MANSFIELD FAIR DRAWS ITS BIGGEST CROWDS
KIDS AND COWS VIE FOR PUBLIC INTEREST
Displays More Numerous Than Ever and of Better Quality. College Faculty Helps

Increased interest and enthusiasm accounts for the splendid showing presented in all departments at the Mansfield Fair. Junior display and canned goods exhibits showed a marked improvement over previous years. The weighing of school children was a new feature. Many proud little totes were conspicuous about the grounds displaying a bright gold star indicating that they were up to standard in weight.

About one hundred complimentary tickets were given to the children of Mansfield. There were no more eager workers or patrons of the affair than these youngsters. They naturally feel that it is their Fair because it is out of the boys and girls club exhibits that the present Mansfield Fair developed.

C. H. Savage, president of the association, is largely responsible for staging the fair. Mr. and Mrs. A. J. Brundage looked out for the secretarial work.

The main aim for which the leaders of the Fair are working is three-fold: to bring the town and college into closer relationship, to act as an incentive to the community, and to provide for a social meeting place. Many people were seen grouped here and there on the grounds meeting for the first time in a year. Mr. Savage wants the Mansfield Fair to develop into an exclusively agricultural exhibits of the highest type.

Judges for the various departments were: A. T. Stevens for vegetables; S. P. Hollister, fruit; W. L. Slate, field crops; W. H. Card and W. F. Kirkpatrick, poultry; G. C. White, dairy cattle; A. G. Skinner, horses, sheep and swine; C. E. Tucker, junior exhibits; Charlotte Embleton and Margaret L. Robinson, women's exhibits and L. B. Crandall, bee exhibits.

Several communities have already made definite plans for holding extension schools next winter. The number of schools to be held is limited as the season is short. Hence the necessity of planning and applying early.

An early beginning means a well thought out plan and one that fits the community needs. Here is a good topic for early consideration by executive committees and local committees.

ENROLLMENT TO DATE
260 MEN; 55 WOMEN
FIFTY PERCENT OVER LAST YEAR'S FIGURES

Several States and Most Towns of Connecticut Represented in the List

Present enrollment is far and away the largest in the history of the college. The registration figures are constantly changing, due to new students entering late and to others dropping out, but the latest list from the office gives the following numbers: Men, college course 203; Men, school course 47; Women, college course 51; Women, special courses 9; Total men enrolled 260; Total women enrolled 55; Total enrollment 315; Dropped out 3.

Present enrollment 312

GARDNER DOW LOSES LIFE IN NEW HAMPSHIRE GAME
FLYING TACKLE FATAL TO NEW HAVEN YOUTH
ENTIRELY ACCIDENTAL SAY THE ONLOOKERS
Funeral at New Haven Tuesday, Conducted by the Masonic Order

A sad accident occurred on the New Haven football team. Gardner Dow, Freshman in his second year, died during the game, when Gardner Dow, '21, received a blow which resulted in his death.

It was during the last quarter that the tragedy occurred. Hopwood punt-ed to Farmer, New Hampshire's Right Half-back, who started down the field and was tackled by Voorhes, who caught him by one ankle and tripped him, but he regained his feet and plunged forward, coming in contact with Dow who had rushed in to tackle him. Dow was knocked unconscious and, after vainly trying to bring him to, for a few minutes, a doctor was called. The doctor moved from the field into the office of the Athletic Director, where he worked over him until the close of the game, when he was removed to the A. T. O. fraternity house.

It was thought at first that he had received a solar plexus blow, as the doctor was unable to find any injury on his body. Later, however, the doctor found a bump on his head and the patient seemed in a deeper stupor than he had been at first, so an ambulance was called for his removal to the Dover Hospital. He passed away before the ambulance arrived in spite of all that could be done to revive him.

The body was removed at once to an undertakers establishment in Dover where it was prepared for subsequent removal to Dow's home in New Haven.

