NEW MILK CAMPAIGN TO BE STARTED SOON

PERMANENT MANAGER TO HANDLE PROJECT

Increased Consumption and a Heavier Production the Watchword

TWO years ago an intensive campaign was carried on in Hartford to advertise the use of milk and its products and last year a similar campaign was adopted in Hartford, Tolland and Litchfield Counties. Both of these campaigns proved to be a success from the standpoint of public welfare and it was realized that machinery ought to be set up whereby this work might be permanently carried on. After a thorough discussion of the subject the Dairy and Extension Staff decided to call together representatives from some of the organizations interested in this matter. This was done with very encouraging results.

VETERAN'S JOURNAL RECOGNIZES COLLEGE

PRINTS ARTICLE IN "STARS AND STRIPES"

Connecticut Produced Men, Munitions, Food—"Canned" the Kaiser—Killed the Cooties

The following article appeared in "Stars and Stripes" for Saturday, February 7, 1920, and is the tenth of a series summarizing what was done by the American colleges during the war. It is such an impressive article that we reprint it for the benefit of those who may care to keep a record of the achievements of their Alma Mater.

The "Stars and Stripes" is a publication gotten out in Washington, D.C., for the veterans of the World War and grew out of the "Stars and Stripes" that was published by the army during war times—Editor.

The college is very proud of many persons in Connecticut who had never heard of the Connecticut Agricultural College before April, 1917. The Nutmeg State is a right-little, tight-little manufacturing commonwealth that has developed a tendency to make silver spoons and fish lines and spool thread and brassware and goodness knows what all, to sell to the farmers of the big prairie country who, in turn, furnish the food and some of the raw materials to keep things going. The nation at large did not turn with expectant eyes to Connecticut when we went to war and Connecticut didn't turn it to its state college—not at first.

Then one day it began to be known that Connecticut was manufacturing 50 per cent of the munitions that the United States was hurrying across the seas to blow the Hohenzollerns to hell or Americogn and the Nutmeg State became the Arsenal State. The nation discovered Connecticut. All three counties were discovered Con­necticut and the臂izens who had never heard of the Nutmeg State when it was a part of New England were suddenly the envy of the world. The Nutmeg Formal Convention of the Connecticut Pomological Society was held in Hartford last Saturday. Professor A. T. Stevens was made president, H. G. Hallock, '96, vice-president and Mark Bishop, '09, secretary and treasurer. The meeting was well attended and a large number of pomologists were present. The election of officers was made. The next meeting will be held at the armory.

W. H. Darrow becomes Extension Specialist in Marketing

Mr. Darrow obtained his master's degree from Cornell University and has had three years' experience as Specialist in City Marketing in the United States Bureau of Markets. His work in that field brought him into personal contact with most of the marketing work in the eastern United States. At the present time, he is an inspector for the United States Bureau of Markets on the Boston market. He is thoroughly familiar with Connecticut conditions, and devoted much time to the initial organization of the Connecticut City Market Reporting Service.

Four men have been added to the staff of the Department of Economics of the college. These appointments mark the completion of the work of reorganizing the staff that has been under way since the resignations last summer of Guy C. Smith, head of the department, and H. B. Price. The department is now headed by I. G. Davis, formerly County Agent Leader for the Extension Service.

YESTERDAY AND TODAY CROWDS FLOCK TO SHOW

MID-WINTER FAIR IS SUCCESSFUL REALITY

Many Educational Exhibits Featured—Side Shows and Judging Contests Draw Students

This week-end finds the Agricultural Club entertaining the college and visitors with a combined agricultural exhibit and social.

Yesterdat one o'clock the doors of the Armory were opened to all who wished to see the exhibits. At three o'clock the contests of corn, small grains, potatoes and home economics were judged and premiums awarded by officials.

VI STORRS, CONNECTICUT, SATURDAY, FEBRUARY 21, 1920

COMMUNITY ROOM HAS BEEN LOCATED

Y. M. C. A. will be in Charge—Campaign Starts Soon to Furnish Room

The need of a room which can be used as headquarters for the Young Men's Christian Association here at C. A. C. has long been felt. The college also needs a Trophy Room to keep fresh the memory of its athletic triumphs. Furthermore there should be a room at the disposal of the college and the Community where small social gatherings may conveniently be held. These various needs are now to be met by the establishment of a Community Room through the cooperation of the Alumni, Faculty and Students.

