(10) $2,640 National Science Foundation in support of research project entitled "Organization of a Complex Locus in Drosophila Melanogaster" under the direction of Dr. Arthur Chovnick, Department of Genetics.

10. Mr. Evans reported on conferences which he has held with the Trustees of the Julia B. Thompson Fund in Torrington. The Board discussed provisions of a proposed agreement under which the Trustees of the Thompson Fund would turn over to the University Trustees the sum of $100,000 upon the signing of the agreement and the balance, less expenses, when plans and specifications are completed for a branch building in Torrington and when it is clear that the project is actually ready to start.

The Board VOTED to authorize Mr. Evans to sign the agreement on behalf of the Board of Trustees.

11. Mr. Evans reported that a deed form had been received for land for the construction of a road at the Stamford Branch and that this project was proceeding satisfactorily.

12. Mr. Evans reported on a proposal from the owners to sell to the University land and buildings, known as the Jenkins property, abutting the University Branch property at Stamford. This proposal called for payments by the University to be extended over a period of years. After full discussion, the Board concluded that it would probably not be interested in the proposal, at least in its present form, and authorized Mr. Donahue and Mr. Evans to get further information with a view to discovery whether or not the University needed the property and, if so, whether or not acceptable terms might be arranged.

13. Mr. Evans reported that a business firm operating under the name "University Pharmacy," on privately-owned land contiguous to University property, had been making some use of University land. The owners of the pharmacy have stated that they were operating under the terms of an oral agreement. It was the feeling of the Board that this matter should be regularized, and that if any agreement were to be operative in the future, it should be in writing. Since the Board felt that Mr. Evans already had power to enter into such an agreement on behalf of the University, no action was taken at this time.

14. Mr. Evans reported on progress at the site of the new Law School. He stated that the state's fiscal authorities had reduced the contingency fund and reallocated monies so released so that work could be commenced on October 1, 1962, on the main project and two supplements comprising the entire original project with the exception of the auditorium. It is now planned that construction will be completed by December 1, 1963.
Mr. Holt reported for the investment sub-committee of the Finance Committee. He distributed figures showing income from investments and their current market value, and expressed the opinion that the Board should explore, under the new President, the possibility of getting substantial additions to the University's endowments.

Mr. Watson, who had been delegated at the last meeting of the Board of Trustees to discuss with the Governor various problems arising from the relationship of the state's fiscal officers to the Board and the University administration, reported that he had been unable to arrange a personal meeting, but had corresponded with the Governor on the matter. In the interim, several of the specific problems had been cleared up. The Board felt that it was not necessary at this time for Mr. Watson to press the matter further but that the general problem of the Board's authority should receive prompt consideration by President Babbidge with a view to early clarification of the situation.

Mr. Waugh presented proposals for new salary scales for the professional staff of the University. He outlined the relationship of these scales to the expenditure of a special appropriation of $900,000 which was made by the last General Assembly for the purpose of raising the salaries of members of the professional staff. He stated that with one exception every member of the professional staff would be at or above the new minima when salary adjustments are made on October 1, 1962. He mentioned the feeling of the University Senate, and more recently of their salary committee, that special attention should be given to raising salaries at the top academic ranks, and for increasing the size of the salary steps at those ranks.

The Board discussed the competitive situation of this University and the possibility of developing the rank of Special Professor as a means of retaining outstanding members of our present staff and attracting new ones.

The feeling was expressed that the Board would wish to discuss these matters with President Babbidge, but in view of the fact that it had already been necessary to file a copy of the proposed new scale with the state's fiscal authorities in order that salary payments might be made October 1 and in order that estimates might be made for the state budget, the Board VOTED to approve the new salary scale as submitted. A copy of the scale is attached to these minutes as a matter of record.

The University's booklet of Laws and By-Laws is in process of revision for reprinting. In this connection, Mr. Waugh called the attention of the Board to a seeming contradiction in their present by-laws, and in addition, one or two proposals for changes in the by-laws were made from the floor. As a result, and in accordance with the by-laws, it was voted to consider the following proposed changes in the by-laws and to lay them on the table until the next meeting of the Board, at which time they will come up for further consideration.
18. Continued

a) Amend Section 1 of Article V by striking out the present section and replacing it with the following:

(1) The Chairman shall from time to time appoint such standing or special committees as may be authorized by the Board

b) Amend Section 4 of Article II to read as follows:

(4) There shall be regular meetings of the Board of Trustees on the third Wednesday of each month except August. Unless otherwise ordered, the regular meetings shall be held at Storrs at 10:30 a.m.

c) Amend Article IX by striking out the entire "Article" and substituting therefore the following:

ARTICLE IX - FISCAL VICE PRESIDENT

1. The Fiscal Vice President of the University shall be responsible for all business management functions as set forth in the statutes and by-laws governing the institution.

