For years Storrs has felt the need of a community-center and church auditorium, adequate to the growing size and importance of the place. Just before America entered the war, Mrs. Beach suggested to the Chaplain, Mr. Dawson, that he imitate the example of an acquaintance of hers, who raised money for a parish-house at some other pace. The idea, however, was not immediately acted upon, because, with the seriousness of the war situation, it seemed more important to win the war than to put up buildings, even for community needs, at the moment. But, with the war, and especially hearing in mind the notable contribution made by C. A. C. during the war, both in the organization of the State work, and in the trenches, Mr. Dawson resolved to take up the project. It seemed to him that where the college had done so much for the state and nation, the people of the state—especially those blessed with surplus wealth—should feel glad to do something for the college. The thought of a Memorial Institution gradually took shape—of a building the nobility, pure-bred stock over time, if his engagements permit, he will, it is understood, help take up the campaign for raising $100,000 for the Memorial Building project at Connecticut Agricultural College. Indeed, he has gone so far as to request from President Beach an

(Cont. page 2, col. 2)
COMMUNITY STRUCTURE.

(Cont'd from page 1, col. 1)

ARCHITECT'S drawng or plan of the building, for showing to people who might be interested. Mr. Beach accordingly requested the Chaplain to present specifications, and the necessary details of the various needs of the community life, which ought to be embodied in the proposed Church and Community House. Tentative specifications were then prepared, submitted, not only to the President, but to a public meeting, to consider the progress of the Church on the Campus, last Sunday evening at 7:30.

At that meeting expressions of cordiality were invited from all constituencies in the community—from students and from faculty, from the stenographic and clerical corps, from Catholics and Jews, and from those having no religious affiliation at all. The building, of course, will be held by no sect or partisan group; it will be held by the Church, perhaps by the College. Trustees so that all groups of people, whatever their affiliation, may use the building, the building without prejudice of their own. On Sundays for instance services may be held in the auditorium by Catholics as well as Protestants. The Jews, likewise, are to have free use of the building, for worship or class instruction.

An interesting feature of the building will be the plan for a "natural utility" room, where entertainments, lectures, plays, and banquets can be held, a room capable of seating large numbers of people. This room will be used for social gatherings, for meetings, for which there is at present no cozy and attractive place centrally located. Whatever the student's community needs may be, not only those covered under the library, but another arrangement, may be provided for in this building—whether the need of a place to meet his parents and visitors; a room on Sunday evening in the corner of a snug corner, with big chairs, by an open fire-place, where he may meet informally with his fellows, and talk over those things which lie near his heart.

At the meeting Sunday night, a committee of six consisting of Mr. Dawson, R. E. Dodge, J. L. Hughes, M. H. Lockwood, C. H. Savage, and G. S. Torrey was appointed to add new numbers not exceeding fifteen, which joint committee should be representative of the different groups whose needs would be supplied by the new building. The duties of this committee are to make careful investigations of the needs of the community in this respect and report same at a later meeting. A later meeting.

New Orleans, 40 members appointed were C. L. Beach, Chairman; R. C. Fisher, Secretary; H. H. Weibe, W. F. Mains, Mrs. G. H. Lamon, and Mrs. C. A. Whiting; also Beth W. Tapley, Rose Schoolnick and Flora Miller.

The earnest desire of the committee that everybody on the campus begin, immediately, to figure out just what they think is need, and hand in suggestions to their committee representatives; also to talk the matter over with them. Likewise, they can begin to write to people about it, or "talk it" throughout the State, as a means to the widest publicity.

The success of the project, so far as raising the money is concerned, rests partly upon publicity, and partly upon the success of the project, so far as raising the money is concerned, rests partly upon publicity, and partly upon the success of this enterprise will depend upon the success of this enterprise will depend upon the success of the project.
THE CONNECTICUT CAMPUS

DRAMATIC CLUB PLANS
FOUR PLAYS THIS YEAR

"TYRANNY OF TEARS"
FIRST NUMBER OUT

Local Talent to Present Dickens and Shakespeare Before Season is Over

Four plays will probably be given by the Dramatic Club this year, one society play, one each by Dickens and Shakespeare and one outdoor play.