President Beach has promised, for this purpose, the Armoury Lecture Room. This room is one of the finest on the campus, for it is centrally located, is well lighted and has a fine fireplace. It can be newly furnished so as to meet the needs outlined above. We can congratulate ourselves in so

POMOLOGICAL ELECTIONS SHOW FAMILIAR NAMES

C. A. C. Well Represented in Fruit Growing Circles

That Connecticut Agricultural College is recognized, either directly or indirectly in fruit growing circles of the state was pretty clearly shown by the result of elections at the Annual Convention of the Connecticut Pomological Society held in Hartford last Saturday. Professor A. T. Stevens was made president, H. G. Hallock, '96, vice-president and Mark Bishop ex-'19, county vice-president for New Haven County.

The Hartford Courant of February 16, devotes nearly a column to the subject and features Professor Ste­vens who is well known in Hartford on account of his work on the Committee of Food Supply there during the war.
ATHLETES

C. A. C. VS. TRINITY

On Friday the Varsity basketball team journeyed to Hartford determined to make up for their defeat of the previous evening by Mass. Aggies. Trinity gave Lockwood many chances to show his ability at shooting fouls and the Aggie forward showed the Trinity boys the proper way to drop the ball inside of the hoop. Lockwood alone scored enough points to defeat Trinity, dropping in sixteen foul goals and two field goals for a total of twenty points, while Alexander and Putnam each made a field goal, bringing up the Aggie score to twenty-four points, while Trinity was only able to collect seventeen points.

Several of the C. A. C. loyal roots journeyed to Hartford to take in the game and they gave the team that same support that has caused visiting teams on the Hill to comment upon the wonderful support of the student body at C. A. C. of its athletic teams. Referee Dillon was on the job every minute and, as usual, no fouls raised his eagle eye. Although this slowed the game to some extent they did not detract from the interest in the game. Both teams played in the fight every minute until the final whistle blew.

The first half ended in a tie, both teams having scored eleven points. In the second half, Lockwood cut loose at the start by scoring three goals in a row. Trinity then tied the score by means of a foul shot by Canner and a field goal by Leeke. Lockwood failed to shoot a foul and Canner put Trinity in the lead by scoring a single point.

The Aggies then displayed some of their clever passing work and Putnam eagled the ball putting C. A. C. in the lead. Lockwood dropped in two more goals sending the Aggies three points into the lead. Canner then brought Trinity up to within one point of tying the score, by means of two foul goals but Lockwood again put the Aggies farther in the lead by scoring a field goal and one more foul goal. Alexander added two points with a field goal and Lockwood ended his brilliant work with another goal for the final count of the game.

Canner and Brill performed well for Trinity.

The summary:
Trinity
C. A. C.
Van Orden, Capt. RF Lockwood
Lamb 16, Alexander 16, Brill 16, Canner 16, C. Gronwald Capt.
Tansill 16, Putnam 16, Hoard 16, LG Lord
Scores—Conn. Aggies, 24, Trinity 17

C. A. C. VS. MASS. AGGIES

Thursday evening, February 12th, saw the Mass. Aggie basketball team in action at Storrs. The game was extremely hard fought from start to finish and the last whistle found the Bay State boys in the lead by the score of 27 to 22. Although the game was a battle royal as the Mass. Aggies were anxious to even up for the defeat at the hands of the home team earlier in the season. The home team was just as anxious to win and keep a clean slate of victories in home games. The boys from Massachusetts gained a lead at the start and were never headed. The long shots of Thompson and Stedman were some of the prettiest ever seen on the local floor, dropping cleanly through the basket. The first half ended with the score 18 to 9 in favor of the visitors.

In the second half the home team rallied and came up to within four points of tying the score. Putnam scored two pretty field goals for C. A. C. But the Mass. Aggies kept up their fight and the game finished with the Bay State boys in the lead 27-22. In the second half Thompson and Thompson were the star men for M. A. C. Putnam played best for the home team.

