The new plan will require a new agreement with the War Department. The agreement will be presented to the Board at a later meeting for discussion and adoption.

11. The President discussed the need for a retirement plan for members of the faculty of the College of Pharmacy. IT WAS VOTED to authorize the President to take matter with the Office of the Attorney General to determine if it is possible to include faculty members of the College of Pharmacy in the State Retirement Plan, effective as of October 1, 1939 instead of July 1, 1941, the date of affiliation with the University of Connecticut, providing the staff members concerned forward to the retirement fund salary contributions beginning with October 1, 1939 instead of July 1, 1941.

12. The President discussed with the trustees the Governor's letter of December 6, 1945, regarding the establishment of a medical school in Connecticut as a part of the University. IT WAS VOTED to make a careful study of the entire situation. Mr. Spencer appointed Dr. Creighton Barker Chairman and Mr. Suisman and Mr. Ryan to the Committee.

Dr. Barker informed the Board that he hoped it would be possible for him to
secure a two months leave of absence from his work with the Connecticut Medical Society in order to devote time to making a careful study of the needs, the type and the expense involved in the establishment of a state-supported medical school.

13. The President advised the Board of Trustees that Mr. Arthur M. Mitchell had resigned from the Board of Trustees because of change in residence from Connecticut to North Carolina. THE BOARD VOTED to instruct the Chairman of the Board, Mr. Spencer, to write an appropriate letter to Mr. Mitchell.

14. The President discussed with the Board the need for additional housing for September 1946. A detailed statement covering the situation had been mailed out to the trustees in advance of the meeting. This statement contained supporting data and suggestions for meeting the need, particularly the heavy demand for admission from veterans and civilian students from our state. It was the sense of the meeting that the President go to Boston to meet with Sumner K. Viley, Regional Director of the National Housing Authority, to determine if surplus government housing can be made available to take care of 400-600 additional students for September 1946, also a mess hall and kitchen to serve 800 students and a minimum of twenty family dwellings for faculty. If surplus government housing is not available, the President will determine from the Attorney General if it is legally possible to use authorized bond issue for the construction of dormitories for the purpose of constructing cinder block temporary housing. The President is also to make a careful study to determine if it is financially feasible to construct temporary cinder block houses out of funds derived from a self-liquidating bond issue. The President will call a special meeting of the Board as soon as sufficient information has been secured regarding the above.

Respectfully submitted,

J. Ray Ryan
