MISTER ALUMNUS!

We are putting in your hands this week a copy of the Campus. After you have read it through, we are sure you will say, as many an alumnus has said, that this paper is invaluable to a man who really wants to know what is going on at his Alma Mater.

The Campus believes that the spirit of every Connecticut alumnus is such that it equals, if not surpasses that of the undergraduates, that he is joyful when the Blue and White wins, sorry when it loses, and proud at all times of the past achievement and future promise of old Aggie.

The Editor in Chief of this paper was present at the meeting of the Alumni Association last June when the members of the organization showed such a determination to investigate athletic conditions that a committee was appointed on the spot to confer with the President. From this beginning has come a new athletic system and a new start on a new athletic road. Do you know that we are on the crest of the wave this year; that Connecticut will put out the best teams in its history between now and June, 1922?

The Blue and White athletics will fight as never before to put our Alma Mater on top of the heap. We want you to know when we win. We want the world to know. It is the job of the Campus to get the news and tell it and we find our greatest pleasure in putting information before the Alumni.

Mister Alumnus! We believe in you! Do you believe in us?

FIRST ENTERTAINMENT COMES THURSDAY EVENING

The social committee has procured for the first number of the entertainment course of the year one of the best known and most interesting lecturers now available in the East.

Craveth Wells, explorer and adventurer, was for six years in the jungles on the Malay peninsula. He and his party went so far into the jungles that for nine months they could not see the small amount which filtered thru the sun, the only light they had been the dense roof of trees and vines. Mr. Wells has pictures of the wild and uncivilised people who inhabit this territory and his pictures have never been taken before. He also brings with him a large collection of slides of wild animals, and a magnificent collection of Malay costumes which will be worn on the stage by several young ladies, if they can be secured.

The first lectures given by Mr. Wells after his return from the jungle were in Boston, and gave seventy lectures in four weeks. The illustrated lectures will start at eight o'clock. Tickets are on sale in the Book Store.

JAYNES ELECTED TO LEAD SENIOR CLASS

Harold L. Jaynes of Orange, Conn., was elected president of the class of 1922 at a meeting held Monday evening. Paul L. Putnam of Branford was elected vice president, and Miss Katherine Potter of Greenwich was elected secretary. Philip F. Dean of Glastonbury was elected treasurer. Jaynes is a member of Gamma Chi Epsilon, manager of basketball and a member of the Glee Club and Black-guards.

Paul L. Putnam in addition to being vice president of the class, was captain of varsity basketball for the 1920-21 season and a crack guard. He also is president of the Athletic Association.

FACULTY AND STUDENTS AID IN PREPARATION

Exhibits in Live Stock and Vegetables Larger Than Ever

Increasing interest in the Mansfield Fair was evident on Wednesday, September 28, when Hawley Armory began to take on the final appear of an exhibition hall. Two large tents were erected nearby. The largest was used as an imitation Madison Square Garden by the principal of the town of Mansfield. The smaller tent contained the college stock, consisting of the animals that have been used on the show circuit for the past few weeks. The Armory was used for the main exhibits.

Fruits and Vegetables

The exhibits of fruit and vegetables were larger than those last year. Lee's Orchard Farm, owned by Wayne Storrs, had a variety of exhibits in this line and was represented in the showing of dairy cattle. Dr. E. W. Simnot had several specimens of his work in the botanical gardens on exhibition, showing the results in breeding of new varieties of squashes and other vegetables.

Many horticultural exhibits were in evidence, the college orchards contributing many varieties. William H. Poole, '21, displayed a very creditable collection of Mansfield-grown apples.

The Red Cross

Perhaps the most interesting booth at the Fair was the Red Cross headquarters, in which several demonstrations were given on sanitation and health. This booth was in charge of Mrs. R. E. Dodge.

Ag Club Exhibit

Opposite the Red Cross booth was the only real representation of student activities in the form of an educational collection from several departments of the college, put out by the Agricultural Club. The exhibit included fruits and vegetables, interesting slides of Plant Pathology, Agronomy, Dairy and Bacteriological displays. One of the principal things stressed was the advance notice of another Fair to be given on December 2 and 3 by the Ag Club.