"Tyranny of Tears" by C. Haddon Chambers, one of the best plays in which John Drew was starred, will be presented on November 24, the evening before the Football Hop. Miss Wallace has been most fortunate in making this selection, and will hold tryouts for parts soon.

Sometime during the winter, "Oliver Twist," by Charles Dickens, will be staged. It will be followed by a Shakespearean play which has not yet been chosen, and in the spring will be presented an outdoor play, "The Arrowmaker," by Mary Austin. Three years ago plans were made to give this on the shore of "Swan Lake." The cast was chosen, had even held its first rehearsal. The business manager had plans all made for lighting the place, and for canoes and other bits of Indian color with which to transform our natural pine grove and lake into the requisite Indian setting. But the war came on us, and the project had to be given up for the time at least. Each succeeding year the Club has had visions of completing those plans, but as yet with no success.

This year it is confident of fulfilling its hopes, and is already making its preparations.

At their regular monthly evening meetings it was decided to have the members take turn in putting on short skits for the entertainment of the Club and for the purpose of discovering and developing the talent it has. President Paul N. Manwaring will have charge of the first one which will come on November 12.

The Club voted at the meeting last Monday night to apply for membership in Thetis Alpha Phi Dramatic Fraternity. This is the national college dramatic fraternity originating in the Oklahoma Agricultural and Mechanical Arts College. Only college men and women who have participated in at least two college plays are eligible to membership in this fraternity, and coaches are taken in as honorary members.

Tryouts for membership in the College Dramatic Club will be held short after the opening of the college. "Tyranny of Tears." In so large a freshman class the club expects to find a great deal of talent. The tryouts are not confined to freshmen however, but are open to all who are interested in becoming members of such an organization.

Learn the college songs and yells.

CONNEC'TICUT FAILS IN THIRD GAME THIS YEAR

OFFICIALS IN CHARGE NOT PROFESSIONALS

Poor Playing on Both Sides Feature of Game—Averill Hurt Replaced by Graf

Playing far below the standard set in the opening games the blue and white eleven fell before the Trinity team at Hartford. It was not the fact that Trinity's team had a better combination that caused our downfall but rather the fact that our boys seemed to have had a bad attack of stage fright and through the game away with a wretched handling of the ball. To start the bad day off in a bad way, Manager Manwaring was informed upon his arrival in Hartford that no regular officials were to be had and that the game would have to be played with amateur officials.

This was not Trinity's fault as the Central Board was the cause of the mixup whereby the umpire and referees that were supposed to be on hand were sent to another college.

The game started with Morris, a former Trinity man umpiring and Mitchell refereeing. Hopwood kicked off to Lynch, who carried the ball back almost to the middle of the field before he was downed. Trinity was beaten at gaining the wretched defense of the Aggie line and was forced to punt. The Trinity line also proved to be a hard combination and it was soon evident that neither side was able to gain consistently. Just before the end of the opening quarter the Aggie team moved the way for its own defeat by fumbling the ball on their own twenty yard line. When the pile was untangled a Trinity man was covered by our line and our opponents were in striking distance of the goal line. Averill was hurt at this stage of the game and W. C. Graf was sent in to take his place at left guard. The quarter ended with the ball in Trinity's possession on our twenty yard line.

SECOND QUARTER

Mezoni tried our line but fumbled, the ball being recovered by a Trinity man. Jarvis made five yards on a skin tackle play and Mezoni made three more on the same play. The next proved our undoing and Jarvis carried the ball to our one yard line on a neat trick formation. Both sides were offside and no penalties resulted. Lynch the clever little Trinity quarterback then backed the ball over for the only score of the game. Foley took three steps after catching the kickout so no try at goal was allowed.

Johnson kicked off to Alexander who was downed before he could start. Hopwood attempted a pass but all his men were covered and he was thrown for a ten yard loss. The remainder of the period was the best shown in the game and the line frequently tackled the runners before they reached the line of scrimmage. The half ended with the ball in our possession in the middle of the field.

