SHAKESPEAREAN CLUB GIVES SOCIAL AND DANCE
ARMORY TRANSFORMED TO UNIQUE CABARET

Peerless Orchestra Furnishes Music

The annual social and dance of the College Shakespearean Club was held in Hawley Armory Wednesday evening, April 28.

The Armory was divided in half by the large net and the part nearest the stage used for dancing. This entire half was made into a little cabaret and was uniquely decorated, the color scheme of maroon and gray, the latter's colors, on an evergreen background being used. Crepe paper domes of the same colors helped out the effect. A circle of tables with white clothes and red candles and shades formed the outer edge of the dance floor, and the candles furnished the necessary light for the two moonlight walkways. At either side of the stage was a decorated box, one for the orchestra and the other for the comfort of the guests.

Dancing was from 7:30 to 9:00 when there was a concert for an hour, during which luncheon was served. At eleven o'clock the strains of "Home Sweet Home" ended the program of the evening.

The order of program was:

me am' You
Things to Smile About
C. S. C. Salad Zepherettes
Cakes Creme a La Carte
Nuts Confere au Sucre
Patrons and Patronesses were: Mr. and Mrs. G. H. Lamson; Mr. and Mrs. S. P. Hollister and Mr. and Mrs. A. W. Manchester.

Music was furnished the Peerless Dance Orchestra from Willimantic.

CONNECTICUT MARKSMEN SHOOT WELL IN MEET

Highest Individual Score

By Bendokas

The rifle match between the Connecticut R. O. T. C. Rifle Team and the University of Maine Rifle Team resulted in a victory for Maine. The team scores were Maine 964, Connecticut 980. Each competitor fired twenty shots on the 50 foot indoor range. A. J. Bendokas made a score of 194 which was the highest individual score in the match. L. W. Davee of the Maine team was second with 193.

COLLEGE WATER SUPPLY IS NOW VERY PURE

Tests Made Show Low Number of Bacteria

No Coll Germs Present

Bacteriological analyses reveal that during March and April the college source has been of the highest quality. Only one coli germ has been found during the past month. Since April 13, the water supply has been perfect.

According to W. M. Esten, Professor of Bacteriology here at the college, the artesian well is now producing the best quality of water since it was drilled. It seems as if the former soil contamination had slowly purged.

On a series of dates between March and April 27 samples of water were taken direct from the well, from Storrs Hall and from the Bacteriological Laboratory. Tests for both kind and number of bacteria were made.

In sample of water taken direct from the well on March 27, 151 bacteria per c. c. were found; on April 17, 8 bacteria were found per c. c. and on April 21, 4 bacteria per c. c. The corresponding counts for water taken from the faucet in the Bacteriological laboratory were 105, 12 and 9. For Storrs Hall the counts on the same days were 211, 12 and 15 c. c. In the thirty tests only one coli germ was found.

An artesian well should not contain more than 50 bacteria per c. c. Since no coli germs have been found during the past month it is evident that our water supply is of an excellent quality.

This match was the first to be fired by the R. O. T. C. team and the showing made is quite encouraging. A similar match will be fired against the University of Vermont team during the week of May 2-8.

The scores are as follows:

University of Maine

L. W. Davee ........... 193
A. F. Sullivan ........... 192
L. W. Martin ........... 192
H. Cahill ........... 188
R. J. Smart ........... 188

Total Score ........... 964

Connecticut R. O. T. C.

A. J. Bendokas ........... 194
P. H. Lawson ........... 192
A. W. Frosdholm ........... 182
G. E. Sny ........... 182
P. L. Strewe ........... 181

Total Score ........... 909

WESLEYAN MEN TALK ON CHRISTIANITY

Mass Meeting Well Attended

Athletes Create Deep Impression

Five Wesleyan students came to Storrs Friday, April 23, to speak in a religious way to the men of the College. At the Armory, Friday night, a mass meeting was held to receive them and it was well attended by the male students.

The college orchestra first played the audience into a happy frame of mind with two selections. Mr. D. Evans of the Senior Class, then introduced Mr. Anderson of Wesleyan as the first speaker. Mr. Anderson was an all-round athlete, was captain of football in 1918 and is now captain of track. He caught the attention of the audience at once and held it with his strong, simple appeal. He was followed by Mr. H. MacDonald; Mr. J. Peck, who is a star football man and President of the Y. M. C. A. at Wesleyan; Mr. Page Sharp and Mr. H. A. Lunn, coach of the Wesleyan track team and secretary of their Y. M. C. A.

It seems that the famous philosopher and religious worker, Dr. Crance, being an alumnus of Wesleyan, came back to his alma mater to revive the religious feeling of the students. The five men who came to Storrs to diffuse upon others some of their excess religious enthusiasm, testify as to his over-riding success at Wesleyan.

They talked well, simply but powerfully. They endeavored to put across the message of Christianity, what the Christian life means to them, and how they came to adopt a new scheme of life. They were given the closest attention by every man in the Armory. Saturday morning the five men left for Wesleyan well satisfied with their reception at Storrs.

