TEAM READY TO SHOW R. I. HOW TO PLAY

GLEASON, RICKETS, AND PRECCOTT BACK IN THE GAME

Coaches Have Been Drilling Football Squad at Top Speed in Preparation

The Aggies will play their old rival Rhode Island for the first time in three years this afternoon when they line up against the engineers on the Kingston field. In the last game between these two teams the Aggies squad out fought and out gained the boys from Rhode Island but luck seemed against them and twice the red and white tricked us and made long runs for two touchdowns which were sufficient to gain the victory for them. This year our prospects for bringing back the ball are excellent but we must go into the game expecting a fight from whistle to whistle and there will no doubt be one of the best games of the season fought on the Kingston gridiron.

It is true that Rhode Island has held Holy Cross and Stevens Tech to lower scores than we have but we defeated Boston University while they beat Holy Cross and Providence in their opening game. Gleason and Prescott are back and will prove a big aid in stopping up the weak places that have occurred in the line and there will be back on the sideline. Murphy is also back in the game after taking a vacation during the early games and Rhode Island will find him a hard man to stop when he starts to hit their line.

Today's contest will be the last for Hopwood, Gleason and Maguire as these men graduate next June so there can be no doubt in anyone's mind but that this trio will make a brilliant stand for the blue and white.

Coaches Guyer, Schawarts and Warner have drilled the squad at top speed this week with a bewildering array of formations which should sweep our rivals off their feet and also the squad has been carefully instructed how to stop Rhode Island's punt plays so that they will have hard work gaining consistently.

Goodearl and Alexander will start at ends. This pair has developed remarkably in the past few weeks and are prepared to stop Rhode Island how ends should play. With Mitchell, Prentice, Graf, Maguire and Gleason guarding the center of the line it is safe to say that the engineers will

SATURDAY—FEB. 28
Pending with Clark
SATURDAY—MAR. 6
Rhode Island at Storrs

BASKETBALL PROSPECTS—LOOK BRIGHT

Hard to Pick Men for Varsity—Many Games Contracted For Already

Basketball practice has been held on Monday nights, under coaches Guyer and Schwartz, for the past month. A large squad of men have already shown out and it is expected that more will be out as soon as football is over.

It is going to be a big job when it comes to picking the varsity as there are at least ten men of varsity caliber who are out working for a berth on the team. Of last year's varsity, Captain Groswold, Lockwood, Putnam and Dean are out. Prescott, the other letter man has not been out as yet on account of injuries received in football. The new men who are showing promise are Sickler who was elected captain of the Hartford High team for this year, Lord, who was a twelve letter man at Loomis, Metelli and Feeley who have had a great deal of experience and Alexander who was captain of last year's Crosby High team. There are several other fast men out who with a little coaching will make good varsity material.

Many prospective has announced his schedule as yet but a number of games are already contracted for. The first game of the season will be Dec. 13th at Middletown when we stack up against Wesleyan.

'22 PLAYS FRESHMEN WINS CHAMPIONSHIP

SOPHS TIE FRESHMEN IN MOST EXCITING GAME OF YEAR

Annual Football Match a Clean Played, Hard Fought Battle Between Classes

The interclass football schedule came to a close last Saturday when the Sophomores played the Freshmen in the most exciting and hard fought battle waged between classes this year. The Freshmen came out with overwhelming confidence that they would run up a large score but to their dismay they found themselves at the end of the game without a touchdown. Not only the team but the whole class felt the same way, for the Freshmen girls turned out in grand array with their Freshmen hats.

The game started at 3:30 on the Gardner Dow Field, amidst the cheers of the doubtful and confident, which put the pep into the players, for each felt their class was behind them. The ball never got nearer than eight yards to the goal line throughout the whole game and that was when the Sophs ran it up the field and were unable to make a touchdown. It was a clean played game but due to the fact that the teams played so hard, Taylor and Feeley of the Freshman team were knocked out while the Sophs went through without any injuries.

