ABOUT 400 STUDENTS AT CONNECTICUT THIS YEAR

All former records for enrollment will be beaten by the entering class of 1923, according to figures given out by the secretary, G. S. Torrey. Over 175 applications with approved credentials have been accepted by the secretary's office including those of eighteen young women who will enroll in the Home Economics class. In all a total of about 380 is expected to register. Of these 50 are men in the two year course and 60 are young women in the Home Economics course. The establishment of two fraternity houses on the campus has helped to relieve the housing problem somewhat as the rooms formerly held by the upper-classmen of these organizations have been made available for entering Freshmen. The housing problem is still a puzzle for the college officials however and it is probable that additional quarters will have to be provided when the two year men arrive as

(Cont. on page 7, col. 2)

GIRLS NEW DORMITORY WILL BE COMPLETE BY OCTOBER 15

The new Women's Building will be completely finished by October 15 and the ground floor by October 1, according to a statement made by R. L. Longley, Treasurer of the college to the Campus.

It will be necessary to put two in a room on the second and third story of the left wing because of the lack of living accommodations in other quarters. Whitney Hall will be used for faculty apartments and student and faculty offices. Valentine House will be used for a practical house as usual with Miss Rose in charge. Miss Sprague, Mrs. Birdsell and Miss Buckley will be the matrons in the new dorm. "When the

ATHLETIC INVESTIGATIONS RESULT IN NEW ADMINISTRATIVE SYSTEM

Miss Smith was very popular and active

Operation was Unsuccessful

Miss Jean Smith, Class of 1928, died Sunday at a hospital in Springfield, Mass., following an operation for appendicitis. Miss Smith's illness was unexpected. Friends from Storrs are said to have seen her in Springfield only two days before her death and that she seemed entirely well at that time.

MUCH UNCERTAINTY ABOUT FRATERNITY PLEDGING

Everything Depends Upon Result of Coming Conference

President Beach has appointed a committee consisting of seven faculty members to confer with representatives of each fraternity and the Mediator from the ruling of the Trustees regarding fraternity pledges which was made last January.

MUCH UNCERTAINTY ABOUT FRATERNITY PLEDGING

There will be a meeting of the Students' Organization at Hawley Armory, Thursday evening. The meeting will start at 7:00 sharp.

NEW PLANS DRAWN UP BY JOINT COMMITTEE OF STUDENTS, FACULTY AND ALUMNI

A new system of conducting athletics will be put into force this year at Connecticut. The plan is as follows:

The purpose of the control of athletics of the Connecticut Agricultural College is to promote the physical, mental and moral welfare of the students of this institution. To attain this end the initiative of the students and the cooperation of the alumni and faculty should be preserved to the fullest extent. The purpose being primarily educational, the ultimate control rests in the hands of the President of the College.

Faculty Regulations

1. The number of games played in a season by the varsity football team shall not exceed eight; by the basketball team not to exceed eighteen; by the baseball team not to exceed sixteen, and by the track team not to exceed two dual meets in addition to reasonable participation in other inter-collegiate meets.

2. Eligibility. A student to compete in inter-collegiate athletics must be in good scholastic standing.

3. Coaches. All coaches shall be considered as instructors in the Department of Physical Education.

4. Insignia. The award of insignia may be made by the student athletic association in accordance with the rules of that association except that no insignia shall be awarded to any player or manager who has not maintained a good collegiate and scholastic standing throughout the season of the sport for which the insignia are granted.

5. Injuries. The Athletic Association may assume no responsibility for the injuries or otherwise, for injuries received by participants in athletic contests or in training.

6. Physical Examination. No student may become a candidate for any college athletic team until he has passed a physical examination satisfactory to the Department of Physical Education.

Athletic Council

The immediate supervision of athletics shall be vested in a council of ten members as follows:

Four members, appointed by the President annually from the faculty of whom the Physical Director shall be one.

Three members from the Alumni Association, chosen by the Alumni Association, but not members of the college faculty.

Three members of the Student Athletic Association who shall be the student managers of football, basketball and baseball. Each student member shall hold office in the council until the close of the season of the sport of which he is manager, when his assistant shall automatically take his chair upon ratification.

(Cont. on page 4, col. 4)

President and Mrs. C. L. Beach will welcome the students of Connecticut at the President's Reception which will be held this year in Hawley Armory, Friday evening from 8:30 to 11.

Men prominent in student activities will act as ushers.
WEALTH OF MATERIAL FIGHTING FOR BERTHS ON AGGIE ELEVEN

COACH TASKER ARRIVES AND TAKES OVER CHARGES, GRIDIRON CANDIDATES PUT THROUGH PACES FOR FIRST TIME ON FRIDAY BY ASSISTANT COACHES BOYERS AND GUYER.

