing of Miss Sniffen added much to the success of the show. "Bub, Chick and Brush," the famous comedians kept the audience laughing with their comic songs and jokes. "Pinkham's Troops," furnished the last act with acrobatic stunts.

PROHIBITION TALK GIVEN.

Captain L. D. Colvin gave an interesting lecture in the Armory, Monday, February 17. This was the first of a series of war discussions and talks on reconstruction problems which are to be given this year. Captain Colvin spoke very convincingly on "National Prohibition." He had returned from France recently and expects to sail again in a week to continue his work for prohibition there.

Guests at Valentine House over the week-end of February 21 were: Miss Olen of Stamford, Miss Hitchcock and Miss Osborne of Hartford.

NEW MANAGERS ELECTED.

Resignations Tendered in Favor of Upperclassmen.

At a meeting of the Athletic Association held Monday, February 17, A. C. Bird, '19, was elected basketball manager for the season of 1919, and P. N. Manswaring, '20, was elected football manager for the same season. These men were elected to fill the vacancies caused by the resignations of F. C. Maier, '21, and E. D. Dow, '21, who had resigned in favor of upperclassmen. Frederick Bauer, '20, the basketball manager, also tendered his resignation at a meeting of the Council, in favor of higher classmen, but was voted down because he had already made a schedule of games and been through the larger part of them, proving himself very capable.

HEREFORD BULL SOLD.

The large Hereford bull at the college has been sold to Cha.s. L. Barber of Vassalboro, Maine. He will be shipped by freight under the care of Mr. Jones, who has worked at the beef barn for a few months, and who is now returning to his home in Maine.

The extension service has just completed a bulletin for the guidance of returning soldiers and others interested in Agriculture in Connecticut. The authors are R. E. Dodge, I. G. Davis, T. H. Eaton, A. W. Manchester, Walter Siemons, and G. C. Smith.

The following guests were entertained by the third practice house group during the first week: Miss Skinner, Bertha Hallock, Ellen Olen, Eleanor Moss, C. R. Brock, J. P. Johnson, P. Wallace, D. Graf, F. Bauer, N. W. Alexander and Herbert Hallock.

James A. Gamble, '09, market milk Specialist of the United States Department of Agriculture, has recently published a bulletin on "Cooling Milk and Storing and Shipping it at Low Temperatures."

BEEF STOCK MAKES GOOD.

Steers Fed Here Prove Profitable Outlet For Farm Feeds.

On Tuesday, February 25, Professor H. A. Garvias was present, with others interested in New England live stock, to witness the sale and shipment of two car loads of steers brought into Massachusetts and fed by Z. Marshall Crane of Dalton, Mass. These steers were purchased at $12.50 per 100 pounds in Chicago on June 3, and sold at $17.00 per 100 pounds on February 25, to Swift & Co., of New York. During the feeding period, a part of which was on straw pasture, these steers increased in total weight of 16,269 pounds, demonstrating that beef can be raised in New England, and offers a profitable market for silage, hay and home-grown feeds.

IF you want the best pipe that can be made, you can get it in a W D C—up to $6. If you want the best genuine French Briar that as little as 75 cents will buy, you can get it in a W D C. American made, in all sizes and styles, and sold at the best shops.

We invite the C. A. C. Young Men to see us for CLOTHES.

The Church-Reed Co.
Willimantic, Conn.

LACK OF SANITATION

in the dairy means the possibility of breeding harmful bacteria, a low quality product, and may cause the spread of disease. Such conditions would prove very disastrous to any dairy business. The use of WANDOTTE will eliminate this very serious situation.

This cleanser assures the thorough cleanliness of the separators, pasteurizers, milk cans, etc., by removing all sordidness, odors and other materials, thus insuring the highest quality of milk.

Thousands of dairymen are profiting by the benefits of this efficient cleanser, and are enjoying the highest quality of product at a very nominal cost.

Why not take advantage of this opportunity on your money-back guarantee?

IT CLEANS CLEAN.

This cleanser has been awarded the HIGHEST PRIZE wherever exhibited.