FIRST QUARTER

The Sophs received the ball on the kick and ran it down the field to the twenty yard line but were unable to make farther gains and the ball went to the Freshies. They called for a kick formation but tried an end run which gave them no gain and ten yards to go on the second down. With repeated skin tackle plunges they carried the ball to the twelve yard line but were unable to make farther gains and the ball went to the Freshies. They called for a kick formation but tried an end run which gave them no gain and ten yards to go on the second down. This time they punted. The ball was carried down the forty yard line again and was gradually carried by repeated line plunges and end runs till within ten yards of the goal line. The first quarter ended with the Sophs in the Freshman territory.

SECOND QUARTER

The Sophs started off with hopes of a touchdown but plunged the Freshies' line with no results, making only eight yards out of the ten. The Freshies again got the ball on the forty yard line and ran it out of danger by a long end run by Taylor, who was tackled by the Sophs' quarter after making a

NAME OF THE COLLEGE WILL BE CHANGED

C. A. C. WILL BE KNOWN AS CONNECTICUT STATE COLLEGE

In Fairness to Non-Agricultural Courses President will Present Bill to the Legislature

Recognizing that the name "Connecticut Agricultural College" is no longer fair to departments of this college other than agricultural, President C. L. Beach said this week that he would present a bill to the Legislature at its next session requesting that the name be officially changed to "Connecticut State College."

President Beach said that he had little doubt but that the bill could be passed before the Legislature without very much discussion. This method of procedure will be more effective and will occasion less discussion than an active newspaper and publicity campaign would do.

The college will be no less an agricultural college, and parents may have no hesitation about sending their sons and daughters here to get the best agricultural education to be had. The agricultural courses will remain in the majority and will be more efficiently taught and more fully treated than ever before. It is only in justice to the excellent courses in Home Economics, Science and Mechanical Engineering that the name is to be changed.

The people of the state have known this institution to a great extent as an agricultural college and there would be more harm than good in promoting a campaign among us to push the matter referred to. Among the alumni and students, however, the advantages of calling ourselves "Connecticut State" are generally recognized and approved.

So many names have been applied to the college at Storrs that it is difficult to make people call it by the right one. It will be known for a long time hence as "Storrs College," but the well-informed and the younger generation will call us "Connecticut State College."

All that is needed now is official sanction, for we cannot go ahead and indiscriminately use what name we will.

But when the change does come, all C. A. C. men and women are ready to become "Connecticut State" boosters and faithful followers.

Better to boost than to kick and knock. The engine that takes you to the top of the hill is the machine that we love to drive. It is the car that "knocks" that goes to the scrap heap.

Committee Improves College Assembly

The College Assembly Committee consists of Dr. Sinnott, Prof. Hughes, Prof. Hollister, J. A. Master, Miss Rose and three students, one from each of the upper classes; H. B. Goodrich, Daniel Graf and Walter Wood. This committee was elected to improve the President's Hour or College Assembly so as to make it as interesting as possible and also beneficial.

The purpose of the College Assembly is to bring the students in closer relation with the outside world and in touch with current topics. We are apt to get too narrow minded here in this community if we keep our minds entirely on studies and kindred pursuits. The committee has tried to plan a schedule for the coming year that will prove of interest as well as educational, for it has many influential men and scientists of this state on the program.

It has also looked into the matter of getting a new supply of hymn books and the making of a bulletin board for hymn numbers.

Church Notices

Morning Service 10:45 at Church on the Campus.

Mr. Dawson will speak upon the previously mentioned topic, "Pointers on Language." Do we speak a language or a dialect? The main point to be considered will be language as it is spoken and as it should be spoken.

Sunday School immediately after Church service. Mr. A. J. Brundage is getting well started with a Bible Class, but there is still room for more to join that group.

Sophs to the Freshmen—Sophomore

Freshmen—Sophomore

(Cont. from page 1, col. 5)

thirty yard gain. They tried a run around the opposite end but failed as did the next three plays. The ball was then backed back and forth in the middle of the field till the ball was ended with no decided gains on either side.

Third Quarter

The Sophs kicked off to the Freshmen and held them in their own territory. Three downs and they put the ball down the field to the twenty yard line, dodging all but the last man between him and the goal. The Sophs tried two unsuccessful passes and lost the ball due to the inability to carry it for a first down. The Freshmen then tried to run the ball up the field by both line plunges and end runs but were unsuccessful till they pulled a short pass to their right end, gaining twenty-five yards. Feeley was knocked out when the Freshmen tried a skin tackle play thru his hole and a few minutes later Taylor was tackled in his class. Feeley came back and carried off the field unconsious.