The summary:
Smith RF Lockwood 2, Alexander
Grayson, ( Capt.) LF Alexander 16
Radio Thompson, C Gronwald Capt.
Stedman, Lent 16, Putnam 16, Sidler 16, Sickler, Lord
Foul Goals: Grayson 5, Lockwood 8, Referee: Ross.
Time of halves—20 minutes.

JUNIORS VS. FRESHMEN

The Juniors fought hard against the Freshmen but the underclassmen were not to be denied and triumphed over their upperclass rivals by the score of 25 to 12. Dehne, the freshman center displayed his ability to find the basket from the foul line by scoring several goals from fouls. Daly and Mullane also played well for the freshmen, while Johnson and Alexander excelled for the Juniors.

The summary:
Juniors Freshmen
Wallace RF Metelli 2, Metelli 16
Osborn LF Mullane 16, Mullane 16
Johnson C Juralewicz 25
Field Goals: Metelli 2, Metelli 16, Juralewicz 2, Brundage, Johnson 2, Wallace, Alexander, Osborn.
Foul Goals: Dehne 7, Johnson 2, Referee, Swarts.

C. A. C. VS. AM. THREAD

The Co-ed Basketball Team made the trip to Willimantic Wednesday, February 11, to return the game with the American Thread Girls which was played here Friday, January 30. The team went down in one of the college sleighs and some of the co-eds not on earlier trip came along to help and cheer them on.

Although it was a slow, tiresome ride down and the game was called practically as soon as our team made its appearance, the co-eds played a fine game and met the American Thread girls on their own floor with a lot of the good old pep and fight.

Connecticut's guards played excellently and prevented their opponents from making more than one field goal during the entire game. The ten minute halves were short and snappy and the game was played according to professional rules. Miss Wakerman starred for Connecticut, shooting the one field goal, also making good one of the fouls, so, at the end of the fast and exciting game the score stood 3-2 in favor of Connecticut. Miss Jacobson played in Miss Linton's place, owing to the fact that the team had not yet recovered from an attack of the grip.

A crowd of men from C. A. C. showed the proverbial "college spirit" by following the team to Willimantic and probably helped to win the game with the good old Connecticut cheer. After the game the two sleigh loads "mixed" and the return trip was made slowly but surely back to C. A. C.

JUNIORS VS. SOPHOMORES

The Junior Five added another victory to their list when they defeated the School of Ag. Monday night, by a score of 26-16. This is the second time the Seniors have won from the School and makes a total of seven victories. The School's team was completely swamped by Blanchard's Trost and kept the Seniors working every minute of the game. In the second half Meigs was replaced by Ricke, who shone in his scarlet jersey. Hopwood and Upham were going strong and were responsible for 22 of the 26 points.

The line-up was:
Hopwood Forwards Trost
Upham 2
Blanchard Center
Gleason 2
Bendoks Guard
Hilg 2
Bauer 2
Moore 16, Meigs 16, Ricke 16
Referee—Schwartz.

SENIORS VS. SCHOOL OF AG.

On February 9 the Junior Quintet engaged the Sophomore Five and the Senior the Freshman. In the first game the Sophomores were able to emerge from the game with a 29-11 victory to their credit. The stars for the Juniors were Blevins and Osborn and Lawson and Deen for the Sophomores.

The Senior Five won from the Freshmen by the close score of 14-13. The game was very fast and hard, Gleason, Hopwood and Upham starring for the Seniors; while Dehne and Brundage were the point getters for the Freshmen.

A total of 19 games have been played during this season, in interclass basketball and one game still remains to be played.
DABNEY OF DURHAM DODGES THE DEVIL
Proves Community Church Can Be Successful

After a strenuous trip from Willimantic via Enfield, Verne Dabney of Durham, New Hampshire, was able to reach Storr's in time to deliver an address at College Assembly February 11. Mr. Dabney is pastor of the Community Church at Dur­ ham. He spoke somewhat as follows:

There is a close relation between the Connecticut and New Hampshire State Colleges, bound together by a spirit of clean sportmanship. Each one is interested in the other's activities. He stood for the State Colleges, life for the preservation of the Union. Lincoln, a great man, makes us realize the need of the spirit of Lincoln to guide us through the terrible epidemic of disunity. The church is the best force for democracy and for the permanent construction of a dam which will control the waters in the Ravine.
CONSTRUCTIVE PUNISHMENT

Men whose rooms do not pass military inspection are now made to work out their deficiencies in some useful way. A notice posted on the bulletin board tells the delinquent men to report to Geo. W. Fraser, Superintendent of Grounds.