2. As chief business officer he will have authority over and responsibility for:

a. All accounting, fiscal reporting and budgetary control functions.

b. Implementing the decisions of the investment committee of the governing board and maintaining records and reports on investments.

c. The procurement and the management of central stores for all educational, research, and auxiliary functions.

d. All auxiliary enterprise and service departments.

e. The planning of new construction; the proper maintenance and repair of all University structures; the development and maintenance of all University lands.
18. Continued

f. All matters relating to non-academic personnel.

g. The management of all fiscal matters related to contract research

h. All matters pertaining to security and fire protection of personnel and property.

i. The accumulation, presentation and analysis of data which describe the operational activities carried on in the University. These data are used in the formulation of major educational and administrative policies.

3. The Fiscal Vice President shall attend all meetings of the Board of Trustees, except when the Board requests otherwise. He may participate in discussions but shall not vote.

19. Mr. Waugh reported on plans for the inauguration of President Babbidge on October 20, 1962. Trustees are asked to report to the Green Room of the Albert N. Jorgensen Auditorium building at 9:30 that morning. Parking space will be reserved for them at the stage entrance of the Auditorium building. The Board discussed briefly the transfer of $15,000 within the University's accounts which was recently authorized by the state's Finance Advisory Committee to cover expenses of the inauguration. Mr. Waugh explained the nature of these expenditures.

20. Mr. Budds read a telegram received this morning from President Jorgensen in Lansing, Michigan, stating that the officials of the Kellogg Foundation were making $50,000 available this year for the salaries of a medical dean and for two medical professors and for secretarial service. An additional $60,000 will be available for the same purpose this year or next year, if needed. The President is sending a complete report to the Trustees and to Mr. Babbidge.

Mr. Budds reviewed developments on the medical-dental school and read a letter from the Commissioner of Public Works indicating that Governor Dempsey was anxious to have this project pushed ahead as rapidly as possible. The Commissioner requested an early meeting with representatives of the University. Mr. Budds was asked to express to the Commissioner the Board's thanks for his interest, and to state that action on the part of the University would be pressed as rapidly as possible, but that it was necessary to await the arrival of the new President of the University on October first and the activation of the Professional Advisory Committee. It was felt that President Babbidge should activate this committee at the earliest reasonable time. The point was also made that the new Dean of the Medical School should be consulted as far as possible on these matters, and that to this end it would be advantageous to appoint a Dean as soon as possible.
21. Mr. Waugh reminded the Trustee members of the Trustee-Administration-Faculty Committee that this committee is scheduled to meet immediately after the October meeting of the Board. It was suggested that it would be helpful if an agenda of this meeting could be sent to committee members in advance. Mr. Waugh was asked to solicit agenda items from faculty members of the committee, and he requested Board members, in turn, to let him know if they had matters which should be discussed.

22. It was VOTED to hold the next meeting of the Board in Storrs at 10:30 a.m. on October 10.

23. Mr. Watson reported on a recent meeting which he and Mr. Ryan had held with Mr. Kevin Dunne, President of the Student Senate, in an effort to get a constitution drawn up for the Student Government. He pointed out that this matter has been under discussion with succeeding groups of student leaders since 1953, and that he feels it is highly important that the matter be brought to an early conclusion. Mr. Watson is to meet with student leaders on this matter after today's meeting of the Board of Trustees.

24. Mr. Gill read to the Board a letter which President Jorgensen had received from Mr. Foster Richards, Chairman of the Mansfield Board of Education, offering their assistance in connection with the plans for expansion of the Edwin O. Smith School. Mr. Gill assured the Board that the Mansfield authorities realize that it is their primary responsibility, rather than that of the Board of Trustees, to support this project.

25. No other business appearing, the meeting was adjourned at 1:00 p.m.

Respectfully submitted,

Albert E. Waugh