CREDIT TO C. A. C.

The following extract was taken from the Massachusetts Agricultural College "Collegian":

Connecticut Aggie should be given a lot of credit for continuing with their football schedule after having a member of their team killed in the first game of the season. That is enough to dampen the fighting spirit and enthusiasm of any team. But they put up a stubborn fight from start to finish Saturday afternoon on Alumni Field. Credit where credit is due; hats off to Connecticut Aggie!
SAFETY VALVE

To the Editor:

Last year there was much cranking and fault finding over the condition of the basements of the men's dormitories. Due to their alleged uncleanliness. Consequently the student janitors were relieved of their positions, and men put in their places. It is held that the dormitories are fit to live in. We will admit that Koons Hall is cleaner than ever, but Storrs Hall, could it be so fine? We hope that when we get our new Commandant, conditions will change. Who else would show more interest in behalf of the sanitary conditions under which the students must live than he? It is admitted that the equipment of Storrs Hall is old but this in itself is a sort of a showing. Why can't the able-bodied janitors, who are paid full time just to keep the buildings clean, keep Storrs Hall sanitary? We hope the many members interested in the living conditions will visit Storrs Hall. Home was never like this before!

AGATE

Dear Editor:

There are men playing Varsity Football who haven't enough money to buy their next meal ticket and no money coming and no way to earn money unless they quit football. What sort of a showing is our team going to make the rest of the season if three or four men quit playing because they have no money and can't get a job that will enable them to work and still play? To be sure, we have lost every game this year—why? No, it isn't because the team is rotten. We have one of the best teams we ever had. It is because the team isn't getting the loyal support of the students, the faculty, and the alumni. We have made up our minds what do you CARE about the team except "When is there a home game that I can see?" Apparently you care nothing for it except for the entertainment it affords you. Do you realize that the men who play football are doing more to put C. A. C. on the map than YOU will ever do in a hundred years at the rate you are going? Do you realize how much more they could do with your support? No, you don't. This college offers no sort of inducement to football men. A football man has a harder time than anyone else. They have to put in the extra work to get busy. There are very few jobs a football player can handle during the season. He can't put in his spare time digging ditches and play the game at his best. There is one job he could swing which would bring in quite a lot of money—that is working in the Dining Hall mornings and noon. Think it over. Remember that it is not merely a matter of showing sportsmanship in a football team. It takes the fighting spirit of the entire student body plus material assistance when necessary, but for one to do it, he has to have a reserve upon us on the standard where we belong.

Yours truly,

(Signed) P. H. B.

C. A. C. vs. TRINITY

The Connecticut supporters who journeyed to Hartford last Saturday to see the Varsity team play Trinity were treated to the most interesting and most unportantball games ever played on a college gridiron. The Aggies have been playing a clean game and have won their last three games. Last Saturday they took the Aggies hard this season. They went to Hartford certain of beating Trinity, but the Central Board officials who had been engaged to telegraph that they could not come. The only possibilities Trin-
At the end of the second half the game won down the ball in the Aggies’ hands, on the fifty yard line where they were held on downs. Springfield pointed to Marsh in mid-field and the two teams battled back and forth until the end of the half.

The second half opened up with Springfield receiving, and from them on the two teams kept up a continual exchange of punts. Springfield tried a forward which was intercepted by Stendman. At this point Wooster rounded left end for the longest run of the game and ran the team to perfection. Bendokas also tried a try-out and gained a good steady start.

The purpose of these interclass games is to arouse the enthusiasm of the student body in football and to get them out as much as possible, and in this way work up new material for this fall. The Sophomores and Juniors met on the Gardner Dow Field. The Sophomores won by the score of 6-0.

The game was very well played, considering the fact that neither team had practiced together. Wooster, at halfback for the Sophomores, was the individual star of the game. He made the touchdown, besides making frequent long runs around the end. Marsh at quarterback, also of the Sophomores, played a good steady game.

The big surprise of the meet was Lilley, a former Hartford High athlete, who won first prize in both the 60 yd. dash and the high jump. Lilley also a former Hartford High man, was a runner-up with 8 points. The individual star of the meet was Stendman, a former Springfield man, was a winner-up with 1 point.

