The meeting was called to order at 10:37 a.m. by the Chairman, Mr. Budds. Those present were: Mesdames Bailey and Sterling, and Messrs. Bishop, Budds, Driscoll, Fuller, Gill, Holt, McCormick, Sanders, and Watson.

Also present were: President Babbidge and Vice Presidents Waugh and Evans.

All actions taken at the meeting were by unanimous vote with the exception noted in section 121 of these minutes.

1. The minutes of the meeting of April 15, 1964 were approved.

2. President Babbidge presented a request from the Student Senate for an increase in the student activities fee from $3 per semester to $5 per semester to cover added costs and services of student government. The request was referred to the Finance Committee for study and report. Mr. Budds asked Mr. McCormick to sit with the Finance Committee when this matter is under consideration.

3. President Babbidge reported that Deans, Directors, and Department Heads have submitted their requests for the biennial budget for 1965-67, and that he and the two vice presidents are holding hearings with a view to submitting a proposed budget to the Finance Committee in mid-June for adoption by the full Board at its July meeting.
4. Mr. Evans reported that the State Department of Public Works, on recommendation of the State Department of Health, wishes to run a pipe line to carry the effluent from the University's sewer beds, and that to this end they need easement rights across certain pieces of private property. Mr. Gill emphasized that the effluent should receive tertiary treatment before it is discharged.

THE BOARD VOTED to request the Attorney General of the State of Connecticut to proceed to acquire by eminent domain an easement right for the installation of a pipe line across the following properties:

1. Harry Hopkins, Shady Lane, Eagleville, Connecticut
2. Mrs. Minnie Wilbur and Mrs. Dorothy Jackson, Shady Lane, Eagleville, Connecticut

The Public Works Department has been unable to negotiate mutually satisfactory terms of sale. Under the provisions of Section 48-9 of the General Statutes, we therefore request that eminent domain proceedings be instituted to acquire these properties as an addition to site of the sewage disposal plant, University of Connecticut, Storrs, Connecticut. When acquired, these easement rights will be an interest in land for an addition to the site of a state institution.

5. After some slight discussion of the Board's By-Laws, it was suggested that the President and the Provost review the By-Laws with a view to having them brought up to date.

6. In conformity with past practice (See Minutes of May 15, 1963, p. 3164, section f.), THE BOARD VOTED that after consultation with his administrative associates the President is authorized to make such salary increases to members of the professional staff as seem desirable from the funds available for the purpose, and to make a subsequent report to the Board of Trustees on the matter.

The President reminded the Board that it has been the practice to consider these salary adjustments as merit increases in salary, and that to this end last year approximately 10% of the staff members received no increase in salary while approximately 10% received more than one step. This year the amount of money available will be somewhat larger, but the President will assume, in the absence of expressions to the contrary, that the Trustees still expect to have the funds distributed on a merit basis.

7. The President informed the Board that in a small number of cases staff members are at or so close to salary maxima that it will be impossible to award them merit increases in salary unless the maxima are raised. Some other changes are needed in the salary plan, but a change in maxima could be made now without raising certain problems which would be involved in a more general revision. On the President's recommendation, THE BOARD VOTED to increase by two steps the maximum salary for each

of the following ranks: instructor, assistant professor, associate
professor, professor, special professor, dean, director, vice president,
and provost. These new maxima will become effective October 1, 1964.

The Board also expressed an interest in a more complete revision of the
salary schedules at a later date.

8. THE BOARD VOTED to authorize the award on Commencement Day,
June 14, 1964, of the degrees recommended by the various faculties
to those students who have completed all requirements, but to specify
that the Registrar and the Provost may withdraw the names of any
candidates whose requirements are not completed by Commencement Day.

9. THE BOARD VOTED to adopt a uniform fee schedule for real estate
appraisals as developed by the Department of Finance and Control and
approved by the Attorney General.

10. THE BOARD VOTED to accept the following scholarships, financial aids
and gifts and instructed the President to write appropriate letters of

(12) Philip Stiles, Associate Professor of Poultry Science, three weeks special leave with pay. To take special course at Michigan State University.

e.) THE BOARD VOTED to approve the following requests for retirement:

(1) Wendell Cook, Associate Professor of Zoology, effective October 1, 1964 after approximately thirty-three years of service.
e.) Continued

(2) Russell P. Hunter, Professor of Wildlife Management, effective September 1, 1964 after approximately ten years of service.

(3) Rufus Munsell, Professor of Agronomy, effective August 1, 1964 after thirty-four years of service.

The President was requested to initiate the appropriate forms and to express to these staff members, on behalf of the Board, sincere appreciation for the services they have rendered to the University and to the State.

f.) The Board gave extended consideration to the selection of a site for a branch of the University. Mr. Budds reported that he had conferred with Governor Dempsey, and the Governor had indicated that full responsibility for the selection of a site rests with the Board. President Babbidge made a background statement, describing the procedures which have been followed up to this point, and stating that in his judgment two sites, one in Waterford and one in Preston, were considerably superior to all others. Of these, he preferred the Waterford site as being more accessible. Mr. Gill felt that the Board should not select any site until additional engineering data were available. Mr. Driscoll emphasized strongly various advantages of the Preston site to which, in his opinion, too little weight had been given. Many other aspects of the situation were discussed. Before a vote was taken, Mr. McCormick asked to have the minutes show that he had not participated in the discussion, that he had not discussed the matter with other Board members prior to the meeting, and that he was not participating in the vote.

THE BOARD VOTED that the Board favors a site near the junction of Route 85 and the Connecticut Turnpike in the Town of Waterford as its first choice; and a site in the Town of Preston near the junction of State Highway 12 and the approach to the projected Thames River Bridge as its second choice. The former site is to be used if it is available at a reasonable price and if it is suitable; but if it turns out that it is not suitable or available, then the same sort of appraisal shall be made of the other site.

On this matter the votes were as follows:

Aye: Bishop, Fuller, Holt, Sanders, Sterling (5)
Nay: Bailey, Driscoll, Gill, Watson (4)
Present but not voting: Budds, McCormick (2)
Absent: Benton, Dempsey, Donahue, Schneller (4)

g.) On recommendation of Mr. Watson and Mr. McCormick, THE BOARD VOTED to approve, as a part of a Constitution of the Associated Student Government, proposals for the establishment of a Coordinating Council comprised of representatives of the student government organizations at Storrs and at the various branches. (See these Minutes, p. 3276, Section 6.)

h.) At its April meeting the Board authorized the establishment of a new position of University Director of Admissions, to be employed on the salary scale for University Educational Directors. The President informed the Board that he had now decided to alter the nature of this appointment in such a way as to make this action unnecessary. Announcement will soon be made of the appointment as Director of Admissions of John Vlandis, who is a graduate of a Connecticut high school and of the University, and Assistant Professor of Speech. Mr. Vlandis will replace Mr. Thomas Roberts who is retiring.

On recommendation of the President, THE BOARD VOTED to rescind its action taken at the April meeting. (See Minutes, p. 3282, Section j.)

i.) The President was requested to present to the Board at some future meeting suggested regulations governing the granting of awards by the University and its sub-divisions to persons other than students or members of the University staff.

13. No other business appearing, the meeting adjourned at 3:45 p.m. After adjournment, members of the Board heard a description of the activities of the School of Engineering by Dean Bronwell, after which they were conducted through a few of the school's laboratories and given brief explanations of a few of the research projects being conducted by members of the Engineering staff and by its advanced students. This was followed by a visit to a number of exhibits on display in the Exhibit Hall in the basement of the Jorgensen Auditorium.

Respectfully submitted,

Merlin D. Bishop
Secretary