THE HONORARY FRATERNITY.

Three years ago an honorary fra­
ternity, Gamma Chi Epsilon, was or­
ganized in the "Hill" through the ef­
ter of the faculty and representa­
tive students. This was perfected in or­
der to promote scholastic standing,
participation in college activities, and mor­
al development.

The membership is confined to mem­
bers of the Junior and Senior classes. Provision is made so that no more than twenty-five per cent.
of the Junior Class shall be consid­
ered eligible for election to member­
ship. The election of candidates is based on records furnished by the Secretary of the Faculty and the per­
s ons finally chosen are also approved by the and the purpose of the fra­
ternity, who are members of the faculty.

This organization takes into con­
ideration the entire collegiate record of each man, so that a student has an ample opportunity of proving his worth. The elections are made in the second semester of the Junior year just after the commencing of the new term.

The new men, particularly, should become aware of the fact that this fraternity is active and interested in their records. Now is the time to begin to fit yourself for it by doing good consistent work, not only in the classroom but outside as well.

THE SAFETY VALVE.

The human make-up of the majority of people has it common to find fault, or as we call it and popularly know it, "crabbing." It is a perfectly natural phenomena and unquestionably has its place, so that stringent opposition to it seems out of the question. With different indi­
viduals we find varied desires of this kind of expression which indi­
cate fairly the type of man. Some are chronically affected, but unfor­
tunately most persons are more opti­

There are two distinct general methods of going about to put "crab­ing" across; one is to convince your­
self that something is wrong and by others. We attempt to call attention to such matters, and if pos­
ible, remedy the evils as they are considered.

The student body here is not ab­
normally in this respect, in fact it seems quite strongly an example of the results which may be reached by understanding and combination of the ear and tongue.

We hear many things, mostly about other people. They may be to a per­
son's credit, or not, but sound inter­
esting. Soon we hear these remarks repeated. Human—It must be true. Before we realize it we are also a fac­
or in spreading the news, of confirm­ing it. It is very easy, thus, to spoil a person for many others, through here, unmeaning harmless use of our ability to talk and absorb.

Let us assume a little more of the "Missourian" attitude and doubt a statement until we see its proof, es­
pecially if it is one which may mar one's opinion of another.

Safetv Valve.

Dear Editor:

What a distressing world this would be if we could not talk and listen to others. And yet into what trouble we or the other person's tongue may and sometimes does get us.

pecially if it is one which may mar one's opinion of another.

Dear Editor:

Can it be true that certain persons termed crabs were right in their impressions that the college from a standpoint of student activities is in a rut?

The writer has in mind the vaude­
ville show which was presented at the campus on a Saturday evening January 21, 1919. Many shows both good and otherwise have been seen at the "Hill" but the Komical Klonk­

STATE PLANS FOR
MANY FINE PARKS

MANY TRACTS NOW AVAILABLE
FOR PURPOSE.

Park Commission Now Trying to Get
Land on Shore Front.

Within the next few years you will find natural parks in the state which have been bought and developed by the State of Connecticut. Until recently no particular attention was paid to this matter but the legislature this year made certain appropriations for the purpose. The policy of the state is to buy desirable property having value as a scenic point or on which are fall streams, or high lookout places. These hills can be used as locations for observation towers or for fire lookouts in the same way as the college water tower. Many of the parks are near the cities and will be of great value as camping grounds and for picnic and auto parties. Some of the grounds will be equipped for public amusements with ball fields and other facilities for recreation, while other estates will be left in their natural condition.

Following is a directory of the Connecticut tracts on and which are being developed as state property:
Sherwood Island of 30 acres in Westport;
Hurl park of 455 acres in East Hampton;
Mount Tom of 210 acres in Litchfield, Morris and Washington,
A gift of Mrs. A. G. Senff;
Mt. Buhall of 84 acres in Washington;
Selv-Neck of 122 acres in Lyme;
Ivy Stack of one acre in Norfolk;
Ivy Mountain of 50 acres in Goshen;
Mo-hawk, a domain of five acres in Cornwall;
Great Hill of ten acres in Portland, and East Hampton where A. E. Moss has been surveying;
West Peab in Groton and Southbridge with 68 acres;
Mashamouquet Brook in Pomfret with 13 acres, a gift of Miss Sarah Fay;
Sap Tree Run in Pomfret, a gift of Miss Sarah Fay and Mr. J. Bowditch;
Macedonia Brook of 2,000 acres in Kent, a gift of the White Memorial Foundation;
Bolton Notch in Bolton with 40 acres.