Formerly all men on demerit list were given an extra hour of drill. No apparent good ever resulted from this method. Each man's time, from one to two hours each, will be used to clear the walks on the campus which, at present, are cut by the student council, despite the fact that they really are, thus lessening rabble and try to put on an "East potato" campaign. The tubers were all used up, the normal consumption of bread, meats and other staples was thus reduced and the farmers who raised the potatoes and the city people who ate them so that the soldiers could have white bread and their meat, as more patriotic and more a part of the great war.

THE ATE COTTAGE CHEESE

The food administration wanted to help Hoover in his task of making a loaf of bread and three fishes feed the troops on both sides. The thought, however, that they needed a woman who could pry into the kitchens of the state's citizens and cheat the great American garbage pail of its traditional glories. Miss M. E. Sprague, home demonstration leader, was sent to Hartford. Miss Sprague already had women agents in most of the counties to work with farm and village women but the extension service quickly added agents, placing at least one in every city. The excitement became an obsession. The specialists taught the women how to work wonder—wonder. The consumption of cottage cheese increased by—well, we're ashamed to give the details. Nothing short of direct stress will make Americans consume great quantities of cottage cheese.

Connecticut is quite an orchard state. It is considered, it is "some" orchard state. Fruits and berries grow in abundance and the gardens produce no end of vegetables when hard driven. It was organized a camping school at Storrs in the summer of 1917. More than 400 women enrolled. Some of these "students" came from the wealthiest Connecticut families and they had to scrip to make the trip. All of them buckled down to work and studied canning and then went home to teach the new methods to their neighbors and the women farther down the street. These volunteer leaders gave a total of 170 community demonstrations in canning, in addition to first hand work. The home demonstration agents gave 244 demonstrations and reached 15,000 women in this way.

THEY CANNED EVERYTHING

Fifty-seven domestic science teachers in the schools of the state were given a summer course in canning and food conservation, at the college. Through their girl students these teachers reached other homes. The state could not be better off in this respect than at any time since the great war. The publicity man put on an "East potato" campaign. The tubers were all used up, the normal consumption of bread, meats and other staples was thus reduced and the farmers who raised the potatoes and the city people who ate them so that the soldiers could have white bread and their meat, as more patriotic and more a part of the great war.

NO SECONDS!

When things go wrong or do not suit my taste, I am always resort to crabbing or making a scene of some kind. The latest illustration of this happened within the last week, due to changes in the dining hall. Students have always been able to get seconds, especially in milk and vegetables. This privilege has been overdone to such an extent, that the management has been forced to do away with seconds for all. As long as college has a dining hall, the students will always put anything over on it whenever possible.

As it is, milk is a food and the cheapest food that we have for human consumption. It seems to me that when the dining hall authorities try to do away with giving milk at the meals they are cutting off the nose to spite the face.

This situation is one that may well be considered by the student council, by bringing facts before the people, so that they may see conditions as they really are, thus lessening crabbing. It is but natural that all are concerned, for it means taking tamperers with a man's food, it hits him in his weakest place, namely the stomach.

extension service of Connecticut Agricultural College, has the charge of the county agent and home demonstration agent and farm bureau work of the state, offered the services of the organization to the committee of food supply. He soon after tucked his feet under a desk in the food committee's office and started the machinery moving for more food products. There are eight counties in Connecticut, each with a county agent. One county agent even induced the city jailers supplying its own food needs than at any time since the great tide of western farm immigration set in from New England.

MANY WAR GARDENS

Old men, women, boys and girls rallied to the farm colors. The Women's Land Army and the Boys' Land Army were provided a machinery by which they could dispose of their forces. In 1918 farms were supplied with 2,168 men and boys. One county agent even induced the city jailers to put 200 prisoners at farm work under guards. Backyard gardens were encouraged in the cities with the idea of keeping them in clover work. In Bridgeport alone, the special agent of Fairfield county superintended the work on 2,000 war gardens.

