PLANS BEING MADE FOR NEXT SEASON’S FAIRS

Interesting Program Outlined

At a business meeting of the Agricultural Club, Inc., held in the Main Building, Room 7, on Thursday evening, April 29, the following officers were elected for the college year 1920—1921:

President, Maurice H. Lockwood, '21.
Vice-President, Enos R. White, '22.
Secretary-Treasurer, Charles A. Slanetz, '22.
Chairman, Program Committee, Ralph G. Chaffee, '22.
Chairman Fairs Committee, Edward J. Slanetz, '22.
Chairman Finance Committee, Raymond C. Atlee, '22.

Sergeant-at-Arms, Elton J. Smith, '23.
E. S. Clark, '21, who has been secretary-treasurer of the club for the past two years, was nominated for this office for the coming year, but declined. Following the election of officers, Mr. Lockwood gave a short talk regarding the plans of the Club for the next year. If possible two fairs will be held, the first coming some time in December. This will be of the same general type as the one held in the Armory last February, with classes of corn, small grains and fruit open to anyone in Connecticut. All students are urged to keep this fair in mind during the summer vacation and to arrange for having exhibits sent to them for entry. It is hoped to have a full program of lectures and moving pictures throughout the year, with special evenings devoted to topics of interest to all branches of agricultural work.

HIGH SCHOOLS RESPOND TO INVITATIONS

Co-eds Will Vacate Dormitories to House Girl Visitors

Twenty high schools have so far accepted the invitation of the High School Day Committee and have submitted lists naming twenty percent of their senior classes.

Provisions for lodging the girls have been made by Mr. R. L. Longley who has purchased 150 cot beds and 300 blankets. The co-eds will be put up

(Cont. on page 8 col. 2)

PLANS FOR JUNIOR GALA WEEK ARE COMPLETED

Large Number of Alumni Will Be on Hand

Alumni Day Well Featured

Junior Week is going to start off with a bang and there will not be one dead moment for folks to get bored. Plans for the week are entirely completed. No other class has ever attempted to stage such a program as the Class of 1921 is putting before the public. In addition to the usual number of College folks we will have a large number of Alumni present. Alumni Day is the biggest and most eventful day of the whole week. Not only will there be men back who have graduated, even before many of the active students opened their eyes on this planet, but the best part of the program has been set for that day.

The following program is officially announced by the committee:

WEDNESDAY—MAY 19

3 P.M. Baseball game with Trinity.
8 P.M. Junior Senior Banquet.

THURSDAY—MAY 20

Promenade Day. Arrival of Guests.
8:30 P.M. Junior Prom.
12 O’clock Luncheon by Co-eds.
2:30 P.M. May-Day Exercises.
6 P.M. Blackguard Minstrels.

ALUMNI DAY—MAY 22

9 A.M. Battalion Parade and Competitive Drill.
11 A.M. Tree Planting; College Sing.
2 P.M. Dedication of Tablet.
3 P.M. Baseball Game with Rhode Island.
6 P.M. Alumni Supper.
8 P.M. Junior Play.
Dancing until midnight.

GREEK LETTER SOCIETY BEGUN AT COLLEGE

Debating at C. A. C. is Put On a Substantial Basis

The College Debating Society will henceforth be known as Kappa Delta Sigma. At a special business meeting, held on Monday evening, May 3, the society accepted the recommendations of a committee, L. Faulkner, '22, T. Gardiner, '22, and C. A. Slanetz, '22, which has been working on this matter for some little time.

The object of the organization is to participate at debating meets on a substantial basis. From this time on

SCHOOL OF AGRICULTURE HAS NEW SCHEDULE

Lengthy School Year Materially Shortened

Entrance Requirements Changed

The Administration Committee of the Board of Trustees of the College conferred with the Course of Study Committee on Wednesday, May 5th, concerning the School of Agriculture and other short courses. The requirements for admission and the term of residence in the School of Agriculture were seriously revised.

The school year of the School of Agriculture is to be reduced from thirty-six weeks to twenty weeks. It will begin about October 15 and will end on April 11. The age of admission has been changed from sixteen years to eighteen years and one year of farm experience will be required. A member of the faculty will be appointed to act as Dean of the School of Agriculture.

The Administration Committee of the Board of Trustees consists of Messrs. H. G. Manchester, O. F. King and E. K. Hubbard. The faculty Course of Study Committee is composed of Professors Slate, Wheeler and Kirkpatrick.

CAMPUS TO BE BEAUTIFIED BY A LARGE LAKE

Construction of Whitney Lake Calls for a Large Dam

The portion of the Campus in front of Faculty Row will soon be one of the most attractive parts of the College grounds. Whitney Lake will boast of a small island, rustic bridges and a border of appropriate shrubbery.

According to the plans, a dam 325 feet long will be constructed from a point just west of the 1915 rock, occupying Doctor T. H. Eaton’s house, to within a short distance of the old Whitney House, now occupied by Mr. A. Creteau. The dam will be of stone and concrete construction. The barrier at its highest point will be ten feet high. The overflow will be at this point and the water from there on will follow its present path.