The most likely looking Aggie football machine in a good many moons started training with a bang Friday when Captain "Art" Mitchell led his blue and white hosed warriors on to Gardner Dew field for the initial work-out of the season. A total of about twenty-five men answered the first call for practice and many of last year's squad sent in word that they were already on the way. Coach Tasker was not on hand for the opening session and the team was taken over by assistant coaches Boyers and Guyer, the line men being drilled by Coach Boyers while Coach Guyer took charge of the backfield men.

A great deal of attention was devoted to the rudiments of the game and the men were given various drills in order that they may become conditioned as quickly as possible. With the Mass. Aggie game only a short way off the men are working at top speed to make sure of a berth as the quality of work shown by many of the Freshmen seems to indicate that many of last year's varsity men will have to step on the gas more than a little in order to hang onto their former berths. With only the loss of Perry who was graduated in June and the addition of over thirty new Freshmen candidates to his outfit Captain "Art" Mitchell has been wearing the smile that won't come off for the last few days.

The following men reported for Friday's practice:

Dixon, Entin, M. A. Eddy, E. M. Eddy, Freshholm, Farr, Goodearl, Daly, Hallowell, Ganem, Houston, McCollough, Mitchell, McNiff, Quigley, Ryan, Schlayt, Slanetz, Sneedman, Enich, P. J. J.

Reports from the Mass. Aggie camp have been of a very optimistic nature and according to all reports the Bay Staters are all set for the encounter but this news means little to the followers of the Blue and White and many of the student body are laying plans to hit the trail for Amherst to witness the encounter and help bring home the bacon.

FOOTBALL SCHEDULE

Oct. 8—Trinity at Storrs.
Oct. 15—St. Stephens at Storrs.
Oct. 29—Worcester Tech. at Storrs.
Nov. 5—St. Lawrence at Storrs.
Nov. 19—Rho Island at Kingston.

BASKETBALL SCHEDULE LOOKS PROMISING

Harvard and West Point Added to Schedule

Connecticut will have many formidable opponents on this year's basketball schedule as arranged by Manager Harold Jaynes. The first game of the season will be staged at Cambridge where the Aggie boys encounter the Harvard quintet. From there the team will journey to West Point where they will show their wares to the army boys. These two colleges are stranglers on the Aggie schedule and Manager Jaynes is well pleased at their advent as it shows that the prowess of the Aggie quintets of the last few seasons has not gone unnoticed. Captain Alexander's five will not meet their ancient rival Rhode Island on the basketball floor this season.

Prospects for a whirlwind season seem especially good at this time for with only the loss of "Alec's" quintet Greene and the entrance with the Freshman class of many high and "prep" school stars an exceedingly strong team is assured. The following games have so far been booked:

Dec. 6 Harvard at Cambridge.
Dec. 10 West Point at Washington.
Jan. 19 Springfield at Storrs.
Jan. 20 Tufts at Medford.
Jan. 21 New Hampshire at Durham.
Feb. 3, Clark at Storrs.
Feb. 10 Springfield College at Springfield.
Feb. 25 Wesleyan at Storrs.
March 11 Clark at Worcester.

NEW COACH IS FORMER SYRACUSE STAR

AN INVITATION!

Connecticut Agricultural College Campus, Storrs, Conn.

Dear Undergraduates and Alumni:

The Alumni and undergraduates will meet at the Union Lowell station between 12 and 1 o'clock, go from there to the Chinese Restaurant on Central street and after chow with wives and sweethearts will attend game in a body.

The Massachusetts alumni thru its football committee take the opportunity thru the Campus to write all alumni and undergraduates with the college cheer leaders to be present for the varisty's big game in the old Bay State.

We are hoping to attend one hundred per cent and will root for old alma mater. Please notify "Doc" Miller, 550 Moody St., Lowell, Mass., by postal card that you're going to be there with the bells on.

Yours for Connecticut today, tomorrow and for all time,

T. H. MILLER D. M. C. '06
KEITH SCOTT, B. S. '08

THE CONNECTICUT CAMPUS PAGE THREE

ENLARGED BATTALION MAY NEED NEW SYSTEM

STUDY OF TACTICS WILL BE STRESSED

Rate of Pay Reduced to 40c Per Day for Advanced Students

The College Battalion will work under a different system this year. Major H. E. Boyers and Major H. Preston are working on a plan whereby the upperclassmen will take turns in drilling the basic course by roster.