There was to have been a Freshman Reception in the Gymnasium at New Hampshire College that evening, but when the news of Dow's death spread around the campus, the dance was called off and a collection was taken for flowers. $56.18 was collected and turned over to Mr. Manwaring, the Football Manager, to use for flowers and undertaking expenses. The body was removed to New Haven in charge of Coach Guyer on Sunday afternoon.

The funeral was held at the undertaking establishment of Beecher and Bennett on Broadway. It was a Masonic funeral, as Dow was a third degree Mason.
Two "Labs" from One by Carpenter's Tools

Vacant Space Saved by Building Floor

Main Building Undergoes Major Operation by Chief Surgeon

Blake and Staff

Among numerous changes that are taking place about our campus is the remodeling of the interior of the Main Building. The older members will remember the present chemical laboratory when it was used as a chapel. The burning of our previous chemical laboratory made it necessary to use the old chapel for that purpose. Although the chapel room is somewhat larger and better equipped our increasing enrollment has made it imperative that the chemical department be expanded.

The officials of the college have considered several different methods by which this addition might be made possible. It is probable that the 40th year of the college will be finally followed out is that of converting the garret over the present "Chem Lab" into an additional laboratory. This room was lighted by skylights. It is the more satisfactory, in that it has accommodations for a large number of students. The room is equipped with a modern device for carrying off the collection of gases which would otherwise endanger the health and comfort of the students.

Dr. H. D. Newton will hold his laboratory classes on the upper floor, enabling Prof. J. L. Hughes to have all the collection of gases which would otherwise endanger the health and comfort of the students.

Dr. H. D. Newton will hold his laboratory classes on the upper floor, enabling Prof. J. L. Hughes to have all the collection of gases which would otherwise endanger the health and comfort of the students.

Manwarin.

For. 21, 11,

J. L. Hughes to have all of the larger classes to meet in the larger and better equipped room which has been made. It is probable that Prof. L. H. Manwarin will have an office in a portion of the museum. Alterations are also taking place on the west. There is the possibility that the partition between the Zoology Laboratory and Room 4 has been changed to folding doors, which makes it possible to use this room as one large laboratory or two separate classrooms, as desired.

Mr. G. A. Blake, Superintendent of Buildings, says: "As to future alterations on the Main Building, it is impossible to say what our increasing needs may all.

Dramatic Club Meets

At a meeting of the Dramatic Club last Wednesday evening, the following officers were elected: President, Paul Manwarin; Vice-President, Miss Lo Retta Guilfoile; Secretary and Treasurer, William Maloney; Manager, Hezekiah Snow; Assistant Manager, Philip Dean. The treasurer's report for 1918-1919 was read and accepted. Frederic Maier and Dwight Scott were elected as members of the club. The club decided to present a play around the Football Hop theme.

RESIGNS A CAPTAINY TO RUN A GROCERY STORE

OtheR SIDE OF H. C. L.

appeals to Cranston

Commandant Leaves for Minneapolis, Minn., To Re-enter Former Business

Captain Claude E. Cranston, who has been the Commandant of the Connecticut Agricultural College, R. C. C. unit since last January, received orders from the War Department last Friday to proceed to the Northeastern headquarters in Boston immediately for discharge. Capt. Cranston enlisted as a private in the regulars in 1910, but left the service at the completion of his term and entered the grocery business in Minneapolis. When the United States declared war on Germany, he entered the first officers' training camp at Fort Snelling, Minn., and received a commission as Second Lieutenant, being assigned to the 10th Infantry. After the war was advanced to a First Lieutenant and sent to Fort Sheridan as a mess officer. While there he received his Captaincy, and was ordered to the University of Alabama to command the S. A. T. C. there. After the armistice was signed and the S. A. T. C. disbanded, the War Department ordered him to Connecticut. Captain Cranston expects to go back to Minneapolis, Minn., and re-enter the grocery business. His wife and children are remaining in Storrs until he receives his discharge. Before leaving, Capt. Cranston made the following appointments in the battalion:

Major Newton W. Alexander, '21; Captain Davis, '21; First Lieutenants W. R. C. Brannock, '21; Frederic C. Maier, '21; and Maurice Lockwood, '21.