Fourth Quarter

The Sophs started off in their attempt to win by playing an open game but their passes were not successful, due to the line not holding long enough. And so the ball was held in the center of the field for the rest of the game with no decisive result.

Both teams were equally matched, the Freshmen having the best line, the Sophs the best backfield. Lilley, Patience and Voorhees starred for the Sophmen; Chamberlain, Ferris and Wooster for the Sophs. The game ended without either side scoring but since the Freshmen only won two and tied two games and the Sophs won and tied one the class championship goes to the undefeated Class of 1922 and the ball championship last year and hope to do the same this coming season.

Blackguard Orchestra

An eleven piece orchestra is being developed by the Black Guards in their preparation for their coming minstrel show. "Like a minstrel show" will act as leader; W. B. Gerhardt is manager. Those students in the orchestra with their respective parts are as follows: The violins, Patience and Voorhees; Basset horn, Gerhardt and Flynn; piano, Hemeler; banjo, Clark, Brandt and Wood; drums, Graf; cornet, Johnson and Robbins.

Would You Like to Read All We Like?

We wish Rumor Would Build Some Dormitories Too!—But

Dame Rumor, in collaboration with False Report, has authorized us to print a full account of the great new Stadium which it is said will be erected around our football field sometime within the next thousand years, if not sooner. It was recently suggested that a large grandstand is needed to accommodate the large crowds that pack the field in the great events that are staged for their benefit.

The matter was immediately laid before a special body of incompetents who have looked into the matter thoroughly and are now ready to submit a report. It was thought advisable to build something permanent while we are about it and plans were drawn up for the most unique and complete stadium ever seen at a college. O. B. Knutty of Hotareville, Conn., who has always built the pigsties on his father's farm, says that for a large construction of this size to accommodate 50,000 spectators, the C. E. is for all to enjoy and benefit by. The greatest material will be needed. But when interviewed he thought that the cost of the structure could be greatly reduced by using secondhand material.

One feature will be the individual pens instead of seats, which will give everybody plenty of room and will also allow the snow to blow over the tops of the heads of the opponents in a game. Entrance will be effected by the use of airplanes and the management takes this opportunity to warn those attending to fold them up and put them out of sight before the game starts.

One excellent thing will be carried out as suggested by one of the kind hearted co-eds. The field will be plowed previous to each game to prevent the players from receiving injuries. This will also be a saving on the scores which it is said will be used whenever any of our opponents get ready to go to the place below.

All suggestion on the matter will be gladly received by the committee in charge, who for reasons here withheld, must not be made known.

R. O. T. C. SOON TO HAVE MILITARY BAND

Cadet Major N. W. Alexander, in cooperation with Major B. Ferris, is planning a military band to be part of the cadet program. Several of the students enrolled in the organization have shown their musical abilities and an excellent working nucleus is already present with which to start the band off.

R. E. Johnson, '22, who played in the college orchestra throughout the preceding college year will be a reliable player of the cornet, ably assisted by R. C. Robbins, '23, and W. L. Freeman, '23, on the same instruments. C. A. Vaill, '23, will play the alto horn, G. E. Sley, '23, the clarinet and W. I. Graf, '22, will rattle the snare drum Artículo the turn of his able hands. A bass drummer and cymbal player will be chosen later and perhaps other instrumental artists may be added to the list of players already arranged.

Soon the co-eds will be out watching the drill of the ladies out by the Armory, for music has charms for the charming as well as for the savage. Older students remember how they used to come around the drill field whenever they knew that the battalion was going to be reviewed with the band in full blast. This in itself puts pep and spirit into the movements, though fellows were often warned to keep their "eyes to the front."

It is usually the custom to have a band with college battalions and there has been nothing to avoid creating the T. C. here for several years. The reason, as Major Alexander pointed out in explanation, is obvious.

Whenever a body of infantry is organized to a sufficient extent to drill in unison to the martial strains of a good military band, the effect is marked. It suits the quality of the drill and the spirit in which it is done. Students are always more ready and eager to drill and pass in review while music is played than when the work is done in silence broken only by the harsh commands and exhortations of the officers in charge. It inspires them to greater efforts to attain military perfection than any other medium known except the fear and rigor of discipline.