Food on Sale

The biggest attraction seemed to be the home-cooked food which was on sale at the farther end of the Armory. This department was handled by the ladies of the Storrs Church Society.

The sporting blood of the community was stirred by a game of baseball between the league teams of Willing-
AGGIES GO DOWN IN DEFEAT TO BAY STÄTERS
PLAYING WAS ON A PAR WITH OPPONENTS

Many Faculty and Students at the Game

As a direct result of fumbles and a hooch: which seemed to hang over all attempts by Captain Mitchell's eleven to open up the play Connecticut lost out to Mass. Aggie at Amherst Saturday by a 13-0 score. No credit need be taken from the Aggie eleven however, for with the exception of a few costly and excusable fumbles and weak kicking the brand of ball displayed was on a par with that of the Bay Stä ters at all times.

Backed by a sanguine crowd of howling Aggie roosters, which exceed ed all expectations both in numbers and in noise per person, and in which was present a large and enthusiastic regressive section of the Faculty headed by President Beach the Blue and White eleven fought four fifteen minute quarters of mid-season football, at no time too short in victory.

The first scoring came early in the first quarter when after a few minutes of line rushing, the Bay Stä ters recovered the ball on a fumble on Connecticut's twenty yard line, failed to make a forward work and finally scored a field goal from the twenty-five yard line. This spurred the Aggie offense to greater effort, so opened work, not one forward being complet ed, and weak kicking prevented any scoring.

“MOE” DALEY WHOSE LINE BUCKING FEATURED

The second quarter saw seven more points piled up against Coach Tasker's charges when a difficult forward sent Grayson the Mass. Aggie right end behind the posts for a touchdown. Behind the Aggie machine took another brace and McCollough sent Daly and Ryan ploughing through the line for consistent gains. Fumbles again proved costly however and the last of the quarter saw the ball in the Aggie territory from where Lewanowski again booted three more points onto the score.

Hallowell who replaced McCollough at quarter in the last of the third was given a good start through a 46½ yard penalty given M. A. C. for illegal substitution. Again open work was re sorted to and many substantial gains

HIGH SCHOOL TEAM PLAYS FAST GAME

Second Team Loses to New Bri tain High

In a game replete with fumbles and loose playing the New Britain High School team defeated the College second team on Gardner Dow Field Saturday afternoon by a score of 6-0. The touchdown came after time had been called for the end of the last quarter but the whistle was not heard by the officials and thescore allowed to stand.

Altho outweighed by the Connecticut team the high school lads played a fast game and uncorked several formations which proved good ground gainers. Neither team could advance to any extent thru the line, and both resorted to aerial offense which the New Britain team used to great advantage.

The “Aggie” backfield showed power but lacked the ability to hold the ball as fumble after fumble destroyed the opportunity to advance the ball down the field. Captain Donchess and Eddy played a good game for the second team as did Sven who was forced to leave the contest in the third quarter because of an injured leg.

Lineup:

Second Team New Britain
Houston 1.e. Lendino
Thompson 1.e. Williams
Bristol 1.g. Cooley
Anderson c. Bentz
Schleichert r.g. Rekowski
Bolan r.t. Finneman
Eddy r.e. Manche
Enton q.b. Griffin
Sven,MacCarroll r.b. Mahoney
Haygeney 1.h.b. Davis
Donahue f.b. Martha

Umpire—Dougheh
Timekeepers—Bamford and Nestor.
Referee, Shaw
Headlinesman—Baxter

Time—Four ten minute periods.

VETERAN BUILDING BEING GIVEN A NEW LEASE OF LIFE

A general exterior overhaul on the Main Building promises to improve its appearance a great deal. Several carpenters and painters have been working for the last two or three weeks.