The lake itself will be about 450 feet wide by 600 feet long and will extend to the south a short distance beyond Beebe’s. It will be unnecessary to move any buildings but the water will come to within ten or twenty feet of Beebe’s barn. The exact

NEW JUDGING POLICY ADOPTED BY COLLEGE

Judges to Be Sent Out from Central Office

May Already Spoken for

Many agricultural organizations or associations and fairs have signified that they approve of the 1920 Fair Judging Policy which has been made up and published by the Extension Department of the Connecticut Agricultural College. This policy will govern all judges that are sent out by the college departments.

The policy is as follows:

1. Judges sent out by the college will be assigned to fairs through a central office. No member of the college will accept an appointment individually, without first consulting the office.

2. After a judge is assigned, a letter will be sent out to the Secretary of the Fair Association from the office and to the judge, confirming the appointment, as to the date and class or division in which he will operate and giving rules with which said judge shall comply.

3. No judge will be assigned by the college to judge in any class for which he is not fully qualified. No livestock judge will be sent to a fair where he judged last year, except in poultry or by special request.

4. Traveling expenses of the judges must be met by the Fair Association employing them.

5. All tent and hall exhibits at fairs must be arranged in classes by the committee, to which two members shall be selected before the judge begins his work.

6. Judges will not judge an entry in any class or division not true to the type or class.

7. In case of no competition, or where a class is not filled, premiums will be awarded according to the actual and relative merits of the exhibit. For instance, a single entry may not merit a premium.

8. No prizes will be awarded to an animal which, in the opinion of the judge, is deficient in any essential quality, except that a cow with three teats may compete in dam and female class or similar department.

9. Papers must be shown on all pure bred stock upon a call from the judge.

10. All fruits and vegetables must be correctly named by the exhibitor and plates and bunches must contain the exact number called for.

Several Fair Associations have already written to the department asking for judges to be sent out to fairs and displays to be held this fall and summer.
Track Team Leaves for Springfield Tomorrow

FRESHMEN WALK OFF WITH OUTDOOR TRACK MEET
Meet Decides Future of Track Team at C. A. C.

The Freshman Class walked away with the Annual Interclass Outdoor Track Meet held Friday afternoon, April 30, on Gardner Dow Field. They captured 18-12 points while the Sophomores, their nearest rivals, could gather in only 27. The Juniors came third with 18 while the Seniors, who captured second place at the indoor meet March 27, brought up the rear with 15 1/2 points.

Hopwood competed in only one event, the 100-yard dash, and was "good but not fast enough" to win his heat. "Back" Goodrich did not run for the Seniors. The absence of these men materially affected the score of the four class meet.

The 100 yard dash was the first event and Lilley had no trouble in winning.

The mile was a walkaway for Fienemann, who set his own pace throughout and was never in danger of being caught. Fienemann also nosed out the half-mile from Beardsey, who fell just before reaching the tape.

Block was the dark horse of the meet, winning two firsts, the 220 and the 440 by spectacular bursts of speed at the finish.

Wood also captured two firsts, the broad jump and the two mile walk. The time for a college meet was not very good on account of the poor condition of some parts of the track.

Track officers were: Starter, Professor G. H. Lamson; Timer, Coach Guyer; Judges, D. E. Warner, Dr. T. H. Eaton, W. T. Ackerman and Captain R. G. Ferris.

SUMMARY OF EVENTS
100-yard dash—First, Lilley; "23; Second, Hairway; "22; Third, Goodsell; "22; Fourth, Woodster; "22. Time 10 4-5 seconds.

220-yard dash—First, Block; "23; Second, Wolfe; "22; Third, Hairway; "22; Fourth, Voorhees; "23. Time 22 2-5 seconds.

440-yard run—First, Block; "23; Second, Wolfe; "22; Third, Beardsey; "23; Fourth, Voorhees; "22. Time 5 min. 3-5 seconds.

888-yard run—First, Fienemann; "21; Second, Beardsey; "23; Third, Patterson; "21; Fourth, Syle; "23. Time 5 min. 10 2-5 sec.

1 mile—First, Fienemann; "21; Second, Syle; "23; Third, Patterson; "21; Fourth, Lawson; "22. Time 12 min. 19 seconds.

Running Broad Jump—First, Wood; "22; Second, Voorhees; "23; Third, Hairway; "22; Fourth, Lilley; "23. Distance 17 feet 11 inches.

High Jump—First, Hairway; "22; Second, Voorhees; "23; Third, Glowens; "21; Fourth, Lilley; "23. Height 5 feet 3 inches.

The blue and white nine lost its third straight game of the season when it went down to defeat before the maroon and white of Mass. Aggies to the tune of 5 to 1. Johnson ascended the mound for the Aggies and gave a wonderful exhibition of twirling against the heavy hitting Massachusetts nine which had pounded the State pitcher for 17 runs on Friday.

As usual the Aggie batters were unable to locate the pill and turned in three hitless innings. The Aggies showed that they drove them out of the infield much more frequently than their opponents. Bauer on first had a badly cut hand and was unable to hold on to the speedy shots that were driven at him and he had three errors chalked against him. Ragged fielding was shown by both sides.