But Prexy Says It Is Not Harmful—Purified by Chlorine

With the water supply so low in the standpipe and with the pump barely keeping the supply equal to the demand, it was feared that the source of supply might again be contaminat

EDENENNGLISH COURSE
Professor R. H. Vining, Assistant Professor of English is giving an evening course in Business English for the benefit of the stenographers in the College and any Juniors or Seniors who apply to attend. Six lectures will be given at no charge, and held every other week at 6:45 on some convenient evenings.

The course will be free of charge, except for the slight incidental cost of the textbook, THE PRINCIPLES OF BUSINESS ENGLISH, by Horch-kins & Cow.

Written work will be handed in by the members of the class for correction.

Members of the lower classes will not be admitted to the course.

BATTALION INSPECTED BY COLONEL PALMER

Col. Guy C. Palmer, district inspector of the Northeastern Department. With headquarters at Boston, inspected the R. O. T. C. battalion at the Connecticut Agricultural College under Major B. G. Ferris, Thursday, November 20. Every year at least one inspection is made of all of the State military organizations and this is the time when every officer, non-com and private does his best to make a creditable appearance on the drill field.

Col. Palmer watched the companies go through the regular forms of drill that have been taken up so far this year and commended Major N. W. Alexander, the cadet officer in command, for the creditable manner in which the students went through their movements. A great deal of credit is due Major Ferris for the improvements which have been made in this line since he took command of the outfit.

WE ARE GOING WITH OUR TEAM TO R. I.

LARGE NUMBER GOING TO WITNESS THE GAME

Special Train To Carry Enthusiasts On Greater Part of the Trip

Last time Connecticut played Rhode Island in football, almost the entire team was sent by special train to Kingston to witness the struggle. This was in 1916, three years ago, but the trip proved so memorable and interesting that it is still held in mind that the memory of the defeat of three years ago. At first the students voted in a Student Organization meeting, to take the trip by automobile, but later it was learned that the football team would not allow to go over this way. The co-eds also objected, and it was finally arranged that all would go from Eagleville by train.

A special train could not be procured for the entire trip, as one would have to be sent all the way up from New London "deadheaded." But finally D. A. Evans, '20, chairman of the committee for the trip, arranged to have extra coaches added to the train leaving Eagleville at 9:10 A.M. Saturday. In New London the crowd will leave the passenger train and take the special which has been chartered for the rest of the trip.

Plans are now practically complete. Up to date (Nov. 18) 150 students have signed up to go and accommodations for 300 have been provided for. Classes are suspended Saturday morning for all who can afford to take the trip. Canes and banners have been procured by all going on the trip and everybody plans to have a good time. Rhode Island is planning to give us a good time too. Dinner will be served in the college dining hall at Kingston soon after our arrival and everything will be made as convenient and pleasant for us as possible.

The train schedule for the trip is as follows:
Saturday, Nov. 22.
Lv Eagleville C.V.No.6 9:10 A.M.
Ar New London 10:50 A.M.
Lv New London Special 11:00 P.M.
Ar Kingston 12:15 P.M.
Intermission—THE GAME
Lv Kingston Special 6:00 P.M.
Ar New London 7:30 P.M.
Lv New London 8:15 P.M.
Ar Eagleville 9:35 P.M.

The train is stopping an hour in New London in the evening so that all may have supper. A good feed will be appreciated at this time. The special train will consist of three or four coaches and there is room enough for all students, faculty, alumni, friends and all interested, to go along.

STUDENTS ARE POPULAR
C. A. C. students must be getting popular these days for no less than two companies have taken their pictures lately. On Wednesday last at President's Hour a New York concern took a college group picture on the east side of Hawley Armory while on Monday after dinner we were again photographed by a New York concern which also took a picture of the faculty, one of the interior of the Dining Hall and a panorama picture of the Campus from the water tower.

The proofs of the first pictures have arrived and are on sale by two of the students, while the proofs of the second are expected soon and will be taken by one of the students.

ALPHA PHI

The Informal Initiation of the Alpha Phi took place Thursday evening, November 6. The men to be initiated were assembled and duly initiated in the proper manner during the course of the evening. After the initiation the men went for a little jaunt in automobiles. Having much trouble with the machines, they had to walk back.