The park commission has a bill before the legislature for an appropriation to purchase a tract of shore front for public use also.

MANCHESTER—LOVENSE.

The engagement of Allen W. Manchester, '04, Farm Management Demonstrator in the state, and Miss Martha Lamont, Demonstration Agent in Litchfield County, has been announced.

Prof. T. H. Eaton has been appointed for the next six months to act as an instructor in the extension service. His time will be given chiefly to boys' and girls' club work.

DAY OF PRAYER HELD.
Rev. Winship Speaks from Soldier's Viewpoint on Conditions.

Rev. Harold S. Winship of the Hartford Theological Seminary, and recently discharged from the U. S. Army as sergeant-major of the 303rd Machine Gun Battalion, gave a very interesting talk on the subject of "The World's Citizenship of Today", before the student body in the Hay­ ley Armory, Sunday evening, February 23, a day set apart for universal prayer and thanksgiving.

He showed how the spirit of world citizenship was first caught by our army, while they were in so close a relationship with the men from foreign armies. They felt like brothers, or as one large family, drawn together to fight for a common cause, and it was they, who wanted to promote international relationship, peace, and a league of nations that would form a lasting peace and demand impartial justice to all.

Winship emphasized strongly the fact that what we need today is strong leadership and this should be built up by the men in colleges and universities.

His belief is that the soldier returning from the battle front will be the strongest type of American citizen, one that will stand firm and that will fight against anything which is unlawful or unjust. These men will not fear the results of right, as their training has taught them all this and how to respect proper authority. He used Roosevelt as an ideal, the proper type of American citizen, for he was a Democrat and above all – an American.

Rev. Marshall Dawson also said a few words, showing the effect of the war as shown by the colleges, the call from the Governor to the colleges to help the government at the present time, the necessity of realism, and the problems of leadership.

The meeting, which was in charge of J. S. Miller, closed with a solo by Rev. Miss Sarah Fay; a side-split­ter; and a selection by the college orches­tra in charge of Prof. C. A. Wheeler.

GIRLS COOK FOR FACULTY.

The sophomore cookery class served luncheon to faculty members on Monday, Wednesday, Thursday, and Friday noon. The first luncheon was served February 25. Some of the faculty members came regularly while others attended only once or twice a week. A definite amount was charged each time. The serv­ ing of these luncheons gave the girls good practice in preparing and serv­ing meals.

Miss M. Estella Sprague met all of the college girls in the living room of the Cottage at 4:30 p.m., Tues­ day, February 25. She complimented them on their work of the past semester and gave them advice on the work of this semester.

Miss Esther Sniffen had as week­end guests her mother, Mrs. George Sniffen and sister, Miss Dorothy Sniffen of Bridgeport.

EPIELEPTIC COLONY RENAMED.
Consolidated Last Summer—Increase in Size of Institution.

The well-known name of the Connect­ icut Colony for Epileptics no longer exists except as history. The new official title of "The Colony" is The Mansfield State Training School and Hospital.

This change was brought about last summer when the Lakeville School for the Feeble Minded and the colony were consolidated at Mansfield. At that time many improvements were made, including new buildings. There are now about 500 inmates registered in the books of the insti­ tution.

CADET OFFICERS APPOINTED.

Captain Cranston has made five appointments of officers in the cadet battalion. They are B. H. Wright, ’20, to be Major; N. W. Alexander, ’20, to be Captain of Company A; P. N. Manwaring, ’20, to be Captain of Company B; E. D. Dow, ’21, to be First Lieutenant and Adjutant; and L. L. Crosby, ’19, to be First Lieu­ tenant in Company A. Two more appointments will be made later to complete the staff of cadet officers.