SCHOOL OF AG. HOLDS ANNUAL BANQUET

"Listen Lester" at Parson's Before Feed

The Class of 1921, School of Agriculture, held its annual banquet Saturday, April 24, 1920 at Bond's Restaurant in Hartford. The school men left the hill after dinner on Saturday in three autos. Arriving in Hartford they attended "Listen Lester," which was playing at Parson's Theatre. At about five o'clock they retired to Harry Bond's where the banquet was served. (Cont. on page 3 col. 1)
SPRINGFIELD WINS IN COLD GAME

LIGHT SPRING FOOTBALL PRACTICE STARTED

Veterans Assist in Coaching

Coach Gayer sounded the first call for spring football practice Monday afternoon. C. A. C. expects to work with football team next year and has several likely-looking, but inexperience players now in college, the coach hopes to train some of the rudiments of the game this spring and thus be prepared for a quick get-away next fall.

It is not expected to have practice every day but to have a squad out two or three times a week. Practice will consist mainly of handling the ball, falling on the ball, running and getting down under the punt, catching forward passes and tackling the dummy.

Success of last season's players are on the baseball squad and will not be out. But there are more who will develop into good football players and these are the men who should be held for spring practice. Gleason and Maguire, veterans of last season's squad will be on hand to assist in the coaching.

Let's go! Football players! Remember the watchword! A win over Trinity in the opening game and a clean slate for the season!

TRACK MEET WITH MASS. AGGIE CANCELLED

Hard Work Needed Before R. I. Meet

Track meets at present under consideration depend on the results of the Interclass Track Meet which is to be held Friday, April 30, at 4:30 P.M. Those who show interest and ability in this meet will be the “chosen few” to take part in any meets which will be held with other colleges. We have but few men who have ever been on the cinder path before and experience is lacking but by hard work and only hard work they may be whipped into shape.

The meet with Mass. Aggie has been called off. A meet with Rhode Island State to be held at Kingston is under consideration now and will be held June 5 if the desired results are obtained at the Interclass meet.

For the past few days the weather has been so unfavorable that the runners have not gotten much out-door work but there is still time for plenty of hard work. No one will be begged to take part in this class meet and only those interested need expect to take part. If such an opportunity held. Whether or not any meets are held depends on the success of those interested and willing to work hard.

The Connecticut Aggies lost the second game of the season to the Springfield Y. M. C. A. nine at Pratt field by the score of 5 to 0. Carlson, the Springfield pitcher and Purvere, who replaced him toyed with the Aggie batters and let them down with only four hits.

Alexander started on the mound for the Aggies and seemed unable to get started but when he got his arm working he held the heavy sluggers from Massachusetts to one hit in the last five innings. Springfield started the game off with a bang and had it safely stowed away before the Aggies frame was over.

Connecticut went out in a row in the first inning. Norfeld laid down a perfect bunt and beat Mahoney's throw to first for the hit of the game. McCarraker sacrificed to second and he scored on Calbach's hit to left field, Calbach going to second on Lord's throw home. Carling hit a single on the nose for the win, and Calbach scored. Olsen sacrificed but Carling was left stranded on third when Zeiger was thrown out at first by Alexander.

In the second Hopwood walked. Alexander cracked the ball through the pitcher's box which would have gone for a hit under any other circumstances but Calbach was there covering the base to catch Hopwood and he nailed it and threw Hopwood out. Bauer was thrown out at first. Bennett connected for a single and went to second on the pitched ball. Brigham clearly nailed him but the umpire called him safe and said that he never would call a man out if the baseman waited for him to elude instead of going out to meet him. Carlson fanned. Norfeld hit to Fieldman, the ball bounding out of Fieldman's hand and Bennett raced home for Springfield's third and last run.

From this point Alexander got his arm working and had the Maroon and White batters eating out of his hand and the Aggie batters were unable to connect and failed to get a run across the plate. The only time that Connecticut threatened to score was in the sixth inning. Emigh worked Purvere for a base. Brigham hit to Carlson who threw him out at first. Fallon whirled to throw to catch Emigh and the ball shot out of his hand and rolled into right field Emigh romping to third. A controversy arose as to whether Brigham was safe or not but it was finally decided that he was out. Lord was unable to connect however, and Connecticut's only chance to score was lost.

FOOTBALL SCHEDULE FOR SECOND TEAM

Eight Games In All

Assistant Football Manager E. White has the second team schedule well on the way for the 1920 season. At present he has five games arranged and three dates open. He has written to Hartford High, Trinity, Springfield and Rhode Island for games but has not heard from them. Inasmuch as the second team is only allowed a certain sum of money it will be necessary to charge a small sum for admission to the home games to help cover expenses. The second team in football plays the most number of games of any second team on the Hill and it is up to the students to back it up and help support them. The schedule he has arranged is as follows:

Oct. 2 Norwich Free Academy on Dow Field.
Oct. 6 Pompfret at Pompfret.
Oct. 9 Open.
Oct. 16 Amherst A.C. 2nd year, at Amherst.
Oct. 16 Loomis at Windsor.
Oct. 23 Open.
Oct. 30 Open.

