9. The President advised the Board of Trustees that the animal diseases laboratory of the University of Connecticut has been designated as a collaborating laboratory within the National Defense Program.

10. The Board of Trustees discussed the use of dining hall facilities in connection with the serving of meals for religious organizations. THE BOARD VOTED to reaffirm an earlier position regarding this matter and called attention to the action of the Board providing for the deeding of land on which had been constructed religious buildings to house those activities that are purely religious in character.

11. The President presented to the Board a letter received from Mr. Borden Burr, an attorney for Sigma Nu fraternity. It was the
11. consensus of the Board that the action taken on July 21, 1948 regarding discrimination by social fraternities was fitting and proper, and that the policy was now established.

12. The President advised the Board of Trustees that the Army Quartermaster Corps is now removing equipment in the amount of $88,084.23 (book value) from the Storrs campus. This equipment represents the inventory items remaining of the equipment transferred from the Fort Trumbull facility to the campus following the closing of the Fort Trumbull freshman-sophomore program for G.I.s.

13. The President advised the Board of Trustees that the Personal Services budget in the School of Pharmacy has now been over-allotted by $8,650. This over-allotment is the result of the failure of the General Assembly to approve a State appropriation for the financing of this program. The President indicated that it is expected that this matter will be resolved within the University operating budget before the end of the fiscal year.

14. The President presented to each member of the Board a copy of the annual Administrative Report.

15. The Board of Trustees approved accepting the grant of $5,000 from the New York Life Insurance Company to be used for the study of "career aspects of the life insurance business in college training in all phases — agency, actuary, underwriting, administrative, etc."

16. THE BOARD VOTED to approve the change in the by-laws as presented to the Board of Trustees at the special meeting of October 31, 1951.

The following by-law "The Registrar of the University shall be Secretary of the Senate and in the absence of the President and the Provost of the University, shall call the meeting to order" is changed to read as follows:

"The President of the University shall appoint, on nomination of a special committee of the Faculty Senate, a regularly elected member of the Senate who shall serve as Secretary of the Senate, and in the absence of the President and the Provost of the University, shall call the meeting to order."

17. THE BOARD VOTED to request the President to secure from the Faculty Senate recommendations and alternative proposals for defining teaching loads in the interest of the "qualitative development" of teaching and research.

18. THE BOARD VOTED to authorize the President or the Secretary of the Board to sign a deed transferring property of the University of Connecticut to the State Highway Department for the purpose of installing a State Highway drain along Route #195 in the vicinity of the new business area.
19. The President advised the Board of Trustees that Luis F. Thomen, Ambassador from the Dominican Republic, will be a guest of the University on December 2, 1951.

20. The President presented to the Board recommendations from Comptroller L. C. Riccio that several transfers be approved. THE BOARD VOTED to approve the following transfers:

(1) $12,700 from Project 8.384, Completion of Agricultural Industries Building, to 8.383, Administration Building.

(2) $5,000 transferred from Project 8.387, Animal Industries and Dairy Manufacturing Plant, to 8.383, Administration Building.

(3) $11,000 from Project 8.380, Extension of Underground Utilities, to 8.388, Pharmacy Building.

21. The Board discussed the importance of television in the field of education. The President reported that on March 21, 1951, an ultra high frequency channel was tentatively assigned to the University of Connecticut. Subsequent to this tentative assignment, the University filed two sworn statements of purpose, one on April 20 and the other on August 9, 1951. The President called attention to the fact that it would require about $150,000 to install the mechanical equipment for an effective educational television station.

Respectfully submitted,

-ss- J. Ray Ryan
Secretary