Freshmen and Sophomores will put in 96 hours during the year and Juniors and Seniors, 168 hours. Sixty-six per cent of the Senior time will be taken up with the study of Tactics and only twenty per cent with Command and Leadership making necessary the new plan in which captains, Lieutenants, etc., will be occupied in turn on different days.

Regulations this year do not call for the issue of shoes to the R. O. T. C. Plattsburgh men will wear a special insignia on the left sleeve to denote their summer camp training.

At the time of going to press no definite information could be obtained as to the number of companies that would be formed. The following men are entitled to commence the advanced military course according to the election of the Commandant: Daly, McMurphy, Weinstein, Dossin, Tucker, Ashman, Rowland, Bassett, Patterson, Jurawlewicz, Bates, Ives, Emigh, Brun-dage, Collins, Standish, Smith, E. J. Bartman, Benmont, Beard vase, Baxter, Clissin, Revely, Overly and Storer. The rate allowed advanced course men will be about 40c a day. The pay voucher to include the first two weeks in June and the time from close of camp to September 30 will be turned in on or about registration day, Septem-ber 21 and all seniors can sign it at that time.

CONNETICUT MEN EXCEL AT MILITARY CAMP

BEST SHOTS IN THE COMPANY

Soldiers Enjoy Five Weeks on Lake Champlain

The twenty-two men from Connecticut who attended the R. O. T. C. camp at Plattsburg this summer gave a good account of themselves in competition with college men from all parts of the country. The eleven upperclassmen from Aggie were in the 1st Company together with men from Rhode Island State College, Cornell University, University of Vermont, University of Maine and Boston University. In the contest for record rifle shooting, Connecticut was first in the company with a percentage of 76. Donald H. Lawson, '22, repeated his qualification for next season, at the same time taking first place in the company with a score of 303 out of a possible 350.

The ratings and scores of our men were as follows: First in the company, Donald H. Lawson—Score 303, Expert Rifleman; fourth in the company, Arthur W. Keeler, Score 268, Sharpshoter; eighth in the company, Robert H. Mathewson—Score 279, Sharpshoter; tenth in the company, Theodore R. Gardner—Score 277, Sharpshoter.

Among the Marksmen, Vernon C. D. Binkham was first in the company with a score of 274; Herbert E. Beisiegel, fourth, Score 271; Robert C. Howes, sixteenth, Score 262; Edward A. Lord, twentieth, Score 261; Charles N. Van Buren, Thirty-eighth, Score 216.

R. H. Mathewson also qualified as Pistol Markman. The Basic Course men in the 6th company follow: First in the company, Markham N. Purple—Score 299, Expert Rifleman; 5th in the company, Y. B. Sailer—Score 276, Sharpshoter. Among the Marksmen, Fifth in the company, Cornelius Dun-ham—Score 235. The remainder of the Connecticut men did not qualify.

Connecticut was fortunate in putting men into cadet positions of high authority. Arthur N. Frostholm served in several official capacities in directing the battalions in review and during the maneuvers as did also Herbert Beisiegel and Walter F. Wood.

Robert S. Laubeiser and Ralph Brundage of the Basic Course had a great deal to do with the winning of the baseball championship by the 6th company. Laubeiser was the regular pitcher of the R. O. T. C. team and twirled some excellent games. Both men were presented small gifts at the closing exercises as rewards for their athletic work.

All the Plattsburg men report the camp as valuable and interesting. The extreme heat, in combination with the woolen uniforms in which Uncle Sam clothed our young infantry, resulted in the only item of complaint. The food was excellent for camp life, and no better living quarters could be desired than the company barracks.

HELLO! EVERYBODY!
Glad to see you back, old friends! Welcome to our big family, Freshmen!
The Campus, like a big baby, is shaking its rattle in the air and yelling for joy at its great delight in being back again in the old perambulator.

Gee Whiz! Everything looks good doesn’t it? Better than ever and ever.

We can’t give you any gossip in these columns but go down and see Connie in the Bookstore, get a glass of Coca-Cola and you’ll hear who marred which and browsed which pins are soon to leave the vests of the yet un-hooked.

Don’t be afraid girls, if you see a second edition of the standpipe on the campus some fine night. It will be only one of the new football men trying to get some room to walk in.

Miss Sprague says that there will be a big house-warming in the new girls’ dorm. Can it be that the contractors neglected to put in a heating system?

Let it be understood right here that the Sophs are bound to win the rope pull. Why they have been up here for a week anchoring one end of the rope on the north side of the Lake.