INTERCLASS TRACK MEET HOLDS POSSIBILITIES

Blue and White May Run Against R. I.

The Interclass Track Meet originally scheduled for Monday, April 26, has been postponed to Friday, April 30. Coach Gayer is expecting a large number of men to appear and show their ability as track athletes. This is the first outdoor class track meet that has been held at the college in several seasons and the records made will go a long way in determining the possibilities of C. A. C. in intercollege competition.

There have been several men out working every afternoon in preparation for the meet and fairly good time should be made. Those who show interest and ability will be held June 5 if the desired results are obtained at the Interclass meet.

The meet with Mass. Aggie is to be held June 5 if the desired results are obtained at the Interclass meet. Any student who has any material which they wish to get in should hand it to him. He is also taking subscriptions.

The paper is published once a week and comes out on Saturdays. The subscription price is 25 cents a year, which is less than 2 cents a week and is well worth taking for anyone who is interested in athletics.

PIGSKIN MEN OUT FOR SPRING PRACTICE

COLLEGE NEWS APPEARS IN NEW PUBLICATION

Phil Dean Writes For Connecticut Amateur Sportman

Connecticut is being represented in another paper, The Connecticut Amateur Sportman. This is a new paper and covers Amateur Collegiate and Semi-Pro. Athletics. It does not cover anything professional.

The aim of this paper is to cover the entire state and to promote better amateur sports in Connecticut.

The Connecticut College page is being written up in connection with the press bulletin which was started here a few weeks ago to get Connecticut State College News into the papers. This should be an excellent paper for such purposes.

Connecticut interests are being looked after by Phil Dean, who is writing for The Sportman. Anyone who has any material that they wish to get in should hand it to him. He is also taking subscriptions.
RULES FOR CLASS
OF '24 READY

Mediator Approves Changes Made

The rules governing the conduct of the incoming Freshmen Class, which were recently drawn up by a committee appointed by the present Class of 1923, were presented to the Mediator for their approval. This body has acted upon them and after making a few necessary changes, have finally consented to their going into print.

The rules contain many changes from those that have been published in years past. Care has been taken to see that they are all made clear, thus avoiding any getting around them by the Freshmen.

Much credit is due the committee who had charge of drawing them up.

DAIRY READING
ROOM COMPLETED

New Creamery Equipment Has Arrived

The Dairy reading room has been completed and is now open for student use. Most of the leading dairy publications are on file there and access may also be had to the college herd books and other reference works. Prof. Fisher states that one of the main purposes in establishing this reading room was to create an interest in the work and to help the student keep up with the current dairy literature.

Two new separators and part of the new equipment for the creamery has arrived and will be installed pre-paratory to next year's class work.

Fay Payne and Princess Segit Storrs De Kol, daughter of the former Holstein herd sire, are under a one year advanced registry test and are milking from 45 to 50 pounds milk per day, following their second calf. An Ayrshire heifer, Mauchlin Whitehall True, daughter of the state champion cow is milking from 45 to 50 pounds milk while her second calf.

(STORRS HALL BRIGADE
PASSES IN REVIEW

Full Dress Uniforms Much In Evidence

On Thursday evening, April 22, the annual inspection and parade of the Storrs Hall fire brigade and drum corps, Inc., was held.

After a very brief entertainment by the drum corps, for members only, the fourth section of Storrs Hall, the uniform of the night was prescribed by the C. O. and soon after fifteen "huskies" fell into line, arrayed in full dress uniforms in which red shirts were conspicuous by their absence. The column paraded through Storrs Hall to the martial strains of "Where is my wandering boy tonight?" However the reporter could find few people that recognized the tune.

Be that as it may the upsurge produced was sufficient to awaken all the adventurous ones who dared to turn in before 10:30 P.M. Scouts were sent ahead to book for singing parties and to locate all heavy sleepers.

Many and varied were the feelings of the poor unfortunate who suddenly awakened from dreams of homes, found themselves surrounded by a bunch of solicitors serenaders.

When all the highways and by-ways of Storrs Hall had been covered, it was decided to acquaint the denizens of Koons Hall with the existence of the organization.

"Reefers" were secured to defy the wintry weather on the trip across the campus. On arriving, the band struck up "Yankee Doodle" and the procession proceeded gaily.

Unexpected difficulties soon arose, however; some unfortunate citizen had turned out the lights and all attempts to "Bring on the Buckets" were heard. The Chief, after much persuasion, convinced the delighted audience that it was too cold a night to spend the water so promiscuously and the procession was allowed to continue. When the end of the route was reached and the "Reefers" which had mysteriously disappeared in the shuffle, were recovered, the party returned to Storrs all satisfied that they had been a "bowling success."

NEW SIGN BOARD IN LEFT FIELD

During the banquet there were speeches by Mr. Warner, the class adviser; R. C. Glover, class president; members of the banquet committee and others. Meigs, Miller and Mucha made all arrangements for the banquet. A. H. Graff was toastmaster. The affair broke up at 7:30 P.M. and many members of the class went home for over Sunday.