The purpose of these interclass games is to arouse the enthusiasm of the student body in football and to get them out as much as possible, and in this way work up new material for the next year, to say nothing of this. Wooster, by his excellent showing, has been given a try-out for varsity as a result of his good playing.

By the interest shown in Monday’s game, there is no doubt that these interclass games will be a big success. The Sophomores were on on side of the field rooting for their team. They support the Juniors and were given a try-out on some of the Seniors. The Juniors were on the other side supported by a large number of Freshmen.

The big game will undoubtedly be the Sophomore-Freshman game which is scheduled for Monday, Nov. 17. The Freshmen are already practicing for the big game and claim that they are going to pay back the Sophomores in the field rooting for the game. They support the Juniors and were given a try-out on some of the Seniors. The Juniors were on the other side supported by a large number of Freshmen.

The big game will undoubtedly be the Sophomore-Freshman game which is scheduled for Monday, Nov. 17. The Freshmen are already practicing for the big game and claim that they are going to pay back the Sophomores in the Swamp Lake. Following is the schedule of interclass games:

Monday, Oct. 13—Juniors vs. Sophomores
Monday, Oct. 20—Freshmen vs. Sophomores
Monday, Oct. 27—Sophomores vs. School A.
Monday, Nov. 3—Juniors vs. Freshmen.
Monday, Nov. 10—Juniors vs. School A.
Monday, Nov. 17—Sophomores vs. Freshmen.

There was a good crowd on Monday at the big game and ran the team to perfection. At the end of the second half the game remained a tie, neither side having been able to score a single point.

**BASKETBALL BEGUN LAST MONDAY NIGHT**

About Thirty Men Were in Uniform—Several Last Year’s Men Were Out

The initial basketball practice was held Monday night under the guidance of Coaches Guyer and Swarts. About thirty men were in uniform, and a number who are present on the football squad were on the sidelines watching. This was the first for a successful season was never brighter at the Aggie College and Coach Guyer was extremely well pleased with the outlook.

Capt. Gronwoldt, ex-Capt. Lockwood, Dean, Prescot, Putnam and Elcock of last year’s team are back and are ready to put up their old aggressive game for the blue and white. Sicker, a former Hartford High Star, Alexander, Captain of last year’s Crosby team, Baxter, a Stamford High player, and a number of other prep school players are out and will put up some stiff opposition to gain a place on the team.

Connecticut’s big weakness in the past has been a lack of capable sub-

**FRESHMEN SHOW UP WELL ON TRACK**

In an effort to organize track sports at C. A. C. a freshman track meet was held on Gardner Dow Athletic Field, Monday, October 13, 1919.

The individual star of the meet was Lilley, a former Hartford High athlete, who won first prize in both the 100 yd. dash and the high jump. Lilley also a former Hartford High man, was a runner-up with 8 points.

The big surprise of the meet was Lilley’s defeat of Levey in the 100 yd. dash. Levey who was Hartford High’s star sprinter last season, was expected to win in easy fashion. He got away to a fine start and led for the first fifty yards, when Lilley, with a fine burst of speed, overtook him and breathed the tape with a comfortable lead.

The track was in poor condition and the times slow in consequence, but some very promising track material was in evidence. There is no reason why we cannot, with a little work have a very good track team which will compare favorably with the other athletic teams at C. A. C.

The results:

100 yd. Dash
1st, Lilley; 2nd, Levey, 3rd, Gates.
Time 11 sec.

880 yd. Run
1st, Patterson, 2nd, Stocking, 3rd, Beardsley.
Time 2 min. 15 sec.

440-yd. Run
1st, Lilley, 2nd, Beardsley, 3rd, Levey.
Time 64 1-5 sec.

220-yd. Dash
1st, Levey; 2nd, Gates; 3rd, Levey.
Time 56 3-5 sec.

The track was in poor condition and the times slow in consequence, but some very promising track material was in evidence. There is no reason why we cannot, with a little work have a very good track team which will compare favorably with the other athletic teams at C. A. C.