THE GIRLS’ DORM.
The newest addition to the campus buildings and the largest of them all not only makes good the hearts of about one hundred Home Economics students but fills the rest of us with pride and boastfulness. It must certainly be one of the most magnificent buildings in any part of the country. Imposing as its appearance is from the outside, a visitor receives greater impressions in viewing the interior. The reception room in itself is a marvel and the room and laboratory arrangements do not fall far short of being perfect.

A PROPHETY
In athletics this year Connecticut will come out of the shade and take its place in the sun. This prophecy is based upon two—no, let us say, three facts.

FIRST FACT. In the Freshman class of 1925 we have a wealth of first class athletic material. With our four year regiment and the forty man varsity which includes captains and managers of high ability, we shall put an army into the field that should carry the Blue and White into every college on the collegiate map.

SECOND FACT. We have evolved a system of athletic administration that promises a smooth-working mechanism. It is the product of the combined thought of students, faculty and alumni and in its operation gives representation to all three of these necessarily involved bodies.

THIRD FACT. The athletic morale of Connecticut, high as it always has been, will be raised yet higher by the hope of victories to come, at the beginning of the season, and later by pride in winning teams and confidence in good leaders and an efficient organization.

“The old order changeth, yielding place to new.” If there is still a holdover from the old, then it cannot be helped, believe those who know. This new is here and we find it good. Soon it may be better.

A WORD TO 1925
Your class is one of the biggest that ever entered Connecticut. You can make it the best.

Every college has its standards and traditions and ideals that are peculiarly its own. These form a structure in the institution as real as any of the college buildings. They college body, be described or listed down in inventory but they are present nevertheless. You must absorb them.

We say that a certain man is a real Aggie man. He is a type that embodies in his personality the traits that Connecticut training has given him. It was once said of the Yale men that they played with bulldog tenacity. They never gave up. It is said of the West Virginia men that their honor is spotless. Harvard has a reputation for turning out “dandies.” What are our special characteristics? You will discover and assume them as you go along.

You cannot realize how glad upperclassmen are to see a Freshman class with ability, ambition and manners, lacking freshness and cocksureness. Look up to your seniors. Listen to what they have to say. Pay them respect as you will be paid respect when you are upperclassmen. Do well that which you undertake in studies athletic activities and you will become proud of Connecticut and the part you played in shaping her destiny.

TRIBUTE
To Professor A. W. Manchester, Chairman of the faculty representation in the new Athletic Council must go the sincere thanks of the student body for his untiring zeal in bringing about a new athletic era in this college. Mr. Manchester represents not the mere body, but with his keen appreciation of the student viewpoint, he carries the right combination of qualities to work to the best advantage of the college. He is an Aggie man in himself and out to serve the interests of Connecticut and he has always been a friend of the students.

WHAT 1921 IS DOING
Another laurel wreath has been added to Connecticut’s collection. This time it is not in the field of athletics but in the much bigger field of life.

The success of the class of 1921 which was graduated in June in securing positions has been a source of gratitude and pride to the college body and especially to their former instructors who take no little pride in the success of their proteges especially in these times of unemployment.

The Campus has been able to collect information regarding many of last year’s seniors and hopes to hear from the remainder of the class shortly.

The following have been heard from and may be reached at the addresses given.

William Gronwald, 403 Claremont St., Brooklyn, N. Y. Plant Inspector for the Borden Milk Co.
William Maloney, 28 Ayre St., Waterbury, Conn. General Grocer Business.
D. Dow, 1121 Arch St., Philadelphia Pa. Special Reporter for Philadelphia Inquirer.
Edward Sawin, Torrington Memo-
High School. Teacher of Agriculture.
Donald Getes, Naugatuck Home Farm. Herdsman.
Henry W. Fieneman, Laconia, N. H. County Agent, Belknap County.
E. Selden Clark, Washington, Conn. Teacher of Agriculture.
Maurice Lockwood, Carrol County, N. H. County Agent.
Webster C. Chapman, Woodford Farm, Avon, Conn. Herdsman.
William L. Woodford, Bloomfield, Conn. Herdsman.
J. Peter Johnson, Riverston, N. J. Assistant State Entomologist.
Charles C. Compton, Indiana. Assistant State Entomologist.
Miss Salame C. Smith, United Charities, Hartford, Conn. Social Service.