The repairs include a complete new set of shingles on the east side, patching of the west roof, towers, and lean to roofs. A new coat of paint on the exterior with white walls while truc kling as before except that the new yellow paint will be slightly darker than that last used.

Wanted: By the Campus—A Fresh man who can run a typewriter, draw a cartoon, hang wall-paper, sweep up a floor, file, answer telephone, interview the President, keep track of activity meetings, run fast, hide behind posts, manipulate a Kodak and wear a dress suit. If there be such a man, let him come forth immediately and be ordained.

JUNIOR CLASS NOTES
A special meeting of the Junior Class was held in Gulley Hall last Wednesday. After a short discussion on old business, nominations were called for, to fill three positions on the Student Council. Arthur Weinstein, E. Stanley Peterson, and Carl Dossin were elected. After the meeting was adjourned, a short meeting of the 1922 Nutmeg board was held to discuss plans for the book.

SOPHOMORE GIRLS DANCE TO CELEBRATE ROPE PULL
A dance was given by the Sophomore class last Thursday evening as a celebration of winning the Rope Pull from the freshmen. A cordial invitation to all upper classmen was given by the Sophomores.

The music furnished by the Peerless Orchestra of Willimantic proved an added success of the evening.

THE RULES FOR FRATERNITY RUSHING

At a recent meeting with a faculty committee the Mediator recommended that the rushing rules of last year replace those proposed by the Trustees for operation this year.

Briefly, the rules of last year provided for a rushing season till December 17, a schedule of visits, a closed door after 8:30 except on Saturdays and Sundays), a definite time for delivery of bids, and a twenty-four hour silence period previous to time of pledging.

Fraternities at Connecticut are social and educative centers and are not honorary societies that require three years to Covaledate a man; later a man is good enough for membership. In the period before Christmas, fraternities have plenty of time to pick their men and closing the fraternity doors to Freshmen after 8:30 prevents encroachment on time that should be applied to study. If the rushing season was elongated to a year, fraternity operations for new men would go on just the same and the agony would be only prolonged. The Mediator agrees however, that men should not be initiated until after the second semester, when they have demonstrated their ability to stay in the wagon. But it remains true, at Storrs it works better for the institution and the man to have him tie up with a fraternity in his first year.

It is unnecessary to limit the fraternities in membership. They are self-limited and limit each other.

The meeting will probably result in a faculty recommendation to the Trustees that the rushing rules of last year be put into force for the coming season.

The Campus wants to tell the world and Coach Tasker that there will be more than eleven men fighting for Connecticut out there next Saturday, but does not want, Captain Mitchell in thinking that the A. should stand the expense of coffins for the Trinity men.

In the 1921 edition of Whos Who we find the following item:

This bold and bleak historical statement of a life of service seems, in its paucity, to be not worth printing, and yet in its spirit of reticence and lack of ostentation it is representative of the man of whom it speaks.

From the very beginning of his work in Connecticut, Charles L. Beach performed his duties quietly, serving well the interests of his chosen pursuit without a desire for personal aggrandizement.

In the college catalogue of 1897 we read the following: "A practical course in dairying is to be opened in January under the special charge of a thoroughly competent instructor, familiar with the best modern methods of dairying."

And again: "The practical instruction in milk testing, cream separation, and butter making has been placed in charge of Mr. C. L. Beach, a graduate of Wisconsin University and a former assistant in the Dairy School there."

Mr. Beach came to the institution as an instructor in the dairy department at a time when the dairy interests were becoming important and he served them so well that he obtained confidence on every hand. His experiments in feeding were especially valuable. Mr. Beach occupied his position in the dairy department from 1897 till 1906, at which time he resigned to become professor of dairy husbandry at the University of Vermont.

The editorial which appeared in the Lookout, then the college paper, reflects the feelings of the students at losing their professor of Dairy Husbandry:

"The announcement of Professor Beach's resignation was received in the state at large with regret, and by the students and alumni with something like dismay. Not only was he in term of service one of the senior professors, but his work has been fruitful in results and promised to be even more valuable in the future. However attractive his new field may be, we do not believe that his work in Connecticut was done, or that there was not still a great deal of the state and college, room for further development in his chosen pursuit. The general regret shown by the dairymen is sufficient evidence of the value they set upon his services to that interest, and their confidence in him and his counsels."