Although Manager Osborn could not obtain a new grandstand for the spring baseball season, he did obtain one addition to the field's equipment, a new score board.

The board measures six by twelve feet and is set on posts in left field, where it is plainly visible both from the grand stand and from the side lines. The score board was built for the Athletic Association by Mr. Blake and is being painted by Vernon Pinkham, '29, who hopes to have it ready for the game with Middlebury on the 29th. "Father" Bauer has the honor of having batted the first ball which hit the score board.

Work on the running track and jumping pit has been nearly completed and both are in good condition for a meet.

College Catalog
GOES TO PRESS

Cream Colored Cover Encloses
New Issue

Mr. William F. Kirkpatrick, Mr. R. I. Longley, and Mr. Walter Stennoms have been appointed to take charge of the work on the new issue of the College Catalog, of which Mr. Torrey was editor.

In the first copy of the book, which will be of the usual size and shape, as the work is covered by a state contract, went to press last Tuesday. The catalog is to be printed by The Meredith Journal Company of Meriden.

The one notable change in the book will be the cream colored cover which takes the place of the present brown cover. The committee has tried to make this issue better than past issues and they hope to have copies in circulation in a short time.

many a man present at the mass meeting last Friday night was impressed by the speeches of those wesleyan men on Christianity. Men will really let us on something of their own kind who has been "through the mill," who has arrived and now has the goods. They had the goods and the kind they had was worth having.

From what they said it seemed that nearly the whole of Wesleyan had turned over a new leaf through the efforts of this doctor crane. Would it not be a good thing for us if we turned a page or two?

The wesleyan visitors were men of high caliper and power. They were no sinners, canting about religion for the college boy. One of them admitted that heretofore he had drifted along discontented, following the line of least resistance, doing the thing nearest to hand. How many of us are that way?

The hill would not be hurt greatly if the student body were more religious. It is right that we are criminal-minded, to say a man is never very bad is not much of a recommendation. "The same thing could be said of a lamp-ground to strive for athleticism for fame in college circles and other, to be sure, worthy goals. But often we think too much of the "timely show" and not enough of the fundamental high quality that we must have if we are ever going to go very far.

Y. M. C. A.

The campaign to raise funds which will be used to furnish a community room is progressing rapidly. The student body has pledged nearly $800; of this amount about $450 has been collected.

A letter has been sent to the alumni body and several contributions have been received. The following letter, which shows how interested some of the alumni are in us.

HARTFORD, CONN., APRIL 21, 1920.
Mr. FRANK A. Vitth, C. A. C.

Dear Sir:

Your communication regarding the furnishing of a community room at storr's is at hand, and I consider it a pleasure to be of assistance in so worthy an enterprise, even though it be in a small way.

While I was a student at c. A. C. I often noticed the lack of just such a community center as described in your letter and I hope and trust that your efforts towards its realization will meet with success on every hand.

With best wishes for good old c. A. C., consider me present whenever an opportunity arises that I may be of use to her.

P. J. HAUSCHILD,
65 Washington street.
Hartford, Conn.

Entered as second class mail matter at the Post Office, Enfield, Conn.

Edited by R. H. Mathewson

A letter from our commandant, Captain Ferris, appears in this issue of the "Connecticut," in which he stated, the acute necessity for more cadet officer material in the college battalion, especially next year, because connecticut is going to make an endeavor to become a distinguished college. To those who know the value of an institution becoming a distinguished college and the sense of mission that work entails, this letter should receive attention.

Apparently Captain Ferris knows something which has not become impressed in the minds of all the students. He knows that the battalion was an organization which in years past, was a great source of pride to aggie men. And it should become a pride to us again.

The gauntlet has already been dropped and we are going to make an endeavor to become a distinguished college. This means that many upper classmen, especially those who have real military ability should do their part. connecticut must not fall short on her first attempt, and the only way to insure our success is for the upperclassmen to pull for drill, and for the underclassmen to understand that whatever connecticut does, she does well.

The Dining Hall Again

Those who recently visited springfield college were impressed with their dining hall. It was a credit to any institution. Their conditions do not differ a great deal from ours. Why can't we have waiters, table cloths and food food in the new dining hall for seven dollars a week?

Criticism on Centralized Power

Dear Editor:

We have recently been informed that as upperclassmen of c. A. C. we of the poor unfortunates who, with feeble hearts, have to carry on part of the athletic and social activities on the campus as we should have; that we are not to be considered to have nearly as much college spirit as the upperclassmen at the University of Vermont. We were informed that practically every Junior and Senior at the college at Burlington was spending every effort for his college, that all were interested in and had a hand in the running of some activity, and given to understand that a similar condition was not existent at c. A. C.

We ask you to consider that a condition such as was described to us does not exist at our alma mater and is the cause of a great deal of distress and uneasiness to many of us.