(Doc. from page 1, col. 4)
1. The President of the College shall appoint the chairman of the Athletic Council.
2. The Student Director shall be the Secretary and Treasurer of the Council.
3. The Treasurer of the Council shall have the custody of all funds raised for intercollegiate athletics and of all property purchased from such funds.
4. To ratify schedules.
5. To ratify managers.
6. To make recommendations to the President of the College in regard to the selection of coaches.
7. To lay down rules governing the conduct of managers.
8. To report to the President any desired changes in rules or policy.
9. To harmonize insofar as possible all athletic effort. To secure proper support for athletics and to make their success by all desired means.

Voted: That the Students Athletic Association be requested to modify its constitution to conform to this plan of re-organization.

Functions of the Student Athletic Association.
1. Membership
2. Dues
3. Meetings
4. Election of officers, managers, assistant managers, etc.
5. Insignia
6. Represent student body.

This scheme was drawn up during the summer by an authorized committee of alumni, faculty and students. The members were: Acting for the Alumni, E. Newman, A. V. Aubrey, E. D. Dow, T. Mansfield; acting for the faculty; Dr. L. H. LaSonne, S. H. Holister, A. N. Manchester, E. D. Warn-
,J. L. Hughes, L. M. Chapman; acting for the students, P. L. Putnam, A. N. Mitchell. Of these, E. D. Dow, T. Mansfield and A. N. Mitchell were unable to attend the meeting of the body.

The committee arose from and be-
gan its work because of proceedings in the Alumni Association meeting during Commencement week in June, 1921. At this meeting athletic matters were discussed freely and pointedly with the result that the above alumni committee was formed to confer with the president in regard to the athletic situation.

During the negotiations of this Alumni committee with President Beach it was decided that a thorough over of the athletic mode of administration was necessary. To do this the committee was made larger so as to give representation to faculty and students as well as alumni in forming a new program. President Beach then appointed the faculty and student members which are listed in the beginning of this article.

(Cont. from page 6, col. 4)
KAMPUS KLIPS

Prof. Sinnott—"When are you thinking of getting married?"
Prof. Torrey—"Constantly."

WHOSE HOSE?
Co-ed: Size 16, Connie, please.
Connie: Have you given you two pair of eights?
(Oh, yes, Lizzie, the Bookstore has ’em now.)

Although much consideration is being given now to the Disarmament Conference at Washington, we think a little attention should be diverted toward the deliberation of an imminent question at Storrs, namely that of "A Code of Rules for Conducting Warfare in the New Girls' Dorm."

The typewriters and the seamstress are gonna fight, there's no doubt about it, and we should see to it that the rights of neutrals are not disregarded.

Kampus Klips humbly puts forward the following rules for consideration by both parties.

1. A chalk line shall divide the Reception Room in half. The co-eds can have the west half.
2. Gentlemen who have friends in both camps must leave all weapons at the door. He may see his stenog in the attic on Wednesday night and his co-ed in the cellar on Saturday night. (This is as far as we can get 'em in the same building.)
3. Breakage will be paid for by the college and the spells of war shall be given to the Epileptic Colony.
4. On Saturday nights the co-eds may have the shower rooms from 6:00 till 8:00; the stenogs from 8:00 till 10:00.
5. Hatpins are barred from the conflict as being in-human weapons.
6. Truces shall be declared when any visitors are present.
7. No trenches shall be dug in the surrounding landscape.
8. Co-eds are forbidden to use their education to an illicit advantage. (What is that man laughing about?)
9. Both parties shall say their prayers in harmony.
10. All propaganda shall be diffused by the agency of the Safety Valve.

Reports on the daily progress of the engagement will be published in the Campus from week to week. (We flatter ourselves in saying "from week to week.")

$7.66
Ag: "There seems to be an odd cent on our board this year."
Bag: "Yes, I noticed it just as soon as I went in the door."

With a sad yell of desperation the cafeteria eater drove his teeth into the holocaust.

It has been suggested that we adopt an animal as a symbol in athletics. You know,—like the Princeton Tiger, the Brown Bear, the Yale Bulldog, etc. Here’s some good ones, don’t you think? The Aggie Anteater, The Connecticut Coyote, The Blue and White Bull. The Hippopotamus of the Hill.

What Is Research?

S
SUPPOSE that a stove burns too much coal for the amount of heat that it radiates. The manufacturer hires a man familiar with the principles of combustion and heat radiation to make experiments which will indicate desirable changes in design. The stove selected as the most efficient is the result of research.

Suppose that you want to make a ruby in a factory—not a mere imitation, but a real ruby, indistinguishable by any chemical or physical test from the natural stone. You begin by analyzing rubies chemically and physically. Then you try to make rubies just as nature did, with the same chemicals and under similar conditions. Your rubies are the result of research—research of a different type from that required to improve the stove.