The men who enjoyed this walk are Ralph Bundage, '23; James Mullen, '23; Irving Taylor, '23, A. G. Dehne, '23 and M. F. Daly, '23. During the day these men were also given instructions as to how to peddle newspapers to the donators; how to wash trees and dust off ledges; how to milk a cow by substitution; how to carry a suitcase and tray, etc.

Friday evening the men were duly initiated and are now members of the Athenian Fraternity.

Benjamin Dibble, '22, has left college because of ill health. "Ben" is testing for the college just at present and expects to find other work soon.

Mr. and Mrs. Harold Benjamin are receiving congratulations on the birth of a son. "Hal" was on the Hill last week passing around the cigars.

VESPER SERVICE

The regular Vesper Service will be held at 4:45 in the church on the Campus. Mr. A. W. Manchester is to deliver the address. Mr. Manchester's theme is unannounced but it will be of a different trend of thought than that of previous meetings. The attendance at those meetings has been showing a marked increase of late; this bears out the fact that the meetings are beneficial and interesting.

Dr. T. H. Eaton was unable to meet his classes in Education and Economics for two weeks, due to an attack of Grippe. He resumed teaching on Monday, November 27.

Miss Alice Blakesley leaves the Experimental Station, Saturday, November 22nd to go to Long Beach, California, with her parents.
Dear Subscriber:

The Campus, as Thanksgiving vacation, we will just keep plugging away hard time and a good time working and that the commandant is in earnest, qualifies as a commander of a college and make a crack battalion out of the platoon and are inclined to scoff at "CONNECTICUT STATE". As a good joke. The sooner they realize the better they will get along here it is required of all able-bodied men students in the freshman and sophomores and that the Connecticut State College, because of what the change, she will always more and more to drop away from the faculty, alumni and friends are going to detail, spit out your chewing gum, and obtain high standards honestly and by means. Preventing such methods or other reasons, we can only have or other means for a fair means or for a fair mean...obtain high standards in examinations was more or less common, but we were only children then and not be cut, or whether you may wear army uniform, worn with strict attention to detail, spit out your chewing gum, wipe the smile off your face and know your lesson.

Of course, there may be sins for which you will get demerits of which you know nothing, for it is the Major's inestimable privilege to decide how your grade shall be cut, or whether you may wear army shoes without a red stripe on them. But watch out as best you can for all faults and mistakes, drill your damdest and you may fool the military department by passing the course. Undoubtedly wonderful achievements can be accomplished with the raw material at hand, and with the present system of training, it would not be impossible to develop a second General Pershing out of some student with a leaning toward the military.

OFF TO RHODE ISLAND!

Today we are playing our old rival, Rhode Island. Every College has its own particular opponent who becomes its greatest rival in all sports, and we have had all the troubles, defeats, victories, hard feelings and friendships that come from a relation. Students are more and more to drop away from the agricultural type that Connecticut commendably maintains, but no matter what the change, she will always be the college which it pleases us best to whitewash in a game. Many students, probably more than the coming Dramatic Club Play the college is designated as Connecticut State College? That is a good thing and we wish everyone had as much forethought and courage as the major who made up the signs. The name of this institution has been badly misconstrued ever since the site was given to the State College, and a little over the inscription. Which shall indicate our true status? When it comes to cheering and our team will win with a backing such as this. The team is going to fight to win this last game of the season and we are going to help it win by backing it with all the power of thought, voice and feeling that we have. For those who like the game and the excitement, there are two classes, namely: Those who have to be out for one or more of the athletic activities or publications, or for any other reason.

"CONNECTICUT STATE"

Do you notice on the posters for the coming Dramatic Club Play the college is designated as Connecticut State College? That is a good thing and we wish everyone had as much forethought and courage as the major who made up the signs. The name of this institution has been badly misconstrued ever since the site was given to the State College, and a little over the inscription. Which shall indicate our true status? When it comes to cheering and our team will win with a backing such as this. The team is going to fight to win this last game of the season and we are going to help it win by backing it with all the power of thought, voice and feeling that we have. For those who like the game and the excitement, there are two classes, namely: Those who have to be out for one or more of the athletic activities or publications, or for any other reason.