PHI MU DELTA.

The National Convention of the fraternity will be held on the "Hill" starting March 4.

Lieutenant Walter Francis, ’18, has returned from overseas after seeing considerable service in the aero squadron.

Corporal Albert G. Dahinden, ex-'19, visited the "Hill" February 24 and 25. He landed at Hoboken, N. J., after sixteen months' service overseas. Corporal Dahinden was granted at St. Mihlel, which put him in the hospital for a month, and then into a convalescent's camp. He was at Bliss when the armistice was signed and finally succeeded in getting his order to sail February 1. On the 14th of February he arrived in this country. He plans to return to his farm in Seymour, Conn.

MODERN METHODS APPEAR.

One never knows what is going to happen next in Storrs. We often go from the most primitive methods to the most modern. It was only last spring that we noticed one of the faculty families moving by the slow tedious method of the oxen and dumpeart. On February 19, Ben. C. Helmick moved his goods from the Valentine House to the old Whitney House with the tractor from the farm machinery department.

Extension schools will be held at Lebanon on March 18 to 21, and at Ashington on the 25th to 28th of this month.

GROWTH OF COLLEGE CAUSES CHANGE TO BE MADE.

Efficiency of Department Improves

Greatly Under R. I. Longley.

The business office of the College in the Main Building will undergo recon­struction and consolidation.

The plans drawn up provide for the removal of the partition now separat­ ing the two large rooms as well as in the old office, so that the new office will be the old office’s windows are located. Instead of the present arrangement a new lobby will be extended from the present of­ fice door to about the width of the en­ tire office. This will be surrounded by glass and panelling with modern office window arrangement.

A private office will be built at the north end of the room and will be completely closed in from the gen­ eral office. Entries from both of­ fices will be made into the lobby. The present office was partially re­ modelled a few years ago to meet the increased demands made of it. Now the prospects indicate a much greater amount of business which demands these changes to handle it efficiently.

R. I. Longley, Treasurer of the College, has, since his connection with the institution, been very active in bringing about up-to-date methods in handling the college business and funds, and has foreseen the need of such improvements.

FREAK MOVES AT STORRS.

A two-reel comedy, featuring "Fatty" Arbuckle, was shown in Hallow­ ey Armory, Tuesday evening, February 25. When the side-splitting was ended, the audience was asked in several places to give the pic­ ture run through backward, and had the novel experience of seeing the characters walking upside-down, backwards and otherwise reversed in situation.

S. P. Hollister spoke on "Small Fruit Culture" at a union meeting of the leading Massachusetts agricultural organizations held in Horticultu­ ral Hall, Boston, Mass., February 11 to 14.

BUSINESS OFFICE TO BE REBUILT.

H. B. Price has been appointed through the U. S. Bureau of Markets to assist Prof. G. C. Smith with the Market News Service in the state. He will devote half time to this work.

The "thecolins" have lost their basketball star, Miss Griffith, who has left the post office department to accept a position in the State Capitol at Hartford.

THE "CAMPUS" BOX.

The "Campus" now has secured a box in the Main Building for all con­tributions. This will be in the desk in the hallway by the post office boxes.
POULTRY PLANT TO BE CHANGED

DEMONSTRATION PLANT TO BE ADDED.

Birds of all Breeds to be Kept.—To Prove Utility in Show Birds. Possible.

The experimental poultry plant located west of the Botanical Garden on the north Eustonville Road is to be moved into new quarters between the Poultry Building and the Sheep Barn before June first. The new buildings to be occupied by the experimental birds consist of a large laying house and several colony houses. These buildings which are between the competition plant and the road combine the two sections of the poultry department in such a way that the management will be made more efficient.

An instruction and demonstration plant is to be added by the department with the idea of demonstrating the latest methods of breeding, incubation and the handling of commercial flocks to classes and the public. It is planned to keep birds of the most important breeds that conform to the standard requirements as show birds in small flocks and to develop them along egg producing lines. It is maintained by some poultrymen that utility in show birds is impossible but Professor Kirkpatrick is confident that a combination of these two qualities is both possible and practical.