"Professor Beach has been exceedingly fortunate in winning as well as deserving the affection and esteem of all who have come under his instruction; and he has retained that affection and esteem after his pupils have gone out into active life. It has not often fallen to the lot of a teacher to receive such a splendid evidence of the admiration inspired by his work and character. We are glad that he has had this testimony of the real sentiments felt toward him by the citizens of the state, by his fellows of the faculty, and by the students and alumni; and the best of all must be the consciousness that all this has been fairly earned."

"The good wishes of the Lookout follow him here. We wish him success and happiness in the beautiful town in which he is to make his home, and in the larger institution of which he is to be a part."

After two years at Vermont, Mr. Beach returned to Connecticut to assume the presidency upon the resignation of Mr. Simpson. The Lookout of June, 1906 heralds the event as follows:

"This commencement number marks a change as all are aware, in the administration of the University. Before the next issue of the Lookout appears, President Beach will have entered upon the duties of his office. We bid him welcome, and wish him a long and fortunate term of useful service."

And later the editorial pages of the Campus' predecessor contains this item:

"President Beach takes charge of the college at a very fortunate time. The college has already won a secure place among the educational institutions of the state. By training, by experience in this and other institutions of its kind and by his wide acquaintance with the best interests of the State, President Beach is well fitted to make his administration notable in the history of the College."

H. W. D."

Well the editorial from the Lookout prophesied can now be judged as we survey the years from 1906 to 1921. And yet it is impossible to exaggerate the achievements of a man or an organization during a contemporary period. When time gives perspective very often they loom larger but more often they diminish. It is the exceptional achievement that does not ride upon the feverish approbation of the moment but builds its foundation firmly and substantially so that the ultimate good is assured. So, we think, must be that of the man who is now starting his fourteenth presidential year at this institution.

It is possible to point to a magnificent assembly of college buildings erected during a certain regime and to say, "This was done." Or to indicate a gradual acquisition of valuable property into a great land holding and to say, "That was done." And to show where certain policies were instituted in with foresight and vision too often lacking in executives of the present day stamp. These things and many more could be said of a man who prefers performance before explanation and service before display, but nothing which this or any publication could put into print would add to or detract from accomplishments which must appear greater in future years.

Well, now that the rope has been pulled and stretched another two feet in the process, it is high time that we have a molasses pulling contest in the attic of the new dorm.

CHARLES LEWIS BEACH, B. AG R., B. S.

PRESIDENT C. L. BEACH BEGINS HIS FOURTEENTH YEAR AS HEAD OF C. A. C.
A Gateway—Electrical

ONLY a forty-foot gateway bounded by two brick pilasters and ornamental lamps, but it is unlike any other gateway in the entire world.

For back of it is the General Electric Company's main office building, accommodating 2300 employees. And just next door is its main laboratory with the best equipment for testing, standardizing and research at the command of capable engineers. Then down the street a mile long—are other buildings where electrical products are made by the thousands of electrical workers who daily stream through.

Through this gate messages and representatives from a score of other factories and over fifty branch offices come and go every hour—an endless chain of coordinated activities carrying on and enlarging the scope of over a quarter century's work for the betterment of mankind.

What a story this gate would tell, if it could, of the leaders of the electrical industry and of ambassadors from other industries and institutions—and from foreign lands. The story would be the history of electric lighting, electric transportation, electrified industries and electricity in the home.

NEW UNIFORMS WILL BE ISSUED SOON

The present work in the school of the soldier and squad is a show so much progress that platoon drill will soon be taken up.

The schedule of military work is arranged so that every student is acquainted with the different phases of the maneuvers before being called upon to take part in any ceremonies. Requisition for new clothing this fall and by the remainder of the battalion have been approved at headquarters and the issue will be here in a short time.