Suppose, as you melted up your chemicals to produce rubies and experimented with high temperatures, you began to wonder how the earth must have been millions of years ago when rubies were first crystallized, and what were the forces at play that made this planet what it is. You begin an investigation that leads you far from rubies and causes you to formulate theories to explain how the earth, and, for that matter, how the whole solar system was created. That would be research of a still different type—pioneering into the unknown to satisfy an insatiable curiosity.

Research of all three types is conducted in the Laboratories of the General Electric Company. But it is the third type of research—pioneering into the unknown—that means most, in the long run, even though it is undertaken with no practical benefit in view.

At the present time, for example, the Research Laboratories of the General Electric Company are exploring matter with X-rays in order to discover not only how the atoms in different substances are arranged but how the atoms themselves are built up. The more you know about a substance, the more you can do with it. Some day this X-ray work will enable scientists to answer more definitely than they can now the question: Why is iron magnetic? And then the electrical industry will take a great step forward, and more real progress will be made in five years than can be made in a century of experimenting with existing electrical apparatus.

You can add wings and stories to an old house. But to build a new house, you must begin with the foundation.

GERRY PORTRAITS DO THIS

You should possess your individual characteristics.

THE CONNECTICUT CAMPUS

College has busy summer.

Farmers' Week and Short Courses Well Attended.

The summer just closed has been a busy one at the College in the latter part of June there was a conference of the agricultural instructors in the High Schools of the state, attended also by men who have since gone to similar positions. In July there was a three day meeting of the Extension workers and County Agents of the Southern New England States for a conference on problems in Animal Husbandry in this section.

FARMER'S WEEK

The largest gathering of the summer was of course that of Farmers' Week, the first week in August. This brought more than fifteen hundred different individuals to the college, a large number of whom, had never been to the institution previously. The meetings from Monday to Friday inclusive were well attended and the plan adopted of having "something for everybody every day" proved very successful. Programs were given daily in all phases of agriculture and home economics. The week closed with a beef steak barbecue on Gardner Dow field. This proved one of the most enjoyable outdoor occasions ever attempted on the "Hill."

JUNIOR CLUBS

Following immediately upon the closing of Farmers' Week was the coming of the 150 members of the Junior Clubs of the state for their weekly Short Course at the college. For eight days these enthusiastic youths studied their special subjects and learned how to play together under the leadership of the Extension and College specialists.

A new activity this year was the inauguration of Women's Short Course, two Short Courses especially for mature women, each five days in length. These proved very helpful and were well attended. They indicated a new form of service that can be developed considerably another year, with the new facilities of the Women's Building available for use.

During August we had a visit from about fifty Grange Lecturers who stopped for a night on their way to a New England Conference in Maine, and also from the Poultrymen of Conn., and neighboring states who were on tour through all the counties of the state. This proved one of the most enthusiastic groups of people of special interest that has ever been at the College.

Another conference of more than local interest was the annual meeting of the Connecticut Federation of Feed Merchants who held a two day conference both with an interesting and stimulating program. This meeting was so successful for all concerned that the group indicated their desire of making the Storrs gathering an annual feature.

The Campus will run some new features this year. It will come out every Wednesday.

MIRRORS TO BE PUT IN KOONS AND STORRS

No longer will shavers with the intent to use the Gillette be balked in their attempts by the absence of a pilfered mirror. Mr. R. I. Longley says that four new mirrors will be placed in each washroom. These will be in size, 14" by 16" and THEY WILL BE BOLTED TO THE WALL. These are expected during the next two weeks. New lamp sockets will be installed in the corridors and washrooms. These are on the same plan as auto headlight sockets and are being put in to prevent borrowing.

(Cont. from page 1, col. 3)

(Cont. from page 1, col. 3)

E. W. C. A. College

Miss Minnie McCracken, assistant purchasing and chief clerk at the college has handed in her resignation to take effect Sept. 23. She will enter the Y. W. C. A. college of Home Economics and Institutional management at Boston, Mass. Miss McCracken came to Storrs in 1917 from Willimantic, Conn., where she held the position of cashier with the Southern New England Telephone Co.

During her stay at Storrs Miss McCracken has been held in high esteem both by the student body and faculty and has held several positions in local organizations including President of the Sewing Club and Business manager of the Social Societies. Her place will be filled by Mrs. M. S. Crane of Storrs who has been employed in the business department for several months. Miss McCracken will finish her course at the Y. W. C. A. college in 1928 and expects to open a tea room and cafe shortly after. Her many friends here are hoping that she will locate as near Storrs as possible.