In the opening inning Lord cracked the pill for a single, after Metelli and Brigham were out but Maloney was thrown out at first leaving Lord stranded on second. Massachusetts proceeded to sew up the game as soon as she came to bat. Glavin was hit by Johnson but was caught napping and retired. Brigham fumbled Coln's grounder allowing Collins to get on. Collins stole second and went to third when Lent sacrificed. Bauer dropped Knoeck's drive allowing Collins to score. Deming was hit by Johnson but Maloney retired the side by catching Newell's high fly.

Eighth inning. Alexander reached first on Glavin's error but after two outs was retired.

Pole Vault—First, Hopwood; "20; Second and Third, Gleason and Vermaat; "20. Time 11'3 1/2". Fourth, Gronwoldt; "21. Height 8 feet 6 inches. 16 lb. Shot Put—First, Ashman; "23; Second, Gleason; "20; Third, Gronwoldt; "21. Distance 23 feet 7 inches.

Gleason was high man, winning 10 1-2 points. The other point winners were: Fienemann 10, Wood 10, Block 10, Gronwoldt 8, Lilley 7, Wooster 7, Hopwood 5, Hawley 5, Ashman 5, Goodearl 4, Voorhees 4, Patterson 4, Stocking 3, Syle 3, Beardsey 3, Dosan 2 1-2, Angerman 2, Selen 2, E. J. Smith 1, Bryant 1, Syle 1, Gunther 1, Lawson 1.

CONNECTICUT LOSES GAME TO MAROON AND WHITE AT AMHERST
Aggie Batters Unable to Locate the Pill—Johnson Holds
Opponents to Four Hits

Not only has the Maroon and White of the Amherst College nine let down their opponents with frequent errors, but have been unable to locate the ball. This was the second time Aggie Batters have been unable to locate the ball. That does the second time the Aggies have been caught napping on Gardner Dow Field.

The Maroon and White nine had three errors: Hopwood's, Reno's and Wamsley's. They had two stolen bases, but never in danger of being caught. Wamsley drove the ball for 17 runs on Friday. The Aggies have been unable to locate the ball, and the Aggie pitchers have been unable to throw strikes. For the Maroon and White nine have been unable to send the ball to the catcher. In the 16th inning of Friday's game, the Maroon and White nine was able to score three runs off of a single hit by Hopwood and three strikes by Likens.

The Maroon and White nine has let down their opponents with frequent errors. The Aggies have been unable to locate the ball and the Aggie pitchers have been unable to throw strikes. For the Maroon and White nine has been unable to send the ball to the catcher. In the 16th inning of Friday's game, the Maroon and White nine was able to score three runs off of a single hit by Hopwood and three strikes by Likens.

CONNECTICUT ENTERS MEN AT SPRINGFIELD MEET
Blue and White to Open Track Career

Connecticut Agricultural College will be presented at the big inter-collegiate track-meet to be held on Saturday, May 8th, at Springfield. It is the first time in the history of the Athletics at C. A. C. that an attempt is being made ou put Track on the list of minor sports.

Coach Guyer is not planning to bring home any big laurels. Only the men who have done exceptionally well at the Interclass meets will be entered at Springfield. If it is for nothing more than the experience obtained, Coach Guyer still considers it worth the while to enter and do the best that can be done by inexperienced men.

It is doubtful if D. A. Graf, our able long distance man, can run to best advantage, due to an injured ligament, which, even though it is rapidly improving, has kept him out of daily practice. Fienemann will be sent to represent the college in the mile and half-mile events. Even though he has won consistently at the Inter-Class Meets, he still lacks experience.

Beardeiley will also enter the half-mile event.

Block and Wooster are being depended upon to take down a placing in the 220 and 440 events.

Lilley is showing up strong and he has had experience coaching which will help out greatly in the 100-yard dash.

No managers or captain have yet been elected. In all probability they will be elected just before the meet with Rhode Island State, at Kingston, if that meet can be scheduled.

RENO WINS AT SPRINGFIELD MEET

The tennis team was scheduled to meet the racquet wielders of Trinity College on Saturday but old man rain interfered for the third time this season. Captain Griswold's team was forced to lie idle once more but they expect that next week the rain will stop long enough so that they can show their wares against the Clark University four. The Aggie courts are still in poor condition and all of the matches to be played on the indoor court in Hawley Armory.

VARSITY CLUB DECIDES
MINOR SPORT AWARDS
Inducements for Athletes Acted Upon

The Varsity Club decided to take action on the matter of inducing athletes to come to C. A. C. and President Sennen appointed the three assistant managers as a committee to act with him to decide what could be done to get new men. It was voted to have a committee of two appointed to find jobs for athletes for the coming year.

The following suggestions for amendments to the constitution of the Athletic Association were adopted and will be presented at the next meeting of that association.

ARTICLE VI.

There shall be two kinds of certificates awarded for excellence in athletics, one for major sports and one for minor sports. Football, basketball, and baseball to receive the major sport letter, while all other sports, including girls’ basketball, shall receive the minor sport’s letter.

The minor sport’s letters shall receive the same type of letter, a four inch Roman “C” with a two inch letter on each side; this small letter depending on the sport it was won in.