The extension service provided a marketing specialist who supervised the distribution of products. The publicity man took over the task of press-agentry to the whole of the food committee. With the generous newspaper cooperation and a liberal use of posters, the need of every day was carried home to producer and consumer. When the farmers raised a whaling big crop of potatoes, the publicity man put on an "East potato" campaign. The tubers were all used up, the normal consumption of bread, meats and other staples was thus reduced and the farmers who raised the potatoes and the city people who ate them so that the soldiers could have white bread and their meat, as more patriotic and more a part of the great war.

THEY ATE COTTAGE CHEESE

The food administration wanted to help Hoover in his task of making a loaf of bread and three fishes feed the troops on both sides. The thought, however, that they needed a woman who could pry into the kitchens of the state's citizens and cheat the great American garbage pail of its traditional
A buzz saw can teach an inquisitive man more in a minute than the best instructors can teach him in a lifetime.

Only one beverage will be allowed each person at each meal. No seconds.

Harry Lockwood has another bargain. Why not use your toboggan to take the boys to Willy?

Student: Hey, Bud, what time will I see you today at four thirty?

Bud: Oh, about half past four.

The community wishes to thank Red Markham for his good work in attempting to scrape the main road with his Fliver last week.

Most of the splinters in the basiner of life are unnoticed until we begin to slide down.

Answer in English final exam:—"The purpose of this course is to teach us the "write" way to use English."

When Mitchell was ill at home he received a very soft letter from Northampton, Mass.

"Soop" must have a girl at Four Corners or Eagleville. We don't see much of him these days.

The Fourth Section is very sorry to lose the editor of its Nutmeg.

Larry Osborn in Hort 5: "Mr. Fraser, isn't an apricot a dried peach?"

bacteriologists, agricultural leaders—these are the sort of men that cannot be recruited hastily and whose services are invaluable. Connecticut Agricultural College supplied them.

That the state now recognizes the importance of its agricultural college in peace or war is shown by a comparison of 1919 enrollment with that of 1917. Fewer than 200 students attended the college in pre-war times. Last fall nearly 350 students were enrolled and 50 applications had to be turned down because of lack of dormitory accommodations. The agricultural college, in throwing its entire resources of brain and brawn into the task of war-making, paved the way for an unexpected and spectacular growth after the war.

Perhaps no feature of the contributions of Connecticut Agricultural College toward the progress of the war illustrates more uniquely the ramifications of a modern agricultural college than that of "cootie control" work by Prof. G. H. Lamson. Prof. Lamson's investigations led to a request that he be sent to Washington to study this problem of the trenches. For months he trailed the trench louse through his life history and succeeded in introducing relief measures of value.

The Power of Electricity in Transportation

Electricity has leveled out the Continental Divide. The steam locomotive, marvelous as it is after a century of development, cannot meet all of the present demands for transportation facilities. Its electric rival has proved to be far superior.

On the mountain divisions of the Chicago, Milwaukee & St. Paul Railway—the world's greatest electrification—giant electric locomotives today lift an ever increasing freight tonnage over the mile-high Rockies and also make traveling clean and comfortable. They utilize the abundant energy of distant waterfalls and then, by returning some of this power to the trolley, safely brake the trains on descending grades. And their capabilities are not impaired by excessively cold weather when the steam engine is frozen and helpless.

Electricity is the power which drives the trains of New York City's subway and elevated systems. It operates the locks and tugs the ships through the Panama Canal. It propels the Navy's latest super-dreadnought, the New Mexico. Electric mine locomotives have replaced the slow-moving mule and the electric automobile has also come to do an important service. Such achievements were made possible by the extensive research and manufacturing activities of the General Electric Company.

Electricity has become the universal motive power. It has contributed efficiency and comfort to every form of transportation service and in this evolution General Electric apparatus has played a large part—from mighty electric locomotives to the tiny lamp for the automobile.

CONNECTICUT CAMPUS
The Sigma Alpha Pi Fraternity held its Tenth Annual Banquet in Bond's Restaurant of Hartford on February 14th. This was the largest banquet in the history of the Fraternity. Nearly all of the active body were present and many of the alumni.