In the meantime much information has been gathered from over 40 colleges and universities throughout the country, to a committee in formulating a satisfactory plan.

The finished scheme, as reprinted above was unanimously agreed upon by the members of the committee as it was delivered to the Trustees and they approved it, after which President Beach appointed as the faculty members of the new Council, President A. N. Manchester, Chairman, D. E. Weller and S. P. Holister. The Alumni Association has elected A. V. Aubrey, S. Gillette and E. H. Forbush as its representatives.

After his appointment Prof. Manchester began to act in his capacity as Chairman of the Faculty representation and has given a great deal of his time during the summer in working upon athletic matters of every description. In a letter sent to the Editor-in-Chief of this paper, he elaborates upon the new plan as follows:

"All coaches are to be employed by the President as members of the College staff and are to be paid from the College funds for the same as the Faculty. In case College funds should be insufficient, it might be possible for the Athletic Council to transfer some funds to aid in paying the coaches. This would not alter the status of the coaches, however. The College also takes over the employing of officials for the games and will pay the official; thus relieving the Athletic Council of $500 or $600 expense annually.

The coaches are to be members of the Physical Education Department and under the general control of that department. The head coach however, who will be Mr. Tasker, will be in the fullest sense of the word, head coach, having the entire control of the coaching and development of the teams engaged in inter-collegiate athletics.

Coaches are employed upon the nomination of the Athletic Council.

The Athletic Council will be made up of three students who are managers of football, basketball and baseball, three Alumni elected by the Alumni Association, three members of the Faculty appointed by the President, and the Physical Director. One member of the Faculty is appointed as chairman of the Council which gives equal voting power to each group, no one group being able to dominate the Council in any way, unless it can do so by getting the support of another group. The Athletics Council will retain the control of the awarding of insignia, election of managers, etc. The Faculty have the power to make recommendations upon those matters which particularly concern the Faculty, such as the number of games to be played or concerning matters which affect the scholastic standing of the student.

The President has appointed the following Faculty members of the Council: A. W. Manchester, W. H. Gillette, S. P. Holister, D. E. Warner. The student members you of course know, they being the three managers. The three Alumni members have not yet been appointed.

**DEPARTMENT NEWS**

On September 15 the Poultry Department announced that it received over 150 paid applications for the laying contest which will open November 1st. In the ten years that these competitions have been conducted at Storrs there has never before been so many breeders who wanted to send their fowls to participate in the contest. Many others who desired to enter pens in the contest were unable to do so because of limited accommodations.

**DAIRY**

The Dairy department hopes to install in the near future an entirely new system of refrigeration. Plans now under consideration call for the erection of a small addition in the rear of the creamery in which a six ton ammonia compressor will be installed. Machinery will also be provided for the making of ice with a capacity of 500 lbs. daily. The present ice box will be entirely remodelled and a dry hardening room for ice cream will be added. Capacity of 300 gallons will be provided. If the present plans are carried through the dairy department will be as well if not better equipped than any eastern college.

The experimental apparatus has been purchased and experiments for the further development of cottage cheese have been carried on. The experimental herd which has been quartered at Spring Hill since fire destroyed the old dairy barn has been moved to the old poultry plant.

**COLLEGE STOCK NOW AT EASTERN STATES EXPOSITION**

JUDGING TEAMS FROM ANIMAL HUSBANDRY AND THE DAIRY DEPARTMENTS WILL CONTEST FOR HONORS

Connecticut is again well represented at the Eastern States Exposition which opened at Springfield, Sunday for a seven day session. The exposition has attained national fame and the presence of Connecticut Agricultural College live stock at the exposition has gained almost equal prominence. Judging teams from the college have been consistent winners at the exposition in competition with the teams of many eastern and often western colleges and it is hoped that all past records will be surpassed this week.

The Animal Husbandry Dept. will be the strongest contender for honors, having seven horses entered, the majority of which have been consistently placed and have won the first prize, and' winners on the fair circuit this Fall. The Hereford Bull, Flinstone Model has also been entered. He was awarded grand champion at the Hereford show at Watertown, Me., this Fall. Eight head of sheep have been entered in addition to a strong representation from the Shorthorn class.

Prof. H. L. Garrigus is in charge of the sheep and swine dept. of the exposition, a position which he has held for over five years. Prof. Garrigus has been very much in demand this Fall as a judge of livestock at the various state and national exhibits. Ralph Chaffee '22 is assistant to Prof. Garrigus, while Paul Beardsley '23 and Walter F. Wood '22 are working on the cattle.