Let us ask the fair and unprejudiced opinion of all who may read this: Is this condition the result of lack of spirit, interest, desire to do all of and more than our share, on the part of these upperclassmen so attacked, or is it due to the fact that there are a few who are anxious to hold as many of the positions of responsibility for themselves, and have the power and backing of this or possibly a different spirit, one of co-operation and fairness exists at Vermont, and a desire to give everyone an opportunity to help and to expand so that he can be of the maximum benefit to his alma mater?

Is it necessarily "indifference" that keeps the term of the "limelight," or is it that the will of the student body seems to have the control of the active body at c. A. C. in the hands of a few?

(Signed) Jaybee.

Ice Cream Making

class to travel

Four Cities Will Be Visited

Prof. R. C. Fisher plans to take his students in Ice cream making on a two-day trip to visit some of the commercial ice cream plants in southern New England. The date has not been definitely decided upon, but will be either April 30 to May 1 or May 7 to 9. On the first day plants in Spring- field, mass., and Bridgeport will be visited. Friday night the party will go to New Haven and on Saturday the students will return to New Haven and Hartford. Hubert's in Bridgeport; the Seeman Dairy Co., and the New Haven Dairy Co., in New Haven are among the places to be visited. About twenty men will make the trip of 300 miles. The party is to go in automobiles.

"Questionnaire" Once More Answered

Dear Sir:

You are to be congratulated upon the very excellent letter of M. C. H., ex-'10 as published under "Safety Valve." As far as I am concerned, I wish the writer and vouch for his practice of what he preaches; he is today a harder student than he was ten years ago. The only opinion of the matter is as follows.

Questionnaire's first query, "Is my ambition economically worth to me the time, labor and money expended?" on careful analysis appears to be a very thoughtless question. Why ask others a question that can only be answered by oneself? Fundamentally it indicates an unwillingness to receive that for person that is really inspired by ambition never questions its worth, simply because it is "what he most wants.

An individual who is really possessed of the stimulus called ambition is only regretful that he has not more time, labor and money to devote to the furtherance of his "purpose in life." There are numerous famous maxims that have stood the test of time such as "An idle man will, so he shall reap," with its modern phrasing, "The more you put in—the more you can take out. None of the men who are famous for their accomplishments have had time to spare to ask "Why?" They have known what they wanted; recognized the price they must pay and been willing and happy to make the necessary sacrifices. The really ambitious man understands the accomplishment of what he expects of himself is much more satisfying than the winning of the approval of the world. If Questionnaire's ambition is to be a world citizen and he earnestly makes the most of every opportunity to be such, I'm sure he will be as happy as a man who realizes his ambition to be a lawyer, farmer, banker or any other worthy vocation. I firmly believe that all men are born equal as far as the opportunities for happiness are concerned and that we are rewarded in proportion to the degree of the effort expended in utilizing such opportunities.

In conclusion, I wish to mention another statement to which I do not agree, viz., the use of the term economic parasite in referring to an educated individual. No matter what the total investment of time, effort and money (human energy) in knowledge and training maybe, an educated individual is an economic parasite only in the sense to which he does not make those acquisitions of service to humanity.

This is no answer to Questionnaire's queries—he must work them out himself.

Sincerely yours,

John Hill, '16.
NEW ASSIGNMENTS ON COLLEGE LAND

Faculty Gardens Moved From Front Campus

Last fall President Beach appointed a committee to straighten out the various tracts of land which are assigned to the departments of the college and to make recommendations for changes in the assignments.

After investigation, several changes have been decided upon.

The vegetable department will be developed to the west of the Dow Field and the Tennis courts will include the land which is at present occupied by the dump, swamp, vineyard, nursery and dwarf orchard. It is planned to remove all of these obstructions. All horticultural work will be confined to this block of land.

The land of the ponological department will also be somewhat altered. The orchard will be developed to the south of the present nursery on a hill lying southwest of the new faculty houses and in a section of land formerly owned by Mr. Snow.

The faculty gardens which have been situated in the front campus opposite the Valentine House, will be moved this year to a piece of assigned land in the rear of some of the cottages on Whitney Drive.

The old garden site will be graded and seeded to make an additional beauty spot on the campus.

By making this arrangement of land, the president aims to straighten out the land assignments and to concentrate the work of the departments.

AT OTHER COLLEGES

All cases of dishonesty reported at Purdue University, will be published in the Daily Exponent, each month.

The Dishonest Committee and the Student Council are co-operating on this policy in an effort to eradicate all forms of cheating.

The University of Vermont is the first college to adopt the plan of inquiring against baseball financial losses due to bad weather.

New Mexico Apples have the right idea in advertising. Instead of the conventional signboard, they have made use of a large mountain near the college called Tortugas Mountain. With numerous palls of whitewash they have inscribed on the side of it a large "A" which can be seen for miles around.

The Annual Class Sing is to be revived this year at Mass. Appie. The Class of 1907 established this tradition to stimulate college singing in general and to encourage the production of original college songs.

The four classes compete for the Trophy Cup on Commencement Day. Credit is given for originality, quality of character, general appearance and presentation and general excellence in singing.