GENTLEMEN

Dear Editor:

How about it? Do you always act the part of a gentleman? You should. Here in college one is making more mistakes. In the Annual Freshman-Sophomore rope pull, different in the following respects: the contest lasts twenty minutes and the rope used is two inches in diameter.

A marble tablet has been erected over the entrance of the Hawthorne Armory by the class mates of W. N. Hawley, '98, in memory of whom the armory has been named. Hawley died in the service during the Spanish-American war. The tablet is in the form of a shield with a wreath and cross guns carved in over the inscription.
KAMPUS KLIPS

They met in the golden sunshine
She was chestnut haired and soft-eyed
He was strong and masterful.
He rushed to greet her
While she stood timid and afraid.
It was their last meeting.
She was a heifer calf
And he was a locomotive.

Do the striking drug clerks want shorter sundays?
Mr. Dawson to Co-eds—“What do you girls do when you enter church on Sunday evening?”
Chorus—“Look for him!”
Ex-Corporal Mitchell—“Put your right shoulder on your left hip.”
Sophomore—“At what temperature will water dissolve?”
Freshman Girl—“How long does it take to get rid of a black eye, Nurse?” (O, what an eye has Mary!)
Do the co-eds use shoe-horns to get those tight fitting dresses on?
Professor—“What is co-education?”
Co-ed—“Co-education is a higher attainment of life.”
It’s tough luck when a “Captain” receives demerits for sleeping in class.
Try going to bed nights, Lockwood!
We have a man here at the college who served at three “bars” (previous to July 1).
Oh, what a lucky man!
Freshman Girls looking at a couple of calves:
First—“What pretty little cowlets!”
Second—“No, Irene, you're mistaken; those are bullocks!”
Has everyone heard about Harry Lockwood sitting on a stone wall and looking around for a “rock” to throw at a skunk?
Attention, students from Stamford and other way stations! Dan Graf reports that there is a new lunch wagon in Stamford. “Both” wagons will be open hereafter till 9:30 P. M. to accommodate the people coming home from the dances. Gosh!!
Louis Metelli has decided to take up nursing now. Feeley says he’d better practice on the horses and not on him.
Taylor can’t drill on account of his broken nose. Sure case of having to follow your nose.
At the recent School of Ag.—1921 class football game, Bendokas dropped a half a dollar on the field. Prescott, School of Ag., sitting on the stand heard it drop and recovered it on the thirty yard line.

Bill Maloney has published a book entitled “How to Get Fat at the Dining Hall.”

AMERICA is fast becoming a pipe smoking country. Every year more and more men are realizing the comfort, the satisfaction, and the economy of the pipe. And by natural selection, more and more men are smoking W D C Pipes. This is not chance. It is because W D C Pipes offer the utmost in pipe value. Honest French briar, seasoned by our own special process make W D C Pipes break in sweet and mellow. Coupled with that is a self-governed body of pipe makers whose sole object is to fashion pipes which are without peers in all the world. And it has been accomplished. Ask any good dealer.

WM. DEMUTH & CO., NEW YORK
WORLD'S LARGEST MAKERS OF FINE PIPES

DAIRY NOTES

The Tolland County Jersey Breeders Club held a meeting Monday afternoon, November 17, at the Dairy Building. This Club is one of the most unique clubs of its kind in the United States. The members first inspected the College Jersey herd, many seeing Beaudessert Pet and Golden Maid Emperor for the first time.
Prof. W. A. Rhea spoke on “The Pure Bred Sire Campaign,” which is being carried on by the State in cooperation with the United States Department of Agriculture. Prof. G. C. White spoke on “Type and Production in the Development of a Jersey Heed.” Association Bull Work was also taken up during the meeting.

Mr. Leroy M. Chapman of the department is now confined in the Hartford Hospital, due to an operation which he passed through a week ago.
He is said to be gaining strength rapidly and we hope to have him with us again soon.

The Experiment Station is issuing a new bulletin on the “Protective Properties of Milk,” which will soon be ready for publication.

The scarcity of water has brought into use the old boilers in the dairy. These boilers have not been used since the central heating plant was established, but now that the central plant cannot furnish heat to the dairy, the department must rely on the old system for supplying steam to the department.