The letters will be as follows:

Tennis—a small “T” on each side.
Track—a small “A” on each side.
Hockey—a small “H” on each side, with a small “T” on the other.

Girls’ Basketball—small “B” on each side and a “G” in the center of the C.

A man may win his letter in tennis by playing in two-thirds of the matches played during the season.

FARMERS’ WEEK WILL COME DURING AUGUST

Live Stock Parade a Feature

Miss Elsie Trabue, Assistant State Club Leader and Mr. A. J. Brundage, State Club Leader, held a conference last Monday afternoon to arrange the Farmers’ Week Program. The Extension staff and the heads of the other college departments have completed the program as well as having already arranged for some of the speakers. More speakers will be booked within a short time. The programs are to be printed within the next few days and further arrangements made for the week.

Farmers’ Week will take place from the second to the sixth of August. There will be several special attractions on Farmers’ Day, which falls on Wednesday of that week. Mr. S. L. Strivings, vice-president of the Farmers’ Bank, American Federation of Farm Bureau, will be the principal speaker of the day.

During the week the various departments of the college will give demonstrations and exhibitions. The livestock parade and sheep drive which were so successfully carried out will be featured again this year.

PRESS CLUB ELECTS NEW MEMBERS

Much Publicity Work being Done
in New England

At a meeting of the press club in the Hort Building Tuesday noon, Henry Fienehmann, Philip Dean, Fredrick Maier and Domingo Paguiran were elected to the club. In its short existence the press club has done a great deal of work in getting Aggie news in various papers and the outlook is exceedingly bright. The club is well pleased with the progress made so far and is encouraged by the fact that in the past few weeks telegrams and letters have been received from several newspapers in Connecticut and Massachusetts asking for articles and box scores on the baseball games. For some reason Massachusetts papers seem more interested in our team than Connecticut papers but constant work is expected to create interest in our state. The following is a list of papers which have expressed a willingness to print state college news. Bridgeport Herald, Amateur Sportsman, Hartford Courant, Post and Times; Manchester Herald, New Britain Herald, Norwich Bulletin, Waterbury Republican, Willimantic Chronicle, Boston Post and Globe, Springfield Republican, Woster Telegram.

FRESHMEN ADOPT RULES AS MEDIATOR SUGGESTS

Hats for Class of 1924 Have Been Chosen

The Hat and Rules Committee of the Freshman Class met Monday, May 3, and decided upon the type of hat to be submitted to the class for next year’s Freshmen. The method of printing the rules was discussed and the committee will recommend that they be in booklet form with various other information of interest concerning the college, as previously suggested by the Mediator. Enough money has not yet been received by Mr. Resnick to enable him to send for the class banners. Prompt payment of the deposit will get the banners here sooner.

DEBATING CLUB DEBATES POPULAR QUESTION

Military Training Should Not Be Compulsory

Some of the arguments presented by the negative side in the debate as to whether Military Training should be compulsory in State Colleges would have delighted the hearts of many at the College Debating Society’s ear “wouldn’t-be-if-I-didn’t-have-to” soldiers if they had been present meeting Friday evening, April 30.

The proposition was “Resolved: That Military Training should be Compulsory in State Colleges.” Angerman ’22 and Slye ’23 spoke for the affirmative while Resnick ’23 and Flynn ’22 upheld the negative.

The judges, R. C. Abbe, ’22, T. E. Gardner ’22 and L. E. Faulkner ’22, declared the debate a victory for the negatives who upheld the statement that there would be no more wars and that the training was a waste of time and money. H. H. D Boas ’22 acted as critic.

OBSERVE MOTHER’S DAY

Mothers’ Day is but two days off. Every student at C. A. C. should observe it in some manner. If you can not send her a bunch of white carnations, at least write her a good letter or send a telegram to express your appreciation. It has happened that day has done for you in the past. Some of you have no mother whom you can thus bestow your favors. What an empty place exists in your lives! You alone can appreciate what it means to have a mother, likewise, you may interpret the following emotions of a prominent author:

“It’s a wonderful thing, a mother; other folks can love you, but it’s only your mother that understands. She works for you, looks after you, loves you, forgives you anything you may do, understands you, and then the only sad thing she ever does to you is to die and leave you.”

DON’T SCOFF AT TRACK

Today marks a new epoch in Connecticut History for this afternoon six Aggie track men will attempt to carry the blue and white to victory in the big intercollegiate meet at Springfield. We do not expect our runners to carry the laurels for they have not been trained near as much as is necessary to win in such fast company but nevertheless the eyes of the college will be on the news of the meet and no matter how our boys hit the tape we know that they did the best they could for Connecticut and laid a foundation for the track men of the future to build on.

Remember that the cream of New England will be pitted against them tomorrow so to win a single point is an easy task so if the boys come home without any medals do not scoff and say the track is dead at Aggie but cheer them up and help them to get started now for next year. If they do win give them credit because a win in the spring on the last but fourth day at this meet is well worth the effort spent.

OVERCUTTING

The list of those students who have overtcut is being mulled over again at this time. Many men and women of the college are not acquainted with the definite facts concerning cuts and overcutting, so it may not be amiss to reassure them now.