So Near and Yet So Far from Work

Miss Mason to Make a Change.

Walks Seven Miles in Winter.

Miss C. Mason, of the bacteriological department, will leave her old home near Mason's Mills this fall and will take up her residence in the apartment of the old Whitney house which was formerly occupied by Mr. B. C. Helman. For many years Miss Mason has been attending to her duties at the bacteriological laboratory under difficulties. Her home was three or four miles from the laboratory and during the winter she was very often compelled to travel; but this difficulty will be overcome this winter since the apartment will probably be ready for occupation before cold weather.

Miss Mason to Make a Change.

Walks Seven Miles in Winter.
MARKETING SPECIALIST TO PENNSYLVANIA JOB

WORK IN CONNECTICUT BROUGHT RECOGNITION

Guy C. Smith Takes Charge of New Bureau in the Keystone State.

To state that a tried and appreciated leader in his field has resigned to accept a position elsewhere may be news or it may be more than news. It may have a significance far greater than can be readily implied in a news story. When a great Commonwealth like Pennsylvania establishes a Bureau of Markets, it indicates that marketing as a special field has come into its own, and that the far seeing leaders in that state, recognizing the vital part that marketing plays in all agricultural and economical advancement, have taken a great step forward in a way that necessitates sound development in a field in which few enduring precedents have been established.

When the state authorities of Pennsylvania invited Professor Guy C. Smith, Market specialist of the Extension Service of the Connecticut Agricultural College, to become Director of the new bureau, they not only paid a deserved compliment to Professor Smith, but they equally paid a compliment to Connecticut, in that they recognized its leadership in better marketing, for which Professor Smith has been so largely responsible.

Everyone who has followed the recent progress in agriculture in our state knows of the many cooperative buying and selling associations that have been formed in the last two years and which work; of the several farm loan associations that have brought better financial conditions to many localities; and of the market news service inaugurated last year in our larger cities. This service, valuable alike to the producer and consumer has proved itself and is justly praised, even by those who would seemingly find the least help from it.

These movements and many others are largely due to the ever ready initiative and help of Professor Smith. It has been his fortune in his work in this state to see theories become facts; elusive plans become proved policies. It is our fortune that Professor Smith has been with us just at the time when conditions made possible a rapid development of a hitherto neglected field of effort.

Pennsylvania is to be congratulated in securing the services of Professor Smith in establishing its new bureau. He is not only endowed with all the essential qualifications for such a task but he has proved with us that better marketing conditions can be brought about through the leadership of a man with insight and vision and with those personal qualities that mark the leader of men.

Better marketing conditions in Pennsylvania are assured under such leadership. They are equally assured in Connecticut because the foundation has been laid with such strength that the superstructure must be built accordingly.

WHAT man doesn't like his pipe? There's nothing whets your smoke desires like seeing a good pipe lying around. Because you know that in it is the only real smoke satisfaction. Your appetite will be doubly whetted if it is a W D C, because in W D C Pipes all the sweetness and mellowness of the genuine French briar is brought out by our own special seasoning process. Then, too, W D C Pipes are good to look at. The designs are pleasing and workmanship perfect. You'll agree with us that our craftsmen are accomplishing their purpose—to make pipes that are without peers in all the world. Ask any good dealer. Be sure and look for the Triangle trademark. It's a guarantee against cracking or burning through.

TETE-A-TETES

One question uppermost in the minds of the students this year is closely
allied with the loss of Grove College. Where, when and how shall we
be entertained this year by the girls? This is certainly a problem in which
there is no very satisfactory solution offered at present. In the meantime
social intercourse will go on as best it may. For various reasons, except
the day evening “At Homes” are impossible this year. Consequently
the girls may not entertain men on that night. This Saturday afternoon and
and Sunday afternoons are still open as before. Each house has a
limited space where a small party can be given successfully. So
though the men may not be entertained
as often or in as large numbers at one time as before, it is the inten-
tion and desire of the girls to make up for any such deficiencies by their
hospitality when they do entertain.