Among the alumni present were the following: Professor G. W. Reynolds, ’86; “Buzzy” Mattoon, ex-’19; “All” Mallet, ex-’19; W. H. Wright, ’16; L. K. Burwell, ’15; P. L. Sanford, ’18; “Pug” Klingman, ’17; “Sid” Edwards, ’18; R. A. Smith, ’13; C. W. Jewett, ’13; E. M. Luther, ex-’19; W. B. Smith, ’17; Alex F. Forbes, ’12; “Hockey” Crocker, ’12; W. Penn Langdon, ’16; R. M. Risley, ’15; Earl H. Nodine, ’15; and George B. Alcott, ex-’21.

The program for the evening was as follows:

Toastmaster—
Brother A. C. Klingman.
Address of Welcome—
Brother D. A. Evans.
Response—
Brother R. A. Smith.
Idea of the Fraternity—
Brother H. B. Goodrich.
Meaning of the Fraternity to Alumni—
Brother S. A. Edwards.
Why I came East—
Brother P. L. Sanford.
Presenting of Awards—
Brother E. W. Crampton.
Impromptu—
Fraternity Song—
Alma Mater—
“Sid” Edwards is now working in Meriden having resigned his position as foreman of the foundry works in Naugatuck.
The home of Ted Earley ’13 was recently destroyed by fire.
“Bump” Burnham writes from Holister, California, that the country there is ideal at this season of the year.

PHI MU DELTA

The midyear initiation of the Fraternity was held Friday and Saturday nights of the week ending February 14. The initiates were John B. Ricketts of Norwich, Henry E. Flynn of Bridgeport, and B. E. Standish of An­dover.

Friday night the rough part of the ordeal was performed. When the time came for the branding Ricketts said that he could really feel the leech burn. All three initiates seemed to experience difficulty in passing thru a barrel with a head in one end. To wind up things they were lost in the attic of the main building without lights. Flynn had an idea he was in the horsebarn. Ricketts says that if it wasn’t for a certain beam on which he bumphed his head that he would have been O. K.

Saturday night the formal initiation took place. After the ceremony ice cream and cookies were served. Af­ter this, pool, card games and music furnished amusement for the rest of the evening.

SIGMA ALPHA PI

SHARPSHIRE SHEEP
BERKSHIRE SWINE

PERCHERON HORSES
THE CONNECTICUT AGRICULTURAL COLLEGE
FARM DEPARTMENT

Louis T. Brancroft ’98 has been attracting considerable attention lately with his balancing act. He founded the Bank crop Airplane Company at Elmeree, Delaware late in 1918. The machine was not completed early enough to be of use in the war, but now it is the subject of much discourse.

H. G. Hallock, ’96, has been elected Vice-President of the Connecticut Po­litical Society.

“Tommy” Mead ’19 is now studying at the University of Minnesota for his Master’s degree. Mead spe­cialized in Dairy Husbandry and in 1917 won a scholarship over sixteen competing judging teams at the Na­tional Dairy Show. At present he is doing seminar and research work and is experimenting on the raising of calves with a minimum amount of milk.

ETA LAMBDA SIGMA

Don de Otte ’23 has left college because of his health and will spend a year on the ranch of Senator Rine­hardt, Conquialo, New Mexico. He ex­pects to return to college next year.

Victor Aubry ’12 spoke at Farmer’s Week in Hartford on poultry.

Harold Bridges ’19 has accepted a position with Thompson, the Florist, in West Hartford. His address is now 51 Maplewood Ave., West Hartford, Conn.

Walter Clarke, ’18, who has been confined to his bed for the week has now recovered and resumed his duties with the Extension Department.

Thomas Murphy ’20 has completed his studies and is now living at his home in Worcester, Mass. He will re­turn in June to receive his degree.

SEIKO

THETA ALPHA PHI

The names of the following mem­bers of the Dramatic Club have been sent in as charter members of the chapter to be installed here: Loretto N. Guilford, Flora M. Miller, Paul N. Manswaring, Earl W. Crampton, Salome C. Smith, Everett D. Dow, William F. Maloney and Herbert F. Webb. In order for a candidate to be eligible he must have taken an im­portant role in two plays or a minor part in four plays. The management of a play is equivalent to an important role. It is expected that the con­stitution will be received in a few days and the initiation of the candi­dates held.