Members of the class in landscape gardening have drawn plans for the grading and planting of the grounds around the new infirmary and the best plans may be adopted for this work.

"Accomplishment in the Dairy"

The increasing popularity of milk products is largely due to the educational work of the Agricultural College.

The Agricultural College has not only demonstrated the exceptional value of milk, but has also educated the dairymen in methods of manufacture that insure to the consumer a wholesome, nutritious dairy product entirely free from harmful bacteria and insalubrity. These methods have been assisted and made possible by the aid of a cleaner which provides the most efficient, sanitary cleanliness to dairy equipment and for this reason it bears the endorsement of the Agricultural Colleges of the United States and Canada.

USING SHAKESPEAREAN CLUB

Mr. and Mrs. Ralph A. Tryon announce the birth of a daughter last week.

Captain Arthur Grieswold, '97, attended a Seicheprey reunion banquet at Hartford last week.

Arthur M. Mitchell, ex-'92, is doing the spraying for the Washington Fruit Growers’ Association.

Through an error in the last edition of the campus, H. D. Chatfield of Harvard College, Washington, D. C., was incorrectly referred to as N. D. Chatfield of Hartford College.

ALPHA PHI

Burton E. (“Batie”) Callahan ’85 writes that he will attend the Junior Prom on the 20th.

Robert E. Laubacher, ’23, was taken sick on April 23rd and was accompanied to his home in Rockville by Guel.

Marshall F. Beebe, ’23, made a trip to New Haven over the week end, where he purchased some new electrical equipment for Prof. Pitts of the Mech. Eng. Dept.

PHI M U DELTA

Percy Camp spent the week end on the hill. He is now working on his father’s farm in Durham. It is Percy’s plan to return to college next September.

John McCarthy was a visitor on the Hill Sunday.

PHI EPSILON PI

Henry Calechman, ex-’22, spent an enjoyable week end with the chapter. “Back” Hoffman, ’17, will be on the Hill during Junior Week.

Maurice Jacobs of the New England and Province Council has just returned from Pi Chapter University of Maine and will be with us this week end.

Harold Kaseowts, ’16, is now in the Isle De Pinos and is engaged in sugar production.

The Connecticut Alumni Association of Phi Epsilon Pi are planning to hold an affair on August 2, Phi Epsilon Pi Day.

Many students on the Campus know something about the prize live stock owned by the college. But the number of students who know about what there is of interest at the green houses, is very small. Our tropical houses are the best in the state and many tropical plants are now in fruit or in blossom.

COLLEGE EXCHANGES

PERCHERON MARES

Hogs Go To New Haven

By a recent exchange transaction with the college Mr. O. W. Means of Hartford acquired Mariette and Jean of Arc, two young Percheron mares.

The College in the same transaction comes into possession of a large Percheron mare which has been used on the farm for some time.

The Annual Sheep Shearing Contest of the Connecticut Sheep Breeders’ Association will take place at the farm of Earnest Netleton, three miles West of Middletown on Friday, May 7th.

The College has shipped a truck load of hogs to the packers in New Haven.

Mr. Dwight and Mr. McLeod of Boston, spent Patriot’s Day reviewing the College live-stock. Both visitors are live stock breeders and Boston business men.

The Connecticut Sheep Breeders’ Association will market its members’ woolclip cooperatively this Spring.

NUMERAL AWARDS

Dairy, Mullan, Baxter, Lilliey and Dehnert have played in games of Basketball to qualify for the 1923 and these men and Manager Stock will be given the numeral as soon as the Athletic Council renders its decision.

The following freshmen have already been awarded class numerals of 1923 in football: Resnick, Daly, Sneedon, Lilliey, Mullan, Feeley, Juravelwe, Patience, Clark, Voorhees, Allen and Slye, Manager.

GRANGE NOTES

On Saturday, April 24, Prof. C. A. Wheeler, W. P. Miller, H. W. Fiebener and M. H. Lockwood attended a meeting of Quinnebaug Pomona Grange No. 2, at Abington. The three latter gentlemen were initiated into the fifth degree, together with a class of thirty-nine others.

Mansfield Grange, P. of H. No. 64, held a special meeting for the administration of the first and second degrees on Monday, April 26. Those in the class were the Misses A. F. Flanlin, M. Jacobson, C. Waksman and M. Morris; Messrs P. N. Coville and C. P. Probst.

FACULTY NOTES

Professor A. E. Moss is intending to move his family to Mansfield Depot about May 1. His reason for doing so is that there are better farm ties at the Depot at the present time. Mr. Moss will keep up his work here, however, as instructor in forestry.

Professor Torrey’s case of scarlet fever has been diagnosed as slight. He is now getting on very well at the hospital, although it will be two or three weeks before he will be able to resume his duties.

DAIRY JUDGING CLASS

MAY TAKE TRIP

Six Large Dairy Herds To Be Visited

On May 13, Professor G. C. White is planning to take the advanced class in dairy judging on a three day trip to visit some of the best dairy herds in New England. About fifteen members of the class are planning to go on the trip which will make it in autos and will cover a distance of more than 30 miles. Six big dairy herds will be visited in the three days and the students will be given an opportunity to inspect and judge some of the best individuals in each of the four dairy breeds.