SAFETY VALVE

SUNDAY

This is the one day of the week which presents a problem of entertain-
ment for some always and for all sometimes. How have we begun
spending it?

Sunday, September 28, made a com-
mandable introduction to this college
day. Mass in the morning and
and morning worship at the Church
showed gatherings of gratifying size.
Dean Davenport, of Illinois, lays
mood much stress on the relation between
the church and college. A leader with
Dean Davenport’s experience and re-
own, must be nearly correct in such
opinions.

But attending services need occupy
but a small portion of the day in dis-
jisting. How many of our bodies are
all of our campus and its surrounding
 territory? I dare say, not one. What
is more pleasant and restful, at least
to the coeducation, than a Sunday
Try it. When you run out of
new places to go, on such walks, you will
have been here some time. There is
still open for any such deficiencies by their
hospitality when they do entertain. A

GET OR GIVE?

It should be generally understood
that the Mansfield Fair is not a money
making proposition. It should
be heartily supported by all so as to clear
all of our Alma Mater and, so we shall be pleased to receive your subscription as soon as
possible that you may not miss any
numbers. Your support is heartily
appreciated. We thank you.

EBONY CLUB

Old students returning to the Con-
necticut Agricultural College this fall were
more very much pleased with the way
in which the old college activities are
being revived and imbued with good
healthy Connecticut spirit of the 1920

model. Everybody realizes that now
is the time to get going and show the
country that we are still alive and
our abilities to the best advan-
tage. We have been overshadowed by
the cloud long enough so that when
it is time for us to get out in the
sunshine again and show off the stunts
that we have been obliged to keep to
ourselves for a few years.

The Ebony Club is one of those
activities, in the participation of which,
a man gets the most enjoyment, sat-
sfaction, and experience. A member
of the old glee club said after the
meeting last week that he thought
they would make a number of trips
before the year is over. “But,” he
said, “I do not believe we want to get
anybody from the outside to lead our
singing.”

His idea was that it would not be
necessary to procure an expensive
song director to get the thrills of our
songsters into shape to produce first-
class music. There are fellows among
us who have plenty of ability to sing
and to put the pep into the songs of
the club. There are several who
have been singing regularly in public
and others who were on high school
glee clubs, and these men among the
beginners will have a marked influence
in directing the products of the vocal
vocals into the right channels. The
important thing is to pick out a lot
of the old songs that everyone has
an audience most, and to learn and
memorize words, music, and expres-
sion, so that when they are rendered,
the audience will be the biggest.

Surely a little practice and good
student leadership could produce for
us a first-class singing body to show
the world what we have at the New
England Agricultural College. We
can do the good old Connecticut
Agricultural College.

SECRETARY SAYS NOW
REMOVED YOUR CONDITION

FISHER GIVES TALK ON
AMERICAN LEGION

College Orchestra Appears For
First Time This Year
Has New Members

The purpose and aims of the
American Legion were outlined at Presi-
dent’s Hour, October 1st, 1919, by Pro-
fessor R. C. Fisher. A movement
has been started at Storrs to establish a
post of this organization. Professor
Fisher read parts of the Legion’s con-
stitution and emphasized the fact that
the organization is not to be used in politics.
Ex-service men are urged to present at a meeting to be held in
the near future for organizing the post.

The registrar made the following announcements with respect to condi-
tions in any subject will have an
opportunity to take special examina-
tions on October 11th. Marks of “incom-
plete” should be made up before
October 15th.

Mr. Torrey invited all students who
are going to join any of the choirs to appear at a tryout of voices
to be held in the afternoon. He also
announced that college vesper services
would be held in the church at 4:45
every Sunday afternoon.

The college orchestra made its first
appearance at President’s Hour this
year. The members are F. A. Hem-
eler, ’22, piano; W. I. Graf, ’22,
drum; R. E. Johnson, ’22, cornet;
G. Byle, ’23, clarinet; F. Paschalinsky,
’23, violin; and C. A. Brandt, ’21,
School, banjo.