PEACH CROP PROMISING.

The College peach orchard shows a good indication of a large crop for this season, unless a period of severe weather comes before spring. The buds have been somewhat injured now, but not badly.

Miss Gertrude Traurig of the Women's College, New London, and the Misses Rose Ward and Ray Marsters of the high school, were week-end guests of Miss Rose Schoolnick.

ATHLETIC ASSOCIATION.

(Continued from page 1.)

Boston University, Bowdoin, Brown, College of the city of New York, Colby, Columbia, Fowsham, Hamilton, Massachusetts Institute of Technology, Pratt Institute, Rensselaer, Rutgers, St. John's, Trinity, Tufts, Union, University of Vermont, Wesleyan, Williams, Rhode Island State, St. Lawrence, University of Rochester, Albany's Teachers' College, Middlebury, Norwich, Connecticut Agricultural College and Clarkson.

Another meeting of the association will be held in Springfield, March 32, for the purpose of drafting a constitution and by-laws. The College will be represented at this meeting and in all probability will become a member of the Association.

CAPTAIN GRISWOLD RETURNS.

Wounded and Shell Shocked While Serving With the 102nd.

Captain Alfred Griswold arrived in Camp Merrill, New Jersey, on February 4. He served with the 102nd overseas and led an attack in Steenbeek. It was in this campaign he refused to retreat; was captured and escaped twice; stayed in a shell hole for one day and finally got back to the American lines wounded and shell shocked. He was pronounced by army doctors as unfit for further active service at the age of 26.

Captain Griswold will remain at Camp Merrill for a short time before he returns to his home in New Britain.

COLLEGE SHAKESPEAREAN CLUB.

The pen of White Leghorns owned by S. G. McLean, '03, are making an excellent record in the Eighth Egg Laying Contest.

B. B. Morgan, ex-'13, has been working on the farm owned by his mother until recently, when it was sold. Everett Mitchell, '13, has rented part of the farm land.

H. B. Hatfield, '10, is now director of the department of Mechanics Arts in Howard University, Washington, D. C. He was graduated from Washington University in 1916 with the B. S. degree and received his M. E. in 1917.

Kurt von Schenk, '09, is working for a Ph.D. at Cornell, majoring in Agricultural Economics. After receiving his A. B. at Harvard, he was appointed instructor in modern languages at the Cascadilla School, Ithaca, N. Y., which position he still holds while studying at Cornell.

M. C. Hull, '10, has been granted a leave of absence from the Bankers Trust Company, New York, in order to continue a research connected with international banking in the Graduate School of Commerce and Finance at New York University. Hull has received the degrees of A. B. and L.L.B. since leaving Storrs, and is now a candidate for the degree of Master of Business Administration.

H. P. Averill, ex-'20, and C. Hallock, '07, of Washington Depot, were back on the "HILL" for the Junior Informal. He has taken a position as an advanced registry tester for the dairy department.

A. B. Watson, '16, is now teaching general science and biology in the Middletown High School.

STUDENT COUNCIL ELECTIONS.

The Student Council held a meeting February 25 at which the following elections took place: president, George Durham, '19; secretary, Robert Belden, '20.

SOLDIER LETTERS

My dear Professor Wheeler,

Well, you see from my address where I landed. We left our regimental headquarters November 29 for the States and we went to St. Wagoire, then up to Nantes to prepare for sailing, and here I landed. Fourteen others of us landed and now there are six of us here in France as casuals and hoping to get strong enough to sail for the States.

When I get back I hope to take a run up to Storrs and look at the old place over once more. Don't expect to hit the United States before two more long months are past, but then B. H. isn't so bad and I feel sort of at home. Well, we had some great experiences over here like as it and I guess they are not at an end. Let them come, we can stand it, but later tell you about it all when I get back to St. Wagoire, Where I will locate or do when I get back is still a question. We that made the 3,000-mile trip across the pond the other day, believe I wouldn't take anything for it and it's experiences.