SHAKESPEAREAN CLUB

DAIRY

While in Hartford during Farmers’ Week, Professor G. C. White attended the annual Conference and Banquet of the Connecticut Dairyman’s Association. The main topic under discussion during the entire conference was the value of pure bred sires and their role in increased production. In the course of the meetings, Professor E. Dorsev spoke on pastures and their value and care. Honorable Marcus Holcomb and George McKen­non, President of the Wisconsin Dairymen’s Association, were present at the ban­quet.

A pure bred Holstein cow of the college herd, recently completed a year’s test in which she produced 2405 pounds of milk and 935 pounds of butter. During this test, she established a new state record of 115 lbs. milk in one day; and also a seven day record of 786 pounds milk which is the record for New England.

Prof. G. C. White received a request last week from the largest ice cream firm in Connecticut for four or five men to assist them for four weeks. Because of the influence experienced help is very scarce and the company is unable to carry on a full program. Several students were anxious to go as the position insured good wages and practical experience but because it is impossible to supply all demands such as this the board decided it best that the men be not allowed to go. A yearling Guernsey bull was sold Wednesday to C. F. Handle of Glaston­bury.

The bull is a son of Lorin Masger who recently produced over 50 pounds milk per day and is the second Guern­sey bull to be sold this winter out of the college herd.

During the absence of the college herdsmen, several weeks ago, and dur­ing Farmers’ Week, students have had almost entire charge of the college herd and their work has been very highly commended by Professor G. C. White.

The entire staff of the Dairy De­partment were at one time or another present at Hartford during Farmers’ Week.
MILK CAMPAIGN

person should be placed in charge who will devote his entire time to the work.

(b) That all organizations and institutions interested in spreading public

knowledge of the value of milk as a food should be invited to take part in this

campaign and become a part of the project.

c) That the work should be con-
ducted by a Board of Directors con-
sisting of one representative from
each interested organization.

d) That there should be created from

the Board of Directors an execu-
tive committee.

2. Voted that the Chairman appoint committees as follows:

(a) Committee of two on by-laws. Joseph A. Allop—Avon

Prof. G. C. White—Storrs.

(b) Committee of three on finance:

Charles G. Morris—New Haven.

H. H. Mason—Hartford.

Eliah Rogers—Southington

(c) Committee of two to present names of eligible candidates for Man-

agers.

Dr. John T. Black—Hartford.

H. J. Baker—Storrs.

3. Voted that those present from the Connecticut Agricultural College serve as a committee to send the min-

lessness that may be presented.

Next Sunday, February 22, Rev. Morris E. Alling of the Church

World Movement will address the congrega-
tion at the morning service. This opportunity of hearing Mr. Alling

is one that has long been looked for-

ward to by members of the student body and faculty, as he is personally

known to some of them. An effort is

being made to advertise so that no one may miss hearing him.

Another treat will be offered on February 29, when Dr. Sheared Soule of

Hartford will occupy the pulpit and will assist in the baptism of in-

fants. Dr. Soule has become very popular with the students here and

his coming is welcomed with much

enthusiasm. Last year Dr. Soule was

brought here at the special request of a student and for some rea-

son few attended church that morning.

Those who did not, have ever since

regretted missing the opportunity of hearing this speaker and feared it

might discourage him against coming

again.

The Vesper Service will be held at

4:45 on Sunday, February 22 in the

Church. Mr. Savage will address the

meeting. Those who have heard Mr.

Savage know that he is an able and

interesting speaker.

The usual Christian Endeavor ser-

vice will be held at 6:45 in the Church.
The leader is unannounced, but our

meetings are always interesting. If you

don't believe it, come over and we

will prove it.

MID-WINTER FAIR

to seats in the front of the Armory where several were wont to be from

laughing. The movies were follow-

ed by the revelations of the identity of "Cleodora" the mysterious young

lady who was so daring as to distrib-

ute hand bills advertising the Fair,

through the village and dormitories

last Friday night. Then with his

usual pep "Brub" Dow distracted the

audience through two short acts of

vaudeville after which dancing was

enjoyed with the help of the college

orchestra until 11 o'clock.