The results:

100 yd. Dash
1st, Lilley; 2nd, Levey, 3rd, Gates.

Time 64 3-5 sec.

**TENNIS**

In the second round of the tennis tournament which was played last week the less experienced men had to give way to the veteran players.

The matches run off resulted as follows: Upham defeated Rome 3-6, 6-4; Griswold defeated Fogg 2-6, 6-1, 6-1; Bridges defeated Austin 2-6, 6-2, 6-0; Wood defeated Pinkham 6-0, 6-4.

**GARDNER DOW FIELD**

No monument or stone have we To help hold dear the memory Of one who with us worked and play’d. But on that field where oft we fought To hold on high the Blue and White We’ve placed the name that cannot fade.

And as he fought and played the game Let those who follow do the same. Play hard! Win victory, not shame. Upon that field which bears his name. "McGinty"
COLLEGE RECEIVES GIFT OF COW

The following article of interest was taken from the Connecticut Agricultural College Press Bulletin of October 16, 1919.

In the interest of the Jersey breed and the Connecticut Agricultural College at Storrs, Col. A. V. Barnes of New Canaan, Conn., recently donated Beaudesert Pet, No. 296,177. She was presented immediately after the completion of her last record and she is now contentedly working for the state.

As a three year old this cow produced 11,806 lbs. of milk and 610 lbs. of fat as a five year old she produced 12,409 lbs. of milk and 540 lbs. of fat; and at eight years of age she produced 13,807 lbs. milk and 763 lbs. fat, the average test for the last record being 5.5 per cent. Her picture occurs on page 423 of the 1915 edition of the Registry of Merit.

Beaudesert Pet is one of the good cows bred in Connecticut by the veteran L. V. Walkly at Southington. Her dam, Pet of Bellevue, made the state record in 1914 with 788 lbs. of fat and again in 1915 boosted it to 791 lbs. of fat. She lost the record to her sire the Seers of Albany, with 882 lbs. of butter fat. Both cows were sired by Beaguard, No. 70,962. The sire of Beaudesert Pet is Gedney Farm Girl Ox, No. 75,998. He has 24 Registry of Merit daughters and was sired by the famous Oxford Lad. Gedney Farm Girl Ox's photograph occurs on page 423 of the 1915 edition of the Registry of Merit.

Since the cow has some splendid young daughters of their former herd sire, Jolly Oxford Lad (son of Oxford Lad), Beaudesert Pet not only comes to add her influence as an individual but brings blood similar to other members of the herd. Her son, Owl of Bellevue, has five daughters in the Registry of Merit.

Two years after her arrival Beaudesert Pet presented a heifer calf to the herd. Its sire, Fauve's Prince, is Mr. Barnes' herd bull, that has been siring uniformly high class daughters, both in conformation and production. One of them, Princess Xenia, holds the world's record as a Senior two year old with 689 lbs. of butter fat and others head their classes in the state records.

SHAKESPEAREAN CLUB

The fraternity smoker was held on Friday evening, October 10. J. H. Hildring, '17, L. L. Crosby, '18, and C. R. Brock, '19, all former editors-in-chief of the "Campus" were all present Friday and Saturday, October 10 and 11.

A. J. Webb, '13, is selling Fordson Tractors in Connecticut with headquarters in Bridgeport.

D. H. Horton, '18, who is working at the Gilbert Farm, Georgetown, Ct., is in charge of 1150 chickens and 400 old hens. He has broken into newspaper writing, as an article in the "New York Tribune" for the year.

WHAT IS THAT STEAM?

The great clouds of vapor which arise from a hole in the ground near the Mechanic Arts building have mystified many. Perhaps they thought that the aperture was an outlet for smoke steam or the like from a tunnel of some subterranean railroad. Maybe it came from a young Vesuvius. But that is not so. The whole trouble results from a break in the main steam pipe.

The main building uses thirty pounds of steam which is an increase of twenty-five pounds over that used by the other buildings. This extra steam does not only cause a daily enlargement of the break but also a greater waste of steam.