France. We have seen quite a little of it but are not at liberty to see what we would like to. One thing I do know is it does a lot of raining. Since December 10 to date there has been about two days it hasn't rained. No snow here where we are.

Well, I have no more news. Would be glad to hear from you or any at C. A. C. Remember me to all, and wish you all the best of health I remain,

Sincerely,

CLAIR W. PFENNING, 1st Cl. Pvt.,
Base Hospital 216,
A. P. O. 787, France, A. E. F.

Dear President Beach:

I am writing you a few lines to let you know I am still alive and in good health after passing through the ordeal of this war. I consider myself pretty lucky and thank God I am still alive and will be able to see you once again. No doubt you have heard a great deal about our division, the 26th, or Yankee Division—as the Boston papers are full of what we have gone through. We are now in a rest area and expect to move towards the coast sometime this week. I hope we will be able to get back by March 1. From all accounts it looks as if the division was going to get a great welcome when we do return. Things are pretty dull where we are now, as it is such a small town. Once in a great while we have movies, and our company get up a fine minstrel show. The weather is very disagreeable, as it rains or snows nearly every day. However, it is not very cold and the ground is not even frozen. It is not as bad as last year. I hope you are having some nice weather in the States. Christmas Day our Battalion acted as honor guard to President Wilson at Chaumont. Some honor—don't you think? What prompted me to write this letter more than once is the fact that I received a "Connecticut Campus" last night and it brought my thoughts back to my Alma Mater. Things have changed a great deal, especially among the faculty, there being so many new professors. I read with much interest the account telling about the system of feeding at the dining hall. Storrs must have been pretty lively when all of St. A. T. C. boys were there. I presume by now you have your regular agricultural work. Another interesting article, especially interesting to me was the changes at Whitney Hall; as you remember how I used to work down there. I always like to receive news from Storrs and read the "OSTACUS" with much interest and they will continue to send it to me. I congratulate the girls on the good work they are doing with the semester; and wish them the best of success. I expect to visit college just as soon as I return home; and I will tell you a few of my experiences. Just at present I am very busy with my records, but am doing my best to keep up my records.

A company clerk is pretty busy these days. It is a paper war now. I have just returned from supper which consisted of minced Hamburg steak, mashed potatoes, gravy, and coffee. Nothing like a feed at Storrs, but then I am in the army now. We have to take what we can get, and it is getting good feeds considering where we are. Our division did not go in the Army of occupation, because we had been in the lines so long. I have not been on a furlough yet, but would just as soon wait until I get back home. I expect to continue in the Army, but I have not seen much of the high schools. I hope to take a course in Dairy Work, but do not know the terms of the Smith-Hughes Bill. W. C. Kennedy, formerly county agent in Windham county, will be the instructor in the department.

Marieette 12879, the two-year-old Percheron colt, daughter of Susie 40478, has been sold to C. B. Pomroy of Willimantic.

Two bulletins on "A Course in Dairy Husbandry" and "A Course in Poultry Husbandry," have been published by the State Board of Education. These are edited by Prof. T. H. Eaton and designed for use in high schools.

Prof. T. H. Eaton represented the State Board of Education at the meeting of the National Society for Vocational Education held recently in St. Louis, Mo.

Sooner or Later
You will Buy a
DeLaval Cream Separator

If you have any use for a cream separator, it's only a question of time before you buy a De Laval.

Many buy a De Laval to start with and so avoid a lot of "separator grief."

Others buy one, two or three different machines before they finally learn by experience that "the best is the cheapest" and get a De Laval.

That's why, in the older dairy sections where separators have been in general use for many years, you'll find most of the machines are De Laval.

"Claims" don't mean much to such farmers. They've had lots of separator experience. "Performance" means a thousand times more to them than claims.

They've watched the De Laval "perform" for several decades. They know that it is reliable and they stick to it, just as does the creameryman who is also "separator wise."

Why not be guided by the experience of these men and buy your De Laval "Sooner" instead of "Later?"

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash on one or more liberal terms as to save its own cost. See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office, as below.