Students are allowed half as many cuts as there are credits in their schedule. If a man carries twenty credits he can take ten cuts. These cuts can be distributed over his various subjects, but the number of cuts taken in any one subject must be limited by the number of credits in that subject. If you receive four credits for Botany, for instance, you cannot take any more than four cuts in Botany, without overcutting, even though your total cuts come to less than ten. One hour of laboratory exercise counts as half a cut. Honor students do not have an average grade of B. with no grade below C, are allowed double cuts for the semester following their honor marks.

There are different degrees of punishment for overcutting. Overcuts may automatically put a man on probation; cause him to take an exam from which he may have been otherwise excused; in the case of low marks give him the last final above out of the first.

From information that the Campus has received through the Secretary’s office, there are a surprisingly large number of overcuts this term. There are no complaints. Each one is being individually considered and further action on this matter may be expected in a few days.

It is poor policy to overcut. Many realize this after it is too late. Save your cuts for a needy time. Don’t stay away from a class just for the sake of laying on the bunk and then have to worry for fear of undeclared punishment at the end of two or three months.

It may be well at this time to say that statements made by some authorities seem to indicate their belief that the matter of overcutting is becoming serious. We should, therefore, watch this in regard to our own credits, athletics, the college and our own interests.

To Whom it May Concern:

Any time I want any publicity I will let you know. Don’t give me any. Volunteered publicity is not appreciated.

(Signed) S. L. Teeter.

THE PRESS CLUB

In order to get news of the Connecticut Agricultural College in the newspapers of the state, there are three things necessary. 1. That being done daily on the hill and at the present time cannot be developed more than it is. 2. Getting the news out to papers of the state in such a form that they will handle and print it. This be done to some extent by the members of the press bureau but there is still a big field for men who have the ability to write news to get into this work and aid in putting Aggie on the newspaper map.

3. The third and most important thing is to create a demand for Aggie news among the people of the State and show this demand to the newspapers.

The writer received a letter from a Waterbury paper the other day stating that they did not care to go to the expense of paying telephone or telegraph charges on Aggie baseball because there was no demand among their readers which would warrant them paying for the service. Now it is up to us to show them that our readers want that news and the question is, how can it be done.

While the writer was in the office of the Hartford Courant writing the report of the Springfield game a few weeks ago, six calls came in wanting to know how Trinity came out. Amherst. There is the solution. The editor got so many calls for Trinity, Wesleyan, Yale, Harvard etc., that it is impressed upon him that his readers are looking for that news and he goes out of his way to get it for them.

BUT, who calls him to ask how Connecticut came out. Answer, practically nobody. Here lies the remedy for our trouble in getting news into papers. Get your friends, relatives, etc., to call your paper every time you have a game and ask for the result. The editor will soon come to realize that his paper is what his readers are looking for Aggie news and soon they will be coming for news instead of us eternally chasing them. If it’s a small thing to telephone for results, but if everybody helps, you will soon see Connecticut news in all the state papers.

BE FAIR TO THE MECHANIC ARTS STUDENTS

Dear Editor:

A recent speaker at President’s Hour began his remarks by addressing President Beach and “the students and faculty of Storrs College.” At this time when we are trying to change the name to Connecticut State College, ancient name, Connecticut Agricultural nothing worse to us than that true College is our official name at present and it seems that prominent citizens at least, should know the correct name of the institution.

The speaker also said that our presence here indicated that we had decided to follow agriculture or one of its related lines as a vocation. Is he not aware that there are courses given besides Agriculture? The students in these other courses are hoping that they will be enlarged and improved and believe our President and the faculty are doing all they can to fulfill these hopes. But how can money be obtained for this work unless the Trustees and other friends of the College are aware of the importance of these courses?

An M. E. Student

PAPERS AGAIN

Dear Editor:

I have noticed that within the radius of several hundred feet around the Dining Hall, the campus is all littered up with packing and wrapping papers of all descriptions. Evidently this comes from the Dining Hall where it is not properly disposed of.

We are constantly reminded to keep our room clean, but the dormitories clean and especially not litter it up with waste papers. A little care on the part of the Dining Hall management could overcome this unsightly condition of affairs.

(Signed) Observer.

TAKE HEED!

Many come into the Library to read the newspapers and periodicals which can be obtained there. If you go into any public Library and read a magazine or newspaper you would not think of going out and leaving them strewn around the room. Maybe the Librarian has no idea of the value of the readers who are looking for Aggie news and soon they will be coming for news instead of us eternally chasing them. Maybe the people of the Library as he does from the looks of any other place. Help your State Colleges by showing others the courtesy of being able to find the magazine and newspapers where they belong.

Did you ever find a turtle under your pillow?

Manwaring has returned to College after an extensive vacation in the wilds of Massachusetts.

Kozelulsky and Boas are studying under Teeter. They have already received a "Teeter" haircut.

Jock Taylor eats an early breakfast on Sundays so he'll have an appetite for dinner.

EVERYDAY QUESTIONS:

How much money are you going to make this summer?

Are you in the Blackguard show?