This escapement of steam is of great economic importance as it is estimated that enough escapes daily to run a passenger train from New York to Boston. Mr. Blake, superintendent of buildings and the college engineering force will undertake to repair the break.

ETA LAMBDA SIGMA

Arthur J. Reeve, ex-'19, spent the week end on the Hill.

Carl L. Alberti, ex-'20, was recently married.

Mr. and Mrs. J. H. Higgins of Bloomfield, N. J., announce the engagement of their daughter, Virginia, to Edward J. Rensch, '16. Mr. Rensch is now engaged in agricultural work in New Jersey.

George W. H. Peters, '13, of Los Angeles, California, is a member of the new orange grove syndicate whose object is to standardize the industry and put oranges on the market at a more reasonable price.

Arthur N. MacAulay, of Wendell, Idaho, has just bought another large wheat ranch adjoining his own. Mr. MacAulay is the owner of a large clothing house in Wendell.

A recent visitor is said to have expressed surprise at the necessity of an infirmary and two cemeteries so near the dining hall.

Marcus McCannon can say Babylonian without a bubble.

ALPHA PHI

Ralph Henry, '16, is a traveling salesman for a large Perfume Concern. "Becky" comes from the Southern States and enjoys the work as it enables him to see a large part of the country.

William McNicol, '16, now resides in Jewett City. He represents the people of this place in the State Senate from Hartford.

'20, Leon Kibble, '22, and "Shorty" Williams.

Frank Rimoldi, '13, is now an instructor at Rhode Island State College teaching Ornithology and Entomology.

Imbert Fellows, '16, is a frequent visitor on the Hill as his business makes it necessary.

Walter Ackerman, '15, recently discharged from service has entered the teaching staff at Connecticut Agricultural College. Mr. Ackerman is in charge of the extension and subjects connected therewith.

The annual fraternity smoker is to be held this evening, Friday, Oct. 17.

BLACKGUARDS

There will be a meeting of the Blackguards on Wednesday evening, October 22, at 6:30 P.M. in Room 7, Main Building, in order to reorganize for the year.

The "Blackguards" is the Minstrel Club which will be remembered as the producers of the Soldier Boy Minstrels in 1917. A minstrel show will probably be staged in the very near future, the proceeds to go for some student activity. It has been suggested that the money taken in be set aside for the erection of a tablet on Gardner Dow Field, in memory of the man for whom the field was named, as he was a member of the "Blackguards."

The following men now students here are members of the organization, and from them officers will be picked on Wednesday evening:

F. J. Mahoney, Charles Compton, E.D. Dow, Morris Downs, Fred Maier, William Maloney, Clifford Prescott, Emanul Shulman, Earl Moore, Benjamin Brow and Daniel Graf.

Good material can also be found in the lower classes. Van Buren, Hemmeler Ricketts, McKee and Hughes should be remembered. Billell and Paul Manning, '20, will easily be able to win a place in the first cast.

Daniel Graf is going to bring suit against certain individuals who are mentioning things about his activities of late.
DEBATING CLUB
On October 13 the Debating Club held its first meeting of the year, and immediately got to work to reorganize the club. It was decided that the club would be one of the prime factors on the Hill. President R. F. Hughes presided and after an extended discussion by members of the Club and Professor R. H. Vining, who is to act as faculty advisor, a committee of three members, Shulman, ’21, Osborne, ’21, and Heid, ’22, was appointed to draw up a new constitution. This year it is planned to have membership extended to only one class. Furniture passing the “try-outs.” If possible the club will take part in some intercollegiate debates. Challenges for debates have been received from Mass. Aggies and R. I. State College. The proposition before the meeting was to determine how we might best prepare to meet these challenges.

Shulman, ’21, suggested that the Debating Society be made more exclusive, barring all those who will not take an active interest; and that dues be imposed upon members. The latter suggestion carried out would finance a debating team making trips. Mr. Vining gave a short talk assuring those present that the Debating Society had the heartiest support of the English Department.