Simple Eurotas, a Guernsey cow of the college herd, is being run under an advanced registry production test, and Prof. G. C. White promises that she will exceed her previous record of over 12,000 pounds of milk in one year.

Pinkham—“I’m a self-made man.”
Zunk—“Who interrupted you?”

FACULTY AND STUDENTS FEAST FOOTBALL SQUAD

GRATEFUL TO THE FAITHFUL TEAM

Food Not to be "Painted on the Plates." Will Have a Real Feed

Every afternoon since the 16th of September the boys have been doing their football togs and trotting out on the field where they have practiced tackling, falling on the boys running back punts and grabbing forwards out of the atmosphere. They have done their best to get the game to uphold on the gridiron the honor of C. A. C. They have been faithful and they have worked hard. There is a whole lot more to football than getting out in front of a cheering mob and pushing the pigskin over the goal line. That is what every man of them wants to do but that is only accomplished after weeks of what becomes almost drudgery. The boys are going to Rhode Island today and play the last game of the season. We have just witnessed what means the end and some of our heroes will sink into oblivion until next year.

It is certain that down in his heart each member of the Faculty and of the student body is grateful to the boys and to show their appreciation it has been decided to give the squad a "real feed" in the Dining Hall on Monday evening. Coach Guyer originated the idea and is making plans to give the boys something which will satisfy the inner man to the utmost.

The item of expense was a serious one. We all know the A. A. is not in condition financially to stage a banquet even to the most deserving and neither is the college rich so she can do. Mr. Evans is to do a heroic deed and the differential was quite readily overcome however when it was found how eager were those who make up the college and the A. A. were as individuals to put the deal across. The expense will be taken care of by subscription and although the details have not been arranged yet it is certain that the boys can look forward to a meal on Monday night which will totally eclipse even training table rations.

The following article taken from the New York Sun has about hit the nail on the head, in regard to the serious strike situations we are now facing. If the people would only realize the truth of the statements and go to work, we would all be better off.

"The workers everywhere find out that the panacea for their ills does not lie in allowing themselves to be entangled into the urgeanted and non-producing mobs by a lot of foreign-born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type, the better born, hair-tearing, hell-raising anarchists of the Trotzky type."

THE FAITHFUL TEAM

1. C. A. C. is not in condition financially to stage a banquet to the most deserving.
2. The college is not rich enough to cover the expense.
3. Coach Guyer originated the idea.
4. The expense would be taken care of by subscription.
5. The article was taken from the New York Sun.
6. The source of the article is reliable.
7. The workers need to realize the truth of the article.
8. The article emphasizes the need for cooperation and hard work.
9. The article is directed towards the general public.
10. The article is a call to action.
HOW WAR EFFECTS ATTENDANCE AT COLLEGE

Number of Upperclassmen Low­ered but Freshmen Class is Much Larger

The answers to the following letter show an interesting contrast between the college as a pre-war institution and as it is now. The data compiled shows that the number of seniors now enrolled in college courses is smaller than in 1916, due to war conditions, but that the number of freshmen now enrolled in the same course is nearly two and a half times what it was in 1916.

To Presidents of Colleges and Universities:

There being at present great interest in the status of college enrollment, the Bureau of Education is now gathering data for information on the following:

How far has war affected attendance at higher institutions?

Does the effect show equally among all classes, or is the possible reduction in enrollments confined to the upper classes and largely offset by increased enrollment of freshmen? The matter is of importance to all persons connected with higher education. I therefore take the liberty of asking you to have the figures suggested in the blank form below compiled at your earliest convenience and returned to this office for inclusion in a comprehensive report of this subject.

Yours sincerely,

P. P. CLAXTON, Commissioner

The figures compiled are as follows:

<table>
<thead>
<tr>
<th>Class</th>
<th>Freshmen</th>
<th>Seniors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nov. 1, 1916</td>
<td>143</td>
<td>277</td>
</tr>
<tr>
<td>Nov. 1, 1919</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
| 4. Enrollment of seniors in baccalaureate courses (arts and sciences, engineering, commerce, education, etc.)—
  | Nov. 1, 1916 | 28       |
  | Nov. 1, 1919   |          | 20       |
| 5. Enrollment of freshmen in baccalaureate courses (arts, sciences, engineering, etc.):—
  | Nov. 1, 1916  | 46       |
  | Nov. 1, 1919   | 168      | (Signed)

BASKETBALL PRACTICE

Regular practice will probably start immediately after the Thanksgiving giving recess and will be held daily. Practice will be held in the afternoon this year instead of the evening. This will be of advantage to the men because it will not interfere with their studies, coming at this time.