R. O. T. C. unit here at C. C. is to have an addition to its staff. A captain of infantry will be detailed here to take charge of the work in infantry weapons of all kinds. This means that instruction will be given certain classes in such weapons as the machine gun, the Stokes mortar, etc.

ALUMNI NOTES

Roy C. Avery '14 is now assistant Professor of Bacteriology at Massachusetts Agricultural College.

Lincoln Crosby '19 was in Springfield last week covering the Eastern States Exposition for "The Field."

William Maloney '21 was on the "Hill" Sunday for a short visit.

Webster Chapman '21 was on the "Hill" for the Rope Pull. Dr. Chauncey G. Markham 20, and Miss Doris Borden of Hartford were married on October 1.

Charles Brock '19, Harry Lockwood '29, Maurice Lockwood '21 and Harry Finnamen '21 were visitors at the Eastern States Exposition. "George Stumpf and "Coke" Clark '18 attended the Mass.-Aggie" game.

Ela Lambda Sigma Fraternity has canvassed all its members in a radius of 150 miles and a large number have signed their intention of "coming back" for the Trinity game.

After struggling with the intricacies of fraternity raising rules the Mediator wonders how League of Nations statesmen keep on their feet.

(Cont. from page 1, col. 1) upon to demonstrate the instincts of her forefathers, and climbed to the top of an apple tree where she was allowed to view the other unfortunate through a turkish towel. Other members of the Towel Brigade were set to work pulling grass and otherwise bettering the orchard.

At irregular intervals one of the husky guards would make sudden forays into the darkness and produce whoops and laughter from uninvited members of the parade.

After the initiatives had been sufficiently harrangue the little flock was herded to-gether and started on the "trail to Home Sweet Home."

Just before the journey home was completed the audience was favored with the rendering of "How Green I Am" by the entire freshmen company.
FAIR SUPT. PRAISES COLLEGE LIVESTOCK

The following letter from the Superintendent of the Livestock Department of the Waterville, Maine Fair Association, indicates very clearly that the Connecticut Agricultural College livestock has won a great deal of favorable comment throughout New England as well as in our immediate vicinity.

Waterville, Maine
Sept. 13, 1921.

President Charles L. Beach
Storrs, Conn.

My dear Mr. President:

I write to congratulate you on your exhibits of livestock at our recent fair. You had winning entries in three leading breeds of cattle and in two of them won grand championships. In my judgement your grand champion Hereford bull T. Woodford sth is the best animal of the breed ever shown in the east.

It is hard to justly appreciate the value of such work. Every farm in the world needs better livestock and every person in the world is benefited by its improvement.

I hope the other New England agricultural colleges will note your example.

Yours very truly
(signed) Harvey D. Eaton
Supt.

SOPHS ELECT IRVING TAYLOR AS PRESIDENT

T. F. Cronin Elected Football Manager.

The Sophomore class held its first regular meeting of the year in Galley Hall Friday, September 29. After a short business discussion the class proceeded with the election of officers. The following men were elected to hold office for the ensuing year:

President: Irving Taylor
Vice Pres.: Lawrence Castiglione
Secretary: Miss Mary Miner
Treasurer: Allan Hotchkiss

T. F. Cronin was elected football manager.

ROAD TO GURLEYVILLE BEING CHANGED

Old Road Will be Filled in

The terrain of our campus is undergoing a slight change in the vicinity of the new dormitory. To Gurleyville will soon be discontinued and made a part of the campus of the college.

The new road now under construction starts at a point several hundred feet north of the new Woman's Dormitory, continues east for about a hundred yards, and then goes south to meet the old road. By making this change the line of college buildings on that road will be unbroken and the grounds between Valentine and the new building can be made into one. Mr. Tenney, superintendent of buildings, has charge of the work and expects to have the road completed in the course of a few weeks.