COMMUNITY LIFE

Two gatherings of men representing
the village people, faculty and stu-
dents this year have been under the
manship of R. C. Fisher. The pur-
pose of these meetings has been to
form a community forum club. The
organization of the new body is not
completed, but it is planned to have the
body act in the form of a common-
wealth club putting through improve-
ments of any kind for the good of the
community at large. Their first
endeavor is to have a non-sectarian ves-
per service, in which the entire com-
munity is invited to participate.

The first vesper service will be held
Sunday, October 5, at 4:45 in the evening.
This service will be devoted largely to music by the organ
choir and congregation with a short
introduction, this week by R. E. Dodge.

EXCHANGE

The trustees of Middlebury College
have arranged a series of seven lec-
tures and four concerts for its stu-
dents, and the same is to be done
here, the result of an inter-fraternity
contract in scholarship, the latest awards show
an increase in the highest and aver-
ages. The present average is
28.38, and for women at
82.84.
THE CONNECTICUT CAMPUS

NEW HAMPSHIRE WINS
FIRST GAME OF SEASON

BOTH LINES STRONG
AND GAME IS CLOSE

Mitchell and Gleason Show Up
Well for Connecticut in
Opening Game

The first game on the football schedule
was played against New Hampshire
State at Durham on Saturday,
September 27. Connecticut was
unable to score against New Hampshire
team and failed to score
a single point. In the end they white
washed us 13 to 0. The following is
an account of the game.

Sickler kicked off to Farmer who raced through the entire Aggie team and
was not tackled until after the
our 45 yard line, when Prescott made
a spectacular dive and brought him
down. On the next play New Hamp­
shire enabled and Prentice dropped
on the ball. Connecticut was off side
and we were penalized five yards.
Sickler made a rather poor punt which
struck the ground and bounded unau­
tically. A New Hampshire man
reached the ball but it got away from
him and Hopwood recovered the ball.
Sickler punted the ball to New Hamp­
sire's 25 yard line and Alexander
downed the man in his tracks. The
Aggie line held in wonderful style and
we were continually breaking through
vigorously. On the next play they
scored. They failed to kick the goal.
The game ended shortly afterwards.
Mitchell and Gleason played a wonderful game for Connecticut
while Farmer's spectacular
wide open field running was the feat­
ure for New Hampshire.

Summary:

New Hampshire: Leavitt, l. e.;
Jabbois, r.e.; Farme­
ner, r.g.; Gra­f, c.;
Belle and Rowe, l.g.;
Harcell, l.t.; Dehne, r.t.;
Belanger and Bristol, r.g.;
Belanger recovered the ball for New
Hampshire and they scored on three
plays. Sickler kicked off and Farmer
tore off another wonderful run, carry­
ing the ball to our 35 yard line be­
fore he was stopped. The half ended
with the ball in the middle of the field.
Second half—Anderson kicked off
to Maier who was downed after the
ball back five yards. Hopwood
tried a couple of forward passes but
they failed to work and Connecticut
made two first downs on straight foot­
ball. Hopwood tried another forward
and New Hampshire intercepted it.
They were unable to gain so the ball
was kicked to the Aggie on downs. Hop­
wood punted to Farmer. Verhees tackled
him but he squirmed loose. Then the
same accident occurred. Doh made a
brilliant tackle and both players went
down with a crash. Dow was uncon­
sious and the doctor was unable to
bring him to so he was removed to
the A. T. O. fraternity house. The
accident was not considered serious
and the game was continued. Mitchell

THE TENNIS ASSOCIATION

Organized Here

All Students Eligible to Member­ship. Officers Elected

A new organization to be known as the Tennis Association of the Con­
necticut Agricultural College has been
formed by students here. The object of
the association is to promote in­
terest in the sport as a game and
help make Connecticut known as a
home for all athletics. A number of
the faculty are taking interest in the club.
Judged by the attendance at the
opening meeting the organization
seems bound to prosper. Membership
is open to all students. A tourna­
ment will be held October 4, according
to manager Bridges.