Thursday morning the class will leave Storrs and plans to reach Yantie, Conn., the first stop, at about 9 o’clock. Here they will visit the herd of S. M. Kaplam, a prominent Jersey breeder. This herd is being fitted for sale and it will give the students an opportunity to see the animals in fine condition.

About noon the party will leave Yantie for Branford Farms, Groton, Conn. The Farms belong to the estate of the late Morton S, Plant, and all of the stock is to be sold at auction about May 20. The dairy herd contains a large number of pure bred Ayrshire, Guernseys and Holsteins, and the cattle should all be in A-No. 1 condition for the sale.

Thursday evening the party will drive to Brocton, Mass., where they will stay for the night. The next morning they will visit the famous Field herd of Holsteins near Brocton.

In the afternoon the class will journey on to Langwater Farms, at North Easton, Mass., where there is one of the best Guernsey herds in the East. The owner, Mr. F. L. Ames, has developed this herd largely through his own individual efforts and he has achieved a masterly piece of breeding. For Guernsey production and breeding the herd is perhaps unexcelled in New England.

Saturday morning the party will visit the most famous Ayrshire herd in New England. This Field herd is owned by A. H. Saged- dorff at Spencer, Mass.

The last place to be visited is the Moosehill Jersey herd, also near Spencer, Mass. This farm developed the Owl Interest breeding and has one of the most productive Jersey herds in New England.

The party plans to return on Saturday night and thus spend only two nights on the trip. This schedule of visits may have to be altered at a later date, but it is hoped that all these farms can be visited and if they cannot, others equally good will be substituted.

Last year no trip was taken by the advanced dairy class due to the war conditions. Two years ago, however, a party five or six went to New York State and visited several of the best dairy herds there.

Truly, his whose bed appeared on the hill of Sodom in the morning should be able to sing “A-sleep on the Deep” with great gusto.
FRESHMEN ADOPT CLASS CONSTITUTION

Boss of Free Labor Appointed

At a meeting of the Freshman Class on Thursday evening, April 22, in the Main Building, the constitution, as drawn up by the Constitution Committee, was read by William Anger, chairman of the committee. After discussion, the class voted to adopt the constitution as submitted.

Allan Bates was placed in charge of Freshman labor on the Athletic Field and other places. After finding out from team managers or chairmen of committees how many men are needed for a particular job, Mr. Bates will designate what Freshmen must report for the work.

Louis Resnick, chairman of the Banner Committee, states that the banners are all made and will be delivered to us as soon as the company receives one-half of the cost of the order. Freshmen will hasten their delivery by promptly paying the deposit to Mr. Resnick, Mr. Hildring or Miss Martinde.

FARM DEPT. NOTES

Professor H. L. Garrigus spent last week-end with J. Watson Webb at his "Southern Acres Farm," Shelburne, Mass. On Mr. Webb's farm is a barn over 400 feet long besides a large breeding stall for thoroughbred horses. Mr. Webb is contemplating the founding of a large Hereford breeding establishment.

HORT. NOTES

At a recent meeting of the committee appointed by the Faculty in charge of the allotment of land at the Conn. Agri. College that portion of land to the rear of Prof. Steven's house has been taken away from the Hort. Department and has been turned over to the members of the faculty on Whitney Road. There is no place for gardens to the rear of the houses on this road and some such place is needed. In place of this lot the Hort. Department has been given a 10-acre plot at the head of the A. A. Field, and an acre and a half of land south of the vineyard west of the dwarf orchard. The acre and a half plot is to be planted in strawberries as soon as the land can be gotten into shape. At present there is a drain being laid covering a distance of about 1000 feet.

The Sophomore Class in Horticulture II and the School of Agriculture have started their gardens on the Hort land at the south end of the Experimental Plots. Onions and peas have been planted thus far and as soon as the weather permits the rest of the gardens will be planted. The classes are trying out the various seed drills in planting their gardens and have thus far had much experience in the operation of the various drills.

CHURCH NOTES

Church Service at 10:45 in the Church on the Campus. Rev. Mr. Dawson will occupy his own pulpit on Sunday, May 2.

CHRISTIAN ENDEAVOR

The Christian Endeavor Society will hold a meeting at the Mansfield State Training School in Mansfield Depot on Sunday, May 2. The crown will leave the Main Building at 2 o'clock Sunday afternoon and walk to the School for a time for a three o'clock meeting. This will give those who go one hour in which to cover the distance of three miles. If the weather is unfit the meeting will be postponed one week, and the regular meeting will be held in the church at 6:45, preceded by practical statistics.

FOUR YEAR COURSE in Agriculture, designed to train young men as Scientific Farmers, Teachers, and Agricultural Experts. Entrance requirements, four-year high school course. B. S. degree.