Do you want to help fill up a load? With Spring would come

How far off is the date of the Junior Prom?

My girl's coming from home.

Professor in History: "At the next meeting of the class, we will have an hour's quiz."

Student: "From when on?"

Professor: "Oh, beginning at eight o'clock."

Student: "No, I meant from what historical period."

History Instructor: "What was the condition of the U. S. before the War?"

Student: "Unprepared, sir."

Instructor: "Correct."

Rickett's spring football training consists of drinking mashed milk.

Did you see the door mat that Dow stole and now uses as a vest?

Teeter wants no publicity. Therefore fore we will not mention his name in this issue.

(Cont. from page 1 col. 3) dimensions of the island are not known. It will, however, be situated about in the center of the pond. At present this slight elevation is half covered with a scrub growth of young trees. These will, of course, be removed and a general cleanup will take place just south of the road leading from Professor C. A. Wheeler's house on Faculty Row to the main road from Willimantic to Storrs.

Two rustic bridges will be erected to the island from points on the shore. There will be splendid opportunities for some excellent landscape gardening to be accomplished, both upon the island and around the lake. Thus, instead of a bare, unsightly tract of ground, we shall soon have a beauty spot which will serve as a fitting gateway by which people coming to C. A. C. from Willimantic may enter.

GLEE CLUB REVIVES WITH MUCH OLD SPIRIT

Will Give a Concert at Willimantic Town Hall

The Glee Club has revived with all of the old spirit and work is progressing rapidly under the direction of Michael Parrel.

On May 13, the club will give a concert in the Willimantic Town Hall under the auspices of the Cyclers' Club. The Cyclers Club was started many years ago by business men of the town, who took bicycle trips over the week ends. Since cycling has gone out of vogue, the club has taken a different aspect and has developed rapidly until it is now the oldest and largest social organization in Willimantic.

Our going to Willimantic under the auspices of the Cyclers Club insures a well-filled house and Mr. Parrell states that with their approval of our work, the securing of other dates in this vicinity will be comparatively easy.

A program of much variety is being prepared. There will be solos, a trio, single and double quartets, chorus selections, and also instrumental numbers by the Glee Club String Orchestra.

After the concert the Peerless Orchestra will furnish music for a dance. It is hoped that the club will receive the support of the students and accommodations can easily be arranged for transportation between Storrs and Willimantic for this concert. Tickets for the concert and dance are 50 and 75 cents. They are now on sale by Herbert Webb.

On May 28, the Glee Club will make an appearance at Putnam, Conn., and will give a concert there, to be followed by a dance. Tuesday night, May 25th, Junior Week, a concert will be given at Storrs.

ASSISTANT STATE CLUB LEADER ARRIVES

Extension Director at Capitol

Mr. H. J. Baker, Director of the Extension Service left for Washington last Thursday where he will make arrangements for cooperation in the Extension Department's work for next year with the United States Department of Agriculture.

Miss Elise Trabue, Home Demonstration Agent of Barnstable County, Massachusetts, has arrived to take Miss Bolan's place. She will also be Assistant State Club Leader.

President C. L. Beach, Professors H. L. Garrigus, A. T. Stevens and W. F. Kirkpatrick and Messrs. H. J. Baker and W. Stenmons have been invited to Hartford on May 11 to confer with L. H. Henley, Secretary of the State Board of Agriculture in regard to next winter's "Farmers' Week."

It is expected that the name will be changed from that of "Farmers' Week" to "The Connecticut Winter Fair." The College will be well represented on practically all of the committees.

"Dick" Plumeley '15 is in the insurance business in Akron, Ohio. Lloyd C. King ex-'19 has been confined to his home since February with muscular rheumatism. He is now recovering and hopes to be on the Hill for Alumni Day.

Word has recently been received from William James '20. He is assistant valuation engineer for the Central Railroad of New York. His home is in Plainfield, N. J.

Donald S. Crowe is now engaged in fur farming in Jewett, N. Y. He believes this type of farming will be a popular branch of animal husbandry in the future.

Hermion D. Edmond has recovered from a recent operation and is now back again at his office in the New Haven Experiment Station as State Chemist.

E. Ray Marsh ex-'22 spent last week-end on the Hill. He has taken over part of his father's farm in New Milford and plans on raising tobacco this spring. Ray expects to return to college next fall.

Carl C. Alberti ex-'20 has spent several weeks in the Falkner Private Hospital, Boston, as the result of an operation on his ear.

Wallace Lynch '08 has purchased a fruit and truck farm in Elizabeth, N. J.

Thomas Beich '18 spent Tuesday of last week on the "Hill."

Walter Ungethehn '18 has accepted a commission of First Lieutenant in the Regular Army.

T. Stafford Skelly has accepted a position with the Norton Grindino Co., Worcester, Mass. He plans on making his home in Worcester in the future.

A letter from Henry Johnson states that he is Director of Music in the Winn School of Music, New Haven. His address is 158 Gilbert Ave., New Haven, Conn.

Carl Alberti announces that he is the proud father of a baby boy.