RIFLE TEAM HOLDS FIRST RIFLE MATCH

The first rifle match of the year was held Wednesday at 8:00 P. M. in the gallery of Hawley Armory between the team from Mansfield Center and the students of C. A. C. The score resulted in C. A. C. winning by twenty-eight points. Members of the college team were A. Frostholm, T. Gardner, R. Webber, V. Pinkham, R. Webber and D. Lawson.

The match was arranged by A. J. Brandage and conducted by D. H. Lawson. If sufficient interest is shown in target practice a team that will represent the college in intercollegiate rifle matches.

Many of our visitors on the Hill of late have taken interest in the turkeys on poultry hill. There are now very close to one hundred birds, some of them in the experiment which is being run. The department will probably sell some of these birds for Thanksgiving and this will give some of the boys a chance to take home a nice bird to the folks on the big feast day.

FUTURE RIVALS

The left field bleachers at M. A. C. field were occupied on Saturday by a creditable number of student rooters and an exceptional attendance of faculty members. Indications are that the Bay staters are naturally becoming our chief rivals.

WEEK-END TRIP THRU FOUR NEW ENGLAND STATES

"Niagara of New England" at Hinsdale, N. H., Chief Attraction.

Leaving the "Hill" last Saturday morning Professor C. A. Wheeler and his class in power plant engineering, C. Stocking, J. Oberly and B. Standish accompanied by Mrs. Wheeler, set out to visit several factories and power stations in New England.

The first half was declared at Holyoke and the plant of the Worthington Pump Company where nearly all machinery was studied and explained to the class.

Early in the afternoon, the party arrived in Amherst and gave up ideas of power plants until the following day. The football game and other things of interest around the town became the attraction. Mr. Green and Mr. A. Avery, both former Connecticut men, welcomed the party and gave them accommodations for the night.

About nine o'clock Sunday morning, the party left Amherst and drove to Mount Herman School in Northfield, Mass., and inspected the heating plant its conditions and problems of operation. At Northfield Seminary, a similar plant was inspected and studied. Other points of historical note and general interest were visited in Northfield.

The climax to the trip came soon after leaving Northfield when the party crossed the Massachusetts boundary line into New Hampshire and then continued thru Vermont to Hinsdale, N. H., where the largest plant of the New England Power Company and the largest of its kind in New England was visited.

Here a huge dam sets the Connecticut River back over twenty miles and gives an average flow of five thousand cubic feet per second, falling a distance of one hundred twenty-eight feet, a small part of which is used by the Power Company to produce sixty thousand horse power of electricity.

This station is one of several that are connected together to furnish power and light for many New England towns and cities including Storrs and surrounding towns.

(Cont. from page 1, col. 4)

A. E. Nagle and Eagleville, the result being the deciding factor in the series of games which have been played during the summer.

Fair Parade

Towards the middle of the afternoon, the cattle were formed into a parade and marched around the field. This procession was unusually large for a fair of this size. There were some 25 pair of oxen, 8 pair of horses and about 6 head of dairy cattle.

The president of the Fair Association, Harold Storrs, was largely responsible for the expansion of the Fair this year. A. J. Brundage, Secretary of the Association took over a large part of the personal supervision of the Fair.

THE CONNECTICUT AGRICULTURAL COLLEGE

STORRS, CONNECTICUT

FOUR YEAR COURSE in Agriculture, designed to train young men as Scientific Farmers, Teachers, and Agricultural Experts. Entrance requirements, four-year high school course. B. S. degree.

TWO-YEAR COURSE in Agriculture, for those who have not the preparation, time, funds, or inclination to take the four-year course. Open to those who have completed the work of the common school.

FOUR YEAR COURSE in Mechanical Engineering. Four years of high school work required for entrance. B. S. degree.

FOUR-YEAR COURSE in Home Economics. Open to young women who are high school graduates. B. S. degree.

SHORT WINTER COURSES in Agriculture.

Recent appropriations have provided additional funds, buildings and equipment valued at $560,000. Expenses low. No tuition charge to residents of Connecticut. Military instructor. A catalog will be sent upon request.