SIGMA ALPHA PI
Word has been received from Geo. Kinnearex, ’20, that he is back in Western, R. I., and expects to visit the Hill in the near future. Kinnearex, undoubtedly the first man to leave this institution to enter the war, leaving here February 2, 1917 to enter the Ambulance Service in the Canadian Army. He went overseas within a month and was stationed at a large camp near London for several months before being sent to France. He served there with the Ambulance Service for twenty-three months returning to the United States in late September.

Dr. A. B. Sturgess of Wallingford, Conn., is at present in Tennessee. John McCarthy, ’17, was a visitor there and while here had a visit to the Hill.

John Ayer was at the college on Monday, October 5th.

Percil Prindle, ’17, has returned to Connecticut Agricultural College after being in the service. He is to take up work in the Horticulture Department.

Martin Roser, Walter Francis, John McCarthy, Fred Trinder, and Leslie Lawrence were among those that attended the football game at Trinity, Hartford.

Robert Hawley is taking a Mechanical Arts course at Trinity.

Zank Prescott, according to reports from the Trinity game, is doing himself justice in the social line.

Get your studies first and you can get the most out of the other things.

SATURDAY EVENING MOVIES SHOWN NOW
Student Operators Run Machine
College Orchestra Plays
Ice Cream on Sale

Saturday evening, October 4th, saw the first movies of the season shown in Hawley Armory. Harold Lockwood, ‘22, is the star character in “The Great Romance.” Twenty cents admission was charged for the pictures and a dime from each man who danced after the show. Ice cream cones were on sale to relieve those who suffered from the oppressive warmth of the evening.

The college orchestra played through the pictures and for the dancing afterwards. W. F. Maloney director of the orchestra, says that he can see continual improvement in their music, as a result of practice.

Walter F. Wood, who ran most of the pictures last year, and Earle Moore, who is a licensed operator and has returned after a year’s absence, have full charge of the operator’s booth to show the pictures.

Meetings of the Agricultural Club will be held regularly in the future and as many different subjects by well-versed agricultural speakers and workers will be covered as the club can arrange for.

PHI MU DELTA
The members of the Nu Alpha Chapter of Phi Mu Delta introduced their fraternity hats on the morning of the smoker, October 15.

The hats are similar in shape to the whites worn in the navy and are made of white felt. The letters of the fraternity are embroidered in silk so as to show just above the brim, the Phi and Delta being in black and the Nu in gold.

This type of hat is the standard style of the National Fraternity.

John McCarthy, ’17, was a visitor on the Hill Sunday, October 12th.

Captain Leslie Lawrence of Fort Riley, Kansas, visited here the week of October 11th. He expects to be discharged soon.

Joseph Salisbury ’16 recently bought a pure bred English Setter. He made a visit to the Hill and while here spent some of his time hunting.

“Heip” Manning dropped in on us one evening last week.

“Joe” Ayer was at the college Sunday, October 5th.

George Prindle, ’17, has returned to Connecticut Agricultural College after being in the service. He is to take up work in the Horticulture Department.

Martin Roser, Walter Francis, John McCarthy, Fred Trinder, and Leslie Lawrence were among those that attended the football game at Trinity, Hartford.

Robert Hawley is taking a Mechanical Arts course at Trinity.

Zank Prescott, according to reports from the Trinity game, is doing himself justice in the social line.

Get your studies first and you can get the most out of the other things.

MEADE IN MINNESOTA
STUDIES DAIRY CATTLE
CHOSES TO DO WORK
UNDER PROF. ECKLES

Thinks Their Cattle Do Not
Compare with Ours
Likes the West

S. W. Meade, '17, who received sec­
ond in the dairy judging con­
test at the National Dairy Show held
during 1916, had the scholarship for
one year’s graduate work in dairying
at any state college awarded him on
the death of the man who held first
place in the contest. He chose to
study under Prof. Eckles of Minne­
sota. This scholarship was offered by
the promoters of the Jersey breed of
cattle.