The officers of the association are
as follows: President, F. Bauer, '20;
vice-president, C. Griswold; Secretary,
V. Rome, '22; Treasurer, D. J. Scott,
'20; Manager, H. B. Bridges, '20;
Assistant Manager, R. J. Pullen.

(Continued from Page 1)

MEMORIAL EXERCISES

All who attended said that never before was an exercise held at this
institution which surpassed this one.

It was short, it was plain, but it was
impressive. Just as Gardner Dow's
memory will always be with us, so
will the remembrance of the College
Exercises in his honor be an everlast­
ing jewel to us.

Miss Anna M. Wallace, instructor
in English and public speaking, has
returned to her duties here after a leave
of absence of many months spent in
the service at a base hospital in San
Antonio, Texas.

The children of the fourth, fifth
and sixth grades in this section are
being transported to Mansfield Cen­
ter School to relieve the congestion
here.

BOTANICAL DEPARTMENT

George Durham, '19, has accepted a position in the Botany Department as an assistant. His time will be divided between laboratory work, instruction, and plant variation work.

Dr. F. E. Jones of New Haven Experiment Station visited the department on September 29, to look over the work done here on breeding squashes.

During the summer the investigation of the variation in bean seedlings was carried on in cooperation with the Carnegie Institute of Experiment Evolution. This work was begun last spring and a bulletin is soon to be published on the results obtained in tri-cotyledonous seedlings. Dr. H. E. Remington and Dr. Harris of Cold Spring Harbor have charge of the investigations.

Flora M. Miller, '20, has been helping with some of the work. Further investigation is to be made on the beans and the results published later.

On September 20, Dr. E. O. White of the Brooklyn Botanical Gardens visited Storrs to study the work here on inheritance and variation in plants.

An agent of the United States Department of Agriculture, has recently to plant several plots of wheat to determine results on wheat rust.

SHAKESPEAREAN CLUB

Rowland L. Birdsall, '10, manager of the Holstein herd of Gardner Hall, Jr., & Co., of South Willington, Conn., is in the midst of a most successful fair report, winning many prizes on the herd.

J. H. Pierpont, '08, and C. L. Pierpont, '10, have gone into the farming business as partners, near Ware, Mass.

Friends of Grove W. Deming, '10, will be interested to know that he is back again at Mount Hermon. He has been in the Boston Hospital since early spring, and had his leg amputated.

Mr. A. E. Moss, '05, Professor of Forestry at Connecticut Agricultural College, has been attending to his duties all summer as assistant state forester in the campaign against the White Pine Blister Rust. At present he is doing surveying and mapping at Kent, Conn.

Henry H. Hollister, '02, Superintendent of Keeney Park in Hartford, was on the Hill over Sunday.

Prof. H. L. Garrigus, '06, attended the Rockingham Berkshire Club meeting at Hampton Falls, New Hampshire. He gave a demonstration on culling and judging.

H. G. Hallock, '07, Manager of the Washington Fruit Growers Association, is busy handling a large crop of apples.

Professor S. P. Hollister, as Chairman of the Pomological Society, judged pomological exhibits at Berlin, Ct.

ALUMNI NOTES

Word has been received here of the death of Beauxain, '07, from influenza on March 1, 1919. He contracted the disease on his way to Dyersburg, Tennessee, where he was going to manage a two-hundred-acre truck farm. His death occurred in the Dyersburg hospital. For five years Mr. Beauxain had been superintendent of a private estate in Millbrook, N. Y. Previous to that time he was pomologist at the Boys' Industrial School at Lancaster, Ohio, for a year and had worked several seasons on truck gardens. He is survived by his wife, a four-year-old daughter and a small son, born five days after his death.