The De Laval Separator Company
165 Broadway, New York
29 East Madison Street, Chicago
CLASS COMPETITION WELL UNDER WAY

BASKETBALL MEN'S SPORT—CO-EDS STAR AT BOWLING

Combined School Team Leads in Basketball Race.

The different men's classes have formed a competitive basketball organization. In this way the champions of the college will be determined. The only combination of classes in the league is that of the two in the school of agriculture, who are limited in material. The upper classmen are at a disadvantage also because of the few men in their roll, but the games already played showed close rivalry.

The juniors have lost to the freshmen by a score of 15 to 7; and to the School by 16 to 14. The sophomores are the easiest losers so far having won no games and lost three. The freshmen have broken nearly even, where the school team is running well for the championships.

The standing is as follows:

<table>
<thead>
<tr>
<th>Class</th>
<th>Won</th>
<th>Lost</th>
</tr>
</thead>
<tbody>
<tr>
<td>1922</td>
<td>4</td>
<td>0</td>
</tr>
<tr>
<td>1921</td>
<td>2</td>
<td>1</td>
</tr>
<tr>
<td>1920</td>
<td>2</td>
<td>0</td>
</tr>
<tr>
<td>1919</td>
<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>

The co-eds, not to be outdone by the men, have formed several bowling teams and are now playing a tournament. Since most of the freshmen girls are living in the Valentine House and most of the sophomores live at the Cottage, there has been more or less rivalry between the two houses most of the year. The tournament has a third factor, however, the day students, who proved to be the better bowlers in the first match was played last February 23. So the race is on to see who comes out ahead. Although the girls had comparatively low scores at this first match they are practicing and will show improvement in future games.

S. A. T. C. OFFICERS TO LEAVE.

Colonel W. F. Flynn and Lieutenant H. R. Brown were the guests of the Faculty Club in their club room on Wednesday evening, February 26. Colonel Flynn was in charge of the S. A. T. C. here at the college, but has about completed his work here and expects to return to his home in Massachusetts in the near future. Lieutenant Brown, who was quartermaster during the S. A. T. C., will resume his studies at Syracuse.

TESTING MENDEL’S LAW

Students Hatch Chicks for Use in Experiments

Eleven men taking the Poultry course have hatched out chicks and are now brooding them in the new brooder coop. The eggs that were bought from outside farms did not hatch very well, but D. E. Warner’s hybrids gave a good percentage of husky chicks. Mr. Warner and Dr. E. W. Simott are testing the working of Mendel’s laws with chickens and have all of the hybrid chicks pedigreed and marked.

COLLEGE COW MAKES RECORD.

Mauchlin Snowdrop 2nd, the record cow of the College Ayrshire Herd, finished her fifth yearly record of 14,380 pounds of milk and 267.39 pounds of fat, on January 27. This performance exceeds the one she made last year by 315 pounds of milk and 30.76 pounds of fat, which was a state record for Ayrshires.

NEW HEAD FOR JERSEY HERD.

The dairy department recently purchased a young Jersey bull, Jolly Oxford of Hillcrest, from C. H. Savage of Storrs. He will head the College Jersey Herd. His dam is a record cow, and his sire is Jolly Oxford Lad, who headed the Jersey herd until this past summer when he was killed.

Contrary to expectations of a few weeks ago, the farm department has succeeded in filling the icehouse about half full of good ice.

The bull calf out of Mauchlin Snowdrop 2nd, which was sold recently in Porto Rico, was shipped from New York by boat on February 23.

NEW R. O. T. C. OFFICER.

According to the transfer order appearing in the "New York Times" last Sunday, the College is to have a new R. O. T. C. officer in the person of First Lieutenant W. E. Briggs, Infantry.

MILITARY WORK PROGRESSES.

Competitions and Target Practice to Start While Equipment Arrives.

The work of the military department is progressing as smoothly as though there had never been any change in military policy. The companies are drilling regularly, and as soon as full equipment arrives, competition drills will be held between the companies.

The equipment issued will include the latest model rifle, 34,000 rounds of ammunition have been requisitioned which will allow 300 rounds for indoor practice and a like amount for outdoor range work for each man.