The judging team from the Animal Husbandry Dept. will consist of W. L. Graf, W. D. Burrington, Robert E. Johnson, Henry F. French and Walter F. Wood all members of the senior class. They will judge all classes of livestock.

The Dairy Dept. will be represented by R. C. Abbe, R. K. Mills, P. N. Beardsley and H. D. Boas. They will judge bulls, cows and heifers in all four of the principal dairy breeds, writing reasons on eight out of twelve classes. The five hundred dollar trophy which was won by the Dairy judging team at the exposition last year was presented to the members of the team during a breeders session Farmers week. The presentation was made by Mr. Robert W. Scoville a prominent breeder and President of the Guernsey club. The members of last years team which won first place in competition with many other agricultural colleges, were Warren D. Burrington, Robert E. Johnson, Philip B. Jacquot and Webster C. Chapman. It is planned to return the cup to the College where it will be on exhibition immediately after the close of the exposition.

**A NEW START**

Everything on "The Hill" will take a new start, this term, under brighter conditions than ever before. One sees the new buildings, and knows the firmer grip the College has on the affections of the State.

The Church on the Campus extends its greetings to you. We, too, are making a new start. Within a few months we trust that our attendants will find the interior renovation both begun and finished; we had hoped to be ready by the opening of the term, but were delayed.

On one of the pews in the Collegiate Church Fifth Avenue a memorial tablet has just been installed. It says that in this pew Theodore Roosevelt met with the Congregation, and worshipped God.

In the year 1905—who knows?—there may be a memorial tablet installed on some pew in the Storrs Church, saying the same thing about some of our students; some one who did not think the best way to serve God and Community was thru "going it alone;" some one who believed in putting himself energetically into mankind's organized efforts toward the Kingdom of God.

The Church on the Campus invites you to worship.

Sunday Morning, 10:45.

C. E., 6:45 P. M.
POULTRY ASSOCIATION TO HELP FINANCE STUDENTS

Will Erect Poultry Houses for Convenience of Students Desiring to Bring Their Chickens

The Connecticut Poultry Association will help a limited number of Connecticut boys to finance their way through college. At a recent meeting of the executive committee held at Bridgeport the Poultry Association, through its officers has proposed to the board of trustees of the college to erect a poultry house large enough to accommodate 10 hens. This house is to be built entirely at the expense of the Poultry Association and to be used exclusively for young men who want to bring with them to Storrs hens to help pay necessary college expenses.

In event of acceptance, the Poultry Association will erect such a house probably close to the poultry plant with the understanding that the Poultry Department will have entire supervision and that the college will keep the house in repair. It is expected that the first house to be erected will be completed during the early autumn. This first house is only the initial step in the Poultry Association's building program. The Campus has its sleeve some scheme by which it hopes to finance no less than twelve such houses to be used for the same purpose. This means that there can come to C. A. C. each year not less than three students who will be privileged to bring their poultry with them. In the event of their being more than this number of applications they probably will be selected on the basis of the kind of work they have done as members of the thirty odd poultry clubs in the State.

ANIMAL HUSBANDRY

The stock of the department which is now on the fair circuit has been winning consistently wherever it has been shown. It will be at the Eastern States Exposition this week. The department announces that it has on hand cloth in five suitings which has been made from the farmers wool pool of which Prof. Skinner is the head. This cloth is on sale and samples may be secured at the department office.

AGRONOMY

The Agronomy department announces a new course to be known as Agronomy 1a. This course will be required for all students who have not had agriculture in high schools or who have not had actual farm experience. An examination will be given all Freshmen in Agriculture on registration day. Those passing the examination will not be required to take this course but all will be required to take the advanced course which comes sophomore year. The crops laboratory has been refitted to give additional floor space and several pieces of apparatus including a Brown-Duvall moisture tester installed.

The Connecticut Agricultural College

STORRS, CONNECTICUT

FOUR YEAR COURSE in Agriculture, designed to train young men as Scientific Farmers, Teachers, and Agricultural Experts. Entrance requirements, four-year high school course. B. S. degree.

TWO-YEAR COURSE in the School of Agriculture, for those who have not the preparation, time, funds, or inclination to take the four-year course. Open to those who have completed the work of the common school.

FOUR YEAR COURSE in Mechanical Engineering. Four years of high school work required for entrance. B. S. degree.

FOUR-YEAR COURSE in Home Economics. Open to young women who are high school graduates. B. S. degree.

SHORT WINTER COURSES in Agriculture. Recent appropriations have provided additions to lands, buildings and equipment valued at $950,000. Expenses low. No tuition charge to residents of Connecticut. Military instructor. A catalog will be sent upon request.