WHAT THEY ARE DOING AT OTHER COLLEGES

JOHN HOPKINS

A John Hopkins Hoover Club has been formed with an enrollment of about 70 members of the faculty, including those of the schools of medicine and hygiene. The purpose of this club is to stimulate the already strong sentiment in favor of Mr. Hoover, especially among the college men. Steps have already been taken toward the formation of a student club of the same character.

MIDDLEBURY

An organization of Middlebury alumni called the "100 Freshmen Men Club" has been started. Each member agrees to endeavor to look up one Freshman of the right sort, send him to Middlebury and take an interest in him after he matriculates.

UNIVERSITY OF VERMONT

Two hundred and fifty students of the University of Vermont have signed a petition asking the Faculty to eliminate the final examinations. Editorial comment in the "Cynic" refers to the student body as "petition crazy."

MASS. AGGIE

Infantry training will be displaced by cavalry training at Mass. Aggie next year. The site for the stables has already been staked out and the Landscape Department is at work on the grading plans.
SEED CORN MUST BE TESTED THIS YEAR

Alfalfa Winters Well

Germination tests of the seed corn which is to be used on the Bacteriological Experiment Field this season, were made recently. It was found that Lot I. Flint Glass, only 35 per cent of the ears were 100 percent viable; 25 percent of the ears were 88 percent viable; 15 percent were 75 percent viable and the remaining 25 percent were below 62 percent.

Inasmuch as the seed corn was cured in accordance with scientific practices it seems that the low tests are due to last year's weather conditions. During the past three years practically 100 percent of the ears were perfect in germinating qualities. Similar reports of low germinating tests have been received from various parts of the state this spring. These facts reveal the importance of testing seed corn this year.

Another trial will be made of Marquis Spring Wheat, because last season's plot was damaged by yellow and black rust. As far as can be determined the alfalfa sustained no winter killing. The red clover came thru the winter in remarkably good condition in spite of being frozen in a solid block of ice.

FARM NOTES

The spring pigs at the farm received their first inoculation against cholera Thursday, April 29th.

Six Hereford steers were shipped on Monday, May 3rd, to the Washupe Reservation, Fall River, Massachusetts, where Forester C. P. Jenney will feed them with a large group of fat cattle which he is grazing out this summer.

The calf pens in the Beef Barn are being altered and arranged permanently.

The sheep will soon be out on spring pasture.

SECOND STAFF SUPPER HELD IN CHURCH VESTRY

Served by Ladies Circle

The second staff supper of the year was held in the Church Vestry on Monday evening, May 3. Supper was served by the Ladies' Circle of the church. This supper was one of a series of get-togethers that have been planned for the year, being in the nature of a social gathering, not a business meeting. The object of these functions is to establish closer relations and better understandings between the members of the faculty and staff.

Prof. W. L. Slate reported on the latest developments in High School Day plans. Mr. R. E. Dodge also made a report on plans for a committee of men, representing various organizations in the state, to meet at the College on May 26, and discuss the future policy of the State College.

The regular church service will be held on the campus at 10:45. Mr. Dawson will occupy his own pulpit.

CHRISTIAN ENDEAVOR

The regular meeting for Sunday, May ninth, will be replaced by an open air meeting in the afternoon, if the weather permits.

The committee has selected a suitable spot and requests that all who wish to go, meet at the church at 2:30 P.M., since Mr. C. H. Ferris will call the meeting at three o'clock sharp. The meeting will be short, so let's make it good.

The annual trip to the Mansfield State Training' School at Mansfield Depot, took place on Sunday, May 2. A song service was held for the benefit of the inmates. About twenty-five students went over and after the service, spent some time in looking over the buildings.

A certain little fellow became quite attached to Carl Brandt and only after a long and interesting conversation did they part.

It was a worthwhile meeting and the results well balance the effort expended.

The annual business meeting and social of the local Christian Endeavor Society was held in the church parlors at eight-thirty o'clock on Thursday evening, May 6.

The meeting was called to order by President Keeler. The time scheduled for the meeting was eight o'clock but due to a blown fuse did not open until eight-thirty. The main business of the evening was the election of officers and the following were chosen: President, Henry Fiennemann; Vice-President, Gertrude Benson; Secretary and Treasurer, Charlotte Wakeman. The various committee chairman are to be appointed by the present executive committee. Reports were rendered by the chairman of the entertainment, the prayer meeting, and the open air meeting committees. Outstanding bills were voted paid. Mr. Keeler was appointed to attend the union meeting on May 15.

After the adjournment games were participated in heartily and when the refreshments were brought on they soon disappeared. The supper broke at about ten o'clock when the group journeyed back to the dormitories after an enjoyable evening.

CO-ED NOTES

The girls of the upper classes gave an indoor picnic to the Freshmen Girls, on the 1st of May in the Armory. Dancing, as well as refreshments, including salad, sandwiches and cakes were enjoyed. Miss Barker and Miss Mason chaperoned.

Miss E. J. Rose spent the weekend visiting in Springfield.

Miss Mary Beeghley, who underwent a serious operation in Greenwich Hospital has returned and resumed her studies.

A meeting of the W. S. G. A. was held Friday evening, April 30th.

The Connecticut Agricultural College

Storrs, Conn.