Hazel Lucelia Rapson of South Meriden, and Mark Bishop, '05, of Cheshire, were married September 5 at the bride's home in the presence of about one-hundred guests. The couple left that evening for a wedding trip through the White Mountains. They will reside in Cheshire and will be at home after October 1.

H. E. Remington & Co.

Clothiers and Outfitters

WILLIMANTIC, CONN.

1920 ELECTS OFFICERS

Election of officers of the senior class took place on Wednesday evening with the following results: President, Douglas A. Evans; vice-president, Douglas A. Evans; vice-president, M. Lowry Osborn; treasurer, Frederic Bauer; student council member, Francis J. Mahoney.

At the same meeting the date of the freshman-sophomore rope pull was set, and a committee appointed to draw up the rules governing the event.

"AG" CLUB MEETS

Friday night, October 2nd, at 7:30, the "AG" Club will hold its first meeting of the year in the Armory Lecture Room. At this meeting three phases of Agricultural Fair Organization will be discussed by E. H. Savage, A. J. Brundage and Prof. R. E. Dodge.

A program of illustrated lectures and a winter fair are outlined in the Club's activities for this college year.

HOMECOMICS

On Friday, September 26, the Practice House Group had as their dinner guests, Robert Belden, Maurice Lockwood, Stanley Dodge, Donald Gates and Evrington A. Osborn. Miss Dorothy N. Moss acted as hostess.

Emma Reed, '23, from Salisbury, Conn., gave Garden Demonstrations at the Eastern States Exposition held recently at Springfield, Mass. Miss Reed won the state championship giving Garden Demonstrations at the State Fair last year and second prize at the Eastern States Exposition this year. Miss Reed also won first prize in judging.

Marrian Toolle, '23, from Branford was one of a team of three who gave Cooking Demonstrations at the Eastern States Exposition. The Branford team won first prize for the best cooking demonstration at the State Fair last year and won second prize at the Eastern States Exposition this year.

Stella Cylikowski, '21, who was employed at the dining hall during the summer, was forced to leave because of illness. She returns to college very much improved in health.

FARM DEPARTMENT

The College Berkshire boar, Successors Premier, was sold to Rockingham Berkshire Club of Hampton, N. H. The ram, bred by the college and sold at Springfield, brought an average of eighty-two dollars and fifty cents apiece.

A famous Shropshire ram, "Senator Bibby," was bought by the college at the McKenon auction at Pewaukee, Wisconsin. Professor F. Kleimeinehs of the University of Wisconsin selected the ram for the college.

The work of draining the old Storrs meadow, although seriously handicapped by the rainy weather, is progressing satisfactorily. The tile which were laid forty years ago are being dug up, cleaned and relaid. A few lines of new tile are also being laid.

A United States Department of Agriculture Southdown ram was secured this year at the distribution flock of grade Merinos, bought at Springfield.

Three Shropshire wethers are being fitted at the beef barn for sale purposes. One or two may go as far as the International at Chicago.

For the past week the Farm Department has been busy filling the new twin silos of the Dairy Department.

**FRENCH CLASSES HELD**

TWO EVENINGS A WEEK

Croteau Has Two Classes Now: One Beginners, One Advanced

Professor Arsene Croteau will begin holding classes in French next week for faculty women, stenographers, townpeople and any college employees who desire to take the course. Classes will be held Monday and Thursday evenings. Instruction for beginners will be given from 7:00 to 8:00, and the class which was formed last year or those who have had equal training will meet from 8:00 to 9:00 in the lecture room of the Horticultural building. Mr. Croteau started this course in French last year after college opened in January and it proved to be very interesting and instructive for those who were able to take advantage of it.

**DEPENDABILITY OF THE DE LAVAL**

DEPENDABILITY IN A CREAM SEPARATOR IS ESPECIALLY NECESSARY IN THE WARM WEATHER WHEN THE MILK SHOULD BE TAKEN CARE OF IN THE SHORTEST POSSIBLE TIME.

