The President also explained that Congress will soon make available a sum of money ranging somewhere between $9,000,000 and $13,050,000, this money to be distributed among Land-Grant Colleges for the purpose of recruiting, training, and placing of farm labor. It is planned to finance the activities in Connecticut out of Federally allotted funds so far as is possible. It will be necessary to set up an organization for this work and the appointing of a number of temporary employees.

10. The President informed the Board that the University has been requested by the representatives of Weylister Secretarial Junior College, Maret Junior College and the New Haven College for Women to take over their institutions and operate them. The President informed these representatives that in his judgment it would not be in the best interests of the University or in the best interests of the State for the University to take over these institutions.

THE BOARD VOTED to approve the President’s position in the matter and that the institutions should be so informed.

11. The President discussed with the trustees the request of Miss Elizabeth Hicks that the Ratcliffe Hicks funds held in trust by the Meriden Trust Company be invested until such time as the funds can be used for the construction of the Ratcliffe Hicks Classroom and Laboratory Building.

THE BOARD VOTED to authorize the President to discuss the matter with the State Personnel Board and that he urge the Board to grant Mr. White an extension of sick leave until October 15, 1943. This would cover thirty years of employment for Mr. White and would enable him then to apply for retirement on a retirement pay of 60% of the average of his base pay for the past five years.

13. The President discussed briefly the schedule of endowment funds which had been mailed out to the trustees.

THE BOARD VOTED to authorize the President to discuss the schedule of investments with the State Treasurer, Mr. Longley, and Mr. Riccio, and to prepare recommendations to be presented at the next meeting of the trustees.

14. The President discussed the scholarship and student aid program of the University and indicated a need for a revision in the present plan to better meet the post-war situation. The President explained that the matter will be discussed with the Governor on Monday, April 26, and with the sub-committee of the Appropriations Committee within the next week. A further report will be made on this matter at a later meeting.

15. The President informed the Board of an invitation he has received to
appear before the directors of the Hartford County Manufacturers Association. He has been asked to discuss with this organization the need for better facilities for the University's ESMWT program. The State Manufacturers Association, the Hartford County Manufacturers Association, war industries, the Appropriations Committee of the Legislature, and the Governor have urged the University to increase this type of service to the industries. All may be expected to support some plan for providing larger and better located facilities. The industries will be expected to take the initiative in securing these facilities. It may take the form of renting, leasing, or purchasing a suitable building for this purpose.

16. The President discussed at considerable length the status of John Y. Squires and Ivan Fuqua, whose resignations were accepted on April 22, 1942. The President suggested that he write Mr. Fuqua and Mr. Squires.