SHORT WINTER COURSES in Agriculture.

Recent appropriations have provided additions to lands, buildings and equipment valued at $950,000. Expenses low. No tuition charge to residents of Connecticut. Military instruction. A catalog will be sent upon request.

CHARLES LEWIS BEACH, President
NEW Poultry Calendar Is Great Aid to Farmers

Facilitates Keeping Records and Promotes Study of Farm Flock

“The biggest thing put out by any Agricultural College in years,” such is the one of Connecticut’s most prominent poultrymen’s opinion of the novel and ingenious poultry calendar just published by the Poultry Department, Prof. W. F. Kirkpatrick in charge.

The calendar is composed of thirteen sheets of cardboard about eight by twenty inches. Twelve sheets contain a monthly chart for the number of hens and pullets kept and the number of eggs laid by each. At the bottom of each sheet is a detachable mailing card containing the same data as above to be mailed to Roy E. Jones every month. In return the college mails the farmer a monthly bulletin of the ten highest pens in the contest.

SKINNER GOES TO CHICAGO

As Extension Sheep Specialist for Connecticut, A. G. Skinner will attend the Conference of Specialists in Sheep Work, which takes place Nov. 27 to Dec. 3, in connection with the International Livestock Exposition at Chicago.

Among more than a score of speakers on sheep extension from the entire United States, Mr. Skinner is scheduled to give two talks; one on “Demonstration Work,” and the other on “Boys and Girls Sheep Club Work.”

CONNECTICUT EXHIBITS

AT N. E. FRUIT SHOW

COLLEGE JUDGING TEAM AT N. E. FRUIT SHOW

Arrangements Being Made For Contest to be Held Here

Next Fall

The N. E. Fruit Show which was held at Providence November 10—13 was of especial interest to members of the College.

The Connecticut Exhibit was in charge of S. P. Hollister, ’05, of the Department of Pomology. H. G. Hallock, ’07, manager of the Washington Fruit Growers’ Association, entered several plate exhibits and won first premium on Northern Spy, he also received several other ribbons. R. C. Gulley, ex ’95, Manager of the A. G. Gulley & Son Orchards won first premium on the best ten boxes of apples; also second premium for the most artistic display. Walter W. Piper, Jr., ’15 School, packed the fruit for the Massachusetts display. F. J. Rimoldi, Professor of Horticulture at Kingston, Rhode Island, had an exhibit showing methods of box packing and also a variety collection consisting of eighty varieties of apples. Stancil Hale, class of ’96, Manager of the J. H. Hale Co., finished fifty boxes of beautiful Baldwins. The senior and junior classes in Pomology selected and packed these apples at Hale’s packing house. Members of these classes assisted in the staging of the exhibit at Providence.

The Judging Team consisting of Meers Bridges, Mahoney and M. L. Osborn did very well and lost to the well trained team from Massachusetts, coached by Professor Drain, by a score of only 48—47. The poor faculties during the contest hampered the teams somewhat.

Arrangements are under way to have a judging and packing contest held here at Storrs next fall. It is expected that a team will be sent from each of the New England Agricultural Colleges and it will be a contest worthy of our best efforts.

Those men who expect to enter for the contest should begin their training at once. The department of Pomology will be glad to cooperate with such students to its fullest extent.

HOME ECONOMICS

Francis Bristol and Mildred Gay spent the week-end at the former’s home in Ansonia.

Bernice Van Yorx spent the week-end in Dayville, as the guest of Mabel Field.

Margaret Dunn had as guests on Saturday Miss Anna Barry, Miss Isabel Courtland, Miss Ruth Charter of Willimantic Normal School.

Several Connecticut College girls visited Doris Linton on Saturday. Miss Linton was formerly a student at that college.

Mabel Pinney went home to see her parents over Saturday and Sunday of last week.