THE DE LAVAL CREAM SEPARATOR IS DEPENDABLE, AND WITH ORDINARY CARE IT WILL EASILY LAST A LIFE TIME. THE DE LAVAL CAPACITY RATING IS DEPENDABLE. EACH SIZE EXCEEDS ITS ADVERTISED CAPACITY UNDER ORDINARY, AND EVEN UNFAVORABLE CONDITIONS.

DE LAVAL SERVICE IS DEPENDABLE. FIFTY THOUSAND AGENTS THE WORLD OVER SEE TO IT THAT DE LAVAL SEPARATORS ARE PROPERLY SET UP, OPERATED AND TAKEN CARE OF. AND, ABOVE ALL, THE DE LAVAL COMPANY IS DEPENDABLE—THE OLDEST AND BY FAR THE LARGEST CREAM SEPARATOR MANUFACTURERS IN THE WORLD.

MORE DE LAVALS IN USE THAN OF ALL OTHER MAKES COMBINED

SEE THE LOCAL DE LAVAL AGENT, OR, IF YOU DON’T KNOW HIM, WRITE TO NEAREST DE LAVAL OFFICE AS BELOW.

ELEVEN HUNDRED MILES ON POTATO BUYING TRIP

DORSEY TOURS MAINE FOR HEALTHY SEED

Connecticut Farmers will Plant Tubers from Famous “Spud” Growing Section

Mr. Henry Dorsey, Field Agent in Agronomy, made a seven day trip to Maine for the purpose of obtaining potato seed for Connecticut, which would be free from disease. County Agent L. F. Harvey and K. K. Clapp, agricultural agent for the First National Bank of New Haven, accompanied Mr. Dorsey.

From Springfield, Mass., the party drove to Augusta and Aristook county entirely by auto, making the round trip of over eleven hundred and twenty miles. John Scribner, County Agent for Aristook, took them all over the county, inspecting fields of potatoes. Mr. Dorsey was very well impressed with the appearance of the potatoes and by the large acreage of good farm land, giving them a two hundred and eighty acres each. Since Aristook county is as large as Connecticut, one may judge the size of the task of seeing the county. The land is very level and fields a mile long are not uncommon.

Mr. Dorsey succeeded in finding several places where good seed can be obtained for Connecticut.

BREEDING STOCK TO NEW HAMPSHIRE STATE

Farm Department Sells Valuable Horses, Cattle, Sheep and Swine

The New Hampshire Agricultural College has recently purchased eighteen head of registered breeding stock from the Farm Department of the Connecticut Agricultural College. This purchase, one of the most significant recently made in the East, included the Percheron stallion, Storrs Victoria, coming three years old and weighing 1850 lbs.; the five year old Percheron mare, Babe Elizabeth and her filly, Bertha, coming two years old and weighing 1550 lbs.; the roan short horn bull calf, Ivel Boy; ten registered Shropshire ewes, and four registered Berkshire sows.

Friday night, September 19, saw all of the Freshies out in full dress for the President’s Reception, with their new style jockey caps. The youngsters seemed to be very much pleased with them. and received their new headgear with great eagerness.

Most of the Dining Hall help, practically all of whom were kept over the summer in order to be sure of help when college opened, are leaving around October first.

GUELPH UNIVERSITY MAN COMES TO CARE FOR SHEEP

NEW SHEEP FARM TO BE ESTABLISHED SOON

Begg to Have Charge of Depot Flock Authorized by the Legislature

Roy E. Begg, who came to Connecticut during the summer, hails from Ontario, Canada. He is a 1919 graduate of Guelph University, and has spent considerable time there on undergraduate work. At the last International Livestock Exposition, the Ontario “Ag” Team was winner of the inter-collegiate judging contest. Begg being high man. Mr. Begg was brought up on a stock farm, his father being a breeder of shorthorns, well known in western Ontario.

The sheep work authorized by a bill passed by the Legislature last spring is under Mr. Begg’s direction. A sheep farm for the depot flock planned for in the bill will soon be established. The supervision of the farm will be a portion of Mr. Begg’s program, which also includes demonstration and improvement trips about the State.