Today finds the live-stock enthusi-

asts "sizing-up" animals in the judg-

ing ring; dairy cattle coming in the

afternoon. The participants in these

contests really have something to work

for, as besides the medals awarded the

winners, trips with the college judg-

ing teams next fall are being antic-

ipated. It is rumored that one or

possibly two teams may make western

trips in the autumn. Representative

will at least be sent to Springfield and

Brockton Fairs.

The winnings in exhibits and judg-

ing contests will be published next

week.

THE CONNECTICUT AGRICULTURAL COLLEGE

Storrs, Conn.

REGULAR MEETING
OF W. S. G. A. A. HELD

Future Plans Discussed and Absent Members Remembered

A meeting of the Women's Student Government Association was held Friday evening.

Types copies of the Constitution were given to each of the members.

Mention was made concerning the absences of Stella Cylkowski and Mary Maloney. Miss Cylkowski is to undergo one or more serious operations which will necessitate her absence for the rest of the college year; while Miss Maloney was called home because of sickness in the family. Suggestions and plans of remembrance were adopted.

Social activities were also discussed. Owing to the lack of easy entertaining facilities the Social Committee welcomed any novel and original ideas.

A PARODY

How queer to our eyes are the scenes of the mess shack,
As three times a day they're presented to view;
The cloakroom, the hallway, a little old table
Two lysol-filled buckets to ward off the "flu."

And there, near the table are crepe paper towels,
And to hold the waste paper a basket for two.
The long rows of students, they dip in their fingers,
And wipe on the towels to ward off the "flu.">

Just two little buckets for three hundred students,
Two lysol-filled buckets to ward off the "flu." —POC3

NEW INFIRMARY READY

The new infirmary at the head of Swan Lake was to have opened, and the nurses take occupancy on February 1st. Due to the severe storms and delays, the infirmary was unable to be opened. Part of the furniture, including six beds, has already been installed. More furniture is on the way and will be added soon as it arrives. The electric wiring has also been retarded on account of the electric supplies not arriving. It is hoped that everything will be finished so that the nurses can move in, in about a week.

A date has not yet been arranged for the contest between the winners of the interfraternity pool tournament and a picked team consisting of two members of the Faculty.

JUNIOR WEEK DETAILS
PLANNED BY CLASS

All Committees Named. Action Taken on Freshman-Sophomore Banquet

At a regular meeting of the Junior Class, held on Monday, February 9, it was unanimously voted that every Junior would keep himself strictly neutral in the matter of the Freshman-Sophomore banquet.

In the past the Junior Class has often materially aided the Freshmen in their plans of eluding the control of the wise Sophomores. Times and opinions are changing. From now on the contest will be of such a nature that the class with the best leaders and organizers will win.

The following committees have likewise been appointed by: Chairman Dow. Junior-Senior Banquet Committee-Chairman, Frank Griswold; P. H. Wallace, C. C. Crompton, Doctor L. S. Spencer. The Co-eds have agreed to put on May-day exercises, for which the following committee was named: Frances B. Bristol, Agnes M. Hallock, Dorothy M. Moss, Salome C. Smith, and Mary F. Dwyer. The Junior Play Committee consists of Salome C. Smith, chairman, H. L. Woodford, William H. Pool, C. M. Hartwell.

Publicity Committee—Earl D. Blevins.

Tablet Committee—W. F. Maloney, chairman, F. C. Mair, E. D. Dow, John H. Rigger will assume the vacancy made by E. B. Shulman on the Decoration Committee of the Junior Prom.

The chairmen of the various committees will form another committee to be called an Executive Committee. The members are as follows: J. P. Johnson, H. W. Fiennemann, W. F. Maloney, Salome C. Smith, Frances B. Bristol, C. J. Austin, Crawford Griswold and N. W. Alexander.

This practically completes all the committees for Junior Week. The plans are so comprehensive for that week that every member of the class is working on a committee. This itself is a good assurance to everyone that this Junior Week held by the Class of 21, will be the biggest ever.

PHI EPSILON PI

Emanuel Shulman has left for New York City where he will attend the College of the City of New York during the second semester. He is expected to return to C. A. C. this fall and finish out his senior year.

On February 22 a new chapter will be installed at John Hopkins University in Baltimore, Md., and will be known as Delta. The addition of this chapter makes a total of twenty-one.

Donald Hirsh '19 is expected to visit the Hill on February 21.