Friends at Connecticut Agricultural
College will be interested in the fol­
lowing letter, received by an alumnus
at the college from “Tommy” Meade.
University of Minnesota,

Hello Frank:

How’s the boy? I’m back at the
old job again. Last year at this time I
was living in darned old dugout, and
this year I think I am worse off than
ever. Last year all my thinking was
done for me and this year I have to do
it all myself. And I guess I’ll have to
use up this old brain of mine to the
limit. I often wonder if it is worth
while. A fellow without any educa­
tion at all gets four to five dollars a
day, and I get is about $3.50, same
as the Wops and Polocks get. It sure
is a queer world. I have been up here
since Sept. 25 and if I ever get my
schedule straightened out I think I
will like it out here quite well. Of
course it does not compare with old
C. A. C. We of the east believe in
Quality and Quantity. Right? They
have a big bunch of cattle out here
but comparatively few good ones.
Prof. Eckles who came here this
spring is thinning them out right and
left and I think he will build up a
good herd. I received the Campus
yesterday and sure was glad to know
of the excellent showing C. A. C. made
at the Eastern States Exposition. Out
here Storrs as they call it seems to
have a pretty good standing. I am
rooming with a fellow from Missouri.
Our house is about one-half mile from
the campus. The enrollment is so
large this year that some of the stu­
dents have been unable to secure
rooms even by going to Minneapolis.
The freshmen this year number 2500.
I am the only one at present time who
is doing full time work in milk pro­
duction but there are others who are
doing part time work. Well, Frank,
I’ve got to get to work so I will close.

Fraternally yours,

TOMMY.

Brub Dow is having considerable
difficulty of late in “looking ‘em over”
due to an injury to his right eye.
Shows in the Sophomores will have
revenge.

DAIRY NOTES

George S. Stuart, for several years
the College Dairy Herdsman, leaves
this week for Waterbury, where he
will have a herd of Guernsey cattle
as well as the farm under his direction.
The farm is that of Mr. Charles L.
Holmes, at the Country Club, and is
under the superintendence of F. J.
Harrison.

The position left vacant will, for a
time at least, be filled by Ralph W.
Brown, ’17 S, of Central Village.
The Dairy department has strength­
ened its Holstein herd by the pur­
chase of Dodge Farm Farsada Ber­
nice De Kol. This bull is sired by
Maple Crest Farsada Butter Boy and
is out of Dodge Farm Bernie, who
now holds the New England as well
as the State record for production
over all ages and breeds. The col­
lege expects that this bull will in­
crease the production and better the
type of the Holsteins here.

FARM DEPARTMENT

The flock of Merino ewes brought
here from the Eastern States Expo­
sition to the College Farm have been
sold down to the operating minimum
of 20 head, recent buyers being:
Grassland Farms, Taconic
Otto May, Canterbury
John J. Campbell, Tolland
George A. Wetherell, Northbridge
Lewis Tuttle, Woodbury
Connecticut Farm for Women, Niantic
The Sheep Extension Depart­
ment is negotiating for another carload
of similar ewes to enlarge their depot
flock.

New London is also bringing in a
carload of western ewes for immedi­
adisposition in that county alone.

NON-FRATERNITY MEN TO
ORGANIZE

With the development of the Medi­
ator as the student judicial body, it
has become advisable for the non-fra­
ternity men to arrange for some sort
of an organization so that they may have
representation in that body. At pres­
ent, they have two members in the
Mediator, Mr. Harold Neuman, ’21,
and Mr. W. Pool, ’21, these represen­
tatives having one vote between them.
When the non-fraternity organization
is completed, an arrangement will
probably be made to make their num­
ber of Mediator votes equal the non­
frat membership divided by the aver­
age membership of the various frats
on the Hill. This will give them a
fair representation.

The Non-Frat men have not com­
pleted any hard and fast organiza­
tion as yet and from all reports do
not intend to put much power in the
hands of officers. The voting mem­
ber of the Mediator has called the few
meetings already held and appointed a
temporary secretary at them.
The purpose of the Non-Frat Brother­
hood will be to provide a recreation
room for their men and arrange for repre­
sentation in the Mediator.

DAIRY NOTES

Our Motto:
To give our customers the very
best goods and to make the
prices as low as is consistent
with good quality.