TWO-YEAR COURSE in the School of Agriculture, for those who have not the preparation, time, funds, or inclination to take the four-year course. Open to those who have completed the work of the common school.

FOUR YEAR COURSE in Mechanical Engineering. Four years of high school work required for entrance. B. S. degree.

FOUR-YEAR COURSE in Home Economics. Open to young women who are high school graduates. B. S. degree.

SHORT WINTER COURSES in Agriculture. Recent appropriations have provided additions to lands, buildings and equipment valued at $950,000. Expenses low. No tuition charge to residents of Connecticut. Military instruction. A catalog will be sent upon request.

CHARLES LEWIS BEACH, President
STORRS EGGS WILL GO TO NEW HAVEN
Barred Rocks Ahead in Contest

The Poultry Department has made a contract to sell its entire output of eggs to the United States Public Service Hospital, No. 41, at New Haven. The contract lasts until June, 1921, and will amount to about $18,000.

Mr. D. E. Warner, with the assistance of Willaed Allen, is preparing to send six dozen of eggs to the Purdue Egg Show. The last time Connecticut entered this contest she "cleaned up," taking five firsts and a sweepstakes silver loving cup. This year it is planned to enter three dozen whites and three dozen browns. The eggs are judged according to shape, color and size. The Egg show opens May 3.

There is a shortage of oyster shells throughout the state and various poultrymen are having great trouble in obtaining enough for their flocks.

The three leading pens at the end of the twenty-five week's production were as follows: Pinecrest Orchards, Groton, Mass., R. I. Reds, 991; George Phillips, Seymour, Conn., White Leghorns, 964; Jules F. Francais, Westminster Beach, L. I., Bare Rock Plymouth Rocks, 956. It is interesting to note that the Barred Rocks, the breed that won last year's contest, are rapidly forging to the front once more. They took four of the first five places during the past week's production.

EXTENSION MEN ATTEND FARM BUREAU MEETING

Department Fights Against H. C. of L.

President Beach, H. J. Baker, Extension Director, R. E. Dodge, B. W. Ellis and Walter Simmons journeyed to Springfield last Monday to attend the New England meeting of the American Federation of Farm Bureaus.

This organization was formed in the interests of agriculture in the various colleges with the United States Department of Agriculture. Most of the subordinate organizations were formerly in the counties but now it has become known as a national federation of farm bureaus. The American Federation of Farm Bureaus was formed with the idea of promoting agricultural projects.

The meeting last Monday was of all the New England State representatives with Mr. and Mrs. C. H. Savage who are president of the Connecticut State Organization of Federation of Farm Bureaus.

The College Extension Department is about to make a drive in order to encourage people to preserve eggs in water glass for the coming winter. At present everything seems to represent that the prices of eggs will be abnormal this winter.

The Department is also encouraging people to plant home gardens and to do extra amounts of home canning as the farm labor situation is becoming serious and the present high prices are not apt to go down.

FACULTY TENNIS CLUB READY FOR SEASON

Faculty Courts Will Be Put In Condition

At a meeting of the Faculty Tennis Association held last Friday evening Professor White was elected President; Mr. Stearns, secretary and treasurer; and Mr. Fraser was elected as the third member of the Executive Committee.

The three Faculty courts will be put in condition as soon as possible. The first three courts were built by the Faculty and they are kept in condition by the Faculty.

The matter of dues was brought up at the meeting and it was decided to pay dues of three dollars a month, the same as last year.

LITHUANIAN FUND NEEDS CONTRIBUTIONS

Committee in Charge at Storrs

Arrangements are being completed whereby every person in Storrs will be able to contribute at least his share to help relieve the sufferings of war-swept Lithuania.

It will be recalled that Dean Mary Benton of Carleton College, the first woman to cross Germany after the signing of the Armistice, spoke at Storrs early in January. Her picture of the lack of such essentials as shoes, dresses and clothes, as well as the extreme shortage of food was very impressive, and many Storrs people will welcome this opportunity to contribute to Lithuanian relief.

Subscription papers will be circulated in the various halls and offices of the College during the coming week. A committee consisting of Mrs. W. F. Kirkpatrick, Miss Edwina Whitney, and Mrs. I. G. Davis is in charge of the collection of this fund at Storrs.

OUR HORTICULTURISTS MAKE SPRING TRIPS

Falls Village is Scene of Labors

Last week Mr. Hollister sent Wm. Gronwaldt, Newton Alexander, Theodore Gardner and Harold Faynes on a pruning and spraying trip.

They left the College at three o'clock Friday afternoon, April 23 and took a machine to Willimantic and went from there to Hartford by train. They were met in Hartford by Mr. William Blodgett of Winsted, who owns the fruit farm in Falls Village. He took the men to Falls Village that night, getting stuck once in the muddy roads which they encountered on the way. That night they stayed at the Falls Village Inn. The next morning the four men started pruning and spraying. Although the fruit trees are girdled in many parts of the State, they noticed that none were injured there.

Sunday afternoon they started on their homeward journey by automobile and reached the college early in the evening after a very enjoyable trip.