FOUR YEAR COURSE in Agriculture, designed to train young men as Scientific Farmers, Teachers, and Agricultural Experts. Entrance requirements, four-year high school course. B. S. degree.

TWO-YEAR COURSE in the School of Agriculture, for those who have not the preparation, time, funds, or inclination to take the four-year course. Open to those who have completed the work of the common school.

FOUR YEAR COURSE in Mechanical Engineering. Four years of high school work required for entrance. B. S. degree.

FOUR-YEAR COURSE in Home Economics. Open to young women who are high school graduates. B. S. degree.

SHORT WINTER COURSES in Agriculture. Recent appropriations have provided additions to lands, buildings and equipment valued at $350,000. Expenses low. No tuition charge to residents of Connecticut. Military instruction. A catalog will be sent upon request.

CHARLES LEWIS BEACH, President
STUDENTS HEAR THE HON. ROBT. SCOVILLE
IMPRESS THE NECESSITY OF COOPERATIVE MARKETING

America Must be Self-Sustaining

Hon. Robert Scoville, a trustee of the college and former Federal Food Administrator for Connecticut, was the speaker in the President's Hour Wednesday, May 5. His subject was "Some Thoughts on the Agricultural Outlook Today." Some of the points trable reflection toward the farmers present time a great exodus is taking place from the country to the city. This, with the demands of city laborers for increased pay and shorter hours, which are being granted, leads to some doubts as to the future of the farm industry. No industry can succeed unless the persons in it are interested in doing something for themselves. Better methods are needed in agriculture. It is surprising how few farmers are practicing the things that the students are learning here. Scrub livestock is the rule rather than the exception and very few use pedigreed seed. A lack of sensible business methods on the part of the farmer and the need of farmers is a great factor, contributing to failure. Many farmers have no system of bookkeeping and thousands of farms produce certain crops at a loss. These farmers should turn to lines that are more profitable.

Due to the fact that farmers have never been able to dispose of their products in relation to the cost of production, they have had to take what they could get. No business is conducted on the basis of production cost. Keeping must be sold on the market. Manufacturers know their costs but the farmer does not know his. Therefore he sells blindly. This demonstrates the importance of having a better system of markets. The spread in price between the producer and consumer is far too great. This is one in many cases to transportation problems and to the great desire of the American people for variety. There must be a reduction with a favorable reflection toward the farmers who maintain low prices. Cooperative marketing associations are helping to bring this about.

There are five great ways in which wealth may be created. First, agriculture, which produces from the soil, food, clothing and even shelter. Second, mining, which furnishes raw materials. Third, transportation, which moves the raw materials. Fourth, manufacturing, which fabricates the raw materials. Fifth, merchandising, which puts them in a form that the consumer can use. It is obvious that we cannot permit any one of these to be out of balance with the others. England has lost agriculture and has placed herself in a hazardous position. The United States has always boasted that it was self-sustaining. The only thing we lack is sufficient ocean transportation. We should see that all these five points flourish side by side in order that we may have an entirely self-contained nation.

BUREAU OF COMMERCIAL ECONOMICS GIVES MOVIE

False Rumors Kept Everyone Guessing

There has been a great deal of curiosity exhibited over the free movies that came Wednesday evening, May 5. Something for nothing is a strange thing at Storrs, or anywhere else for that matter and many of our boys and girls took advantage of it, at the same time wondering who the kind benefactor could have been. Report was to have said, "I had the highest priced seat in the house," and it is rumored that "Mitch" appeared on the Hill solely for the purpose of seeing the free movies.

Be that as it may, we want to correct the rumors that have floated around concerning these movies. They were not donated by a firm trying to get our movie trade.

Here are the particulars. A certain wealthy doctor, who was once blind, recovered his sight. He was so overjoyed at being able to see again that in his fullness of spirit he decided to do something for the world and its people. In casting over in his mind what he would do, he happened to link up the thought of seeing with the idea of movies. He resolved therefore, to start an organization which would furnish free educational movies to the people of the world. Many other wealthy people also thinking well of the idea, contributed handsomely to his plan, till today these organizations exist in almost every country in the world. These stations work together, exchanging pictures and what they are able to put on the screen free of charge, is in every way authentic and highly educational. The organization is called the Bureau of Commercial Economics.

The Campus reporter neglected to find out whether any more free movies would be shown here or not.

(Cont. from page 1 col. 1)

in faculty houses and the visitors will occupy the two girls' dorms.

It is planned by the committee to have a man from each of the fraternities and the Cosmopolitan Club on each of the sub-committees. There will be ten of these committees: Invitations, Publicity, Guides, Registration, Lodging, Food, Transportation, Athletics, Dance and Clean-Up. Each committee will have at least one faculty member for a chairman.

The program for the day will be published in next week's Campus.

A reaction will bring a return of city laborers to the country. The farmer not only must plant to live but must live to plant. If returns are not satisfactory a decrease in the number of farmers will come. The future of agriculture involved with the High Cost of Living is impossible to forecast.

This nation always self-sustaining is going to see that it remains so, because there is an abiding faith in the American public, that the best American manhood and womanhood have been bred in the open country.
